**National Park Roads** - Timothy Davis  
2016-08-19

From Acadia and Great Smoky Mountains to Zion and Mount Rainier, millions of visitors tour

America's national parks. While park roads determine what most visitors see and how they see it, however, few pause to consider when, why, or how the roads they travel on were built. In this extensively researched and richly illustrated book, national parks historian Timothy Davis highlights the unique qualities of park roads, details the factors influencing their design and development, and examines their role in shaping the national park experience--from the Blue Ridge Parkway and Skyline Drive to Glacier National Park's Going-to-the-Sun Road, Yellowstone's Grand Loop, Yosemite's Tioga Road, and scores of other scenic drives. Decisions about park road development epitomize the central challenge of park management: balancing preservation and access in America's most treasured landscapes. Park roads have been celebrated as technical and aesthetic masterpieces, hailed as democratizing influences, and vilified for invading pristine wilderness with the sights, sounds, and smells of

civilization. Davis's recounting of efforts to balance the interests of motorists, wilderness advocates, highway engineers, and other stakeholders offers a fresh perspective on national park history while providing insights into evolving ideas about the role of nature, recreation, and technology in American society. Tales of strong personalities, imposing challenges, resounding controversies, and remarkable achievements enliven this rich and compelling narrative. Key players include many of the most important figures of conservation history--John Muir, Frederick Law Olmsted, wilderness advocates Aldo Leopold, Bob Marshall, and Ansel Adams, and NPS directors Stephen Mather and Horace Albright among them. An engrossing history, National Park Roads will be of interest to national park enthusiasts, academics, design professionals, resource managers, and readers concerned with the past, present, and future of this quintessentially American legacy. As the

National Park Service celebrates its centennial, this book offers a fascinating and illuminating account of the agency's impact on American lives and landscapes.

**Subpar Parks** - Amber Share 2021-07-13

**\*\*A New York Times Bestseller!\*\*** Based on the wildly popular Instagram account, Subpar Parks features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. Subpar Parks, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative, amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Millions of visitors each year enjoy Glacier National Park, but for one visitor, it was simply "Too cold for me!" Another

saw the mind-boggling vistas of Bryce Canyon as "Too spiky!" Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well as have a good read (and laugh) once they come indoors.

*Night Photography and Light Painting* - Lance Keimig 2015-05-15

[The Magic of Light Painting](#) - Tim Cooper  
2014-04-28

Painting with light is magical. The flashlight is your brush and the scene is your canvas. Imagination and experimentation are your workflow. You control how long the beam strikes the subject, which angle it comes from, the color and softness of the light, and which part of the scene is illuminated. Few other forms of photography allow this level of creativity. Whether you're shooting starry landscapes or urban architecture, pro photographer Tim

Cooper will help you create and capture high-quality light painting images. In this detailed step-by-step guide you will: Understand how to focus and set your DSLR camera settings while working in the dark Learn how to calculate ambient exposure, ISO, f-stop, shutter speed, and white balance Discover light painting accessories and pro techniques for controlling the angle of light, intensity, beam width, and filtration Extend your night vision by preparing and processing your images in Adobe Lightroom and Photoshop, including blending multiple images

*The Case against Education* - Bryan Caplan  
2019-08-20

Why we need to stop wasting public funds on education Despite being immensely popular—and immensely lucrative—education is grossly overrated. Now with a new afterword by Bryan Caplan, this explosive book argues that the primary function of education is not to enhance students' skills but to signal the qualities of a good employee. Learn why students hunt for easy As only to forget most of what they learn after the final exam, why decades of growing access to education have not resulted in better jobs for average workers, how employers reward workers for costly schooling they rarely ever use, and why cutting education spending is the best remedy. Romantic notions about education being "good for the soul" must

yield to careful research and common sense—The Case against Education points the way.

