Studies in the Book of Revelation - Stephen Alexander Hunter 2021-01-01

Stephen Alexander Hunter's 'Studies in the Book of Revelation' provides clear and accurate results of the investigation of modern scholars, in language which is comprehensible to the intelligent reader of the English Bible. The

Revelation of St. John has been an enigma from the earliest Christian centuries. On the one hand, it has been shunned because of its mysteriousness; on the other, it has been discredited for sober-minded, intelligent Christians by the absurd vagaries of its interpreters.

Blood and Fire - David Gerrold 2011-02

Executive Officer Korie had faced and defeated seemingly invincible Morthan battleships, elusive bio-computer imps, and dreaded Morthan assassins. It would be on the starship Norway, however, that he would meet his greatest challenge—a challenge that could change the outcome of a war and the destiny of humankind. The latest installment of the Star Wolf series, this third galactic struggle concludes the popular trilogy with a rescue mission that is far from routine. Never before published, Blood and Fire is the long-awaited conclusion to the Star Wolf series.

Heretic - C. Gockel 2017-04-16

The day of reckoning is coming ... Commander Noa Sato has almost reached the Kannukah Cloud. Within hours her crew may be able to reach Sol System through a hidden time gate. If they make it, she and her crew won't just save their own lives—they'll save millions from genocide at the hands of Luddeccean fanatics. But the Luddeccean "fanatics" may not be as mad as Noa believes. If the Ark reaches Sol, Professor James Sinclair will be revealed as the

imposter he is. Designed to be the perfect spy, James's love for Noa seems to be the only thing truly his own. But what can love be to an agent of the gates? When the final confrontation occurs, and the truth of the gates is revealed, James and Noa will have choices to make ... Choices that may divide them forever and lead to the destruction of the human race.

Carl Sagan's Hunt for Intelligent Life in the Universe - C. Gockel

Sometimes intelligent life is right in front of your whiskers. Hsissh is a member of The One. There are some newcomers to The One's homeplanet. They call themselves "humans," and they are, frankly, mentally deficient--they can't warp the quantum world with their minds. However, Hsissh is becoming attached to one of them, a Miss Noa Sato. When The One decide they will wipe out the humans and Noa's life is on the line, Hsissh is forced to take sides ... he might find intelligent life where The One least expect it.

Anne Rice's Vampire Chronicles An Alphabettery - Becket 2018-10-23

An annotated cosmology of Anne Rice's Vampirism from A(kasha) to Z(enobia)--all fifteen books of the Vampire Chronicles detailed, by a longtime Anne Rice reader and scholar; the who, what, where, why, (and often) how of her beloved characters, mortal and 'im', brought together in a book for the first time. Illustrated by Mark Edward Geyer. An Alphabettery of Anne Rice's Vampire Chronicles gathers together, from all fifteen of the books in the series, the facts, details, story lines, genealogies of her characters, vampiric subjects, geographical influences, and cultural and individual histories, all of which Rice painstakingly researched and invented during her 40-year career--to date--through which she has enchanted and transported us. Here are concise, detailed

biographies of every character, no matter how central or minor to the cosmology. Revealed are the intricacies and interconnectedness of characters and subjects throughout. We see how Akasha (Queen of Egypt and the first vampire) is connected to Mekare (the inheritor of the title of the Queen of the Damned), etc., and how these characters connect back to the darkest rebel outlaw of them all, Lestat de Lioncourt ... And we see, as well, the ways in which Rice's vampires have evolved from warring civilizations to isolated covens to a unified race of blood drinkers led by their hero-wanderer and sole monarch, Prince Lestat. For devoted and first-time Anne Rice readers alike, *An Alphabettery of Anne Rice's Vampire Chronicles* will be the holy grail of lore and revelation for those who have been, and continue to be, mesmerized by the worlds within worlds of these beloved tales of the undead.

The Trial of Jeanne d'Arc (Routledge Revivals) - W. P. Barrett 2014-01-09

First published in 1931, this is the first unabridged English translation of the documents pertaining to the trial of Joan of Arc. The basis of the translation is drawn from an edition of the text published in 1841 by Jules Quicherat, but elements are also derived from a number of the manuscripts originally translated into Latin. As notes were taken daily by several scribes, the text provides important insight into the trial, its chronology and its major players, as well as Joan's character and intellect. With a detailed introduction and beautiful illustrations, this is a fascinating reissue that will be of value to students of medieval history, particularly those with an interest in medieval hagiography, heresy during the fourteenth century, ecclesiastical law and the practice of Church courts.

