Based on their analysis of over 300 of Obama's appearances worldwide, from the 1990s until August 2011, and by utilizing their more than twenty-five years of experience, international communication guru Gil Peretz, and Defense Counsel and NLP expert Nili Peretz, have cracked the secret code of Obama's techniques and show you, step-by-step, how his "magical rhetoric skills" can translate into your own success. In the first part of the book, you will be exposed to the "street smarts" that will help you transform your messages so that they will penetrate the hearts and souls of your listeners. Part two will show you how the way you think helps to influence and persuade. Something more is required beyond tactics and methods, something much more basic and profound related to our way of thinking. In the third part, you will become acquainted with Obama's "message engineering." You will be provided with a simple implementation toolkit that will enable you to quickly improve the way you convey your messages in all areas. You will be able to use the secrets of other charismatic leaders such as Winston Churchill, John Kennedy, and Bill Clinton, and business pioneers such as Steve Jobs, Jack Welch, and Stephen Covey. people fall in love with him in 2008 and become enthralled by his messages, and you will get to know how to activate these secrets of infatuation. You will upgrade your skills in creating human chemistry and intimate closeness with a heterogeneous audience—the key to influencing and leading people. Part five will expose you to the right tools to communicate with the "right brain" and tap into the subconscious mind of your listeners. It works like magic. You will be exposed to the naturalness with which the mind absorbs stories and the way in which they directly penetrate the subconscious. After that, you will see how Obama uses "thought programs" to "program" the audience's mind and "glue" messages thereto. You can use these secrets too, and—no less important—you will upgrade your alertness level when others try to influence you. In the sixth part you will learn how Obama uses effective linguistic patterns to convey messages. Here, too, you will be provided with a very useful toolbox, with emphasis not only on the tools themselves, but also on the reasons why these tools are effective. And finally, you will be exposed to the power of non-verbal communication, which is an integral part of any interpersonal communication. Often it is not what you say; it's how you say it. A brief and concise summary on the last page of each chapter will allow you to use the book quickly and efficiently when preparing for your next presentation, speech, or sales call. Do you want to be Magnetizing? Charismatic? Eloquent? Captivating? Persuasive? Heart-piercing? A master of words? When you know what they are, you will be able to use Obama's secrets in order to communicate your messages like a pro, inspire any audience, stimulate action, and gain a competitive advantage. *Obama's Secrets: How to Speak and Communicate with Power and a Little Magic* will transform the way you plan, prepare and practice for your next presentation, media appearance, or sales meeting—in a way no other book can. *The 48 Laws of Power* - Robert Greene 2010-09-03

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red

throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it.

*The Art of Public Speaking* - Anthony Ekanem 2016-08-03

Any guide to success in an endeavor will tell you that there is no magic formula to success. But in a lot of fields of endeavor, there seem to be "insider secrets". And taking on the challenge of becoming a truly great public speaker is a noble ambition. But if you could learn the insider secret that makes the difference between good public speakers and great ones that would help you make that transition. Actually there is one great secret to what makes speakers that really shine in front of a group so great. But it is not magic or something that you can take as a pill, and an

hour later, you are ready to stand up and dazzle the crowd. It is a very simple process that is something you already know a lot about. It is just simple, old fashioned hard work and preparation. The further in advance you can start getting ready for a presentation, the better your public speaking will be. You know that feeling of terror that you experience when you address a crowd. Well, you may not be able to pinpoint why that feeling comes upon you. But many times it comes up because you are not completely prepared and you do not know what to do or how it will go because the material is not as well developed as it should be. If you put the work in on your presentation, it will make all the difference in the world when you stand up to give your presentation. First of all, make sure the content meets your standards. You should make that speech compelling and fascinating to you. And if that presentation is full of great material, it will not only fascinate you but you will be eager to get up there and share what you know with your audience. And that eagerness to speak is a very refreshing feeling when it replaces that terror you felt when you did not work hard in advance to make sure the material was well developed in advance. Your audience will notice that big change in your attitude too.
