History of Phoenicia - George Rawlinson 1889

Truth Triumphant - Wilkinson, Benjamin George 2015-02-23
A much neglected field of study has been opened by the research of the author into the history of the Christian church from its apostolic origins to the close of the eighteenth century. Taking as his thesis the prominence given to the Church in the Wilderness in Bible prophecy, and the fact that "‘the Church in the Wilderness,’ and not the proud hierarchy enthroned in the world’s great capital, was the true church of Christ," he has spent years developing this subject. In its present form,

Truth Triumphant represents much arduous research in the libraries of Europe as well as in America. Excellent ancient sources are most difficult to obtain, but the author has been successful in gaining access to many of them. To crystallize the subject matter and make the historical facts live in modern times, the author also made extensive travels throughout Europe and Asia. The doctrines of the primitive Christian church spread to Ireland, Scotland, and Wales. As grains of a mustard seed they lodged in the hearts of many Godly souls in southern France and northern Italy — people known as the Albigenses and the Waldenses. The faith of Jesus was valiantly upheld by the Church of the East. This term, as used by the author, not only includes the Syrian and Assyrian Churches, but is also the term applied to the development of apostolic Christianity throughout the lands of the East. The spirit of Christ, burning in the hearts of loyal men who would not compromise with paganism, sent them forth as missionaries to lands afar. Patrick, Columbanus, Marcos, and a host of others were missionaries to distant lands. They braved the ignorance of the barbarian, the intolerance of the apostate church leaders, and the persecution of the state in order that they might win souls to God. To unfold the dangers that were ever present in the conflict of the true church against error, to reveal the sinister working of evil and the divine strength by which men of God made truth triumphant, to challenge the Remnant Church today in its final controversy against the powers of evil, and to show the holy, unchanging message of the Bible as it has been preserved for those who will “fear God, and keep His commandments” — these are the sincere aims of the author as he presents this book to those who know the truth. MERLIN L. NEFF.

The Dream of Scipio - Iain Pears 2010-08-06

Three narratives, set in the fifth, fourteenth, and twentieth centuries, all revolving around an ancient text and each with a love story at its centre, are the elements of this brilliantly ingenious novel, a follow-up to the international bestseller *An Instance of the Fingerpost*. Now Ian Pears returns with a greatly anticipated novel, so expertly imagined and perfectly constructed the author himself describes it as “a complexity.” The centuries are the 5th (the final days of the Roman Empire); the 14th (the years of the Plague — the Black Death); and the 20th (World War II). The setting for each is the same — Provence — and each has at its heart a love story. The narratives intertwine seamlessly, and what joins them thematically is an ancient text — “The Dream of Scipio” — a work of neo-Platonism that poses timeless philosophical questions. What is the obligation of the individual in a society under siege? What is the role of learning when civilization itself is threatened, whether by acts of man or nature? Does virtue lie more in engagement or in neutrality? “Power without wisdom is tyranny; wisdom without power is pointless,” warns one of Pears’s characters. *The Dream of Scipio* is a bona fide novel of ideas, a dazzling feat of storytelling, fiction for our times.

Power Play - Tim Higgins 2021-08-03

A WALL STREET JOURNAL BUSINESS BESTSELLER • The riveting inside story of Elon Musk and Tesla's bid to build the world's greatest car—from award-winning Wall Street Journal tech and auto reporter Tim

Higgins. “A deeply reported and business-savvy chronicle of Tesla's wild ride.” —Walter Isaacson, New York Times Book Review Tesla is the envy of the automotive world. Born at the start of the millennium, it was the first car company to be valued at \$1 trillion. Its CEO, the mercurial, charismatic Elon Musk has become not just a celebrity but the richest man in the world. But Tesla's success was far from guaranteed. Founded in the 2000s, the company was built on an audacious vision. Musk and a small band of Silicon Valley engineers set out to make a car that was quicker, sexier, smoother, and cleaner than any gas-guzzler on the road. Tesla would undergo a hellish fifteen years, beset by rivals—pressured by investors, hobbled by whistleblowers. Musk often found himself in the public's crosshairs, threatening to bring down the company he had helped build. Wall Street Journal tech and auto reporter Tim Higgins had a front-row seat for the drama: the pileups, breakdowns, and the unlikeliest outcome of all, success. A story of impossible wagers and unlikely triumphs, *Power Play* is an exhilarating look at how a team of innovators beat the odds—and changed the future.