Cultural Techniques - Bernhard Siegert
2015-05-01

In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that

reproduce, displace, process, and reflect the distinctions fundamental for a given culture. Cultural Techniques aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word Kultur. Cultural techniques comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from first-order to second-order techniques, from the technical to the artistic,

from object to sign, from the natural to the cultural, from the operational to the representational. Cultural Techniques ranges from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and American postcybernetic discourses. **Curiosities of Literature** - Isaac Disraeli 1893

Hell in the Byzantine World - Angeliki

Lymberopoulou 2020-06-30

The imagery of Hell, the Christian account of the permanent destinations of the human soul after

death, has fascinated people over the centuries since the emergence of the Christian faith. These landmark volumes provide the first large-scale investigation of this imagery found across the Byzantine and post-Byzantine world. Particular emphasis is placed on images from churches across Venetian Crete, which are comprehensively collected and published for the first time. Crete was at the centre of artistic production in the late Byzantine world and beyond and its imagery was highly influential on traditions in other regions. The Cretan examples accompany rich comparative material from the wider Mediterranean - Cappadocia, Macedonia, the Peloponnese and Cyprus. The large amount of data presented in this publication highlight Hell's emergence in monumental painting not as a concrete array of images, but as a diversified mirroring of social perceptions of sin.

Stranger in a Strange Land - Robert A.

Heinlein 1991-10-01

The complete, uncut version of Robert A.

Heinlein's all-time masterpiece, the brilliant novel that grew from a cult favorite to a bestseller to a science fiction classic. Raised by Martians on Mars, Valentine Michael Smith is a human who has never seen another member of his species. Sent to Earth, he is a stranger who must learn what it is to be a man. But his own beliefs and his powers far exceed the limits of humankind, and as he teaches them about grokking and water-sharing, he also inspires a transformation that will alter Earth's inhabitants forever...

A History of God - Karen Armstrong 2004

A study of the deity of the world's three dominant monotheistic religions: Judaism, Christianity, and Islam. In a dynamic interplay between religion and society's ever-changing beliefs, values, and traditions, human beings' ideas about God have been transformed. Ideas about God have been molded to apply to the spiritual needs of the people who worship him in a particular place and time. The author explores

and analyzes the development and progression of the various perceptions of God from the days of Abraham to present times--Adapted from book jacket.

Here I Stand - A Life Of Martin Luther - Roland Bainton 2014-12-03

This early work on Martin Luther is both expensive and hard to find in its first edition. It details the life of the monk responsible for translating the Bible from Latin into German and for inspiring the Lutheran movement. This is a fascinating work and is thoroughly recommended for anyone interested in the history of European religion. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Archangel Project - C. Gockel 2020-08-23
Commander Noa Sato doesn't believe in aliens. She's wrong. Imprisoned on her home planet, accused of aiding an alien invasion, Noa witnesses the beginning of a genocide—however, the murderers are not aliens, but her own people. Launching a daring attempt to reach the Galactic Fleet, she makes an unlikely ally in stranded professor, James Sinclair. But James is not all that he seems. James is not the man he once was. He has technological augments that give him extraordinary abilities. His augments protect Noa and himself, but he has no memory of how he came to have them. Worse, the changes may be more than physical. Noa's mission and the answer to James's mystery will

put them at the center of a confrontation of galactic proportions. A confrontation that challenges the boundaries between human and alien, man and machine. A confrontation that might spell the doom of the entire human race. This set includes: Archangel Down. Archangel Project Book 1 Noa's Ark. Archangel Project Book 2 Heretic. Fatal Discord - Michael Massing 2018-02-27
A deeply textured dual biography and fascinating intellectual history that examines two of the greatest minds of European history—Desiderius Erasmus and Martin Luther—whose heated rivalry gave rise to two

enduring, fundamental, and often colliding traditions of philosophical and religious thought. Erasmus of Rotterdam was the leading figure of the Northern Renaissance. At a time when Leonardo, Michelangelo, and Raphael were revolutionizing Western art and culture, Erasmus was helping to transform Europe's intellectual and religious life, developing a new design for living for a continent rebelling against the hierarchical constraints of the Roman Church. When in 1516 he came out with a revised edition of the New Testament based on the original Greek, he was hailed as the prophet of a new enlightened age. Today, however, Erasmus is largely forgotten, and the reason can be summed up in two words: Martin Luther. As a young friar in remote Wittenberg, Luther was initially a great admirer of Erasmus and his critique of the Catholic Church, but while Erasmus sought to reform that institution from within, Luther wanted a more radical transformation. Eventually, the differences

