

18 1 Origins Of The Cold War Guided Reading

This is likewise one of the factors by obtaining the soft documents of this **18 1 Origins Of The Cold War Guided Reading** by online. You might not require more grow old to spend to go to the ebook commencement as skillfully as search for them. In some cases, you likewise reach not discover the statement 18 1 Origins Of The Cold War Guided Reading that you are looking for. It will certainly squander the time.

However below, when you visit this web page, it will be fittingly unconditionally easy to get as skillfully as download guide 18 1 Origins Of The Cold War Guided Reading

It will not believe many epoch as we tell before. You can get it while play something else at house and even in your workplace. as a result easy! So, are you question? Just exercise just what we offer below as with ease as review **18 1 Origins Of The Cold War Guided Reading** what you in the manner of to read!

The Lavender Scare - David K. Johnson 2009-02-13

The McCarthy era is generally considered the worst period of political repression in recent American history. But while the famous question, "Are you now or have you ever been a member of the Communist Party?" resonated in the halls of Congress, security officials were posing another question at least as frequently, if more discreetly: "Information has come to the attention of the Civil Service Commission that you are a homosexual. What comment do you care to make?" Historian David K. Johnson here relates the frightening, untold story of how, during the Cold War, homosexuals were considered as dangerous a threat to national security as Communists. Charges that the Roosevelt and Truman administrations were havens for homosexuals proved a potent political weapon, sparking a "Lavender Scare" more vehement and long-lasting than McCarthy's Red Scare. Relying on newly declassified documents, years of research in the records of the National Archives and the FBI, and interviews with former civil servants, Johnson recreates the vibrant gay subculture that flourished in New Deal-era Washington and takes us inside the security interrogation rooms where thousands of Americans

were questioned about their sex lives. The homosexual purges ended promising careers, ruined lives, and pushed many to suicide. But, as Johnson also shows, the purges brought victims together to protest their treatment, helping launch a new civil rights struggle. The Lavender Scare shatters the myth that homosexuality has only recently become a national political issue, changing the way we think about both the McCarthy era and the origins of the gay rights movement. And perhaps just as importantly, this book is a cautionary tale, reminding us of how acts taken by the government in the name of "national security" during the Cold War resulted in the infringement of the civil liberties of thousands of Americans.

Reagan and Gorbachev - Jack Matlock 2005-11-08

"[Matlock's] account of Reagan's achievement as the nation's diplomat in chief is a public service."—The New York Times Book Review

"Engrossing . . . authoritative . . . a detailed and reliable narrative that future historians will be able to draw on to illuminate one of the most dramatic periods in modern history."—Los Angeles Times Book Review In Reagan and Gorbachev, Jack F. Matlock, Jr., a former U.S. ambassador to

the U.S.S.R. and principal adviser to Ronald Reagan on Soviet and European affairs, gives an eyewitness account of how the Cold War ended. Working from his own papers, recent interviews with major figures, and unparalleled access to the best and latest sources, Matlock offers an insider's perspective on a diplomatic campaign far more sophisticated than previously thought, waged by two leaders of surpassing vision. Matlock details how Reagan privately pursued improved U.S.-U.S.S.R. relations even while engaging in public saber rattling. When Gorbachev assumed leadership, however, Reagan and his advisers found a willing partner in peace. Matlock shows how both leaders took risks that yielded great rewards and offers unprecedented insight into the often cordial working relationship between Reagan and Gorbachev. Both epic and intimate, Reagan and Gorbachev will be the standard reference on the end of the Cold War, a work that is critical to our understanding of the present and the past.

