The Oxford History of the British Empire: Volume V: Historiography - Robin Winks
2001-07-26

The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in

the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning, the meaning of British imperialism for the

ruled as well as for the rulers, and the significance of the British Empire as a theme in world history. This fifth and final volume shows how opinions have changed dramatically over the generations about the nature, role, and value of imperialism generally, and the British Empire more specifically. The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire: the pressure of current events, access to primary sources, the creation of relevant university chairs, the rise of nationalism in former colonies, decolonization, and the Cold War. They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide-ranging enquiry about international relations, the uses of power, and impacts and counterimpacts between settler groups and native peoples. The result is a thought-provoking cultural and intellectual inquiry into how we understand the

past, and whether this understanding might affect the way we behave in the future.

It also considers the concurrent emergence of Hindu-Muslim differences as a major factor affecting nationalist politics and the anti-colonial struggle in India.

Pashtun Identity and Geopolitics in Southwest Asia - Iftikhar H. Malik
2016-07-18

'Pashtun Identity and Geopolitics in Southwest Asia'

brings together Pakistan and Afghanistan as two inseparable entities by investigating areas such as the evolution and persistence of the Taliban, quest for Pashtun identity, the ambivalent status of the tribal region and the state of civic clusters on both sides. The study explores vital disciplines of ethnography, history, Islamic studies, and international relations and benefits from a wide variety of source material. The volume takes into account the salient subjects including political Islam, nature and extent of violence since 9/11, failure of Western policies in the region, the Drone warfare, and the emergence of new regimes in Kabul, Islamabad and Delhi offering fresh opportunities as well as new threat perceptions.

India Wins Freedom -

Abūkalām Āzād 2003

One of the makers of modern

India tells the story of the partition of India as never before, with intimate knowledge and feeling. India Wins Freedom has at last won its own freedom. The full text of this autobiographical narrative was confined, under seal, in the National Library, Calcutta, and in the National Archives, New Delhi, for thirty years. What we now have is the complete text, released in September 1988, by a court directive. Not only have all the words and phrases of the original been reproduced, the original tone and temper have been fully restored. The text now reveals that the controversy that has simmered for so long about the hitherto unpublished pages, was fully justified.

Midnight's Furies -

Nisid Hajari 2015-06-03

After centuries of British rule, nobody expected Indian Independence and the birth of Pakistan to be so bloody - they were supposed to be the answer to the dreams of Muslims and Hindus.

Jawaharlal Nehru, Gandhi's

protégé and the political leader of India, believed Indians were an inherently nonviolent, peaceful people. Pakistan's founder, Mohammad Ali Jinnah, was a secular lawyer, not a firebrand. But in August 1946, exactly a year before Independence, Calcutta erupted in street-gang fighting. A cycle of riots - targeting Hindus, then Muslims, then Sikhs - spiraled out of control. As the summer of 1947 approached, all three groups were heavily armed and on edge, and the British rushed to leave. Hell let loose. Trains carried Muslims west and Hindus east to their slaughter. Some of the most brutal and widespread ethnic cleansing in modern history erupted on both sides of the new border, carving a gulf between India and Pakistan that remains a root cause of many evils. From jihadi terrorism to nuclear proliferation, the searing tale told in *Midnight's Furies* explains all too many of the headlines we read today.

From Raj to Republic - Sunil Purushotham 2021-01-19

Between 1946 and 1952, the British Raj, the world's largest colony, was transformed into the Republic of India, the world's largest democracy. Independence, the Constituent Assembly Debates, the founding of the Republic, and India's first universal franchise general election occurred amidst the violence and displacement of the Partition, the uncertain and contested integration of the princely states, and the forceful quelling of internal dissent. This book investigates the ways in which these violent conjunctures constituted a postcolonial regime of sovereignty and shaped the historical development of democracy in India at the foundational

moment of decolonization and national independence. From Raj to Republic presents a multifaceted history of sovereignty and democracy in India by linking together the princely state of Hyderabad's attempt to establish itself as an independent sovereign state, the partitioning of Punjab, and the communist-led revolutionary movement in the southern Indian region of Telangana. A national, territorial, republican, and liberal polity in India emerged out of a violent and contested process that forged new power relations and opened up historical trajectories with lasting consequences for modern India.

Freedom at Midnight - Larry Collins 1975

Exciting And Readable, Important And Empressive, This Book Is Worthy In Every Way Of The Great Subject It Describe.

