Explains the many types of portfolios, their different uses, and the practical issues surrounding storage and ownership.

Modern Architecture: A Critical History (World of Art) - Kenneth Frampton 2020-09-08

An extensively revised and updated edition of a bestselling classic on modern architecture and its origins by Kenneth Frampton. Kenneth Frampton's highly acclaimed survey of modern architecture and its origins has been a classic since it first appeared in 1980. Starting with the cultural developments since 1750 that drove the modern movement, moving through the creation of modern architecture, and exploring the effects of globalization and the phenomenon of international celebrity architects, this book is the definitive history of modern architecture. For this extensively revised and updated fifth edition of Modern Architecture, Frampton added new chapters exploring the ongoing modernist

tradition in architecture while also examining the varied responses to the urgent need to build more sustainably and create structures that will withstand changing climates. This new edition features completely redesigned interiors and an updated and expanded bibliography, making this volume more indispensable than ever.

Madness and Civilization - Michel Foucault 2013-01-30

Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time

when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

Assassin's Creed: Atlas - Guillaume Delalande
2021-10

An officially licensed guide to the exciting historical destinations and ancient battlegrounds of Ubisoft's Assassin's Creed series. Meticulously re-created historical sites are a staple of the bestselling Assassin's Creed series--and, in fact, are one of the main draws of Ubisoft's all-time bestselling property. Each new game transports gamers to a different era and locale, beginning with Jerusalem in the time of the Crusades and going on to explore Renaissance-era Italy, colonial America, Paris during the French Revolution, 19th-century London, and ancient Greece and Egypt. Assassin's Creed has provided a means to walk through the past and experience world history in a firsthand, immersive way. In *Assassin's Creed: Atlas*,

previously unpublished maps, diagrams, and drawings illuminate all of the lands of antiquity featured across the series that have defined both real-world history and the games themselves. Throughout, gaming journalist Guillaume Delalande expands on Assassin's Creed's fascinating lore and reflects on the critical moments that gamers experienced in these locations.

OfficeUS Atlas (Repository) - Eva Franch i Gilabert 2015-03

The OfficeUS Atlas collects the exhibition research in an archive of nearly 1000 architectural projects. Organized according to individual firm histories, the Atlas documents the development of U.S. architectural offices working abroad from 1914 to the present. Offices and their projects are illustrated by over 1200 photographs and architectural drawings. OfficeUS, the U.S. Pavilion for the 2014 International Architecture Exhibition - la Biennale di Venezia, reframes the history of U.S.

architecture through the lens of export in two interrelated constructs: "The Office" and "The Repository". The Repository presents 1000 projects designed by 200 US offices working abroad in a chronological archive of the last 100 years. Collectively these projects tell multiple, imbricated stories of U.S. firms, typologies, and technologies, as well as a broader narrative of modernization and its global reach. The Office engages these projects, revisiting their premises and conclusions over the course of the Biennale. It functions as a laboratory staffed by a diverse group of resident design partners collaborating with outpost offices and a rotating cast of visiting experts. Together, these two halves of OfficeUS create both an historical record of the U.S. contribution to global architectural thought, and a petri dish in which that record is submitted to contemporary agents of disruption and critique.

Exponential Organizations - Salim Ismail
2014-10-14

Frost & Sullivan's 2014 Growth, Innovation, and Leadership Book of the Year "EXPONENTIAL ORGANIZATIONS should be required reading for anyone interested in the ways exponential technologies are reinventing best practices in business." —Ray Kurzweil, Director of Engineering at Google In business, performance is key. In performance, how you organize can be the key to growth. In the past five years, the business world has seen the birth of a new breed of company—the Exponential Organization—that has revolutionized how a company can accelerate its growth by using technology. An ExO can eliminate the incremental, linear way traditional companies get bigger, leveraging assets like community, big data, algorithms, and new technology into achieving performance benchmarks ten times better than its peers. Three luminaries of the business world—Salim Ismail, Yuri van Geest, and Mike Malone—have researched this phenomenon and documented ten characteristics of Exponential Organizations.

