The Secret Doctrine of the Rosicrucians - Magus

Incognito 2013-03-04

This is one of the numerous Yogi Publication Society (YPS) books which have been attributed to William Walker Atkinson under pseudonym. It bears strong similarities to *The Kybalion*, which is also known to have been authored by Atkinson. The material was later re-worked as one of the volumes in his series *The Arcane Teachings*. The term Rosicrucian (symbol: the Rose Cross) describes a secret society of mystics, allegedly formed in late mediaeval Germany, holding a doctrine "built on esoteric truths of the ancient past", which, "concealed from the average man, provide insight into nature, the physical universe

and the spiritual realm." In later centuries many masonic and occult societies have claimed to derive their doctrines, in whole or in part, from the original Rosicrucians.

Poisoner in Chief - Stephen Kinzer 2019-09-10
The bestselling author of *All the Shah's Men* and *The*

Brothers tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary

research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. Poisoner in Chief reveals him as a clandestine conjurer on an epic scale.

Federal Trade Commission Decisions - United States. Federal Trade Commission 1939

Hypnotism - John Milne Bramwell 1906
The text outlines principal hypnotic theories and discusses a variety of applications as they existed in 1906, at the time of

this publication. Specifically, the author presents medical and surgical cases using hypnosis from his own practice and from other medical journals. The experimental phenomena of hypnosis and post-hypnotic appreciation of time are also examined. Care and management of medical and experimental cases are considered. Studies in the Psychology of Sex, Volume 1 - Havelock Ellis 2021-01-01

Studies in the Psychology of Sex, Volume 1, is the first of six volumes by English physician Havelock Ellis. First published in 1897, the book is part of a huge study on sexuality. Ellis was also a pioneer in the study of psychedelic drugs, introduced the concepts of narcissism and autoeroticism, and published works on transgender psychology. He was in favour of feminism as he saw that the improved choices given to women would benefit humans overall. This first volume includes; The Evolution of Modesty; The Phenomena of Sexual Periodicity; and, Auto-

Eroticism, a Study of the Spontaneous Manifestations of the Sexual Impulse. Full chapter list. № 67 in Anne Haight's List of Banned Books.

The Roots of Modern Hypnosis - Dr. Milton V. Kline 2006-12-20

The Roots of Modern Hypnosis is a compendium of three classic volumes on hypnosis, written by some of its most important practitioners. Read in sequence, these books provide a fascinating explication of the history of hypnosis, from the animal magnetism, mesmerism, and universal fluid of Franz Anton Mesmer as utilized by Dr. James Esdaile in his surgical facilities in India, to the First

Modern (1961) International Congress on Hypnosis in New York City. The three texts contained in *The Roots of Modern Hypnosis* are: *Hypnosis in Medicine and Surgery* (originally entitled *Mesmerism in India*), by James Esdaile, M.D. The book contains an introduction and *Supplemental Reports on Hypnoanesthesia* by William S. Kroger, M.D. The original text was published in 1850; a revised edition, containing Dr. Kroger's introduction and notes, was published in 1957 by The Institute for Research in Hypnosis Publication Society and The Julian Press, Inc. *The Fundamental Principles of Hypnosis* (originally entitled *The Law of Suggestion*) by Stanley L. Krebs, Ph.D., published in 1906. The work was revised by Henry Guze, Ph.D., and republished in 1957, with a new introduction by Milton V. Kline, Ph.D., by The Institute for Research in Hypnosis Publication Society and The Julian Press, Inc. *The Nature of Hypnosis*: Transactions of the 1961 [First

Modern] International Congress on Hypnosis, edited and with an introduction by Milton V. Kline, Ph.D., Director of The Institute for Research in Hypnosis and Psychotherapy, and a Foreword by Lewis Wolberg, M.D., of The Postgraduate Center for Psychotherapy. The book was jointly published by the Institute and the Center. Milton V. Kline, Ph.D., Director of The Institute for Research in Hypnosis and Psychotherapy, and of The Institute for Research in Hypnosis Publication Society, conceived the idea of publishing the current edition of each of these texts under a single title, *The Roots of Modern Hypnosis*. Dr. Kline has been widely acknowledged as one of the foremost experts on medical, psychological, clinical, therapeutic and experimental hypnotherapy and hypnoanalysis, with more than 50 years of experience in using, teaching and conducting research in hypnosis. His recognition and honors have been worldwide. Hypnosis in

