Preference, Belief, and Similarity - Amos Tversky 2003-11-21

Amos Tversky (1937–1996), a towering figure in cognitive and mathematical psychology, devoted his professional life to the study of similarity, judgment, and decision making. He had a unique ability to master the technicalities of normative ideals and then to intuit and demonstrate experimentally their systematic violation due to the vagaries and consequences of human information processing. He created new areas of study and helped transform disciplines as varied as economics, law, medicine, political science, philosophy, and statistics. This book collects forty of Tversky's articles, selected by him in collaboration with the editor during the last months of Tversky's life. It is divided into three sections: Similarity, Judgment, and Preferences. The Preferences section is subdivided into Probabilistic Models of Choice, Choice under Risk and Uncertainty, and Contingent Preferences. Included are several articles written with his frequent collaborator, Nobel Prize-winning economist Daniel Kahneman.

The Sure Thing - Nick Townsend 2014-02-27

_____ The bookies always win. But one man has been proving them wrong for four decades. In the summer of 1975 Barney Curley, a fearless and renowned gambler, masterminded one of the most spectacular gambles of all time with a racehorse called Yellow Sam. With a meticulous, entirely legal plan involving dozens of people, perfectly timed phone calls, sealed orders and months of preparation, Curley and Yellow Sam beat the bookmakers and cost them millions. They said that it could never happen again. But in May 2010, thirty-five years after his first coup, Curley staged the ultimate multi-million-pound-winning sequel. The Sure Thing tells the complete story of how he managed to organise the biggest gamble in racing history - and how he then followed up with yet another audacious scheme in January 2014.

Star Maker - Olaf Stapledon 2008-01-01

This 1937 successor to *Last and First Men* offers another entrancing speculative history of the future. Cited as a key influence by science-fiction masters such as Doris Lessing, its bold exploration of the cosmos ventures into intelligent star clusters and mingles among alien races for a memorable vision of infinity.

Man and His Symbols - Carl G. Jung 1968-08-15

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades

after its conception—a revelatory, absorbing, and relevant experience.

This book is a must for undergraduates as well as an invaluable tool for professionals in sport management and administration in the private public and voluntary sectors.

David and Ameena - Ami Rao 2021-02-04

Modern-day New York, a subway train. David, an American-Jewish jazz musician, torn between his dreams and his parents' expectations, sees a woman across the carriage. Ameena, a British-Pakistani artist who left Manchester to escape the pressure from her conservative family, sees David. When a moment of sublime beauty occurs unexpectedly, the two connect, moved by their shared experience. From this flows a love that it appears will triumph above all. But as David and Ameena navigate their relationship, their ambitions and the city they love, they discover the external world is not so easy to keep at bay. Ami Rao's masterful debut novel picks apart the lives of two people, stripping them of their collective identities and, in doing so, facing up to the challenge of today: can love give us the freedom to accept our differences?

The Big Book of Words You Should Know - David Olsen 2008-12-17

Do you know what "quatrefoil" and "impolitic" mean? What about "halcyon" or "narcolepsy"? This book is a handy, easy-to-read reference guide to the proper parlance for any situation. In this book you will find: Words You Absolutely Should Know (covert, exonerate, perimeter); Words You Should Know But Probably Don't (dour, incendiary, scintilla); Words Most People Don't Know (schlimazel, thaumaturgy, epergne); Words You Should Know to Sound Overeducated (ad infinitum, nugatory, garrulity); Words You Probably Shouldn't Know (priapic, damnatory, labia majora); and more. Whether writing an essay, studying for a test, or trying to impress friends, family, and fellow cocktail party guests with their prolixity, you will achieve magniloquence, ebullience, and flights of rhetorical brilliance.

Mr. Darley's Arabian: High Life, Low Life, Sporting Life: A History of Racing in Twenty-Five Horses - Christopher McGrath 2017-03-07