The United States, the Soviet Union and the Geopolitical Implications of the Origins of the Cold War - Nicolas Lewkowicz
2018-10-30

'The United States, the Soviet Union and the Geopolitical Implications of the Origins of the Cold War, 1945-1949' describes how the United States and the Soviet Union deployed their hard and soft power resources to create the basis for the institutionalization of the international order in the aftermath of World War Two. The book argues that the origins of the Cold War should not be seen from the perspective of a magnified spectrum of conflict but should be regarded as a process by which the superpowers attempted to forge a normative framework capable of sustaining their geopolitical needs and interests in the post-war scenario. 'The United States, the Soviet Union and the Geopolitical Implications of the Origins of the Cold War, 1945-1949' examines how the use of ideology and the instrument of political intervention in the spheres of influence managed by the superpowers were conducive to the establishment of a stable international order. It postulates that the element of conflict present in the early period of the Cold War served to demarcate the scope of manoeuvring available to each of the

superpowers and studies the notion that the United States and the Soviet Union were primarily interested in establishing the conditions for the accomplishment of their vital geostrategic interests. This required the implementation of social norms imposed in the respective spheres of influence, a factor that provided certainty to the spectrum of interstate relations after the period of turmoil that culminated with the onset of World War Two.

Across the Blocs - Patrick Major 2004-08-02

This book asks the reader to reassess the Cold War not just as superpower conflict and high diplomacy, but as social and cultural history. It makes cross-cultural comparisons of the socio cultural aspects of the Cold War across the East/West block divide, dealing with issues including broadcasting, public opinion, and the production and consumption of popular culture.

Environmental Histories of the Cold War - J. R. McNeill 2010-04-30

Explores the links between the Cold War and the global environment, ranging from the environmental impacts of nuclear weapons to the political repercussions of environmentalism.

The Triumph of Broken Promises - Fritz Bartel 2022-08-09

A powerful case that the economic shocks of the 1970s hastened both the end of the Cold War and the rise of neoliberalism by forcing governments to impose austerity on their own people. Why did the Cold War come to a peaceful end? And why did neoliberal economics sweep across the world in the late twentieth century? In this pathbreaking study, Fritz Bartel argues that the answer to these questions is one and the same. The Cold War began as a competition between capitalist and communist governments to expand their social contracts as they raced to deliver their people a better life. But the economic shocks of the 1970s made promises of better living untenable on both sides of the Iron Curtain. Energy and financial markets placed immense pressure on governments to discipline their social contracts. Rather than make promises, political leaders were forced to break them. In a sweeping narrative, *The Triumph of Broken Promises* tells the story of how the pressure to break promises spurred the end of the Cold War. In the West, neoliberalism provided

Western leaders like Ronald Reagan and Margaret Thatcher with the political and ideological tools to shut down industries, impose austerity, and favor the interests of capital over labor. But in Eastern Europe, revolutionaries like Lech Walesa in Poland resisted any attempt at imposing market discipline. Mikhail Gorbachev tried in vain to reform the Soviet system, but the necessary changes ultimately presented too great a challenge. Faced with imposing economic discipline antithetical to communist ideals, Soviet-style governments found their legitimacy irreparably damaged. But in the West, politicians could promote austerity as an antidote to the excesses of ideological opponents, setting the stage for the rise of the neoliberal global economy.

Inside the Cold War - H. W. Brands 2001-04-01

A biography of the American diplomat examines his influence on American foreign policy

Canada and the Cold War - Reg Whitaker 2003-10-19

Canada and the Cold War is a fascinating historical overview of a key period in Canadian history. The focus is on how Canada and Canadians responded to the Soviet Union -- and to America's demands on its northern neighbour.

The Cold War - Jussi M. Hanhimäki 2004

The Cold War contains a selection of official and unofficial documents which provide a truly multi-faceted account of the entire Cold War era. The experiences of the East Berlin housewife are placed alongside those of the South African student; the participation of political leaders from Europe and the Third World stand juxtaposed. Not only does this book put a human face on the conflict, but it draws emphasis to the variety of ways in which this conflict was experienced. The final selection of documents illustrates the global impact of the Cold War to the present day, and establishes links between the Cold War and the events of 11th September 2001.

The Last Decade of the Cold War - Olav Njølstad 2004

The last decade of the Cold War witnessed the transformation of world politics with the collapse of one-party Communist rule in Eastern Europe and the Soviet Union. This book explains how it happened and why.

The American Yawp - Joseph L. Locke 2019-01-22

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. *The Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

The Cold War - Odd Arne Westad 2017-09-05

The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the

ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created.

