2012-12-21

In celebration of the 50th anniversary of Mars Attacks, this comprehensive book is the first-ever compilation of the infamous science-fiction trading card series produced by Topps in 1962. Edgy, subversive, and darkly comedic, this over-the-top series depicting a Martian invasion of Earth has a loyal following and continues to win new generations of fans. For the first time, this book brings together high-quality reproductions of the entire original series, as well as the hard-to-find sequel from 1994, rare and never-before-seen sketches, concept art, and test market materials. Also included are an introduction by series co-creator Len Brown and an afterword by Zina Saunders, daughter of the original artist, providing an insider’s behind-the-scenes view of the bizarre

and compelling world of Mars Attacks. Includes four Mars Attacks trading cards. Includes preliminary sketches and artwork, including a facsimile of the original trading card mechanical on the inside back cover, with reproduction of the 1962 handwriting from the original Topps production department. Praise for Mars Attacks: “The best thing about this 50th-anniversary book is that it frees Mars Attacks from rose-tinted memory.”

—NPR.org “The work produced by writer Len Brown and artist Norm Saunders, collected now in the anthology Mars Attacks: 50th Anniversary Collection . . . continues to pass muster as a lurid snapshot of sci-fi paranoia at its most pulp-fictiony.”

—Wired.com “It’s like a mini-museum of alien grotesquerie between two solid covers, depicting all the iterations of the series, with further treatments by modern illustrators, and sketchbook reproductions, and names, dates, and times. Calendar: - David Ewing
Duncan 1998-07-01

The adventure spans the world from Stonehenge to astronomically aligned pyramids at Giza, from Mayan observatories at Chichen Itza to the atomic clock in Washington, the world's official timekeeper since the 1960s. We visit cultures from Vedic

India and Cleopatra's Egypt to Byzantium and the Elizabethan court; and meet an impressive cast of historic personages from Julius Caesar to Omar Khayyam, and giants of science from Galileo and Copernicus to Stephen Hawking. Our present calendar system predates the invention of the telescope, the mechanical clock, and the concept of zero and its development is one of the great untold stories of science and history. How did Pope Gregory set right a calendar which was in error by at least ten lull days? What did time mean to a farmer on the Rhine in 800 A.D.? What was daily life like in the Middle Ages, when the general population reckoned births and marriages by seasons, wars, kings' reigns, and saints' days? In short, how did the world

The Green Brain - Frank Herbert
2002-09-16

In an overpopulated world seeking living room in the

jungles, the International Ecological Organization was systematically exterminating the voracious insects which made these areas uninhabitable. Using deadly foamal bombs and newly developed vibration weapons, men like Joao Martinho and his co-workers fought to clear the green hell of the Mato Grosso. But somehow those areas which had been completely cleared were becoming reinfested, despite the impenetrable vibration barriers. And tales came out of the jungles . . . of insects mutated to incredible sizes . . . of creatures who seemed to be men, but whose eyes gleamed with the chitinous sheen of insects. . . . A fascinating examination of the fragile balance between consciousness, man and insect from one of the best-loved science fiction creators of all time. The Everything Store - Brad Stone 2013-10-15

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything

store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.
