Remember - Lisa Genova 2021-03-23

NEW YORK TIMES BESTSELLER • A fascinating exploration of the intricacies of how we remember, why we forget, and what we can do to protect our memories, from the Harvard-trained neuroscientist and bestselling author of *Still Alice*. “Using her expertise as a neuroscientist and her gifts as a storyteller, Lisa Genova explains the nuances of human memory”—Steven Pinker, Johnstone Professor of Psychology, Harvard University, author of *How the Mind Works* Have you ever felt a crushing wave of panic when you can't for the life of you remember the name of that actor in the movie you saw last week, or you walk into a room only to forget why you went there in the first place? If you're over forty, you're probably not laughing. You might even be worried that these lapses in memory could be an early sign of Alzheimer's or dementia. In reality, for the vast majority of us, these examples of forgetting are completely normal. Why? Because while memory is amazing, it is far from perfect. Our brains aren't designed to remember every name we hear, plan we make, or day we experience. Just because your memory sometimes fails doesn't mean it's broken or succumbing to disease. Forgetting is actually part of being human. In *Remember*, neuroscientist and acclaimed novelist Lisa Genova delves into how memories are made and how we retrieve them. You'll learn whether forgotten memories are temporarily inaccessible or erased forever and why some memories are built to exist for only a few seconds (like a passcode) while others can last a lifetime (your wedding day). You'll come to appreciate the clear distinction between normal forgetting (where you parked your car) and forgetting due to Alzheimer's (that you own a car). And you'll see how memory is profoundly impacted by meaning, emotion, sleep, stress, and context. Once you understand the language of memory and how it functions, its incredible strengths and maddening weaknesses, its natural vulnerabilities and potential superpowers, you can both vastly improve your ability to remember and feel less rattled when you inevitably forget. You can set educated expectations for your memory, and in doing so, create a better relationship with it. You don't have to fear it anymore. And that can be life-changing.

Every Note Played - Lisa Genova 2018-04-05

A virtuoso performance by the bestselling author of *Still Alice*, Lisa Genova delivers a stunning novel of finding harmony amidst the most tragic of situations. An accomplished concert pianist, Richard has already suffered many losses in his life: the acrimonious divorce from his ex-wife, Karina; the estrangement of his daughter, Grace; and now, a devastating diagnosis. ALS. The relentlessly progressive paralysis of ALS begins in the cruellest way possible - in his hands. As Richard becomes more and more locked inside his body and can no longer play piano or live on his own, Karina steps in as his reluctant caregiver. Paralyzed in a different way, Karina is trapped within a prison of excuses and blame, stuck in an unfulfilling life as an after-school piano teacher, afraid to pursue the path she abandoned as a young woman. As Richard's

muscles, voice and breath fade, the two struggle to reconcile their past before it's too late. With a strong musical sensibility and the staggering insight of Jojo Moyes' *Me Before You*, Lisa Genova has delivered a masterful exploration of what it means to find yourself within the most shattering of circumstances.

Everything is connected with a thread as fine as gossamer, each life affected by what has come before it and what will come after. 1941, Estonia. As Stalin's brutal Red Army crushes everything in its path, Katarina and her family survive only because their precious farm produce is needed to feed the occupying forces. Fiercely partisan, Katarina battles to protect her grandmother's precious legacy - the weaving of gossamer lace shawls stitched with intricate patterns that tell the stories passed down through generations. Praise for *The Lace Weaver* ‘A beautifully written and utterly compelling story of love and war and resistance that shines a light onto a dark and tragic period of history while also illuminating the enduring power of love and friendship. Unforgettable and emotionally wrenching, and as exquisite as the lace the women of the story weave.’ Kate Forsyth ‘A sweeping historical story set in Estonia and Russia during the tumultuous year of 1941 ... This is a meticulously researched novel, and Chater seamlessly incorporates the symbolic motif of the Estonian lace-weaving tradition and the Tartu knitting circle to link the past and present ... Recommended for fans of Kirsty Manning and Kate Morton, this is a gut-wrenching tale about a devastating time in history. Full of hope, heartache and the power of keeping traditions alive.’ Books+Publishing ‘From the very first line, I was captivated by this tale of two very different, but equally heroic, women. There is beauty to be found everywhere: in the writing, in the women's friendship, in the tragedy, and in the motif of the lace shawls, which weaves the story together.’ Natasha Lester, author of *Her Mother's Secret* and *A Kiss from Mr Fitzgerald* ‘A rich, textured and evocatively told story of love, loss and the ties that bind. The setting is

exotic and intriguing and presents a unique side of the war ... I found it difficult to put this haunting novel down and it will stay with me for a long time to come, I'm certain. The Neuroscientist Who Lost Her Mind - Barbara K. Lipska 2018-04-03

In the tradition of My Stroke of Insight and Brain on Fire, this powerful memoir recounts Barbara Lipska's deadly brain cancer and explains its unforgettable lessons about the brain and mind. Neuroscientist Lipska was diagnosed early in 2015 with metastatic melanoma in her brain's frontal lobe. As the cancer progressed and was treated, she experienced behavioral and cognitive symptoms connected to a range of mental disorders, including dementia and her professional specialty, schizophrenia. Lipska's family and associates were alarmed by the changes in her behavior, which she failed to acknowledge herself. Gradually, after a course of immunotherapy, Lipska returned to normal functioning, amazingly recalled her experience, and through her knowledge of neuroscience identified the ways in which her brain changed during treatment. Lipska admits her condition was unusual; after recovery she was able to return to her research and resume her athletic training and compete in a triathlon. Most patients with similar brain cancers rarely survive to describe their ordeal. Lipska's memoir, coauthored with journalist Elaine McArdle, shows that strength and courage but also an encouraging support network are vital to recovery.