The Origins of the Cold War - Thomas G. Paterson 1974

The Marshall Plan - Benn Steil 2018-02-13

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction "[A] brilliant book...by far the best study yet" (Paul Kennedy, *The Wall Street Journal*) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain's empire collapsing and Stalin's on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the

European Union, and a Western identity that continue to shape world events. Benn Steil's "thoroughly researched and well-written account" (*USA TODAY*) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil's gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin's determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil's account will forever change how we see the Marshall Plan. "Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War" (*The New York Times Book Review*), *The Marshall Plan* is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it "is a gripping, complex, and critically important story that is told with clarity and precision" (*The Christian Science Monitor*).

The City Becomes a Symbol - William Stivers 2017-08

"This book covers the U.S. Army's occupation of Berlin from 1945 to 1949. This time includes the end of WWII up to the end of the Berlin Airlift. Talks about the set up of occupation by four-power rule."-- Provided by publisher

Origins of the Cold War - Melvyn P. Leffler 2005

This truly international collection of articles provides a fresh and comprehensive analysis of the origins of the Cold War, moving beyond earlier controversies and including the newest research from the Communist side of the Cold War.

[The Cold War and its Origins, 1917-1960](#) - D.F. Fleming 2021-01-26

This book, first published in 1961, is an analysis of the great struggle of the twentieth century, the Cold War. It carefully examines the conflict's origins in the Russian Revolution of 1917, and follows the thread of antagonism between west and east all the way up to 1960. These were the key years of the Cold War, when it seemed that the prospect of

nuclear confrontation was a real one, and this book offers a close reading of the main events of those years. This volume concentrates on the Cold War in the East, and Volume One focuses on the European theatre.

The Rise and Fall of Communism - Archie Brown 2009-10-13

Published to coincide with the twentieth anniversary of the fall of the Berlin Wall — a definitive and ground-breaking account of the revolutionary ideology that changed the modern world. The inexorable rise of Communism was the most momentous political phenomenon of the first half of the twentieth century. Its demise in Europe and its decline elsewhere have produced the most profound political changes of the last few decades. In this illuminating book, based on forty years of study and a wealth of new sources, Archie Brown provides a comprehensive history as well as an original and highly readable analysis of an ideology that has shaped the world and still rules over a fifth of humanity. A compelling new work from an internationally renowned specialist, *The Rise and Fall of Communism* promises to be the definitive study of the most remarkable political and human story of our times.

Forging the Shield - Donald A. Carter 2015

This illustrated book that includes tables, charts, and maps primarily discusses the role of USAREUR (US Army Europe) in rearming and training the new German Army which was perhaps the Army's single greatest contribution toward maintaining security in Western Europe. Likewise, the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe.

The Cambridge History of the Cold War: Volume 1, Origins - Melvyn P. Leffler 2012-01-26

This volume examines the origins and early years of the Cold War. In the first comprehensive reexamination of the period, a team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period, and discusses how markets, ideas and cultural interactions affected political discourse, diplomacy and strategy after World War II. The chapters focus not only on the United States and the

Soviet Union, but also on critical regions such as Europe, the Balkans and East Asia. The authors consider the most influential statesmen of the era and address issues that mattered to people around the globe: food, nutrition and resource allocation; ethnicity, race and religion; science and technology; national autonomy, self-determination and sovereignty. In so doing, they illuminate how people worldwide shaped the evolution of the increasingly bipolar conflict and, in turn, were ensnared by it.

Between Containment and Rollback - Christian F. Ostermann 2021-04-27

In the aftermath of World War II, American policymakers turned to the task of rebuilding Europe while keeping communism at bay. In Germany, formally divided since 1949, the United States prioritized the political, economic, and, eventually, military integration of the fledgling Federal Republic with the West. The extraordinary success story of forging this alliance has dominated our historical understanding of the American-German relationship. Largely left out of the grand narrative of U.S.-German relations were most East Germans who found themselves caught under Soviet and then communist control by the post-1945 geopolitical fallout of the war that Nazi Germany had launched. They were the ones who most dearly paid the price for the country's division. This book writes the East Germans—both leadership and general populace—back into that history as objects of American policy and as historical agents in their own right. Based on recently declassified documents from American, Russian, and German archives, this book demonstrates that U.S. efforts from 1945 to 1953 went beyond building a prosperous democracy in western Germany and "containing" Soviet-Communist power to the east. Under the Truman and then the Eisenhower administrations, American policy also included efforts to undermine and "roll back" Soviet and German communist control in the eastern part of the country. This story sheds light on a dark-er side to the American Cold War in Germany: propaganda, covert operations, economic pressure, and psychological warfare. Christian F. Ostermann takes an international history approach, capturing Soviet and East German responses and actions, and drawing a rich and complex picture

of the early East-West confrontation in the heart of Europe.