Maulana Azad, Islam and the Indian National Movement - Syeda Saiyidain Hameed 2014

Maulana Azad was the first

education minister of India and a dynamic individual with multiple facets to his personality. He is equally known as one of the foremost freedom fighters, an Urdu poet who also wrote treatises on philosophy and religion. Azad had hoped to lead not only the Muslims but all Indians to freedom. From 1903, when he picked up his pen to launch his first journal, till Partition, he never lost sight of his larger constituency—all Indians, regardless of religion. Why then is one who aspired and worked for national leadership remembered only as the leader of the Muslims of India? Why then did he lose to Jinnah, an individual who generally stood for everything which ran contrary to his beliefs? In this thought-provoking work, Syeda S. Hameed takes a fresh look at the works, politics, and life of Maulana Abul Kalam Azad.

The Oxford History of the British Empire:

Historiography - Robin W. Winks 1999

Where should we situate the British Empire in the larger

picture of world history? This fifth and final volume of The Oxford History of the British Empire shows how opinions have changed dramatically from one generation to the next on the nature and role of imperialism generally, and the British Empire more specifically. In these pages, a distinguished team of scholarly contributors discuss the many and diverse elements that have influenced writings on the Empire. Topics in this vein include the pressure of current events, access to primary sources, the creation of relevant university chairs, the rise of nationalism in former colonies, decolonization, and the Cold War. The chapters aim to demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide-ranging, multi-faceted analysis of international relations, the uses of power, and the influences and counter-influences between settler groups and indigenous peoples. The result is a thought-provoking cultural and

intellectual inquiry into our understanding of the past. Writing Revolution in South

Asia - Kama Maclean

2018-10-11

This comprehensive volume examines the relationship between revolutionary politics and the act of writing in modern South Asia. Its pages feature a diverse cast of characters: rebel poets and anxious legislators, party theoreticians and industrious archivists, nostalgic novelists, enterprising journalists and more. The authors interrogate the multiple forms and effects of revolutionary storytelling in politics and public life, questioning the easy distinction between 'words' and 'deeds' and considering the distinct consequences of writing itself. While acknowledging that the promise, fervour or threat of revolution is never reducible to the written word, this collection explores how manifestos, lyrics, legal documents, hagiographies and other constellations of words and sentences articulate, contest and enact revolutionary political practice in both colonial and post-colonial South Asia. Emphasising the potential of writing to incite,

contain or reorient the present, this volume promises to provoke new conversations at the intersection of historiography, politics and literature in South Asia, urging scholars and activists to interrogate their own storytelling practices and the relationship of the contemporary moment to violent and contested pasts. This book was originally published as a special issue of *South Asia: Journal of South Asian Studies*.

Historiography of India's Partition - Viśva Mohana Pāṇḍeya 2003

An Attempt Has Been Made In This Book To Examine The Writings Of The Oxbridge Scholars Who Have Based Their Studies On Different Assumptions And Have Tried To Cover Various Issues Related To The Partition Of India. The Author Has Made A Serious Effort To Trace The Course Of The British Historiography Of India S Partition. In The Light Of New Research And Facts, Several Age-Old, Deliberate But Fallacious Assumptions And Constructs Have Been Deconstructed. In The Process Of This Analysis Several Gaps Have Been Detected And The

Underlying Aims Of The Imperialist Efforts Have Been Exposed. On The Top Of It, Various Sophisticated Versions Of The Theories Of Civilizing Mission And Whiteman S Burden In The Post-Colonial Context Have Been Challenged On Several Counts. In Spite Of Several Changes In The Imperialist Writings, It Has Been Found That Even The Neo-Imperial Historians Have Been Extending Their Support To The Several Myths, Deliberately Created By The Orthodox Imperial Ideologues About India S Past And Present. The Only Difference Is That The Former Have Been More Delicate And Sophisticated In Their Presentations. Thus, This Book Opens Up New Areas For Further Research And Will Generate More Curiosity Among The Students Of Indian, Pakistani And British History And Those Who Are Concerned With The Problems Of Nationalism And Decolonisation.

