Something about his living room seems not quite right--the room is bright, when he's certain he'd left the curtains closed. Rewinding through the feed, he sees an intruder. When he shifts to the bedroom camera, he sees the dead body. Martin T. Livermore is the key suspect in the abduction and murder of at least five women, but he's never been this sloppy before. When the FBI finally catches him in Scottsdale, he declares he'll only talk to one person: a retired police officer from Detroit, now a private investigator living in the tiny town of Paradise, Michigan. A man named Alex McKnight. Livermore means nothing to McKnight, but it soon becomes clear McKnight means something to Livermore...and that Livermore's capture was only the beginning of an elaborate, twisted plot with McKnight at the center. In a hunt that will take him across the country and to the edge of his limits, McKnight fights to stop a vicious killer before he can exact his ultimate revenge. And his grand finale will cut closer to home than he ever could have imagined.

House Rules - Jodi Picoult 2010-04-03

From the #1 New York Times bestselling author of Small Great Things and the modern classics My Sister's Keeper, The Storyteller, and more, comes a "complex, compassionate, and smart" (The Washington Post) novel about a family torn apart by a murder accusation. When your son can't look you in the eye...does that mean he's guilty? Jacob Hunt is a teen with Asperger's syndrome. He's hopeless at reading social cues or expressing himself well to others, though he is brilliant in many ways. He has a special focus on one subject--forensic analysis. A police scanner in his room clues him in to crime scenes, and he's always showing up and telling the cops what to do. And he's usually right. But when Jacob's small hometown is rocked by a terrible murder, law enforcement comes to him. Jacob's behaviors are hallmark Asperger's, but they look a lot like guilt to the local police. Suddenly the Hunt family, who only want to fit in, are thrust directly in the spotlight. For Jacob's mother, it's a brutal reminder of the intolerance and misunderstanding that always threaten her family. For his brother, it's another indication why nothing is normal because of Jacob. And for the frightened small town, the soul-searing question looms: Did Jacob commit murder? House Rules is "a provocative story in which [Picoult] explores the pain of trying to comprehend the people we love--and reminds us that the truth often travels in disguise" (People).

Reclaiming Conversation - Sherry Turkle 2016-10-04

"In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on." —Aziz Ansari, author of Modern Romance Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection.

Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don't have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents' attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with – a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered:

these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.