Is This Tomorrow - 2016

Originally published in the midst of the cold war, *Is This Tomorrow* is a classic example of red scare propaganda. The story envisions a scenario in which the Soviet Union orders American communists to overthrow the US Government. Charles Schulz contributed to the artwork throughout the issue. Reprinted here for the first time in 70 years.

The Cold War - John Lewis Gaddis 2006-12-26

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

For the Soul of Mankind - Melvyn P. Leffler 2008-09-02

To the amazement of the public, pundits, and even the policymakers themselves, the ideological and political conflict that had endangered the world for half a century came to an end in 1990. How did that happen? What caused the cold war in the first place, and why did it last as long as it did? The distinguished historian Melvyn P. Leffler homes in on four crucial episodes when American and Soviet leaders considered modulating, avoiding, or ending hostilities and asks why they failed: Stalin and Truman devising new policies after 1945; Malenkov and Eisenhower exploring the chance for peace after Stalin's death in 1953; Kennedy, Khrushchev, and LBJ trying to reduce tensions after the Cuban Missile Crisis of 1962; and Brezhnev and Carter aiming to sustain

détente after the Helsinki Conference of 1975. All these leaders glimpsed possibilities for peace, yet they allowed ideologies, political pressures, the expectations of allies and clients, the dynamics of the international system, and their own fearful memories to trap them in a cycle of hostility that seemed to have no end. For the Soul of Mankind illuminates how Reagan, Bush, and, above all, Gorbachev finally extricated themselves from the policies and mind-sets that had imprisoned their predecessors, and were able to reconfigure Soviet-American relations after decades of confrontation.

America's Cold War - Campbell Craig 2009-10-30

In a brilliant new interpretation, Campbell Craig and Fredrik Logevall reexamine the successes and failures of America's Cold War. The United States dealt effectively with the threats of Soviet predominance in Europe and of nuclear war in the early years of the conflict. But by engineering this policy, American leaders successfully paved the way for domestic actors and institutions with a vested interest in the struggle's continuation. Long after the USSR had been effectively contained, Washington continued to wage a virulent Cold War that entailed a massive arms buildup, wars in Korea and Vietnam, the support of repressive regimes and counterinsurgencies, and a pronounced militarization of American political culture.

Origins of the Cold War 1941-1949 - Martin McCauley 2015-11-19

Origins of the Cold War 1941-1949 covers the formative years of the momentous struggle which developed between two superpowers, the Soviet Union and the United States. It not only involved these titans but also the rest of the globe; many proxy wars were fought much to the detriment of the developing world. In a clear, concise manner, this book explains how the Cold War originated and developed between 1941 and 1949. The fourth edition is revised, updated and expanded to include new material on topics such as the culture wars and Stalin's view of Marxism. The introduction looks at the various approaches which have been adopted to analyse the Cold War and the challenges to arrive at a theory which can explain it. The book explores questions such as: - Who was responsible for the Cold War? - Was it inevitable or could it have

been avoided? - Was Stalin genuinely interested in a post-war agreement? Illustrated with maps and figures and containing a chronology and who's who of key individuals, *Origins of the Cold War 1941-1949* incorporates the most recent scholarship, theories and information to provide students with an invaluable introduction to a fascinating period that shaped today's world.

Cold War - Hourly History 2016-11-20

The Cold War between the United States and the Soviet Union lasted from the end of World War II until the end of the 1980s. Over the course of five decades, they never came to blows directly. Rather, these two world superpowers competed in other arenas that would touch almost every corner of the globe. Inside you will read about... □ What Was the Cold War? □ The Origins of the Cold War □ World War II and the Beginning of the Cold War □ The Cold War in the 1950s □ The Cold War in the 1960s □ The Cold War in the 1970s □ The Cold War in the 1980s and the End of the Cold War Both interfered in the affairs of other countries to win allies for their opposing ideologies. In the process, governments were destabilized, ideas silenced, revolutions broke out, and culture was controlled. This overview of the Cold War provides the story of how these two countries came to oppose one another, and the impact it had on them and others around the world.

