Brain and Heart Dynamics - Stefano Govoni 2020-10-16

This ambitious and comprehensive handbook represents an essential contribution to our current understanding of interactions between heart and brain, a research topic generating growing interest. Despite the increasing awareness that neural mechanisms are the primary cause of cardiac disease and its progression, therapy continues to focus on end-organ protection and does not approach the neural core of the problem. Growing public health problems such as heart failure are still treated with autonomic drugs that are 30-40 years old and simply act on cardiac receptors. However, it has now been shown that the progression of ischemic heart disease to heart failure is mainly due to abnormal central responses to incipient cardiac disease, with neural activation the primary cause rather than the consequence of cardiac remodeling. Written by leading international experts in their respective research areas, the book presents a variety of perspectives on the core topic: from social and philosophical to gender-related aspects. It is designed for a broad readership and includes dedicated sections for cardiologists, psychiatrists, neurologists and psychotherapists looking for a more insightful and targeted approach to neuro-cardiovascular disease.

Notes on a Shipwreck - Davide Enia 2019-02-19

A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.

The Vegan Book of Permaculture - Graham Burnett 2015-01-15

How we eat is such a fundamental part of what we are; yet, in our present time-poor culture of prepackaged fast foods, food can become an expensive symptom of alienation and disempowerment. It doesn't have to be this way! The Vegan Book of Permaculture gives us the tools and confidence to take responsibility for our lives and actions. Creating a good meal, either for ourselves or to share, taking time to prepare fresh, wholesome home- or locally grown ingredients with care and respect can be a deeply liberating experience. It is also a way of taking back some control from the advertising agencies and multinational corporations. In this groundbreaking and original book, Graham demonstrates how understanding universal patterns and principles, and applying these to our own gardens and lives, can make a very real difference to both our personal lives and the health of our planet. This also isn't so very different from the compassionate concern for "animals, people, and

environment" of the vegan way. Interspersed with an abundance of delicious, healthy, and wholesome exploitation-free recipes, Graham provides solutions-based approaches to nurturing personal effectiveness and health, eco-friendly living, home and garden design, veganic food growing, reforestation strategies, forest gardening, reconnection with wild nature, and community regeneration with plenty of practical ways to be well fed with not an animal dead! This is vegan living at its best.

Italo Calvino, novelist, literary critic and editor, was also a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal and Pier Paolo Pasolini. This collection of his extraordinary letters, the first in English, gives an illuminating insight into his work and life. They include correspondence with fellow authors, generous encouragement to young writers, responses to critics, thoughts on literary criticism and literature in general, as well as giving glimpses of Calvino's role in the antifascist Resistance, his disenchantment with Communism and his travels to America and Cuba. Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work. 'This literally marvelous collection of letters shows him to have been gregarious, puckish, funny, combative, and, above all, wonderful company, and opens a new and fascinating perspective on one of the master writers of the twentieth century. Michael Wood and Martin McLaughlin have done Calvino, and us, a great and loving service.' John Banville 'A charming addition to the Planet Calvino - a place cluttered with sphinxes, chimeras, knights, spaceships and viscounts both cloven and whole' Guardian Italo Calvino, one of Italy's finest postwar writers, was born in Cuba in 1923 and grew up in San Remo, Italy. Best known for his experimental masterpieces, *Invisible Cities* and *If on a Winter's Night a Traveller*, he was also a brilliant exponent of allegorical fantasy in works such as *The Complete Cosmicomics*. 2012 updated version! "Pranic Nourishment, also called Living on Light, is Jasmuheen's fourth book of metaphysical interest. It is a fascinating story of her personal journey into being physically sustained purely by Light. It also touches on physical immortality, spirituality and sexuality, new millennium relationships and mind mastery utilizing the powerful programming of Dimensional Biofield Science. Pioneering new yet ancient pathways, many are now exploring the option of neither being a meat eater, a vegetarian, a vegan, a fruitarian but rather a 'liquidarian' or an individual sustained and nourished purely by the Light of their own Divine nature. Formerly a 'state of being' reserved for, or attributed to, the Holy men, Saints or Sages of the East; the process described in this text offers a practical and spiritual alternative for those wishing to practically begin to embrace physical immortality, cease the aging process or simply 'live on Light'.

1606 - James Shapiro 2016-04-07

"An intimate portrait of one of Shakespeare's most inspired moments: the year of King Lear, Macbeth and Antony and Cleopatra. 1606, while a very good year for Shakespeare, is a fraught one for England. Plague returns. There is surprising resistance to the new king's desire to turn England and Scotland into a united Britain. And fear and uncertainty sweep the land and expose deep divisions in the aftermath of the failed terrorist attack that came to be known as the Gunpowder Plot. James Shapiro deftly demonstrates how these extraordinary plays responded to the tumultuous events of this year, events that in unexpected ways touched upon Shakespeare's own life ... [and] profoundly changes and enriches our experience of his plays--Publisher's description.