Gandhi's Hinduism the Struggle against Jinnah's Islam - M J Akbar 2020-03-05

Gandhi, a devout Hindu, believed faith could nurture the civilizational harmony of India, a land where every religion had flourished. Jinnah, a political

Muslim rather than a practicing believer, was determined to carve up a syncretic subcontinent in the name of Islam. His confidence came from a wartime deal with Britain, embodied in the 'August Offer' of 1940. Gandhi's strength lay in ideological commitment which was, in the end, ravaged by the communal violence that engineered partition. The price of this epic confrontation, paid by the people, has stretched into generations. M.J. Akbar's book, meticulously researched from original sources, reveals the astonishing blunders, lapses and conscious chicanery that permeated the politics of seven explosive years between 1940 and 1947. Facts from the archives challenge the conventional narrative, and disturb the conspiratorial silence used to protect the image of famous icons. Gandhi's Hinduism: The Struggle Against Jinnah's Islam delves into both the ideology and the personality of those who shaped the fate of a region between Iran and Burma. It is

essential reading for anyone interested in modern Indian history, and the past as a prelude to the future. *Guilty Men of India's Partition* - Rammanohar Lohia 1970

India - Durga Das 2004

This book is a fascinating and wholly absorbing contribution to the history of the twentieth century. This fast-moving, lively and independent account of the politics and international affairs is enriched by intimate, perceptive and far from uncritical sketches of great

leaders such as Gandhi, Jinnah, Nehru, Desai and Patel.

Perhaps no other book reminds the reader so firmly that politics, even at its most exalted and dramatic, is about people. Certainly no one who is interested in India, in the history of British imperialism or in the realities of present day Asia can neglect this goldmine of a book.

Indian National Congress and the Struggle for Freedom, 1885-1947 -

Amales Tripathi 2014-03-03

This volume presents an analytical history of India's struggle for freedom and the role played in it by the Indian National Congress. It provides a comprehensive account of the Independence movement, encompassing events such as the extremist-moderate split in the Congress, Morley-Minto reforms, Round Table Conferences, the Quit India Movement; and the Partition. Drawing on statistical analysis and exhaustive research, it examines the impact of prevailing domestic and international economic

conditions on the evolution of the politics of the Congress, the Muslim League, as well as the Indian revolutionary, socialist, and communist parties. The book also throws light on the complex interplay of power politics between the Centre, the States, and the various grass-roots organizations on one hand and the push and pull of Hindu-Muslim communal politics on the other. This is the first English translation of the Bengali classic *Swadhinata Sangrame Bharatiya Jatiya Congress: 1885-1947* (first published in 1990) by the late Professor Amales Tripathi, an eminent scholar and a renowned historian. This translation also carries a foreword by Dr Rudrangshu Mukherjee.

Nation-state and Minority Rights in India - Tanweer Fazal 2014-08-01

The blood-laden birth-pangs of the Indian "nation-state" undoubtedly had a bearing on the contentious issue of group rights for cultural minorities. Indeed, the trajectory of the

concept 'minority rights' evolved amidst multiple conceptualizations, political posturing and violent mobilizations and outbursts. Accommodating minority groups posed a predicament for the fledgling "nation-state" of post-colonial India. This book compares and contrasts Muslim and Sikh communities in pre- and post-Partition India. Mapping the evolving discourse on minority rights, the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights. The book suggests that through historical ruptures and breaks, communities oscillate between being minorities and nations. Combining archival material with ethnographic fieldwork, it studies the identity groups and their vexed relationship to the ideas of nation and nationalism. It captures meanings attributed to otherwise politically loaded concepts such as nation,

nation-state and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation, adaptation and contestation in the life-world. Successfully confronting and illuminating the challenge of reconciling representation and equality both for groups and within groups, this exploration of South Asian nationalisms and communal relations will be of interest to academics in the field of South Asian Studies, in particular Sociology and Politics.

Islam and Nationalism in India - M.T. Ansari 2015-10-30

Islam in India, as elsewhere, continues to be seen as a remainder in its refusal to "conform" to national and international secular-modern norms. Such a general perception has also had a tremendous impact on the Muslims of the Indian subcontinent, who as individuals and communities have been shaped and transformed over centuries of socio-political and historical

processes, by eroding their world-view and steadily erasing their life-worlds. This book traces the spectral presence of Islam across narratives to note that difference and diversity, demographic as well as cultural, can be espoused rather than excised or exorcized. Focusing on Malabar - home to the Mappila Muslim community in Kerala, South India - and drawing mostly on Malayalam sources, the author investigates the question of Islam from various angles by constituting an archive comprising popular, administrative, academic, and literary discourses. The author contends that an uncritical insistence on unity has led to a formation in which "minor" subjects embody an excess of identity, in contrast to the Hindu-citizen whose identity seemingly coincides with the national. This has led to Muslims being the source of a deep-seated anxiety for secular nationalism and the targets of a resurgent Hindutva in that they expose the fault-lines of a geographically and socio-

culturally unified nation. An interdisciplinary study of Islam in India from the South Indian context, this book will be of interest to scholars of modern Indian history, political science, literary and cultural studies, and Islamic studies.