Medicine and Surgery by James Esdaile, M.D. James Esdaile, M.D., was a young surgeon who was put in charge of a hospital for paupers and criminals in Hooghly, India, and then in charge of a medical facility in Calcutta, in the 1840s. While in India, he made some of the most significant contributions to the history and evolution of hypnosis as a technique for pain control since it was discovered by Franz Anton Mesmer, circa 1775. In addition, despite the conditions under which he worked (heat, lack of proper sanitation, etc.), Dr. Esdaile proved conclusively that hypnosis was a reliable and relatively risk-free method for inducing deep anesthesia under which surgical operations could take place. While in India, Dr. Esdaile performed approximately 300 major operations, as well as many more minor procedures, on patients under the Mesmeric trance. Among the cases which he treated were the removal of tumors from even the most sensitive parts of

the body; the amputation of legs, arms and breasts; the extraction of teeth; the repair of bent limbs; and the cure of headaches, colic, eye inflammations, convulsions and nerve pain. In some cases, Dr. Esdaile was able to hypnotize his patients so deeply that their pupils failed to contract even when exposed to bright sunlight. As Dr. Kroger points out in his introduction to the revised edition of *Hypnosis in Medicine and Surgery*, one of the most important aspects of Dr. Esdaile's work involves the induction of an extraordinarily deep state of hypnosis
Advanced Hypnotherapy - John G. Watkins 2012-04-17
This book focuses on tested hypnoanalytic techniques, with step-by-step procedures for integrating hypnosis into psychoanalytic processes. In its examination of the latest thinking, research, and techniques, the book discusses historical origins of hypnosis as well as how to apply it to current events, such as using hypnosis in the treatment of trauma with soldiers coming

out of the war in Iraq. The text shows how hypnosis can be combined with psychoanalysis to make it possible to understand the subjective world of clients. Its accessible nature, rich detail, and significant updates make the book an invaluable resource for the professional who wishes to incorporate hypnosis into his or her practice. With the authors' extensive and impressive knowledge, careful updates, and comprehensive coverage of the proper and appropriate techniques to use, this volume is an indispensable addition to the field.

Hypnotic Selling Secrets - Joe Vitale 2022-05-24
How can small changes... in your sales letters, emails and webpages put your visitors and readers into hypnotic trances so they whip out their credit cards and buy like piranhas on a feeding frenzy? How can these hypnotic trances... allow them to put their "iron wall sales guard" down and actually read what you are saying? How can you then use this moment... ..to make more people buy your product, sign up to your newsletter and click through in your emails -- in essence get more people to take action now? *Hypnotic Selling Secrets*, a

straightforward book on the basic principles of persuasive writing for the purpose of selling, was written by Joe Vitale, a first-rate copywriter who fell into the business because he wanted to share his excitement for products that he loved. Here, he will show you that this is what marketing really is. Forget all about copywriting, forget all about marketing. Start sharing your excitement for your mission, share what you're excited about. Why are you excited about it? Who is it for? Share with that target audience, your enthusiasm, that's when the sales take place. Others will say that it was smart marketing, but you'll know, you were just sharing something you love, sharing your real excitement in your own natural voice. People are going to buy that. You will learn: To strip away everything you've learned about grammar and punctuation which stop natural communication and creativity. Vitale's 21 point checklist for reviewing copy How to involve your customers emotionally

The best marketing documents to have out there before you call your customer How to make your ads stand out without resorting to "cute" How to make your words work for you... direct, benefit-oriented and as simple as possible The 26 reasons why people buy

The Book of Hypnosis - David Lesser 1990-03-15

While the understanding and application of the therapy continues to advance, this book is still the best publication available in enabling people to realise the amazing power and beautiful logicity of the subconscious and remains the foremost introduction to those seeking treatment or wishing to become a Lesserian Curative Hypnotherapist.

The Secret Gospel of Mark Unveiled - Peter Jeffery 2007-01-01

In this needed and highly anticipated new translation of the Theban plays of Sophocles, David Slavitt presents a fluid, accessible, and modern version for both newcomers to the plays and established admirers.

Unpretentious and direct, Slavitt's translation preserves the innate verve and energy of the dramas, engaging the reader or audience member directly with Sophocles' great texts. Slavitt chooses to present the plays not in narrative sequence but in the order in which they were composed: Antigone, Oedipus Tyrannos, Oedipus at Colonus; he thereby underscores the fact that the story of Oedipus is one to which Sophocles returned over the course of his lifetime. This arrangement also lays bare the record of Sophocles' intellectual and artistic development. Renowned as a poet and translator, Slavitt has translated Ovid, Virgil, Aeschylus, Aristophanes, Ausonius, Prudentius, Valerius Flaccus, and Bacchylides as well as works in French, Spanish, Portuguese, and Hebrew. In this volume, he avoids personal intrusion on the texts and relies upon the theatrical machinery of the plays themselves. The result is a major contribution to the art

of translation and a version of the Oedipus plays that will appeal enormously to readers, theatre directors, and actors.

