Wolf Next Door - Heather Long
2017-06-20

Tyler Buckley divides his time between fixing cars in his father's shop and reclamation projects with his brothers. Losing his brother and his mate in the same year could have turned him into a surly, unapproachable wolf, but he kept his sights set on the wins in his life-his brothers, A.J.'s new mate and his family. The last thing he needs or wants is for Claire Webster to return home. Her arrival detonates an old rage inside the wolf, but he's determined to stay as far away from her as possible. When she was five years old, the wolf next door told her he was her mate and then ordered her not to play with one of her friends. From that day forward, Claire butted heads with Ty and his constant interferences. At sixteen, she caught the eye of a visiting Hunter, a wolf who treated her like a lady and not a possession. Wanting more than to be ordered around, she followed him away from Willow Bend, determined to never look

back. Eight years later, she sends a request to the new Alpha of Willow Bend. She wants to come home and, when he allows her the opportunity, she's both relieved and terrified. The first person she runs into is the last one who ever wanted to see her again. The wolf next door grew up, and Tyler Buckley's frigid welcome leaves her out in the cold. Can she admit she made the wrong choice, and would he even listen if she could?

Queenmaker - Rebecca Royce

Everything changed when I crashed into a food truck. It all started with a brutal hill. An incline that I was determined to crest. One, long, punishing climb with my thighs screaming as I pumped the pedals for all I was worth. That hill could have been a metaphor for my whole life. I was climbing out of the crater left by a broken heart, ready to seize control again. Making it up that hill was a good first step. Then I hit the food truck. Enter Reese Riley, blond, gorgeous, stunning sapphire

eyes and the kind of smile to set my blood on fire. No way he was real. With charm to spare, he walked me home and then asked me out. Then he introduced me to his friends- Briggs, Goran, and Dalton. Stunning men, all of them. Funny, too. They flirted, they teased, and they indulged. They were incredible, each of them, and they fit into my life like they'd been born to be there. I didn't know whether to celebrate or to run like hell. Oh, and did I mention they were aliens? *Please note this is a reverse harem and the authors suggest you always read the forwards in their books. This is the first in a trilogy.

Chelsea spent most of her life running. She was young when her parents were killed, and she was thrown into the system as just another statistic. One foster home after another, hell after hell. When things got too hard, her first instinct was to get out and fast. She didn't mind being a club girl. Who wouldn't want a group of possessive alpha males on your side and in your bed? The freedom and the lifestyle allowed her to spread her wings while the rules and bylaws kept everyone in line. It was comfortable - safe. But while her head told her she was happy, her heart reminded her constantly of what she really wanted - Brothers by Blood President, Optimus. He was a brooding asshole who was sexy, loyal and pushed the boundaries of both her body and her mind. He never let her all the way in, but she still couldn't stay away from him - he was addictive. Optimus had only one rule - family comes first. He knew that sometimes sacrifices needed to be made in order to keep the ones he loved

safe. He'd done it before and he would do it again. Being President of the Brothers by Blood MC meant he couldn't show any weakness. Beautiful, athletic and sassy, she wasn't just another club girl, she was HIS girl. Danger is fast approaching and Chelsea is in its direct sight. Will it be too late for Optimus to show Chelsea how he really feels? And when secrets are revealed will Chelsea stay and stand beside the man she wants or will the urge to run just be too strong?

"Once a loser, always a loser.", we say. "He's a mule that cannot be reasoned with. That's just the way he is.", we complain. We file ourselves and others into categories seemingly cast in stone, and resign ourselves to navigating life at the mercy of the cards that have been dealt to us. But what if this need not be the case? What if we were to see ourselves and others not as immovable islands in the oceans of circumstances, but rather as ships with sails hoisted high, able to move and choose freely in the face of life's currents and winds? The fact of the matter is that behaviors that have been learned can be unlearned. Ways of thinking that have become normal and practically automatic can be redefined. Our capacity for adaptation is

worth bearing in mind. As a result of acknowledging the ways in which our brains and bodies either help or hinder us in a variety of contexts, we are empowered to adopt strategies that move us ever closer to the very tangible realities of contentment and accomplishment. That is the purpose of this book: to understand the various rules (or Meta-Programs) which govern neurological and physiological interaction and the resultant impact on our thoughts, feelings and actions, and to better learn how to make intentional choices that facilitate the healthy and constructive aspects of these interactions and impacts. Imagine, if you would, two towns that are separated by an insurmountable mountain. Interaction and communication between them is totally cut-off. If one town represents the brain and nervous system, and the other town the thinking processes, perceptions and behavior, then Meta-Programs would act as a tunnel engineered to cut

through the mountain, linking the two and facilitating the flow of information between them. The Meta-Programs determine our tendency to make a decision in a certain frame of thinking. That's quite a vague statement, isn't it? Let's see... For example, if you tend to look how things "match" each other, it will be easier to persuade you to buy a new car if the salesman shows you how the shape of the car helps to quiet the engine noise, and how the automatic gear shifts smoothly with your style of driving, and how the price of the car can be divided into installments that match your existing financial capabilities perfectly... But if you tend to find the "mismatch", or the things that are in conflict - the salesman would have to constantly compare the car you look at with a less attractive car and show you the differences and how the car you're looking at is much better - he'll show you the difference in price, the mileage in the city, the safety features, etc., but always in comparison

*Downloaded from
test.unicaribe.edu.do on

to another car, one which you didn't even consider buying. Being mindful of the Meta-Programs helps us understand and appreciate the differences in the ways that people behave with and respond to the world around them. Rather than seeing these differences as obstacles or irritations, an understanding of Meta-Programs empowers us to adapt our own behaviors and responses in ways that match and complement their own. Meta-Programs are therefore useful in overcoming division and misunderstanding, and in facilitating synergy and co-operation. Teachers could use Meta-Programs to more effectively keep their students engaged. Police officers could use them to better facilitate the diffusion of high-stress situations. Meta-Programs would benefit parents who need to discipline their kids and who are trying to motivate the behavior that they desire. The list is practically endless.

The Subs Club - J. a. Rock
2015-12-07

A year ago, my best friend Hal died at the hands of an incompetent "dom." So I started the Subs Club, a private blog where submissives can review doms and call out

the douche bags. A perfect example of the kind of arrogant asshole I mean? The Disciplinarian. He has a pornstache. He loves meat, stoicism, America, and real discipline. And he thinks subs exist to serve him. But . . . not everything about him is awful. His Davy Crockett act just seems like a cover for his fear of intimacy, and part of me wants to show him it's okay to get close to people. And, I mean, sue me, but I have fantasized about real discipline. Not role-play, but like, Dave, you're gonna be thirty in four years and you still work in a mall; get your ass in gear or I'll spank it. Not that I'd ever trust anyone with that kind of control. I'm gonna redefine "battle of wills" for the Disciplinarian. Or I'm gonna bone him. It's hard to say. - Dave

Wicked Bond - Sawyer Bennett 2016-08-29
Bridger Payne is an enigma that no one can figure out. Wise beyond his years, eerily

intuitive and sexy as hell, every woman in The Silo wants him. None can have him. Not the real man, anyway. He might wield the lash for you if you ask prettily, but he'll get no gratification from it. He'll definitely make you scream, but he won't think twice about you when he walks away. Bridger carries the darkest of secrets. He's filled with too much pain. He's utterly untouchable. Until she came along. ****Warning: this book has sex in it. Lots of sex. Dirty sex.** The Wicked Horse Series is a bit different than what Sawyer Bennett normally writes. While you'll still enjoy fabulous characters, a suspenseful story, some witty banter and an epic romance, there's just... a lot of sex. You've been warned.