[The Global Cold War](#) - Odd Arne Westad 2007-03-01

The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in

ways that no other major work on the Cold War era has succeeded in doing.

Shadow Cold War - Jeremy Friedman 2015-10-15

The conflict between the United States and the Soviet Union during the Cold War has long been understood in a global context, but Jeremy Friedman's *Shadow Cold War* delves deeper into the era to examine the competition between the Soviet Union and the People's Republic of China for the leadership of the world revolution. When a world of newly independent states emerged from decolonization desperately poor and politically disorganized, Moscow and Beijing turned their focus to attracting these new entities, setting the stage for Sino-Soviet competition. Based on archival research from ten countries, including new materials from Russia and China, many no longer accessible to researchers, this book examines how China sought to mobilize Asia, Africa, and Latin America to seize the revolutionary mantle from the Soviet Union. The Soviet Union adapted to win it back, transforming the nature of socialist revolution in the process. This groundbreaking book is the first to explore the significance of this second Cold War that China and the Soviet Union fought in the shadow of the capitalist-communist clash.

Stalin and Togliatti - Elena Aga Rossi 2011

The authors employ previously classified documents in Russian and Italian archives, including reports to Stalin on the virtually daily meetings of Palmiro Togliatti, head of the Italian Communist Party, with Soviet diplomats. This recent, post-revisionist scholarship underscores the role of Stalin's ambitions and their incompatibility with liberal-democratic systems in the development of the Cold War. Stalin and Togliatti come across as shrewd politicians, implacable enemies of the capitalist West, yet acutely aware of the limits of their power.

Fearing the Worst - Samuel F. Wells Jr. 2019-11-26

After World War II, the escalating tensions of the Cold War shaped the international system. *Fearing the Worst* explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last

decades. Samuel F. Wells Jr. examines how military and political events interacted to escalate the conflict. Decisions made by the Truman administration in the first six months of the Korean War drove both superpowers to intensify their defense buildup. American leaders feared the worst-case scenario—that Stalin was prepared to start World War III—and raced to build up strategic arms, resulting in a struggle they did not seek out or intend. Their decisions stemmed from incomplete interpretations of Soviet and Chinese goals, especially the belief that China was a Kremlin puppet. Yet Stalin, Mao, and Kim Il-sung all had their own agendas, about which the United States lacked reliable intelligence. Drawing on newly available documents and memoirs—including previously restricted archives in Russia, China, and North Korea—Wells analyzes the key decision points that changed the course of the war. He also provides vivid profiles of the central actors as well as important but lesser known figures. Bringing together studies of military policy and diplomacy with the roles of technology, intelligence, and domestic politics in each of the principal nations, *Fearing the Worst* offers a new account of the Korean War and its lasting legacy.

The Cuban Missile Crisis and the Cold War - Michelle Getchell
2018-09-15

CONTENTS: Introduction: The Making of a global Crisis The Origins of the Cold War A New Front in the Cold War The Cold War in Latin America The Cuban Revolution and the Soviet Union U.S. and Regional Responses to the Cuban Revolution Operation Zapata: The Bay of Pigs Operation Anadyr: Soviet Missiles in Cuba Crisis Dénouement: The Missiles of November Evaluating the Leadership on All Sides of the Crisis Nuclear Fallout: Consequences of the Missile Crisis The Future of Cuban-Soviet Relations Latin American Responses to the Missile Crisis Conclusion: Lessons of the Cuban Missile Crisis Historiography of the Cuban Missile Crisis Documents Memorandum for McGeorge Bundy from Arthur Schlesinger, Jr., April 10, 1961 State Department White Paper, April 1961 From the Cable on the Conversation between Gromyko and Kennedy, October 18, 1962 Telegram from Soviet Foreign Minister Gromyko to the CC CPSU, October 20, 1962 President John F. Kennedy's

speech to the Nation, October 22, 1962 Resolution Adopted by the Council of the Organization of American States Acting Provisionally as the Organ of Consultation, October 23, 1962 Message from Mexican President Adolfo López Mateos to Cuban President Osvaldo Dorticós, October 23, 1962 Letter from Khrushchev to John F. The Cold War: a Very Short Introduction - Robert J. McMahon
2021-02-25

Vividly written and based on up-to-date scholarship, this title provides an interpretive overview of the international history of the Cold War.