Self and Sovereignty - Ayesha Jalal 2002-01-04

Self and Sovereignty surveys the role of individual Muslim men and women within India and Pakistan from 1850 through to decolonisation and the partition period.

Commencing in colonial times, this book explores and interprets the historical processes through which the perception of the Muslim individual and the community of Islam has been reconfigured over time. Self and Sovereignty examines the relationship between Islam and nationalism and the individual, regional, class and cultural differences that have shaped the discourse and politics of Muslim identity. As well as fascinating discussion of political and religious movements, culture and art, this book includes

analysis of: * press, poetry and politics in late nineteenth century India * the politics of language and identity - Hindi, Urdu and Punjabi * Muslim identity, cultural difference and nationalism * the Punjab and the politics of Union and Disunion * the creation of Pakistan Covering a period of immense upheaval and sometimes devastating violence, this work is an important and enlightening insight into the history of Muslims in South Asia.

Sardar Patel - Rajnikant Puranik 2018-09-28

.."[then] it seemed to me that Jawaharlal should be the new President [of Congress in 1946] "Islam" Means Peace - Amitabh Pal 2011

This decisive account of the role of nonviolence in Islam and Muslim societies, both historically and in current times, chronicles an often-obscured but longstanding pacifist tradition. * Voices of leading nonviolence activists, such as Nobel Peace Prize-winner Shirin Ebadi, Mubarak Awad, Gene Sharp, and rock

star Salman Ahmad, that make the history of nonviolent activism immediate and up to date * A bibliography listing a wide array of source materials [India After Gandhi: The History of the World's Largest Democracy](#) - Ramachandra Guha 2017-07-13

Ramachandra Guha's India after Gandhi is a magisterial account of the pains, struggles, humiliations and glories of the world's largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave of prosperity for some but the persistence of poverty for others; comparative peace

in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the narrative up to the present. Published to coincide with seventy years of the country's independence, this definitive history of modern India is the work of one of the world's finest scholars at the height of his powers.

Delhi Reborn - Rotem Geva
2022-08-16

Delhi, one of the world's largest cities, has faced momentous challenges—mass migration, competing governing authorities, controversies over citizenship, and communal violence. To understand the contemporary plight of India's capital city, this book revisits one of the most dramatic episodes in its history, telling the story of how the city was remade by the twin events of partition and independence. Treating decolonization as a process that unfolded from the late 1930s into the mid-1950, Rotem Geva traces how India

and Pakistan became increasingly territorialized in the imagination and practice of the city's residents, how violence and displacement were central to this process, and how tensions over belonging and citizenship lingered in the city and the nation. She also chronicles the struggle, after 1947, between the urge to democratize political life in the new republic and the authoritarian legacy of colonial rule, augmented by the imperative to maintain law and order in the face of the partition crisis. Drawing on a wide range of sources, Geva reveals the period from the late 1930s to the mid-1950s as a twilight time, combining features of imperial framework and independent republic. Geva places this liminality within the broader global context of the dissolution of multiethnic and multireligious empires into nation-states and argues for an understanding of state formation as a contest between various lines of power, charting the links between different levels of political

struggle and mobilization during the churning early years of independence in Delhi.

Muslims against the Muslim League - Ali Usman Qasmi 2017-09-15

The popularity of the Muslim League and its idea of Pakistan

has been measured in terms of its success in achieving the goal of a sovereign state in the Muslim majority regions of North West and North East India. It led to an oversight of Muslim leaders and organizations which were opposed to this demand, predicating their opposition to the League on its understanding of the history and ideological content of the Muslim nation. This volume takes stock of multiple narratives about Muslim identity formation in the context of debates about partition, historicizes those narratives, and reads them in the light of the larger political milieu of the period. Focusing on the critiques of the Muslim League, its concept of the Muslim nation, and the political settlement demanded on its behalf, it studies how the movement for Pakistan inspired a contentious, influential conversation on the definition of the Muslim nation.