The audacious and inspired history of horse racing told through the bloodline of twenty-five exceptional Arabian steeds. In 1704 a bankrupt English merchant sent home the colt he had bought from Bedouin tribesmen near the ruins of Palmyra. Thomas Darley hoped this horse might be the ticket to a new life back in Yorkshire. But he turned out to be far more than that, and although Mr. Darley's Arabian never ran a race, 95% of all thoroughbreds in the world today are descended from him. In this book, for the first time, award-winning racing writer Christopher McGrath traces this extraordinary bloodline through twenty-five generations to our greatest modern racehorse, Frankel. The story of racing is about man's relationship with horses, and Mr. Darley's Arabian also celebrates the men and women who owned, trained and traded the stallions that extended the dynasty. The great Eclipse, for instance, was bred by the Duke who foiled Bonnie Prince Charlie's invasion (with militia gathered from Wakefield races) and went on to lead the Jockey Club. But he only became a success once bought and raced by a card-sharp and brothel-keeper - the racecourse has always brought high and

low life together. McGrath expertly guides us through three centuries of scandals, adventures and fortunes won and lost: our sporting life offers a fascinating view into our history. With a canvas that extends from the diamond mines of South Africa to the trenches of the Great War, and a cast ranging from Smithfield meat salesmen to the inspiration for Mr Toad, and from legendary jockeys to not one, but two disreputable Princes of Wales (and a very unamused Queen Victoria), Mr. Darley's Arabian shows us the many faces of the sport of kings.

Of the Decorative Illustration of Books Old and New - Walter Crane 1896

Signs and Symbols - Adrian Frutiger 1998

Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks

Savage Anxieties - Robert A. Williams, Jr. 2012-08-21

Presents an intellectual history of the West's bias against tribalism that explains how acts of war and dispossession have been justified in the name of civilization and have typically victimized tribal groups.

Buffalo Land - William Edward Webb 1872

A description principally of western Kansas and eastern Colorado, including notes on the paleontology of Kansas. Much on hunting in the West, especially buffalo hunts, but also elk, antelope, turkeys, prairie chickens, quail, etc. Information on Indian tribes, their leaders and customs, military forts, exploring, characters met during his travels, etc. He talks at some length about his meeting with Wild Bill Hickok. He elaborates on the technique of "creasing" wild horses during chases to capture them. This is done by shooting at the horse with a rifle bullet that just creases the horse's skull, and renders the horse unconscious for a time sufficient to capture it.

An American Utopia - Fredric Jameson 2016-07-12

Controversial manifesto by acclaimed cultural theorist debated by leading writers Fredric Jameson's pathbreaking essay "An American Utopia" radically questions standard leftist notions of what constitutes an emancipated society. Advocated here are—among other things—universal conscription, the full acknowledgment of envy and resentment as a fundamental challenge to any communist society, and the acceptance that the division between work and leisure cannot be overcome. To create a new world, we must first change the way we envision the world. Jameson's text is ideally placed to trigger a debate on the alternatives to global capitalism. In addition to Jameson's essay, the volume includes responses from philosophers and political and cultural analysts, as well as an epilogue from Jameson himself. Many will be appalled at what they will encounter in these pages—there will be blood! But perhaps one has to spill such (ideological) blood to give the Left a chance. Contributing are Kim Stanley Robinson, Jodi Dean, Saroj Giri, Agon Hamza, Kojin Karatani, Frank Ruda, Alberto Toscano, Kathi Weeks, and Slavoj Žižek.

Playing It My Way - Sachin Tendulkar 2014-11-06

The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing

account of a sporting life like no other.

Centaur - Declan Murphy 2018-03-08

****SHORTLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR 2017**** Coping with your own death, when you are not yet dead, is a strange thing... A natural on a horse since he was able to walk, and imbued with a pure love of riding, Declan Murphy became one of the most brilliant jockeys of his generation before his world came crashing down at the final hurdle of a race at Haydock Park. His skull shattered in twelve places, he was believed to be dead, the last rites were read and the Racing Post prepared his obituary. Miraculously, and the word is not used lightly, he survived and defied medical thinking in recovering to the extent that eighteen months after his fall, he was able to saddle up for one more race. As usual, he won. For 23 years, Declan has been unable to tell his story, to bring to words existence on the frontier between life and death, to describe the incredible bond between man and horse. But now, in an extraordinary collaboration with Ami Rao, she has helped him find those words, a way to piece together what happened before, during and after, what it all meant and what it means to us all. It is a story of triumph, fear, love and loss, by turns primal, heartbreaking and inspirational, and ultimately, it is the story of hope, and of life.