Here, in EXPONENTIAL ORGANIZATIONS, they walk the reader through how any company, from a startup to a multi-national, can become an ExO, streamline its performance, and grow to the next level. "EXPONENTIAL

ORGANIZATIONS is the most pivotal book in its class. Salim examines the future of organizations and offers readers his insights on the concept of Exponential Organizations, because he himself embodies the strategy, structure, culture, processes, and systems of this new breed of company." —John Hagel, The Center for the Edge Chosen by Benjamin Netanyahu, Prime Minister of Israel, to be one of Bloomberg's Best Books of 2015

Morla - Jennifer Morla 2018

Foster + Partners Portfolio - Norman Foster 2018-12

Foster + Partners Portfolio: 1967-2017' is a complete and extraordinary account of the first fifty years of Foster + Partners - a globally renowned studio for sustainable architecture, urbanism and design. Over the past half-century, the practice - founded as Foster Associates in 1967 - has grown into a multi-disciplinary studio, motivated by sustainable design and leading through creativity and innovation. This book provides a beautiful visual record that celebrates the practice's remarkable breadth of works - both built and unbuilt. For the first time ever, Portfolio features photography of every project completed in the practice's first five decades, as well as beautiful drawings of its most important unrealised designs. Through over 480 carefully edited images - many previously unpublished - the book highlights the enormous contribution the practice has made to a range of design disciplines.

Werkstücke - Marco Graber 2005

Within the space of just a few years, Marco Graber and Thomas Pulver have developed several constructions and numerous projects in their two offices in Bern and Zürich, always taking a new, intelligent, and highly imaginative approach to the urban and architectural idiosyncrasies of the locations and activating and utilizing their potential for their own projects.

Brand by Hand - Jon Contino 2018-10-23

Brand by Hand documents the work, career, and artistic inspiration of graphic designer extraordinaire Jon Contino. Jon is a born-and-bred New Yorker. He talks like one, he acts like one, and most importantly, he designs like one. He is the founder and creative director of Jon Contino Studio, and over the past two decades, he has built a massive collection of award-winning graphic-design work for high-profile

clients such as Nike, 20th Century Fox, and Sports Illustrated. Throughout all of this, he has gone to design hell and back, facing obstacles like fear, self-doubt, and bad luck. Brand by Hand documents the work and career of Jon Contino, exploring his lifelong devotion to the guts and grime of New York and cementing his biggest artistic inspirations, from hardcore music to America's favorite pastime. A graphic-design retrospective showcasing his minimalist illustrations and unmistakable hand-lettering, Brand by Hand shares how Contino has taken a passion for pen and ink and turned it into an expanding empire of clients, merchandise, and artwork.

Remodelista - Julie Carlson 2016-08-16
Remodelista.com is the go-to, undisputed authority for home design enthusiasts, remodelers, architects, and designers. Unlike sites that cater to all tastes, Remodelista has a singular and clearly defined aesthetic: classic pieces trump designs that are trendy and

transient, and well-edited spaces take precedence over cluttered environments. High and low mix seamlessly here, and getting the look need not be expensive (think Design Within Reach meets Ikea). Remodelista decodes the secrets to achieving this aesthetic, with in-depth tours and lessons from 12 enviable homes; a recipe-like breakdown of the hardest-working kitchens and baths; dozens of do-it-yourself projects; "The Remodelista 100," a guide to the best everyday household objects; and an in-depth look at the ins and outs of the remodeling process. In a world of design confusion, Remodelista takes the guesswork out of the process.

Trees of Delhi - Pradip Krishen 2006

Fixed Income Securities - Bruce Tuckman
2011-10-13

Fixed income practitioners need to understand the conceptual frameworks of their field; to master its quantitative tool-kit; and to be well-

versed in its cash-flow and pricing conventions. Fixed Income Securities, Third Edition by Bruce Tuckman and Angel Serrat is designed to balance these three objectives. The book presents theory without unnecessary abstraction; quantitative techniques with a minimum of mathematics; and conventions at a useful level of detail. The book begins with an overview of global fixed income markets and continues with the fundamentals, namely, arbitrage pricing, interest rates, risk metrics, and term structure models to price contingent claims. Subsequent chapters cover individual markets and securities: repo, rate and bond forwards and futures, interest rate and basis swaps, credit markets, fixed income options, and mortgage-backed securities. Fixed Income Securities, Third Edition is full of examples, applications, and case studies. Practically every quantitative concept is illustrated through real market data. This practice-oriented approach makes the book particularly useful for the working professional.

