Routledge International Handbook of Critical Gang Studies - David C. Brotherton 2021-07-29

Routledge International Handbook of Critical Gang Studies is rooted in the instability, inequality and liquidity of the post-industrial era. It understands the gang as a complex and contradictory phenomenon; a socio-historical agent that reflects, responds to and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological and anthropological traditions, it looks beyond pathological, ahistorical and non-transformative approaches, and considers other important factors that produce the phenomenon, whether the historically entrenched racialized power structure and segregation in Chicago; the unconstrained state-abandoned development of favelas in Brazil; or the colonization, displacement and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the "gang" in its various forms and stages of development; An appreciation of the gang as a socio-cultural formation; A race-ethnic and class analysis of the gang that problematizes domain assumptions such as the "underclass"; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations between gangs and the political economy that address the dominant mode of production and exchange; Treatments that demonstrate the historically contingent nature of gangs and their changes across time; The contradictory impact of gang repressive policies, institutions and practices as part of a broader discussion on the nature of the state in specific societies; and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis. Authoritative, multi-disciplinary and international, this book will be of interest to criminologists, sociologists and anthropologists alike, particularly those engaged with critical criminology/sociology, youth crime, delinquency and global social inequality. The Handbook will also be of interest to policy makers and those in the peacebuilding field.

Free Roll - Brandt Tobler 2017-05-22

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

I Don't Want to Eat Bugs - Rachel Branton 2016-04-08

Bugs are for the birds! Lisbon is hungry and it's hard to wait for dinner. When her animal friends try to help her find something tasty to eat, the real the problems begin! Join Lisbon on her funny misadventures. Each beautiful illustration is designed to inspire the imaginations of children. An activity page at the end of the book allows for more fun as they search for special items in the illustrations. This version of I Don't Want to Eat Bugs has been designed specifically for ebook with a fixed layout and larger text for easy reading. While this is a great read-aloud book for parents, teachers, and other adults to share with children, we have chosen fonts that are similar to the way children form letters for easy recognition as they begin to read on their own. The print book is also available in 8.5" x 11" format. Author's Note: I Don't Want to Eat Bugs was written for my daughter, who was two when I wrote this story and didn't like salad, but now she's four and a half and loves it—if I give her plenty of salad dressing! (But don't worry—this isn't a book about eating salad.) Of course birds, cats, and dogs have a very different idea of what's good to eat, but through this fun adventure, Lisbon learns there is also food meant just for her—and it's good, especially compared with all the offerings from her animal friends. My daughter and I privately call this book the "Ice Cream Story" (she LOVES ice cream so there had to be ice cream involved), and now whenever something funny happens, she says, "We should write a new ice cream story about that." And we have! I Don't Want to Eat Bugs is the first book in a planned series called Lisbon's Misadventures. I've written the next three books in the series, and Tim Petersen is hard at work creating the illustrations. Tim is obviously a fabulous artist, and I'm excited to be working with him. You can sign up on my website to learn when the next book comes out (<http://teylarachelbranton.com/>). Thank you and enjoy!

[Ambush Alley](#) - Tim Pritchard 2007-12-18

March 23, 2003: U.S. Marines from the Task Force Tarawa are caught up in one of the most unexpected battles of the Iraq War. What started off as a routine maneuver to secure two key bridges in the town of Nasiriyah in southern Iraq degenerated into a nightmarish twenty-four-hour urban clash in which eighteen young Marines lost their lives and more than thirty-five others were wounded. It was the single heaviest loss suffered by the U.S. military during the initial combat phase of the war. On that fateful day, Marines came across the burned-out remains of a U.S. Army convoy that had been ambushed by Saddam Hussein's forces outside Nasiriyah. In an attempt to rescue the missing soldiers and seize the bridges before the Iraqis could destroy them, the Marines decided to advance their attack on the city by twenty-four hours. What happened next is a gripping and gruesome tale of military blunders, tragedy, and heroism. Huge M1 tanks leading the attack were rendered ineffective when they became mired in an open sewer. Then a company of Marines took a wrong turn and ended up on a deadly stretch of road where their armored personal carriers were hit by devastating rocket-propelled grenade fire. USAF planes called in for fire support play their own part in the unfolding cataclysm when they accidentally strafed the vehicles. The attempt to rescue the dead and dying stranded in "ambush alley" only drew more Marines into the slaughter. This was not a battle of modern technology, but a brutal close-quarter urban knife fight that tested the Marines' resolve and training to the limit. At the heart of the drama were the fifty or so young Marines, most of whom had never been to war, who were embroiled in a battle of epic proportions from which neither their commanders nor the technological might of the U.S. military could save them. With a novelist's gift for pace and tension, Tim Pritchard brilliantly captures the chaos, panic, and courage of the fight for Nasiriyah, bringing back in full force the day that a perfunctory task turned into a battle for survival. "Ambush Alley" is a gut-wrenching account of unadulterated terror that's hard to read yet impossible to put down. London-based journalist and filmmaker Tim Pritchard, who was embedded with US troops during the initial stages of the American-led invasion of Iraq, paints a compelling picture of one of the costliest battles of the Iraq war that will at turns anger, horrify, and sadden, regardless of one's political views." --The Boston Globe