Southern Literature from 1579-1895 - Louise Manly 1895

Body My House - Paul Crumbley 2006-11-30

The first collection of critical essays on May Swenson and her literary universe, *Body My House* initiates an academic conversation about an unquestionably major poet of the middle and late twentieth century. Between the 1950s and the 1980s, May Swenson produced eleven volumes of poetry, received many major awards, was elected chancellor of the Academy of American Poets, and was acclaimed by writers in virtually every school of American poetry. Essays here address the breadth of Swenson's literary corpus and offer varied scholarly approaches to it. They reference Swenson manuscripts—poems, letters, diaries, and other prose—some of which have not been widely available before. Chapters focus on Swenson's work as a nature writer; the literary and social contexts of her writing; her national and international acclaim; her work as a translator; associations with other poets and writers (Bishop, Moore, and others); her creative process; and her profound explorations of gender and sexuality. The first full volume of scholarship on May Swenson, *Body My House* suggest an ambitious agenda for further work. Contributors include Mark Doty, Gudrun Grabher, Cynthia Hogue, Suzann Juhasz, R.R. Knudson, Alicia Ostriker, Martha Nell Smith, Michael Spooner, Paul Swenson, and Kirstin Hotelling Zona.

Ella must obey any order, whether it's to hop on one foot for a day and a half, or to chop off her own head! But strong-willed Ella does not accept her fate... Against a bold backdrop of princes, ogres, giants, wicked stepsisters, and fairy godmothers, Ella goes on a quest to break the curse forever. A tween favorite for 25 years—now shared with today's young readers by moms, teachers, and other adults who remember the pleasure of discovering this fun fairy-tale retelling themselves!

Life in a Jungle - Bruce Grobbelaar 2018-09-22

Bruce Grobbelaar is the most decorated goalkeeper in Liverpool FC's 125-year history. And yet, question marks have followed him around; question marks about his goalkeeping suitability; question marks about his integrity after match fixing allegations were laid against him. Here,

Grobbelaar takes you to Africa, where nothing is at it seems; he takes you back to an era when Liverpool ruled Europe; he takes you to the benches of the Anfield dressing room, where only the strongest personalities survived. For the first time, he takes you inside the court room, detailing the draining fight to clear his name.

The Interpretation of Cultures - Clifford Geertz 2017-08-15

In *The Interpretation of Cultures*, the most original anthropologist of his generation moved far beyond the traditional confines of his discipline to develop an important new concept of culture. This groundbreaking book, winner of the 1974 Sorokin Award of the American Sociological Association, helped define for an entire generation of anthropologists what their field is ultimately about.

Aiming at Targets - Robert C. Seamans 1996

An essential volume in the NASA History Series by Robert C. Seamans, Jr., the Associate Administrator of NASA during the Apollo program. A stirring insider's account of NASA and the manned space program at the highest levels. Relationships with the Department of Defense, the Apollo 204 fire, the assassination of President Kennedy, and more. *Aiming at Targets* is a series of fascinating topical vignettes covering the author's professional life. Taken together, like broad brushstrokes in an impressionist painting, they give a better picture of Bob Seamans and his work than a detailed recitation of facts and dates could hope to do. This is a cheerful account of an interesting and successful career. The book is full of good stories, with many memorable characters. Like the proverbial sundial, it counts the sunny hours.

Quiet Genius - Ian Herbert 2017-05-04

The full story of the man who brought unprecedented - and since unmatched - success to Liverpool FC Bob Paisley was the quiet man in the flat cap who swept all domestic and European opposition aside and produced arguably the greatest club team that Britain has ever known. The man whose Liverpool team won trophies at a rate-per-season that dwarfs Sir Alex Ferguson's achievements at Manchester United and who remains the only Briton to lead a team to three European Cups. From Wembley to Rome, Manchester to Madrid, Paisley's team was the one no one could touch. Working in a city which was on its knees, in deep post-industrial decline, still tainted by the 1981 Toxteth riots and in a state of open warfare with Margaret Thatcher, he delivered a golden era - never re-attained since - which made the city of Liverpool synonymous with success and won them supporters the world over. Yet, thirty years since Paisley died, the life and times of this shrewd, intelligent, visionary, modest football man have still never been fully explored and explained. Based on in-depth interviews with Paisley's family and many of the players whom he led to an extraordinary haul of honours between 1974 and 1983, *Quiet Genius* is the first biography to examine in depth the secrets of Paisley's success. It inspects his man-management strategies, his extraordinary eye for a good player, his uncanny ability to diagnose injuries in his own players and the opposition, and the wicked sense of humour which endeared him to so many. It explores the North-East mining community roots which he cherished, and considers his visionary outlook on the way the game would develop. *Quiet Genius* is the story of how one modest man accomplished more than any other football manager, found his attributes largely unrecorded and undervalued and, in keeping with the gentler ways of his generation, did not seem to mind. It reveals an individual who seemed out of keeping with the brash, celebrity sport football was becoming, and who succeeded on his own terms. Three decades on from his death, it is a football story that demands to be told.