This third edition is a considerable revision and expansion of the second. Most examples have been updated. The chapters on fixed income options and mortgage-backed securities have been considerably expanded to include a broader range of securities and valuation methodologies. Also, three new chapters have been added: the global overview of fixed income markets; a chapter on corporate bonds and credit default swaps; and a chapter on discounting with bases, which is the foundation for the relatively recent practice of discounting swap cash flows with curves based on money market rates. [FOR THE UNIVERSITY EDITION] This university edition includes problems which students can use to test and enhance their understanding of the text.

[The United Nations world water development report 2020](#) - UNESCO World Water Assessment Programme 2020-03-23

The 2020 edition of the WWDR, titled 'Water and Climate Change' illustrates the critical linkages between water and climate change in the context of the broader sustainable development

agenda. Supported by examples from across the world, it describes both the challenges and opportunities created by climate change, and provides potential responses - in terms of adaptation, mitigation and improved resilience - that can be undertaken by enhancing water resources management, attenuating water-related risks, and improving access to water supply and sanitation services for all in a sustainable manner. It addresses the interrelations between water, people, environment and economics in a changing climate, demonstrating how climate change can be a positive catalyst for improved water management, governance and financing to achieve a sustainable and prosperous world for all. The report provides a fact-based, water-focused contribution to the knowledge base on climate change. It is complementary to existing scientific assessments and designed to support international political frameworks, with the goals of helping the water community tackle the

challenges of climate change, and informing the climate change community about the opportunities that improved water management offers in terms of adaptation and mitigation.

Sean Godsell - Sean Godsell 2020-01-07

A survey of residential projects by Australia's leading minimalist architect, Sean Godsell. As many architects turn to Australia for inspiration, Sean Godsell—a pioneer of Australian minimalism—has established himself as an important influencer on the global architecture scene. This survey of his residential architecture features twelve house projects across Australia, each illustrated with full-color photography, as well as a selection of the architect's hand-drawn plans and exploratory sketches, which illuminate how each project relates to its surrounding landscape. Featuring an essay by Godsell about the influences of Australia's landscape and culture in his work, this survey also includes an introduction by leading critic and commentator Philip Goad about the achievements of Godsell's

career to date and the importance of his visionary designs. With a complete illustrated chronology of Sean Godsell's works, this overview will be an important resource for architecture lovers and design enthusiasts. [The National Union Catalog, Pre-1956 Imprints](#) - Library of Congress 1973

Innovación Docente e Investigación en Ciencias, Ingeniería y Arquitectura: Nuevos Enfoques en la Metodología Docente - África Martos Martínez 2021-12-16

Erlang and OTP in Action - Eric Merritt 2010-11-15

Concurrent programming has become a required discipline for all programmers. Multi-core processors and the increasing demand for maximum performance and scalability in mission-critical applications have renewed interest in functional languages like Erlang that are designed to handle concurrent

programming. Erlang, and the OTP platform, make it possible to deliver more robust applications that satisfy rigorous uptime and performance requirements. Erlang and OTP in Action teaches you to apply Erlang's message passing model for concurrent programming--a completely different way of tackling the problem of parallel programming from the more common multi-threaded approach. This book walks you through the practical considerations and steps of building systems in Erlang and integrating them with real-world C/C++, Java, and .NET applications. Unlike other books on the market, Erlang and OTP in Action offers a comprehensive view of how concurrency relates to SOA and web technologies. This hands-on guide is perfect for readers just learning Erlang or for those who want to apply their theoretical knowledge of this powerful language. You'll delve into the Erlang language and OTP runtime by building several progressively more interesting real-world distributed applications.