## SMITHSONIAN ENGAGEMENT CALENDAR 2022 - SMITHSONIAN INSTITUTE. 2021

*Unlikely Loves* - Jennifer S. Holland 2013-10-08  
*Unlikely Friendships* is the phenomenal New York Times bestseller that's spent 44 weeks on the list and has 615,000 copies in print. It's struck a chord with media, from CBS This Morning to USA Today, and Temple Grandin has praised it as "amazing. It shows the power of friendship." Now its author, Jennifer Holland, who writes about animal relationships with insight, compassion, and a fine narrative touch, explores animal attachments that, in human terms, can only be called love. Packed with beautiful, breathtaking full-color photographs, *Unlikely Loves* is a celebration of love between species. Here are stories of parental love, like the Dalmatian who mothers a newborn lamb—a lamb that just happens to be white with black spots! Stories of playful love, including the fox and the hound who become inseparable. And

stories of orphaned animals who have found family-like ties in unexpected combinations, like the elephant who's bonded with sea lions, goats, and other animals in her walks around the Oregon Zoo. Ms. Holland has interviewed scientists, zoologists, and animal caretakers from around the world, tracking down firsthand sources and eyewitnesses. The stories are written with journalistic integrity and detail—and always filled with the author's deep affection for her subjects.

**Ranger Confidential** - Andrea Lankford  
2010-04-02

For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job

in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. Ranger Confidential is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

### **The American Environment Revisited -**

Geoffrey L. Buckley 2018-03-01

This innovative book provides a dynamic—and often surprising—view of the range of environmental issues facing the United States today. A distinguished group of scholars examines the growing temporal, spatial, and

thematic breadth of topics historical geographers are now exploring. Seventeen original chapters examine topics such as forest conservation, mining landscapes, urban environment justice, solid waste, exotic species, environmental photography, national and state park management, recreation and tourism, and pest control. Commemorating the twenty-fifth anniversary of the publication of the seminal work *The American Environment:*

*Interpretations of Past Geographies*, the book clearly shows much has changed since 1992.

Indeed, not only has the range of issues expanded, but an increasing number of geographers are forging links with environmental historians, promoting a level of intellectual cross-fertilization that benefits both disciplines. As a result, environmental historical geographies today are richer and more diverse than ever. *The American Environment Revisited* offers a comprehensive overview that gives both specialist and general readers a fascinating look

at our changing relationships with nature over time.

### The Poisoned City - Anna Clark 2018-07-10

When the people of Flint, Michigan, turned on their faucets in April 2014, the water pouring out was poisoned with lead and other toxins. Through a series of disastrous decisions, the state government had switched the city's water supply to a source that corroded Flint's aging

lead pipes. Complaints about the foul-smelling water were dismissed: the residents of Flint, mostly poor and African American, were not seen as credible, even in matters of their own lives. It took eighteen months of activism by city residents and a band of dogged outsiders to force the state to admit that the water was poisonous. By that time, twelve people had died and Flint's children had suffered irreparable harm. The long battle for accountability and a humane response to this man-made disaster has only just begun. In the first full account of this American tragedy, Anna Clark's *The Poisoned City* recounts the gripping story of Flint's poisoned water through the people who caused it, suffered from it, and exposed it. It is a chronicle of one town, but could also be about any American city, all made precarious by the neglect of infrastructure and the erosion of democratic decision making. Places like Flint are set up to fail—and for the people who live and work in them, the consequences can be fatal.

*The Testing Charade* - Daniel Koretz 2017-08-31  
For decades we've been studying, experimenting with, and wrangling over different approaches to improving public education, and there's still little consensus on what works, and what to do. The one thing people seem to agree on, however, is that schools need to be held accountable—we need to know whether what they're doing is actually working. But what does that mean in practice? High-stakes tests. Lots of them. And that has become a major problem. Daniel Koretz, one of the nation's foremost experts on educational testing, argues in *The Testing Charade* that the whole idea of test-based accountability has failed—it has

increasingly become an end in itself, harming students and corrupting the very ideals of teaching. In this powerful polemic, built on unimpeachable evidence and rooted in decades of experience with educational testing, Koretz calls out high-stakes testing as a sham, a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement. Rather than setting up incentives to divert instructional time to pointless test prep, he argues, we need to measure what matters, and measure it in multiple ways—not just via standardized tests. Right now, we're lying to ourselves about whether our children are learning. And the longer we accept that lie, the more damage we do. It's time to end our blind reliance on high-stakes tests. With *The Testing Charade*, Daniel Koretz insists that we face the facts and change course, and he gives us a blueprint for doing better.  
*Unlikely Friendships* - Jennifer S. Holland  
2011-06-15