Cumulated Index Medicus - 1995

Foucault's Nietzschean

Genealogy - Michael Mahon 1992-01-01

This is the first full-length study of the impact of Friedrich Nietzsche's writings on the thought of French philosopher Michel Foucault. Focusing on the notion of genealogy in the thought of both Nietzsche and Foucault, the author explores the three genealogical axes-- truth, power, and the subject-- as they gradually emerge in Foucault's writings. This

complex of axes into which Foucault was drawn, especially as a result of his early history of madness, called forth his explicit adoption of a Nietzschean approach to his future work. By interpreting Foucault's *Histoire de la folie* in the light of Nietzsche's genealogy of tragedy, Mahon shows how the moral problematization of madness in history provides the historical conditions from which the three axes emerge. After tracing the gradual emergence of the three axes through Foucault's writings of the remainder of the 1960s, especially *Les Mots et les choses*, Mahon turns to Foucault's explicit methodological statements and his notion of genealogy and offers a reading of Foucault's *L'archéologie du savoir*, arguing that there is no chasm between Foucault's archaeological writings and his genealogies. The work concludes with an analysis of Foucault's final writings on the genealogy of modern subjectivity and an examination

of how truth, power, and the subject operate for the modern psychoanalytic subject of desire.

Secrets of Western Sex Magic - U. D. (Frater) 2001

HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED
Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires. During the sex act, your attention becomes focused into a "laser beam" of concentration. This power of concentrated thought is the foundation of all magical systems. Sex Magic's "secret" is that it's a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals. Male and female energies are often entirely different and it would be folly to deny this; but experience shows that female magicians can be particularly successful in using and developing Sex Magic. Consequently, this book is aimed at both male and female readers unlike more traditional

teachings written for men. Of all secret lore, Sex Magic has been reputed through the centuries to be the most dangerous. Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions. If we learn one thing from the shamanic cultures, it is the strong emphasis upon the role of the body in magic. Mind and Body are two facets of the One Thing in which Will, Imagination and Gnostic Trance are the three pillars of success. Contrary to the principles of Eastern Tantra, Western Sex Magic emphasizes the importance of actual orgasm, both male and female. Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible, freeing up possible paranormal powers. Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness, as most people

do at the moment of ecstasy. Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore. It is a complete system of Sex Magic, in theory and practice - with exercises to develop related abilities for visualization, concentration, breath control, psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation, their use in Sigil Magic and the charging of Amulets & Talismans, Group Ritual, and the assumption of god-forms when working as a priestly couple, and the divine "Chymical Marriage" of ultimate union. This book is also an introduction to the entire field of practical magic, using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques.

The Secret Doctrine of the Rosicrucians - William Walker Atkinson

The student of the history of occultism and the esoteric teachings, and even the

average reader of current books and magazines, finds many references to "The Rosicrucians," a supposed ancient secret society devoted to the study of occult doctrines and the manifestation of occult powers. But when such person seeks to obtain detailed information concerning this supposed ancient "order" he finds himself baffled and defeated. Before acknowledging the futility of the quest, however, he usually investigates one or more so-called "orders" having as a part of their title the word "Rosicrucian," only to find himself invited to join such "order" upon the payment of a fee or fees ranging from a small amount in some cases to quite large amounts in others, each "order" claiming to be the "only original order," and asserting that all the others are base imitators. This book will give you all the insights on this secret order.

Shooting Up - Kamieński
2017-08-31

From hallucinogenic mushrooms and LSD, to coca and cocaine; from Homeric warriors and the Assassins to the first Gulf War and today's global insurgents — drugs have sustained warriors in the field and have been used as weapons of warfare, either as non-lethal psychochemical weapons or as a means of subversion. Łukasz Kamieński explores why and how drugs have been issued to soldiers to increase their battlefield performance, boost their courage and alleviate stress

and fear — as well as for medical purposes. He also delves into the history of psychoactive substances that combatants 'self-prescribe', a practice which dates as far back as the Vikings. *Shooting Up* is a comprehensive and original history of the relationship between fighting men and intoxicants, from Antiquity till the present day, and looks at how drugs will determine the wars of the future in unforeseen and remarkable ways.