between them flared into a bitter rivalry, with each trying to win over Europe to his vision. In *Fatal Discord*, Michael Massing seeks to restore Erasmus to his proper place in the Western tradition. The conflict between him and Luther, he argues, forms a fault line in Western thinking—the moment when two enduring schools of thought, Christian humanism and evangelical Christianity, took shape. A seasoned journalist who has reported from many countries, Massing here travels back to the early sixteenth century to recover a long-neglected chapter of Western intellectual life, in which the introduction of new ways of reading the Bible set loose social and cultural forces that helped shatter the millennial unity of Christendom and whose echoes can still be heard today. Massing concludes that Europe has adopted a form of Erasmian humanism while America has been shaped by Luther-inspired individualism. [The Cambridge History of Scandinavia](#) - Knut Helle 2003-09-04

This volume presents a comprehensive exposition of both the prehistory and medieval history of the whole of Scandinavia. The first part of the volume surveys the prehistoric and historic Scandinavian landscape and its natural resources, and tells how man took possession of this landscape, adapting culturally to changing natural conditions and developing various types of community throughout the Stone, Bronze and Iron Ages. The rest - and most substantial part of the volume - deals with the history of Scandinavia from the Viking Age to the end of the Scandinavian Middle Ages (c. 1520). The external Viking expansion opened Scandinavia to European influence to a hitherto unknown degree. A Christian church organisation was established, the first towns came into being, and the unification of the three medieval kingdoms of Scandinavia began, coinciding with the formation of the unique Icelandic 'Free State'. *White Tiger* - Kylie Chan 2010-02-01
A great fantasy debut with elements of Chinese

Taoist philosophy and martial arts. This is storytelling at its best ... adventurous, exciting and with a touch of the gods. ACTION, INTRIGUE, DEMONS AND DRAGONS Kylie Chan creates a fast and furious story balanced between the celestial and the mortal, the powerful and the innocent ... Emma Donahue has just started her new job as nanny to Simone, the daughter of John Chen, a very rich Hong Kong businessman. She understands that Simone may be a target for kidnappers but she does not expect to be drawn into a world of martial arts, magic and extreme danger, where both gods and demons can exist in the mortal domain. When John and his American bodyguard, Leo, teach Emma their particular style of martial arts, they begin to realise that Emma herself is more than she seems ...

Good Time Coming - C.S. Harris 2016-12-01

A girl grows up too quickly in Civil War Louisiana: "Powerful... This is top-notch historical fiction."—Publishers Weekly I killed a

man the summer I turned thirteen... Thus begins USA Today-bestselling author C. S. Harris's haunting, lyrically beautiful tale of coming of age in Civil War-torn Louisiana. Eleven-year-old Amrie St. Pierre is catching tadpoles with her friend Finn O'Reilly when the Federal fleet first steams up the Mississippi River in the spring of 1862. With the surrender of New Orleans, Amrie's sleepy little village of St. Francisville—strategically located between the last river outposts of Vicksburg and Port Hudson—is now frighteningly vulnerable. As the roar of cannons inches ever closer and food, shoes, and life-giving medicines become increasingly scarce, Amrie is forced to grow up fast. But it is her own fateful encounter with a tall, golden-haired Union captain named Gabriel that threatens to destroy everything and everyone she holds most dear. Told with rare compassion and insight, this is a story of loss and survival; of the bonds that form among women and children left alone to face the

hardships, depravations, and dangers of war; and of one unforgettable girl's slow and painful recognition of the good and evil that exists within us all. "This story of love, loss, and growing up under some of the most difficult circumstances imaginable is beautifully written, superbly researched, emotionally engaging and gripping from first page to last. A must for old-school fans of historical fiction."—Booklist

Archangel Down - C. Gockel 2018-01-21

In the year 2432, humans think they are alone in the universe. They're wrong. Commander Noa Sato plans a peaceful leave on her home planet Luddeccea ... but winds up interrogated and imprisoned for her involvement in the Archangel Project. A project she knows nothing about. Professor James Sinclair wakes in the snow, not remembering the past twenty four hours, or knowing why he is being pursued. The only thing he knows is that he has to find Commander Sato, a woman he's never met. A military officer from

the colonies and a civilian from Old Earth, they couldn't have less in common. But they have to work together to save the lives of millions—and their own. Every step of the way they are haunted by the final words of a secret transmission: The archangel is down.

Noa's Ark - C. Gockel 2018-01-22

First contact didn't go as planned... Time Gate 8, one of humanity's portals between the stars, has been overrun by a mysterious alien intelligence, and the planet Luddeccea is now cut off.