American Poetry: The Twentieth Century Vol. 2 (LOA #116) - 2000-03-20

"The editing is more than brilliant: It is nearly unimaginable how the Library of America team managed to do so much so well. . . . Every possible kind of poem is here in its best examples. No one has ever done a better anthology of modern American poetry, or even come close." — Talk This second volume of the landmark two-volume Library of America anthology of twentieth-century poetry, organized chronologically by the poets' birthdates, takes the reader from E.E. Cummings (1894-1962) to May Swenson (1913-1989). In the wake of the modernist renaissance, American poets continued to experiment with new techniques and themes, while the impact of the Depression and World War II and the continuing political struggle of African Americans became part of the fabric of a literature in transition. New schools and definitions of poetry seemed often to divide the literary scene. This was the era of the Harlem Renaissance, the Objectivists, the Fugitives, the proletarian poets. It was also an era of vigorously individuated voices—knotty, defiant, sometimes eccentric. The range of tone and subject matter is immense: here are Melvin B. Tolson's swirlingly allusive Harlem portraits, Phyllis McGinley's elegant verse transcriptions of suburbia, May Swenson's playful meditations on the laws of physics. The diversity of formal approaches includes the extreme linguistic experiments of Eugene Jolas and Abraham Lincoln Gillespie, Rolfe Humphries's adaptation of traditional Welsh meter, the haiku of Richard Wright, the ballads of Helen Adam and Elder Olson, the epigrams of J.V. Cunningham. A selection of light verse is joined by lyrics from the era's greatest songwriters, including Robert Johnson, Woody Guthrie, and Ira Gershwin. Several important long poems are presented complete, including Hart Crane's *The Bridge*, Louis Zukofsky's *Poem beginning "The"* and Robert Penn Warren's *Audubon: A Vision*. Rounding out the volume are such infrequently anthologized figures as Vladimir Nabokov, James Agee, Tennessee Williams, and John Cage. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Autonomous Horizons - Greg Zacharias 2019-04-05

Dr. Greg Zacharias, former Chief Scientist of the United States Air Force (2015-18), explores next steps in autonomous systems (AS) development, fielding, and training. Rapid advances in AS development and artificial

intelligence (AI) research will change how we think about machines, whether they are individual vehicle platforms or networked enterprises. The payoff will be considerable, affording the US military significant protection for aviators, greater effectiveness in employment, and unlimited opportunities for novel and disruptive concepts of operations. Autonomous Horizons: The Way Forward identifies issues and makes recommendations for the Air Force to take full advantage of this transformational technology.

Into The Arena - Alexander Fiske-Harrison 2011-05-26

'Whether or not the artistic quality of the bullfight outweighs the moral question of the animals' suffering is something that each person must decide for themselves - as they must decide whether the taste of a steak justifies the death of a cow. But if we ignore the possibility that one does outweigh the other, we fall foul of the charge of self-deceit and incoherence in our dealings with animals.' Alexander Fiske-Harrison In a remarkable and controversial book Fiske-Harrison follows the tracks of a whole bullfighting year in Spain. He trains and takes part in the sport himself. He gives us memorable portraits of bull-fighters and bulls, of owners, trainers and fans - of a whole country. Fiske-Harrison offers a fully rounded and involving portrait of an art as performed for centuries and of the arguments that dog it today.

Almost - Ami Rao 2022-03-01

He is ready to talk about her, his daughter. He is ready in a way. In a way. When a teenage girl dies in a car accident while returning home from school, her father is left to deal with his grief. Sent home from work for the crime of showing his emotions in front of strangers, he cannot bring himself to utter his unspoken thoughts of guilt and blame - not even to his wife. Alienated from the world and, to some degree, his own mind, and with his marriage slowly collapsing, the man starts to consider his loss. In lyrical prose, Ami Rao experiments with language to explore grief, one of the most complex of human emotions. Inspired by the essays of Roland Barthes, this fragmented and philosophical novella is deeply moving.

Orthodoxy - Gilbert Keith Chesterton 1908
