An autobiographical statement of the author's belief in the global approach to development and world problems. How can the human species survive the crisis of its own extraordinary techno-scientific success? In this truly unique book Aurelio Peccei shows us that the solution cannot be found in external factors. It must lie in re-establishing a sound cultural balance within man himself so that he becomes capable of living in harmony with the new human condition and changed world environment. Only by a cultural revolution which changes the human quality can we control and orient the material revolutions. Aurelio Peccei's distinguished career in industry, conservation, international affairs and as a counsellor on major world problems needs little introduction. He was a founder-member of the Club of Rome in 1968 and has been a member of its Executive Committee ever since. The Best of Wodehouse - P.G. Wodehouse 2007-06-19

P.G. Wodehouse (1881-1975) was perhaps the most widely acclaimed British humorist of the twentieth century. The works in this volume provide a wonderful introduction to Wodehouse's work and his unique talent for joining fantastic plots with authentic emotion. Fourteen stories feature some of Wodehouse's most memorable characters, and three autobiographical pieces provide a revealing look into Wodehouse's life. Music and the Ineffable - Vladimir Jankelevich 2003-07-28

Vladimir Jankélévitch left behind a remarkable work steeped as much in philosophy as in music. His writings on moral quandaries reflect a lifelong devotion to music and performance, and, as a counterpoint, he wrote on music aesthetics and on modernist composers such as Fauré, Debussy, and Ravel. Music and the Ineffable brings together these two threads, the philosophical and the musical, as an extraordinary quintessence of his thought. Jankélévitch deals with classical issues in the philosophy of music, including metaphysics and ontology. These are a point of departure for a sustained examination and dismantling of the idea of musical hermeneutics in its conventional sense. Music, Jankélévitch argues, is not a hieroglyph, not a language or sign system; nor does it express emotions, depict landscapes or cultures, or narrate. On the other hand, music cannot be imprisoned within the icy, morbid notion of pure structure or autonomous discourse. Yet if musical works are not a cipher awaiting the decoder, music is nonetheless entwined with human experience, and with the physical, material reality of music

in performance. Music is "ineffable," as Jankélévitch puts it, because it cannot be pinned down, and has a capacity to engender limitless resonance in several domains. Jankélévitch's singular work on music was central to such figures as Roland Barthes and Catherine Clément, and the complex textures and rhythms of his lyrical prose sound a unique note, until recently seldom heard outside the francophone world.

The Self-Portrait: A Cultural History - James Hall 2014-04-22

Sheds new light on the long history of self-portraiture with fresh interpretations of famous examples and new works, ideas, and anecdotes. This broad cultural history of self-portraiture brilliantly maps the history of the genre, from the earliest myths of Narcissus and the Christian tradition of "bearing witness" to the prolific self-image-making of today's contemporary artists. Focusing on a perennially popular subject, the book tells the vivid history of works that offer insights into artists' personal, psychological, and creative worlds. Topics include the importance of the medieval mirror craze in early self-portraiture; the confessional self-portraits of Titian and Michelangelo; the mystique of the artist's studio, from Vermeer to Velázquez; the role of biography and geography for serial self-portraitists such as Courbet and Van Gogh; the multiple selves of modern and contemporary artists such as Cahun and Sherman; and recent developments in the era of globalization. Comprehensive and beautifully illustrated, the book features the work of a wide range of artists including Beckmann, Caravaggio, Dürer, Gentileschi, Ghiberti, Giotto, Goya, Kahlo, Kauffman, Magritte, Mantegna, Picasso, Poussin, Raphael, Rembrandt and Van Eyck. The full range of the subject is explored, including comic and caricature self-portraits, "invented" or imaginary self-portraits, and important collections of self-portraiture such as that of the Medici.

The Terror - Arthur Machen 2021-03-11

Set in the middle of the First World War, 'The Terror' unfurls the atrocities of the German invasion alongside the terrifying fear of the unknown - unexplained murders, surreptitious occurrences and collective paranoia. All of these spine-chilling factors culminate in a magical yet macabre denouement that will leave you at the edge of your seat. A gripping and haunting novella, 'The Terror' is a must-read for Machen enthusiasts and all horror fiction aficionados - in particular fans of H.P. Lovecraft and Edgar Allan Poe. Jorge Luis Borges cited Machen as a great writer and an inspiration for the magical realism movement in literature. Notorious occultist Aleister Crowley also greatly admired Machen for effortlessly crossing over the threshold that separates reality and the magical realm. Strongly recommended for fans of the 'Good Omens' series inspired by Terry Pratchett's fiction and starring Michael Sheen and David Tennant. Fans of the HBO show 'Lovecraft Country' may also find a true Lovecraft-ian treasure trove hidden between these pages. Arthur Machen (1863-1947) was a Welsh writer of supernatural, fantasy, and horror novels. Before his literary career skyrocketed he also worked as a journalist and an actor. His major belief was that the ordinary and external world surreptitiously conceals something far more mysterious and bizarre. In turn, we are deeply interested in trying to lift the veil enshrouding the threshold separating the two. His most acclaimed works include the classic horror novella 'The Great God Pan' and the semi-autobiographical 'The Hill of Dreams'.

Through the Children's Gate - Adam Gopnik 2010-06-18

Following Adam Gopnik's best-selling *Paris to the Moon*, the adventure continues against the panorama of another storied city. Autumn, 2000: the Gopnik family moves back to a New York that seems, at first, safer and shinier than ever. Here are the triumphs and travails of father, mother, son and daughter; and of the teachers, coaches, therapists, adversaries and friends who round out the extended urban family. From Blueie, a goldfish fated to meet a Hitchcockian end, to Charlie Ravioli, an imaginary playmate who, being a New Yorker, is too busy to play, Gopnik's New York is charmed by the civilization of childhood. It is a fabric of living, which, though rent by the events of 9/11, will reweave itself, reviving a world where Jewish jokes mingle with debates about the problem of consciousness, the price of real estate and the meaning of modern art. By turns elegant and exultant, written with a signature mix of mind and heart, *Through the Children's Gate* is at once a celebration of a newly fragile city and a poignant study of a family trying to find its way, and joy, within it.