Haunted by those she left behind, Commander Noa Sato is on a desperate mission to save her homeworld. Navigating the ancient Ark, she seeks a hidden gate that will transport her ship to Earth and the Galactic Fleet. But the Luddeccean system harbors dangers, and so does her crew. The only crew member she completely trusts is James Sinclair, but he doesn't trust himself. James isn't the man he once was. He has a hunger that is never sated, kills without regrets, and is fitted with

extraordinary augments he doesn't remember getting. Can James control his augments, or will they control him? In a future where almost all humans are augmented, James's answer and Noa's mission will determine the fate of the human race ... and the enemy is already within the gates.

The Mysterious Stranger - Mark Twain

2019-09-22

The Mysterious Stranger, published posthumously in 1916, belongs to Twain's "dark" period. At the time of composition, Twain had suffered a series of painful physical, economic, and emotional losses. In his chilling tale, a stranger named Satan visits an old Austrian town to convince the religious faithful that there is no God, and "nothing exists; all is a dream."

Area 51 - Bob Mayer 2019-04-26

Many millennia ago, humans, including us, were seeded on fifteen worlds by an alien race, the Airlia. We believe we evolved, but the reality is we were bred as cannon fodder for the Airlia's

interstellar war against the Swarm, a viral race whose only mission appears to be the obliteration of sentient life wherever encountered. On some worlds humans realized the truth about their origins, uncovered their hidden alien overlords and rebelled. On one world they succeeded, but in the process destroyed their planet. They sent teams to the other worlds to foment uprisings. Our Earth is one. Earth15 is also one of those worlds. One of those teams, Bren and her mate Markus, have been leading revolution on Earth15 off and on for thousands of years, slowly eroding the power of the Airlia who rule as gods. But today she encounters Arcturus, a man who claims the impossible: he was on the planet before the Airlia. If this blasphemy is true, what other truths need to be uncovered about the history and origin of mankind and our place among the stars? Who are we? Praise for Mayer's books: "The best combination of science fiction and technothriller this year." Publishers Weekly ref

The Rock Kirkus Reviews reference Synbat: "Action packed entertainment. An atavistic milieu plausibly conjured up by Mayer." Editor's note: Even if you haven't read the previous Area 51 books you can read this and it will get you into the series. For those who've read the previous books, you'll learn a lot more "truth" about the backstory to the series and merge with the end of the last book, Invasion.

Middlemarch - George Eliot 2015-05-02

Who that cares much to know the history of man, and how the mysterious mixture behaves under the varying experiments of Time, has not dwelt, at least briefly, on the life of Saint Theresa, has not smiled with some gentleness at the thought of the little girl walking forth one morning hand-in-hand with her still smaller brother, to go and seek martyrdom in the country of the Moors? Out they toddled from rugged Avila, wide-eyed and helpless-looking as two fawns, but with human hearts, already beating to a national idea; until domestic reality

met them in the shape of uncles, and turned them back from their great resolve. That child-pilgrimage was a fit beginning. Theresa's passionate, ideal nature demanded an epic life: what were many-volumed romances of chivalry and the social conquests of a brilliant girl to her? Her flame quickly burned up that light fuel; and, fed from within, soared after some illimitable satisfaction, some object which would never justify weariness, which would reconcile self-despair with the rapturous consciousness of life beyond self. She found her epos in the reform of a religious order.

A Little History of the World - E. H. Gombrich
2014-10-01

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn

maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Desiring Divinity - M. David Litwa 2016

Perhaps no declaration incites more theological and moral outrage than a human's claim to be divine. Those who make this claim in ancient Jewish and Christian mythology are typically represented as the most hubristic and dangerous tyrants. Their horrible punishments are predictable and still serve as morality tales in religious communities today. But not all self-

deifiers are saddled with pride and fated to fall. Some who claimed divinity stated a simple and direct truth. Though reviled on earth, misunderstood, and even killed, they received vindication and rose to the stars. This book tells the stories of six self-deifiers in their historical, social, and ideological contexts. In the history of interpretation, the initial three figures have been demonized as cosmic rebels: the first human Adam, Lucifer (later identified with Satan), and Yaldabaoth in gnostic mythology. By contrast, the final three have served as positive models for deification and divine favor: Jesus in the gospel of John, Simon of Samaria, and Allogenes in the Nag Hammadi library. In the end, the line separating demonization from deification is dangerously thin, drawn as it is by the unsteady hand of human valuation.