We Now Know - John Lewis Gaddis 1997

Examines the history of the Cold War, reflecting Soviet, East European, Chinese, American, and West European viewpoints, and offering new insights and solutions to long-standing puzzles

[The Cambridge History of the Cold War](#) - Melvyn P. Leffler 2010-03-25
This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world

wars and interwar period.

Rethinking the Soviet Experience - Stephen F. Cohen 1986

An examination of Soviet Politics and History since 1917. 'This penetrating probe into the Soviet past offers the most illuminating analysis I know of choices and possibilities in the Soviet future.' Arthur Schlesinger, Jr.

The Cold War through Documents - Edward H. Judge 2017-10-27

This comprehensive collection of carefully edited documents—speeches, treaties, statements, and articles—traces the rise and fall of the Cold War. The sources follow the Cold War from its roots in East-West tensions at the end of World War II to the collapse of the Soviet Union in 1991. Set in historical context by the editors' concise introductions and followed by thoughtful discussion questions, the documents are arranged in chronological order, starting with the Yalta Conference and ending with Gorbachev's resignation speech. Drawing on selections from a variety of countries and leaders involved in this prolonged global struggle, the editors treat the entire Cold War as an era in world history, not just U.S. history. Their judicious selection makes the great events of the time come alive through the words and phrases of those who were actively involved.

Secrets of the Cold War - Leland C. McCaslin 2010-01-01

From the espionage files, an American soldier is nearly recruited in a downtown bar to be a spy and a First Sergeant is lured by sex to be an unknowing participant in spying. Behind-the-lines images are historic and intriguing. See photographs of a French officer and a Soviet officer relaxing in the East German woods in a temporary unofficial peace; 'James Bond' type cars with their light tricks and their ability to leave their Stasi shadows 'wheel spinning' in the snow will amaze readers. A Russian translator for the presidential hotline recounts a story about having to lock his doors in the Pentagon, separating himself and his sergeant from the Pentagon Generals when a message comes in from the Soviets. When he called the White House to relay the message to the President and stood by for a possible reply to the Soviet Chairman, he

stopped working for the Generals and started working solely for the President.

Debating the Origins of the Cold War - Ralph B. Levering 2002

Debating the Origins of the Cold War examines the coming of the Cold War through Americans' and Russians' contrasting perspectives and actions. In two engaging essays, the authors demonstrate that a huge gap existed between the democratic, capitalist, and global vision of the post-World War II peace that most Americans believed in and the dictatorial, xenophobic, and regional approach that characterized Soviet policies. The authors argue that repeated failures to find mutually acceptable solutions to concrete problems led to the rapid development of the Cold War, and they conclude that, given the respective concerns and perspectives of the time, both superpowers were largely justified in their courses of action. Supplemented by primary sources, including documents detailing Soviet espionage in the United States during the 1930s and 1940s and correspondence between Premier Josef Stalin and Foreign Minister V. M. Molotov during postwar meetings, this is the first book to give equal attention to the U.S. and Soviet policies and perspectives.

War Plans and Alliances in the Cold War - Vojtech Mastny 2013-04-15

This essential new volume reviews the threat perceptions, military doctrines, and war plans of both the NATO alliance and the Warsaw Pact during the Cold War, as well as the position of the neutrals, from the post-Cold War perspective. Based on previously unknown archival evidence from both East and West, the twelve essays in the book focus on the potential European battlefield rather than the strategic competition between the superpowers. They present conclusions about the nature of the Soviet threat that could previously only be speculated about and analyze the interaction between military matters and politics in the alliance management on both sides, with implications for the present crisis of the Western alliance. This new book will be of much interest for students of the Cold War, strategic history and international relations history, as well as all military colleges.
