ICD-10-CM: Official Guidelines for Coding and Reporting - FY 2019 (October 1, 2018 - September 30, 2019) - Centers for Medicare and Medicaid Services (CMS) 2018-08
These guidelines have been approved by the four organizations that make up the Cooperating Parties for the ICD-10-CM: the American Hospital Association (AHA), the American Health Information Management Association (AHIMA), CMS, and NCHS. These guidelines are a set of rules that have been developed to accompany and complement the official conventions and instructions provided within the ICD-10-CM itself. The instructions and conventions of the classification take precedence over guidelines. These guidelines are based on the coding and sequencing instructions in the Tabular List and Alphabetic Index of ICD-10-CM, but provide additional instruction. Adherence to these guidelines when assigning ICD-10-CM diagnosis codes is required under the Health Insurance Portability and Accountability Act (HIPAA). The diagnosis codes (Tabular List and Alphabetic Index) have been adopted under HIPAA for all healthcare settings.

A Primer for ICD-10-CM Users - Carol D. Goodheart 2014
The globalization of psychology is already in full effect in the United States as psychologists find themselves treating clients of varying nationalities and cultural backgrounds. The World Health Organization's International Classification of Diseases (ICD) has been a major factor in the creation of international standards for diagnosis and is already used in many medical practices throughout the country, yet it has not been fully integrated into the mental healthcare system. As such, this book provides psychologists with a brief yet thorough overview of the tenth edition of the ICD with clinical modifications for the US (ICD-10-CM) and will prepare them for its increased prevalence. Readers will come away with an understanding of the history and rationale behind this system of diagnosis, and they will learn how to integrate the coding system and its nuances into their everyday practices. They will also be prepared for upcoming revisions to the ICD-10-CM and the eventual transition to the ICD-11 that will change how psychologists do business.
