Intermediate Tagalog - Joi Barrios 2015-04-14

At last, a way to improve your Tagalog! Written by Joi Barrios as the continuation of her best-selling Tagalog for Beginners book, Intermediate Tagalog is the first intermediate-level book designed specifically for people who already speak or understand some basic Tagalog and now wish to achieve greater fluency in speaking, reading and writing standard Filipino--the national language of the Philippines. The carefully-constructed lessons in this book point out common grammatical errors that English speakers make when speaking Tagalog, and present "real-life" conversations demonstrating how the language is spoken in Manila today. Extensive cultural notes are provided, along with exercises and activities that introduce the use of the Tagalog language in a wide range of everyday situations. The 20 lessons give you all the basic skills needed to speak Tagalog fluently: paglalarawan (the ability to describe people, places and feelings); pagsasalaysay (the ability to tell a story--whether a news story, a folktale, or an anecdote); paglalahad (how to explain something--for example, a custom or tradition, or how to cook a dish); and pangangatuwiran (reasoning and abstract thinking). Each lesson is carefully structured in six key parts: A "real-life" dialogue providing valuable conversational skills. A vocabulary list to expand your familiarity with common, everyday Tagalog words and expressions. A grammar

review section (for example, on the correct uses of affixes in various sentence constructions). Insightful cultural notes presenting aspects of the Philippines that may seem "odd" to outsiders, to explain how Filipino culture shapes the way people speak. A reading passage from a story or newspaper article, with comprehension questions. A writing exercise designed to teach a specific writing skill. Beginning Tagalog - Pasay, Philippines. Philippine Center for Language Study 1965-06

A comprehensive, one-year introductory textbook for Tagalog, the language spoken in the Philippines. Beginning Tagalog has been designed to meet the specific needs of adult native speakers of English who wish to learn spoken Tagalog, though students with other language backgrounds may be able to follow the course with profit. With fairly intensive class scheduling, and assuming laboratory assignments and home study, the text can be covered in one academic year. The text is designed to accomplish two aims. The first is to impart oral control of Tagalog and, by means of an acquaintance with the major patterns of the language, to provide the means for additional independent study that will lead to a full mastery of the structures and a vocabulary that is sufficiently broad to meet the needs of most students. The second aim is to provide accurate, up-to-date information about the patterns of Filipino culture that will enable a student to understand the social customs, standards, values, and aspirations of the Filipino people, in order to prepare him for sympathetic, enlightened, and useful participation in the context of Filipino society. . . . The text consists of 25 units and appendices. In the first half of the text, the student plays the part of hearer and speaker, with only incidental reading of oral dialogs and drills. From Unit XIII on there is a reading section designated for each

unit, correlated with the primarily spoken materials, but designed to promote facility in the orthography and distinctive patterns of the written language. . . The basic format is as follows: A. Basic Dialog B. Cultural and Structural Notes C. Pronunciation Exercises (to Unit XIII) D. Drills and Grammar E. Cumulative Drills F. Visual-Cue Drills G.

Fluent Forever - Gabriel Wyner 2014-08-05

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does?

Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
