Business Tenancies - Russell Hewitson 2016-07-22

A considerable amount of commercial property work is concerned with the renewal of business tenancies under Part II of the Landlord and Tenant Act 1954. Business Tenancies provides the busy practitioner

with a detailed and practical guide to all aspects of the law and procedure involved in the renewal of business tenancies under the 1954 Act and the often complex issues which can arise. It offers practical answers to problems which commercial property professionals may encounter when dealing with renewals. This new title will equip

commercial property professionals with a thorough practical knowledge of the relevant statutory provisions and case law. The implications of the Civil Procedure Rules 1998 are considered in detail. It also deals with the right to compensation for improvements. The text takes into account recent case law as well as the reforms introduced by the Regulatory Reform (Business Tenancies) (England and Wales) Order 2003.

The East India Company at Home, 1757-1857 - Margot Finn 2018-02-15

The East India Company at Home, 1757-1857 explores how empire in Asia shaped British country houses, their interiors and the lives of their residents. It includes chapters

from researchers based in a wide range of settings such as archives and libraries, museums, heritage organisations, the community of family historians and universities. It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain. The volume focuses on the propertied families of the East India Company at the height of Company rule. From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857, objects, people and wealth flowed to Britain from Asia. As men in Company service increasingly shifted their activities from trade to military expansion and political administration, a new population of civil servants, army officers, surveyors and surgeons journeyed to India to make their fortunes. These Company men and their families acquired wealth, tastes and identities in India, which travelled home with them to Britain. Their stories, the

biographies of their Indian possessions and the narratives of the stately homes in Britain that came to house them, frame our explorations of imperial culture and its British legacies.

The Income Approach to Property Valuation - Andrew Baum 2017-12-22

A classic textbook that has guided generations of students through the intricacies of property valuation, *The Income Approach to Property Valuation* remains a keen favourite amongst students and teachers alike. This new edition has been thoroughly revised and updated to meet the increasingly international perspectives of modern Real Estate students. The links between theory and practice are clearly demonstrated throughout, with a range of new international case studies and practice-based examples. *The Income Approach to Property Valuation* teaches readers: how to analyse market rents and sales prices to derive market evidence to support an opinion of market value; the investment method of valuation and how it is applied in practice; how specific legal factors can impact on market

value when they interfere with market forces; what the market and the profession may consider to be the 'right' methodology in today's market place; and how to use spreadsheets in valuation. This extensively revised new edition is perfect both for students on Real Estate courses worldwide and for professional candidates working towards their final assessment of professional competence (APC) for the Royal Institution of Chartered Surveyors, needing to demonstrate a valuation competence at levels 2 and 3. Construction Law - Julian Bailey 2016-07-22

Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices

worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a "tour de force", and by His Honour Humphrey Lloyd QC as "seminal" and "definitive". This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.
