**In Cold Blood** - Truman Capote 2013-02-19  
Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library’s new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany’s* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete*

*Stories* Truman Capote’s masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the “new journalism.” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “I thought he was a very nice gentleman,” he says of Herb Clutter. “Soft-spoken. I thought so right up to the moment I cut his throat.” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers’ flight, Capote’s account is so detailed that the reader comes to feel almost like a participant in the events.

*Lifestyle Politics and Radical Activism* - Laura Portwood-Stacer 2013-08-29

Attempts by people to enact their political beliefs in their daily lives have become commonplace in contemporary US culture, in spheres ranging from shopping habits to romantic attachments. This groundbreaking book examines how collective social movements have cultivated individual practices of "lifestyle politics" as part of their strategies of resistance, and the tensions they must navigate in doing so. Drawing on feminism and other movements that claim that "the personal is political," the book explores how radical anarchist activists position

their own lifestyles within projects of resistance. Various lifestyle practices, from consumption to personal style to sexual relationships, are studied to address how identity and cultural practices can be used as tools of political dissent. An accessible and provocative text, *Lifestyle Politics and Radical Activism* blends theory with empirical materials to highlight issues that are important not only to anarchists, but also to anyone struggling for social change. This unique analysis will contribute to the development of anarchist theory and practice and will appeal to anyone interested in political activism and social movements.

*Feminism Seduced* - Hester Eisenstein

2015-12-03

In a pioneering reinterpretation of the role of mainstream feminism, Eisenstein shows how the ruling elites of developed countries utilize women's labor and the ideas of women's liberation and empowerment to maintain their economic and political power, both at home and abroad. Her explorations range from the abolition of "welfare as we know it" and the ending of the family wage in the United States to the creation of export-processing zones in the global South that depend on women's "nimble fingers"; and from the championing of microcredit as a path to women's empowerment in the global South to the claim of women's presumed liberation in the West as an ideological weapon in the war on terrorism. Eisenstein challenges activists and intellectuals to recognize that international feminism is at a fateful crossroads, and argues that it is crucial for feminists to throw in their lot with the progressive forces that are seeking alternatives to globalized corporate capitalism.

## **A Circular Economy Handbook for Business and Supply Chains** - Catherine Weetman

2016-12-03

WINNER: Les Plumes des Achats 2018 -

Committee Special Prize A Circular Economy Handbook for Business and Supply Chains is an easily digestible and comprehensive handbook that provides a clear guide to the circular economy, helping the reader create future-fit, sustainable strategies. Real examples across a range of market sectors help businesses, students and policymakers understand the theory and fast-developing practice of the circular economy. To help the reader generate ideas, A Circular Economy Handbook for Business and Supply Chains provides a holistic framework for the design and supply chain and supporting business models, and includes tools the reader can use to get started. Whilst growing global consumption presents fantastic business opportunities, our current linear systems (take some materials, make a product, use it and then throw it away) are not fit for purpose. The circular economy unlocks this problem by decoupling resources from consumption. Engaged businesses are re-thinking product design, material choices, business models and supply chains. A Circular Economy Handbook for Business and Supply Chains is a must-read for anyone who wants to apply the circular economy today. Online resources now available: PowerPoint slides of figures and tables from every chapter created by the author.

## Straight - Hanne Blank 2012-01-31

It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

**The Robert Lehman Collection** - Sandra Hindman 2012-10-01

The miniatures and cuttings from medieval and Renaissance manuscripts in the Robert Lehman Collection represent the major schools of

illumination that flourished in Europe from the fourteenth to the sixteenth century. Robert Lehman must have considered illuminations above all an extension of his great collection of Italian, French, German, and Netherlandish paintings. In a broader sense, they manifested one more facet of the interest in early European art that led him also to collect exceptional Netherlandish and German drawings of the fifteenth and early sixteenth centuries. Among the small but choice selection of illuminations catalogued here are a leaf painted for the Hours of Etienne Chevalier by Jean Fouquet, the most celebrated French painter of the fifteenth century; a miniature by the "prince d'enluminure," Simon Marmion, painted for a Breviary for Charles the Bold and Margaret of York; and, among the Italian cuttings, a Last Judgment in an Initial C by the great Florentine painter Lorenzo Monaco and an Adoration of the Magi by Francesco Marmitta that is accompanied by a letter attesting to its sixteenth-century papal provenance. A Self-portrait by Simon Bening and a Virgin and Child signed by Francesco Morone are early instances of small paintings on parchment conceived as independent works of art rather than illustrations for manuscripts. A miniature Holy Face by Gerard David may have been meant as an independent devotional image, or it could as easily have illuminated a book. A biography of each artist and copious illustrations supplement the extensive catalogue entries, which place each of the illuminations in an art historical context that is as specific as possible. (This title

was originally published in 1997/98.)