The Road - Cormac McCarthy 2007-03-20

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a

father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, The Passenger.

Currently Between Husbands - Cathrine Mahoney 2022-06-01

Trust me, there is life and love (and plenty of laughter) after divorce, even when your ex is one of Australia's highest profile sport stars. Actually, I Don't Like Cricket Or Blow Jobs! (And to be honest, I suck at both.) Yes, that was what I originally wanted to call this book. But then I realised that some women like cricket. Also, reading this in front of your inquisitive seven-year-old could lead to some awkward conversations. So, in stepped *Currently Between Husbands* to save the day and any blushes. Having a relationship in the spotlight is hard enough, but in *Currently Between Husbands*, Cathrine Mahoney details the unique experience of breaking up with one of Australia's highest profile sport stars. Even for a self-

confessed over-sharer, the breakdown of her marriage to rugby league player Andrew Johns was more public than she was used to. In her first book, the writer, podcaster and publicist provides a self-deprecating and hilarious look at her life - from fashion mistakes and early crushes as a kid growing up in Wales, to her years working with some of the world's biggest stars at Sony Music, to navigating life and love as a 'solo' mum, and coming to terms with hitting the big 4-0. Currently *Between Husbands* is the equivalent of having a chat with your bestie over a drink or two, with all the inappropriate confessions, front bottom revelations and teary moments that entails. 'Desperately funny, fearless and full of heart.' Meg Mason, author of *Sorrow and Bliss* 'Strap in. You're in for a fabulous ride. And you'll be wishing (like I was before I knew her) that she was your friend. It's a bloody good book, and I didn't want it to end.' Amanda Keller OAM, radio and TV host 'My all-time favourite movie is *Bridget Jones' Diary* - to anoint a real-life version is a big deal - but Cathrine Mahoney is it *Bridget* to a tee. I'd pay to read a post it note she wrote, let alone a book. Cathrine's ability to be funny, clever, relatable, self-deprecating and just so loveable is unlike anyone I've ever met.' Erin Molan, TV presenter, radio host and writer

On a chilly fall evening at the prestigious Performing Arts High School of Boston, best friends Tali Carrington and June Danforth go missing after auditioning for a play. They're last seen in grainy, out-of-focus surveillance footage that shows them walking away from the school. Two days later in a town south of Boston, Tali is found disoriented and traumatized by the ocean's edge, while June is pronounced dead at the scene. Tali's mother, Nell, is so bent on protecting her daughter from further emotional harm that she ignores rumors of her husband's involvement and enlists the help of Cynthia Rawlins, a reunification therapist with personal insight into the riptide that hides below the surface of every unsuspecting family. Meanwhile, Detective Fitz Jameson uncovers a criminal undertow involving the high school's overachieving students, and finally sees an opportunity for personal redemption from a secret that's haunted him for years. As Nell, Cynthia, and Fitz confront their own contributions to the scandals that beleaguer them, their lives turn out to be more deeply intertwined than they'd ever imagined. In the end, they must decide what lengths they're willing to go to protect the people they love while also saving themselves.

Every Good Boy Does Fine - Jeremy Denk 2022-03-03

THE NEW YORK TIMES BESTSELLER 'A virtuosic memoir . . . elegant, frank and well-structured, that entirely resists cliché . . . The concert pianist's account of striving for musical mastery sits alongside a stirring coming of age narrative . . . readable for both diehard classical music fans and complete newcomers alike . . . A rare feat.' - The Guardian 'Jeremy Denk's writing is as engaged and probing as his playing. *Every Good Boy Does Fine* hits the spot - a scintillating account of his way into music' - Ian Bostridge A uniquely illuminating memoir of the making of a musician, in which renowned pianist Jeremy Denk explores what he learned from his teachers about classical music: its forms, its power, its meaning - and what it can teach us about ourselves. In this searching and funny memoir, based on his popular New Yorker article, renowned pianist Jeremy Denk traces an implausible journey. Life is difficult enough as a precocious, temperamental, and insufferable six-year-old piano prodigy in New Jersey. But then a family meltdown forces a move to New Mexico, far from classical music's nerve centers, and he has to please a new taskmaster while navigating cacti, and the perils of junior high school. Escaping from New Mexico at last, he meets a bewildering cast of college music teachers, ranging from boring to profound, and experiences a series of humiliations and triumphs, to find his way as one of the world's greatest living pianists, a MacArthur 'Genius,' and a frequent performer at Carnegie Hall. There are few writers working today who are willing to eloquently explore both the joys and miseries of artistic practice. Hours of daily repetition, mystifying early advice, pressure from parents and teachers who drove him on - an ongoing battle of talent against two enemies: boredom and insecurity. As we meet various teachers, with cruel and

kind streaks, Denk composes a fraught love letter to the act of teaching. He brings you behind the scenes, to look at what motivates both student and teacher, locked in a complicated and psychologically perilous relationship. In *Every Good Boy Does Fine*, Denk explores how classical music is relevant to 'real life,' despite its distance in time. He dives into pieces and composers that have shaped him - Bach, Mozart, Schubert, and Brahms, among others - and gives unusual lessons on melody, harmony, and rhythm. Why and how do these fundamental elements have such a visceral effect on us? He tries to sum up many of the lessons he has received, to repay the debt of all his amazing teachers; to remind us that music is our creation, and that we need to keep asking questions about its purpose. 'Denk . . . has written a book that shows what it's like to be a pianist, but also what it's like to be Jeremy Denk. As if that were not enough, it is also about the elements of music, and beyond that an account of the ways in which music and life mirror each other. It is a book like none other . . . Denk weaves invisible threads connecting life and art into something very close to musical form.' Simon Callow, *The New York Review of Books*
