ANNO 2019 L'AMMINISTRAZIONE - ANTONIO GIANGRANDE

Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Oggi le persone si stimano e si rispettano in base al loro grado di utilità materiale da rendere agli altri e non, invece, al loro valore intrinseco ed estrinseco intellettuale. Per questo gli inutili sono emarginati o ignorati.

The Bates Method for Better Eyesight Without Glasses - William H. Bates 2011-04-01

Better Eyesight Without Glasses is not only the definitive source for the classic Bates Method, it is in itself a remarkable phenomenon. Dr. William H. Bates's revolutionary and entirely commonsensical theory of self-taught improved eyesight has helped hundreds of thousands of people to triumph over normal defects of vision without the mechanical aid of eyeglasses. If you think that your eyesight could be made better by natural methods, you are right. After years of experimentation, Dr. Bates came to the conclusion that many people who wore glasses did not need them. He gradually and carefully developed a simple group of exercises for improving the ability of the eyes themselves to see, eliminating the tension caused by poor visual habits that are the major cause of bad eyesight. These exercises are based on the firm belief that it is the natural function of the eyes to see clearly and that anyone, child or adult, can learn to see better without glasses.

Il racconto della serva Zerlina - Hermann Broch

2016-03-31T00:00:00+02:00

Quando Hannah Arendt lesse questo racconto, così ne scrisse a Broch: «È una delle più grandi storie d'amore che io conosca e personalmente quella che mi è forse più gradita. Qualcosa di così meraviglioso, scritto interamente dalla prospettiva di quell'indimenticabile che risalta solo nel materiale di ciò che si è dimenticato». In un interno aristocratico e decaduto, la serva Zerlina racconta con foga implacabile la storia di una passione demoniaca e di una feroce sete di rivalsa, e svela la sua vendetta, di raffinata perfidia, ai danni del Signor von Juna, fatuo avventuriero che già nel nome ricorda il "Don Giovanni" – così come la stessa Zerlina e la padrona Elvira. Il suo furore finirà per travolgere tutto e tutti, anche l'impostura della rispettabilità coniugale in un'Austria prossima alla rovina, dove i presunti non-colpevoli «affondano» per dirla con Broch «nella colpa etica», in una «colpevole non-colpevolezza».

Rogue Economics - Loretta Napoleoni 2011-01-04

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuted into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

Ultrasound-Guided Liver Surgery - Guido Torzilli 2013-12-17

Ultrasound guidance of liver surgery is a very sophisticated approach that permits the performance of otherwise unfeasible operations, discloses the true extent of tumors, increases the indications for hepatectomy, and renders surgery safer. Despite this, it has remained relatively neglected in the literature over the past two decades, during which time much progress has been achieved. This is the first atlas on the subject, and it is comprehensive in scope. The state of the art in the use of ultrasound for resection guidance is carefully documented, and new techniques for exploration of the biliary tract and facilitation of transplant surgery are presented. Further important topics include the role of ultrasound in laparoscopic approaches, the use of contrast agents for diagnosis and staging, and developments in the planning of surgical strategy. The editor is a leading authority whose group has been responsible for a variety of advances in the field. He has brought together other experts whose aim throughout is to provide clear information and guidance on the optimal use of ultrasound when performing liver surgery. This atlas is intended especially for hepatobiliary surgeons but will also be of considerable value for general surgeons.

I, Richard - Elizabeth George 2008-11-26

"[I, Richard] will leave you dizzy, dazzled and dying for more."—People Hailed by The New York Times as "a master of the British mystery," award-winning author Elizabeth George is one of our most distinguished writers, widely admired by readers on both sides of the Atlantic. Her first collection of short stories is an extraordinary offering that deftly explores the dark side of everyday people—and the lengths to which they will go to get what they want most. . . . In five tantalizing and original tales,

George plumbs the depths of human nature—and human weakness—as only she can. From the chilling tale of a marriage built on an appalling set of lies that only death can reveal . . . to the story of a squabbling group of Anglophiles saved from a killer thanks to Inspector Thomas Lynley . . . to the final, title story about a penniless schoolteacher whose ambition turns murderous, *I, Richard* is filled with page-turning drama, danger, and unmatched suspense. Ironic, revealing, and undeniably entertaining, this imaginative collection proves once again why Elizabeth George is one of today's best-loved authors. *I, Richard* belongs in the library of each and every mystery devotee. Praise for *I, Richard* "Suspenseful and chilling . . . a bonus for fans."—Daily News, New York "Surprisingly light in tone, satirically skewering a variety of unpleasant types while paying homage to time-honored plot devices."—Los Angeles Times "In her first story collection, eminent author George presents five nimbly written and gripping tales, each with a stunning conclusion."—Publishers Weekly

Cancer as a Metabolic Disease - Thomas Seyfried 2012-05-18

The book addresses controversies related to the origins of cancer and provides solutions to cancer management and prevention. It expands upon Otto Warburg's well-known theory that all cancer is a disease of energy metabolism. However, Warburg did not link his theory to the "hallmarks of cancer" and thus his theory was discredited. This book aims to provide evidence, through case studies, that cancer is primarily a metabolic disease requiring metabolic solutions for its management and prevention. Support for this position is derived from critical assessment of current cancer theories. Brain cancer case studies are presented as a proof of principle for metabolic solutions to disease management, but similarities are drawn to other types of cancer, including breast and colon, due to the same cellular mutations that they demonstrate.

Unlocking the Mysteries of Birth and Death - Daisaku Ikeda 2018-03-06

This introduction to Nichiren Buddhism explores the philosophical intricacies of life and reveals the wonder inherent in the phases of birth, aging, and death. Core concepts of Nichiren Buddhism, such as the 10 worlds and the nine consciousnesses, illustrate the profundity of human existence. This book provides Buddhists with the tools they need to fully appreciate the connectedness of all beings and to revolutionize their spiritual lives based on this insight. Also explored are how suffering can be transformed to contribute to personal fulfillment and the well-being of others and how modern scientific research accords with ancient Buddhist views. Ultimately, this is both a work of popular philosophy and a book of compelling, compassionate inspiration for Buddhists and non-Buddhists alike that fosters a greater understanding of Nichiren Buddhism.

Antonio di Padova - Nazareno Fabbretti 2021-09-24T00:00:00+02:00

Antonio da Lisbona cercò a lungo la sua strada: prima fra gli agostiniani e poi fra i francescani, dove finalmente trovò il suo percorso spirituale. Dal Portogallo all'Italia, inseguendo la passione dei martiri francescani del Marocco, senza lasciarsi scoraggiare dall'esperienza di una lunga malattia, ma soprattutto scoprendo, a poco a poco, la forza della Parola di Dio e della predicazione. Dopo Francesco e Chiara (ripubblicati da Edizioni Terra Santa rispettivamente nel 2018 e nel 2019), il terzo romanzo della trilogia di un grande autore religioso del Novecento. La scrittura di Fabbretti è trascinate. Il racconto della vita di uno dei santi più amati nel mondo. La raffinatezza narrativa dell'autore trascina al cuore di una storia affascinante e rocambolesca, un'autentica vocazione mistica.

IL MOVIMENTO 5 STELLE...CADENTI - ANTONIO GIANGRANDE
2016-12-16

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!