The “irresistible” New York Times bestseller that “features heartwarming stories of interspecies love and adorable photographs” (The New York Times Book Review). Written by National Geographic magazine writer Jennifer Holland, *Unlikely Friendships* documents one heartwarming tale after another of animals who, with nothing else in common, bond in the most unexpected ways. A cat and a bird. A mare and a fawn. An elephant and a sheep. A snake and a hamster. The well-documented stories of Koko the gorilla and All Ball the kitten; and the hippo Owen and the tortoise Mzee. And almost inexplicable stories of predators befriending prey—an Indian leopard slips into a village every night to sleep with a calf. A lioness mothers a baby oryx. Holland narrates the details and arc of each story, and offers insights into why—how the young leopard, probably motherless, sought maternal comfort with the calf, and how a baby oryx inspired the same mothering instinct in the lioness. Or, in the story of Cashew, the lab mix

that was losing his eyesight, and Libby, the stray cat who began to guide the dog’s way through the house and yard. With Libby, Cashew lived out his last few years with loving support and a lasting friendship. These are the most amazing friendships between species, collected from around the world and documented in a selection of full-color candid photographs. “The feel-good book of the summer—maybe the year—may very well be *Unlikely Friendships*.” —USA Today “With aww-inducing photographs, the book highlights the most improbable animal connections.” —National Geographic

**Grammar for a Full Life** - Larry Weinstein  
2020

American Grown - Michelle Obama 2012-05-29  
#1 NEW YORK TIMES BESTSELLER • The former First Lady, author of *Becoming*, and producer and star of *Waffles + Mochi* tells the inspirational story of the White House Kitchen Garden and how gardens can transform our lives and the health of our communities. Early in her tenure as First Lady, despite being a novice gardener, Michelle Obama planted a kitchen garden on the White House's South Lawn. To her delight, she watched as fresh vegetables, fruit, and herbs sprouted from the ground. Soon the White House Kitchen Garden inspired a new conversation all across the country about the food we feed our families and the impact it has

on the nutrition and well-being of our children. In *American Grown*, Mrs. Obama invites you inside the White House Kitchen Garden, from the first planting to the satisfaction of the seasonal harvest. She reveals her early worries and struggles—would the new plants even grow?—and her joy as lettuce, corn, tomatoes, collards and kale, sweet potatoes and rhubarb flourished in the freshly tilled soil. She shares the stories of other gardens that have moved and inspired her on her journey across the nation. And she offers what she learned about planting your own backyard, school, or community garden. *American Grown* features:

- a behind-the-scenes look at every season of the garden's growth
- unique recipes created by White House chefs
- striking original photographs that bring the White House garden to life
- a fascinating history of community gardens in the United States

From a modern-day vegetable truck that brings fresh produce to underserved communities in Chicago, to Houston office

workers who make the sidewalk bloom, to a New York City school that created a scented garden for the visually impaired, to a garden in Winston-Salem, North Carolina, that devotes its entire harvest to those less fortunate, *American Grown* isn't just the story of a single garden. It's a celebration of the bounty of our nation and a reminder of what we can all grow together.

East Branch & Lincoln Railroad - Erin Paul  
Donovan 2018

Built by James Everell Henry, the East Branch &

Lincoln Railroad (EB&L) is considered to be the grandest and largest logging railroad operation ever built in New England. In 1892, the mountain town of Lincoln, New Hampshire, was transformed from a struggling wilderness enclave to a thriving mill town when Henry moved his logging operation from Zealand. He built houses, a company store, sawmills, and a railroad into the East Branch of the Pemigewasset River watershed to harvest virgin spruce. Despite the departure of the last EB&L log train from Lincoln Woods by 1948, the industry's cut-and-run practices forever changed the future of land conservation in the region, prompting legislation like the Weeks Act of 1911 and the Wilderness Act of 1964. Today, nearly every trail in the Pemigewasset Wilderness follows or utilizes portions of the old EB&L Railroad bed.
