Good-bye, Bumps! - Dr. Wayne W. Dyer 2021-05-04
In *Good-bye, Bumps!*, Dr. Wayne W. Dyer and his daughter Saje tell a remarkable story from her childhood in which she was able to overcome a physical condition in a very unique way. In the telling of this story Saje and Wayne teach children the important lesson that when

something is bothering them, they can change their attitude toward it and not allow it to have power over them. This book will help kids understand that some things about themselves can be changed and others will always be with them, but what matters is how they choose to think about these things. In addition to its valuable lesson, this charming story will remind all readers, both young and old, of what can be done with the childlike belief in what is possible.

This Beautiful Book - Steve Green 2019-11-12

In *This Beautiful Book*, Steve Green - founder of The Museum of the Bible - highlights life-changing themes woven through the mosaic of the Bible's various stories, reveals a new way to engage Scripture as a whole, and inspires deep appreciation for the Bible's connection to your life. The most popular and culture-shaping text in the world, the Bible is still the least understood book of all time. The Bible's collection of history, poetry, genealogy lists,

and mystifying prophecies often prove puzzling to readers. And when this text is read in pieces, we're left with only a half-impression of the vibrant mosaic. This Beautiful Book highlights the thematic threads woven throughout the ancient writings and shows us a new way to engage with Scripture as a whole. Through insights gained from firsthand experiences in leading and developing the first world class Bible museum, Green invites readers to step back from the individual stories of the Bible and consider the Bible as a whole. He reveals the completeness, connection, and transformative power of Scripture. Along with stunning retellings of biblical stories, Green helps readers see the story within the story, and draws the careful connections that help us appreciate the richness of the Bible story as a single story. Each page will spark or embolden your faith in a God who speaks to us across the centuries. A truly captivating experience, this book will instill in you a deep

appreciation for Scripture and its profound connection to your own life story.

All Thirteen: The Incredible Cave Rescue of the Thai Boys' Soccer Team - Christina Soontornvat
2020-10-13

A unique account of the amazing Thai cave rescue told in a heart-racing, you-are-there style that blends suspense, science, and cultural insight. On June 23, 2018, twelve young players of the Wild Boars soccer team and their

coach enter a cave in northern Thailand seeking an afternoon's adventure. But when they turn to leave, rising floodwaters block their path out. The boys are trapped! Before long, news of the missing team spreads, launching a seventeen-day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil, people begin to wonder: how long can a group of ordinary kids survive in complete darkness, with no food or clean water? Luckily, the Wild Boars are a very extraordinary "ordinary" group. Combining firsthand interviews of rescue workers with in-depth science and details of the region's culture and religion, author Christina Soontornvat—who was visiting family in Northern Thailand when the Wild Boars went missing—masterfully shows how both the complex engineering operation above ground and the mental struggles of the thirteen young people below proved critical in the life-or-death mission.

Meticulously researched and generously illustrated with photographs, this page-turner includes an author's note describing her experience meeting the team, detailed source notes, and a bibliography to fully immerse readers in the most ambitious cave rescue in history.

Is It Meant to Be? - Kristina Tracy 2021-10-12

A young girl learns a valuable lesson about disappointment, acceptance, silver linings, and unexpected opportunities. Sometimes in life, children

(and adults!) want something so badly that they can't let go of the idea that what they want is "meant to be." This story, based on a real-life experience, follows a young girl named Macey through the process of losing something that she thought was meant for her. On the other side of disappointment and heartache, Macey learns that sometimes losing out on what we thought we wanted opens the door for something just as good-or even better! *Is It Meant to Be?* is based on a true story that happened to the author, Kristina, and her family. One night, at their ranch in Idaho, a dog showed up out of nowhere. The family all fell in love with him and felt that he had come to them for a reason. It seemed like he was meant to be their dog. The events that happened after that and the lessons they learned in the process inspired Kristina to write this book.

What Got You Here Won't Get You There - Marshall Goldsmith
2010-09-03

Your hard work is paying off.
You are doing well in your

field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top

businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE. [Incredible You!](#) - Dr. Wayne W. Dyer 2020-09-08

No Excuses! - Dr. Wayne W. Dyer 2009-06-15

In his fourth book for children, Dr. Wayne W. Dyer focuses on the topic of excuses and how they can do more harm than we realize. The book demonstrates how excuses go far beyond "my dog ate my homework," and can actually become words that prevent your child from reaching his or her potential. The book follows a boy with a seemingly impossible dream who almost lets excuses ("I'm not smart enough" . . . "It's too hard," and so on) get in his way. He discovers, as will your child, that by following a few simple ideas and eliminating excuses . . . anything is possible!

Free Range Learning - Laura Weldon 2012-07-23

With more kids at home now . . . here is a book for parents, family members and friends who want to maximize this time for a deeper learning experience for their children and themselves. Free Range Learning will encourage and excite those who want their children to reap important benefits from this period of "sheltering in place," learning at home. This is a book for anyone simply wanting some fresh ideas at this time, or those who wonder if a

commitment to ongoing homeschooling might actually result in longer term benefits! The material in this book is backed by scientific and educational studies, along with the testimonies of scores of parents and kids from around the world. The work here is applicable for young people from pre-school through high school. Studies indicate that adults who were homeschooled are: * More likely to vote, volunteer and be involved in their communities than graduates of conventional schools. * Read more books than average. * More likely to have taken college level courses than the population as a whole. * Tend to be independent and self-reliant. Children are naturally “free range” learners. They build knowledge and skills naturally, within the full spectrum of their daily lives, while observing, exploring and pursuing their interests. This book guides any parent or educator in assisting that process.

Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher’s carefully constructed world falls apart when he finds his neighbour’s dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the

impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

Memories of Heaven - Wayne W. Dyer 2015-10-13
Poet William Wordsworth expressed the idea that we gradually lose our intimate knowledge of heaven as we grow up, observing that 'our birth is but a sleep and a forgetting' of our previous existence in Spirit. Dr. Wayne

W. Dyer and co-author Dee Garnes had often talked about how the ones who know the most about God are those who have just recently been wrapped in the arms of the Divine: our infants and toddlers. In fact, Dee had an interaction with her own young son that convinced her of his acquaintance with our Source if being. Curious about this phenomenon, Wayne and Dee decided to issue an invitation to parents all over the globe to share their experiences. The overwhelming response they received prompted them to put together this book, which includes the most interesting and illuminating of these stories in which boys and girls speak about their remembrances from the time before they were born. Children share their dialogues with God, talk about long-deceased family members they knew while in the dimension of spirit, verify past-life recollections, give evidence that they themselves had a hand in picking their own parents and the timing of their

sojourn to Earth, and speak eloquently and accurately of a kind of Divine love that exists beyond this physical realm. This fascinating book encourages all of us, not just parents, to take a much more active role in communicating with our planet's new arrivals . . . and to realise that there is far more to this earthly experience than what we perceive with our five senses.