The Girl Who Could Dance in Outer Space - An Inspirational Tale About Mae Jemison - Maya Cointreau 2016-03-22

The Girl Who Could Dance in Outer Space is the second book in The Girls Who Could Series. It tells the tale of young Mae Jemison, the creative girl who became a doctor, an engineer, a dancer, and an astronaut. Mae Jemison teaches us that art and science are natural expressions of creativity and imagination. Nurture them both, and go where your dreams take you! The Girls Who Could is a fun, colorful series of stories about real women who have made a difference in the world through inspired action. By giving young girls examples of people who have done big, amazing things, children grow up with a template of achievement upon which to grow and expand their own dreams and goals. Praise for The Girl Who Could Talk to Computers: "Love love love this book! It is perfect for my small niece, who is always building and doing puzzles -- I can't wait for more books from this authors for kids." "This book is a huge hit at home with at my toy store. Kids love the simple, bright pictures. Grown-ups love the intelligently written rhymes that get across the main message and accomplishments of Grace Hopper's innovative life, without boring or confusing the children. There are sixteen, 4-line stanzas, each accompanied by an illustration. The book is perfect for young kids that are just starting to read, and I really like how it is geared towards inspiring girls, yet the drawings and story is not pink and frilly, so it can just as easily be read to boys, too. The main message of the book is that when you use your head "nothing's impossible, you can do it, you bet!"

The Complete Married With Children Book: TV's Dysfunctional Family Phenomenon - Denise Noe 2017-08-13

Married . . . with Children premiered on Fox TV in 1987 and updated the Don Ameche and Frances Langford radio comedy series, The Bickersons, and Jackie Gleason's TV classic, The Honeymooners, with a raunchy, cutting-edge slant that focused on a lovable yet laughable family headed

by endearingly flawed Al (Ed O'Neill), his housework-hating wife, sexy daughter, and randy son. For 11 seasons, the brilliant team of talent put the funk in dysfunctional. Rediscover the exhilarating humor and intellectual excitement in Denise Noe's first book. She delves behind-the-scenes with Michael Moye, Ron Leavitt, Ed O'Neill, Katey Sagal, Christina Applegate, David Faustino, David Garrison, Amanda Bearse, E. E. Bell, and Ritch Shydney. You'll be fascinated by the story of how two rogue writers created a deliberately off-the-wall program; how it almost got derailed before production began; how a controversy could have plucked the series off the air but ended up injecting a much needed shot in the arm; how a reality-based show occasionally—and courageously—ventured into comedy with a fantasy, horror, and/or science fiction spin. [Which Way?](#) - Lidia Stanton 2017-07-07

For page samples, follow the link:

<https://books.lidiastanton.com/whichway> This colourful and highly engaging resource is written for children as young as 4-5 years old but also those in Key Stage 2 of primary school (up to 9 years old) who continue to feel confused by letter and digit shapes. The latter group might become so discouraged that they avoid writing, or write very little, despite having great imaginations. They start doubting their ability to simply 'know' the correct way when writing b/d, p/q, p/g, 9/g, 6/9, s/z, 5/S, S/3, etc. Most teachers and parents are very good at playing down the reversals and encouraging the child to have another go. They say, "It's fine, it's still good writing. I love what you've written here." Yet, after so many attempts and after so many teacher corrections on the page, the child begins to think, "This writing game might not be for me after all". Those with dyslexia will have additional phonological difficulties to manage alongside poor memory for graphic shapes. This workbook is for children who can trace well at speed, thus appear to have developed adequate motor memory in their fingers, yet struggle to remember 'which way' to write the letter or digit. It is very likely that they will be ready to integrate this type of linear visual-spatial information at a later time. For now, they have no real-life representation, or model, of a handful of graphic shapes in their brains, and this, in turn, can affect their confidence in writing independently. This resource offers practical and long-term 'tricks' that will trigger the

child's memory at the right moment. It adopts a complementary approach to traditional letter formation teaching to bridge the gap between children who are proficient graphic writers and those whose brains make different sense of graphic information. Many children with dyslexia and dysgraphia will particularly benefit from completing the workbook. How to use the resource The child doesn't need to work through the entire book. Choose sections that are relevant to their needs. Younger children (aged 4-6) will almost certainly need assistance when working with the resource, although older ones will no doubt choose to work independently, showing their practised strategies and completed activities to teachers and parents. It is recommended that section 7 (Use your whole body) is attempted with the help of an older helper or adult. There are more than one method to help distinguish between b/d/p and s/z in this workbook. Introduce the child to only one method at a time, evaluate the child's progress, and decide whether there is a need to move on to the next one. Some children are more practical than visual - the 'Use your hands' strategy might be sufficient for them. Other children might enjoy more visual strategies in sections 4, 5 and 6. In my

experience, section 7 (Use your whole body) works well with children who need to 'experience' concepts in a multi-sensory manner. Pay attention to the child's initial response to a particular method. It will guide you along. You can mix and match strategies. Some children don't confuse b/d as much but struggle with p/9. Some activities can be completed independently of the section the child is currently working through. For example, Activity 7 can be attempted after completing the 'Use your hands' section. Flick through the book to decide which activities appear to be suitable to the child's current progress.
