The Sultan's Renegades - Tobias P. Graf 2017

The figure of the renegade - a European Christian or Jew who had converted to Islam and was now serving the Ottoman sultan - is omnipresent in all genres produced by those early modern Christian Europeans who wrote about the Ottoman Empire. 'The sultan's renegades' inserts these 'foreign' converts into the context of Ottoman elite life to reorient the discussion of these individuals away from the present focus on their exceptionality, towards a qualified appreciation of their place in the Ottoman imperial enterprise and the Empire's relations with its neighbors in Christian Europe. Drawing heavily on Central European sources, this study highlights the deep political, religious, and cultural entanglements between the Ottoman Empire and Christian Europe beyond the Mediterranean Basin as the 'shared world' par excellence.

Great Expectations - Charles Dickens 1881

One of the finest novels by iconic British author Charles Dickens, this Victorian tale follows the good-natured orphan Pip as he makes his way through life. As a boy, Pip crosses paths with a convict named Magwitch, a man who will heavily influence Pip's adulthood. Meanwhile, the earnest young man falls for the beautiful Estella, the adoptive daughter of the affluent and eccentric Miss Havisham. Widely considered to be Dickens's last great book, the story is steeped in romance and features the writer's familiar themes of crime, punishment, and societal struggle.

Animals and People in the Ottoman Empire - Suraiya Faroqhi 2010

Açıklama : Similarly to members of other pre-industrial and industrial societies, the subjects of the Ottoman sultans depended on the animals they raised and whether they liked it or not, certain non-domestic animals sharing their home environments had a profound impact on their lives as well. Numerous topics await discussion: quite apart from milk, yoghurt and cheese, honey was in great demand, as it was one of the principal sweeteners in a world where sweet foods were popular yet cane

sugar was scarce and expensive. Bee-keeping was therefore a common activity in Anatolian, Balkan and Syrian villages. For clothing and the outfitting of dwellings, animals also were indispensable: the wool from local sheep served to make cloaks and vests of different qualities, to say nothing of the kelims and carpets that made the reputation of towns like Uşak or Gördes in western Anatolia. Animals were also the principal source of motor energy: in many places horses drove the mills where the inhabitants ground their flour. Most importantly, animals were indispensable to peasants as oxen drew the plough. Throughout Anatolia moreover, ox-drawn carts were common; and in eighteenth- and nineteenth century Istanbul, women often went to the picnic grounds surrounding the city in such conveyances, gaily decorated for the occasion. In a less peaceful vein, before the late 1700s most gunpowder was also a product of horse-driven mills. Well-to-do travellers, but also the Ottoman court and army made extensive use of horses. The sultans' rapid conquest of south-eastern and a sizeable chunk of central Europe would have been impossible without the famous cavalry of sipahis. Fine horses were a source of prestige, and expensive: to celebrate these prized possessions their owners often spent a great deal of money on saddles, saddlecloth and bridles ...

The Sigh - Marjane Satrapi 2011-12-07

From the author of *Persepolis*, comes this illustrated fairy tale. Rose is one of three daughters of a rich merchant who always brings gifts for his girls from the market. Global Design History - Glenn Adamson 2011-03-15

Globalism is often discussed using abstract terms, such as 'networks' or 'flows' and usually in relation to recent history. *Global Design History* moves us past this limited view of globalism, broadening our sense of this key term in history and theory. Individual chapters focus our attention on objects, and the stories they can tell us about cultural interactions on a global scale. They place these concrete things into contexts, such as trade, empire, mediation, and various forms of design practice. Among the varied topics included are: the global underpinnings of Renaissance material culture the trade of Indian cottons in the eighteenth-century the Japanese tea ceremony as a case of 'import substitution' German design in the context of empire handcrafted modernist furniture in Turkey Australian fashions employing 'ethnic' motifs an experimental UK-Ghanaian design partnership Chinese social networking websites the international circulation of contemporary architects. Featuring work from leading design historians, each chapter is paired with a 'response', designed to expand the discussion and test the methodologies on offer.

An extensive bibliography and resource guide will also aid further research, providing students with a user friendly model for approaches to global design. Global Design History will be useful for upper-level undergraduate and postgraduate students, academics and researchers in design history and art history, and related subjects such as anthropology, craft studies and cultural geography.

Heroes of the Valley - Jonathan Stroud 2010

YA. Adventure fiction. Fantasy fiction. Listen then, and I'll tell you again of the Battle of the Rock. But none of your usual wriggling, or I'll stop before I've begun . . . Halli loves the old stories from when the valley was a wild and dangerous place - when the twelve legendary heroes stood together to defeat the ancient enemy, the bloodthirsty Trows. Halli longs for adventure but these days the most dangerous thing in the valley is boredom. He tries to liven things up by playing practical jokes. But when one of his jokes goes too far, he reawakens an old blood feud and finds himself on a hero's quest after all. Along the way he meets a ruthless thief, a murderous rival, and a girl who may just be as fearless as he is . Jonathan Stroud has created an epic saga with a funny, unique spin, and an unforgettable anti-hero.

On Rules - Gherardo Colombo 2015-11-13

When talking about justice, we mean more than its day-to-day administration involving officials, institutions, and those most affected. We also refer to an ideal: a set of basic values which guide living together and infuse the distribution of rights and duties, options and obligations, freedoms and restrictions. Losing this reference point means the administration of justice will suffer too, by having lost its sense of direction. With thirty years' experience in the Italian judiciary and dozens of influential judicial inquiries to his name Gherardo Colombo reflects on the culture of justice and the profound meaning of rules. Without respecting rules, we cannot live in society.
