Emily is a star' - Simon Rimmer 'The book I'd like to force into any mother's kitchen' - Prue Leith 'A fab book with a plan.' - Jane Devonshire, 2016 Masterchef UK winner 'Emily has managed to combine her mummy knowledge and passion for food to make a truly helpful and brilliant cookbook' - Priya Tew, RD, BSc (Hons), Msc Get Your Kids to Eat Anything is an achievable 'how to' for parents in the battle to overcome picky eating and 'make new the norm'. Emily Leary's unique 5-phase programme looks at the issue of 'fussy eating' in a holistic way that links imagination with food, and which situates parents alongside - not in opposition to - their children. You'll embark on a food discovery which will change the way you look at food and bring healthy variety into every meal for years to come. You will ease away from the same four-to-six staple meals most families fall back on, towards truly varied meal plans from day to day, week to week, to the point where introducing your whole family to new flavours, colours and textures is a breeze because new is the norm. Each phase includes a clear explanation of what you're going to learn and achieve, clear advice/commentary, two weeks of delicious tried and tested recipes, and hands-on activities to try out with your family, all of which will help bring that phase to life and help you and your family to progress forward. The 5-phase approach: Phase 1: Unfamiliar into the familiar. Introducing unfamiliar colour, flavour or texture into familiar favourites. Phase 2:

Educate. Experimenting with food, and understanding where it comes from and why it's important. Phase 3: Fun. Putting the fun back into food and building enthusiasm for food variety. Phase 4: Into the unknown. Discovering new ingredients and flavour combinations. Phase 5: Cementing variety. Learning techniques to keep your family meals varied long-term.

This cookbook is going to show you step by step how to cook the way grown-ups do, but with your favorite favors! And the best part is that your parents, siblings or sitters are only your helpers. YOU can take center stage chopping ingredients like a pro, stirring the pot and serving the final dish to your family or friends. These recipes are perfect for kids because they use simple ingredients, don't take a lot of work and cook all in one pot or pan. Along the way, you'll learn important skills, such as how to cut foods with or without a knife, how to brown ground meat for tacos, how to cook noodles for pasta dinners and how to use an oven safely. Your parents will be so impressed with what you can do! With so many tasty choices, you can enjoy a laid-back weekend morning by cooking up a wonderful breakfast treat for everyone, such as Cinnamon Sugar & Pecan Monkey Bread, Orange-Blueberry Pancakes or Tex-Mex Sweet Potato and Sausage Skillet. Or choose an amazing dinner such as School Night Chicken Fajitas, Better Than Buttered Noodles and Magic Crunchy Coated Fish. You can even make your own favorite restaurant foods like Chicken Finger Dunkers or Mix and Match Seasoned French Fries. So, get out your cooking tools, put on your apron and let's make your next perfect meal!

**Deceptively Delicious** - Jessica Seinfeld 2009-10-06

It has become common knowledge that childhood obesity rates are increasing every year. But the rates continue to rise. And between busy work schedules and the inconvenient truth that kids simply refuse to eat vegetables and other healthy foods, how can average parents ensure their kids are getting the proper nutrition and avoiding bad eating habits? As a mother of three, Jessica Seinfeld can speak for all parents who struggle to feed their kids right and deal nightly with dinnertime fiascos. As she wages a personal war against sugars, packaged foods, and other nutritional saboteurs, she offers appetizing alternatives for parents who find themselves succumbing to the fastest and easiest (and least healthy) choices available to them. Her modus operandi? Her book is filled with traditional recipes that kids love, except they're stealthily packed with veggies hidden in them so kids don't even know! With the help of a nutritionist and a professional chef, Seinfeld has developed a month's worth of meals for kids of all ages that includes, for example, pureed cauliflower in mac and cheese, and kale in spaghetti and meatballs. She also provides revealing and humorous personal anecdotes, tear-out shopping guides to help parents zoom through the supermarket, and tips on how to deal with the kid that "must have" the latest sugar bomb cereal. But this book also contains much more than recipes and tips. By solving problems on a practical level for parents, Seinfeld addresses the big picture issues that surround childhood obesity and its long-term (and ruinous) effects on the body. With the help of a prominent nutritionist, her book provides parents with an arsenal of information related to kids' nutrition so parents understand why it's important to throw in a little avocado puree into their quesadillas. She discusses the critical importance of portion size, and the specific elements kids simply must have (as opposed to adults) in order to

flourish now and in the future: protein, calcium, vitamins, and Omega 3 and 6 fats. Jessica Seinfeld's book is practical, easy-to-read, and a godsend for any parent that wants their kids to be healthy for a long time to come.