Once you are competent in the fundamentals of Erlang, the book takes you on a deep dive into the process of designing complex software systems in Erlang. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Tom Kundig: Houses - Dung Ngo 2006-11-09
"Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of Tom Kundig: Houses, first published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--

disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." --

There and Back - Jimmy Chin 2021-12-07

NEW YORK TIMES BESTSELLER • The Academy Award-winning director of Free Solo and National Geographic photographer presents

the first collection of his iconic adventure photography, featuring some of the greatest moments of the most accomplished climbers and outdoor athletes in the world, and including more than 200 extraordinary photographs. “An extraordinary work of art.”—Jon Krakauer
Filmmaker, photographer, and world-class mountaineer Jimmy Chin goes where few can follow to capture stunning images in death-defying situations. There and Back draws from his breathtaking portfolio of photographs, captured over twenty years during cutting-edge expeditions on all seven continents—from skiing Mount Everest, to an unsupported traverse of Tibet’s Chang Tang Plateau on foot, to first ascents in Chad’s Ennedi Desert and Antarctica’s Queen Maud Land. Along the way, Chin shares behind-the-scenes details about how he captured such astounding images in impossible conditions, and tells the stories of the legendary adventurers and remarkable athletes he has photographed, including Alex Honnold,

the star of his Academy Award-winning documentary film *Free Solo*; ski mountaineer Kit DesLauriers; snowboarder Travis Rice; and mountaineers Conrad Anker and Yvon Chouinard. These larger-than-life images, coupled with stories of outsized drive and passion, of impossible goals with life or death stakes, of partnerships forged through incredible hardship, are sure to inspire wonder and awe.

Tom Kundig - Tom Kundig 2015-11-10

In Tom Kundig: Works, the celebrated Seattle-

based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles, door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making *Tom Kundig: Works* as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmologist" Phil Turner and contractor Jim Dow (Schuchart/ Dow)—and clients (Bigwood Residence and Studhorse).

Dreamscapes - Gestalten 2020-04-16

A journey through dreamlike landscapes, bizarre buildings, and whimsical interiors floating between reality and fantasy. Oscar Wilde claimed that "progress is the realization of utopia." *Dreamscapes* illustrates utopian visions and invites the reader into otherworldly scenes that manifest visions of idealised worlds, offering a path toward a better future. The showcased pieces blur the lines between practical applications for architecture and design, abstract artistic expressions, and expand the possibilities of architecture, interior, and set design. The book presents the work of leading creatives from across the globe, exploring the infinite ways to visualize landscapes and the built environment. With their roots in spatial design, their ideas present a new creative current defined by the fusion of digital techniques such as computer rendering and 3D art, and an aesthetic that moves between fantasy and reality. WHAT TO EXPECT - The first

illustrated book to present the work of the artists and creatives at the forefront of this aesthetic, which gained momentum as a social media phenomenon. - An insightful and pioneering look at the world of digital art, which will undoubtedly define the future of creativity. - An inspiring compilation that will serve as a reference for both artists and professionals in the fields of architecture and design.

Archidoodle - Steve Bowkett 2013-10-22

This innovative book is the first to provide a fun, interactive way to learn about architecture. Filled with an array of beautiful and elegant drawings, it poses all manner of architectural challenges for the user: from designing your own skyscraper, to drawing an island house or creating a Constructivist monument, plus many others more. Aimed at anyone who loves drawing buildings, it encourages the user to imagine their own creative solutions by sketching, drawing and painting in the pages of the book. In so doing, they will learn about a

whole range of significant architectural issues, such as the importance of site and materials, how to furnish a space, how to read plans, how to create sustainable cities and so on. The book also includes numerous examples of works and ideas by major architects to draw inspiration from and will appeal to everyone from children to students to architects.

Engineering for Sustainable Development - International Centre for Engineering Education 2021-03-02

The report highlights the crucial role of engineering in achieving each of the 17 SDGs. It

shows how equal opportunities for all is key to ensuring an inclusive and gender balanced profession that can better respond to the shortage of engineers for implementing the SDGs. It provides a snapshot of the engineering innovations that are shaping our world, especially emerging technologies such as big data and AI, which are crucial for addressing the pressing challenges facing humankind and the planet. It analyses the transformation of engineering education and capacity-building at the dawn of the Fourth Industrial Revolution that will enable engineers to tackle the challenges ahead. It highlights the global effort needed to address the specific regional disparities, while summarizing the trends of engineering across the different regions of the world.