Strategies for Curbing Ineffective Management of Safety on Construction Sites. A Case Study in the Greater Accra Region - Fredrick Ahenkora Boamah 2017-03-24

Master's Thesis from the year 2016 in the subject Business economics - Business Management, Corporate Governance, grade: 60.02, Kwame Nkrumah University of Science and Technology, course: Msc Construction Management, language: English, abstract: To support in addressing this issue, this work was planned with the aim to recommend strategies for curbing ineffective management of safety on construction

sites. The construction industry is inherently risky, with a substantial number of accidents. Moreover, most construction firms aim at completing projects on time, especially with different projects at hand thereby neglecting the safety aspect of the workers. In most Ghanaian construction companies, adequate concentration is not allocated to the areas of health and safety and this has been a great problem over the years in which Accra Metropolis is no exception. In order to achieve the said aim, the objectives set up include; to identify the possible causes of accident as a result of ineffective management of safety, to determine the level of accidents caused by ineffective management of safety at the construction sites and to identify strategies to curb ineffective management of safety at the construction sites. Survey questionnaires were administered to five major construction companies in the Greater Accra Region in which the data collected was also analyzed with the Statistical Package for Social Science (SPSS) and the Relative Importance Index (RII) was also used in ranking. It was therefore revealed from the findings that poor planning at site, unsafe working conditions with others are some of the major causes of accident at site. In addition, falling victims were identified as the most serious level of accident on site. Construction companies should consider the need for special training for workers and also to create a group of internal health and safety monitoring experts were some of the recommendations made.

King Leopold's Ghostwriter - Andrew Fitzmaurice 2021-11-30

A dramatic intellectual biography of Victorian jurist Travers Twiss, who provided the legal justification for the creation of the brutal Congo Free State. Eminent jurist, Oxford professor, advocate to the Archbishop of Canterbury, Travers Twiss (1809–1897) was a model establishment figure in Victorian Britain, and a close collaborator of Prince Metternich, the architect of the Concert of Europe. Yet Twiss's life was defined by two events that threatened to undermine the order that he had so stoutly defended: a notorious social scandal and the creation of the Congo Free State. In *King Leopold's Ghostwriter*, Andrew Fitzmaurice tells the incredible story of a man who, driven by personal events that transformed him from a reactionary to a reformer, rewrote and

liberalised international law—yet did so in service of the most brutal regime of the colonial era. In an elaborate deception, Twiss and Pharaïlde van Lynseele, a Belgian prostitute, sought to reinvent her as a woman of suitably noble birth to be his wife. Their subterfuge collapsed when another former client publicly denounced van Lynseele. Disgraced, Twiss resigned his offices and the couple fled to Switzerland. But this failure set the stage for a second, successful act of re-creation. Twiss found new employment as the intellectual driving force of King Leopold of Belgium's efforts to have the Congo recognised as a new state under his personal authority. Drawing on extensive new archival research, *King Leopold's Ghostwriter* recounts Twiss's story as never before, including how his creation of a new legal personhood for the Congo was intimately related to the earlier invention of a new legal personhood for his wife. Combining gripping biography and penetrating intellectual history, *King Leopold's Ghostwriter* uncovers a dramatic, ambiguous life that has had lasting influence on international law.

EVERYONE HERE SPOKE SIGN LANGUAGE - Nora Ellen GROCE 2009-06-30

From the seventeenth century to the early years of the twentieth, the population of Martha's Vineyard manifested an extremely high rate of profound hereditary deafness. In stark contrast to the experience of most deaf people in our own society, the Vineyarders who were born deaf were so thoroughly integrated into the daily life of the community that they were not seen—and did not see themselves—as handicapped or as a group apart. Deaf people were included in all aspects of life, such as town politics, jobs, church affairs, and social life. How was this possible? On the Vineyard, hearing and deaf islanders alike grew up speaking sign language. This unique sociolinguistic adaptation meant that the usual barriers to communication between the hearing and the deaf, which so isolate many deaf people today, did not exist.
