Bigboys Games - Dave Black 2018-10-31

Bigboys Games - Volume III of The Bigboys Series Impressed by the way Prentice dealt with Gerald Furniss. Lord Stigwell sets Prentice on, as he bids to shake-up Standish Holdings with the new millennium approaching. But what he's really looking for is a 'hatchet-man'. The shake-up Stigwell has in mind is radical and calls for a whole new approach. Prentice soon cottons-on and moves to build a few angles of his own, as

things go awry and Stigwell's manoeuvring throws a few curvers at him. But he's not about to back down in the face of City hucksters who come calling, as they sense a killing and the Standish Holdings Empire teeters on the brink of meltdown. But who will come out on top; the Golden Horseshoe mob from the City's Square Mile, Simon Horburg the crooked boss of the Horburg Merchant Bank, Neil Caesar an Aussie Huckster with his Klondyke Lager and his Touring Rugby Team, the Eastend Tankard Mob who move in on the revamped airport takeover or Jesse Mallory, a Golden Girl from the Valleys who comes looking for her missing sister

Shoe Dog - Phil Knight 2016-04-26

In this instant and tenacious New York Times bestseller, Nike founder and board chairman Phil Knight "offers a rare and revealing look at the notoriously media-shy man behind the swoosh" (Booklist, starred review), illuminating his company's early days as an intrepid start-up and its evolution into one of the world's most iconic, game-changing, and profitable brands. Bill Gates named Shoe Dog one of his five favorite books of 2016 and called it "an amazing tale, a refreshingly honest reminder of what the path to business success really looks like. It's a messy, perilous, and chaotic journey, riddled with mistakes, endless struggles, and sacrifice. Phil Knight opens up in ways few CEOs are willing to do." Fresh out of business school, Phil Knight borrowed fifty dollars from his father and

launched a company with one simple mission: import high-quality, low-cost running shoes from Japan. Selling the shoes from the trunk of his car in 1963, Knight grossed eight thousand dollars that first year. Today, Nike's annual sales top \$30 billion. In this age of start-ups, Knight's Nike is the gold standard, and its swoosh is one of the few icons instantly recognized in every corner of the world. But Knight, the man behind the swoosh, has always been a mystery. In *Shoe Dog*, he tells his story at last. At twenty-four, Knight decides that rather than work for a big corporation, he will create something all his own, new, dynamic, different. He details the many risks he encountered, the crushing setbacks, the ruthless competitors and hostile bankers—as well as his many thrilling triumphs. Above all, he recalls the relationships that formed the heart and soul of Nike, with his former track coach, the irascible and charismatic Bill Bowerman, and with his first employees, a ragtag group of misfits and savants who quickly became a band of swoosh-crazed brothers. Together, harnessing the electrifying power of a bold vision and a shared belief in the transformative power of sports, they created a brand—and a culture—that changed everything.

Stone Spring - Stephen Baxter 2011-11-01
Praised as “one of the most inventive writers that science fiction has ever produced” (SF Site), national bestselling author Stephen Baxter presents a new saga of a world that could have become our own.... Ten thousand years ago, a vast and fertile plain existed that linked the British Isles to Europe. Home to a tribe of simple hunter-gatherers, Northland teems with nature's bounty, but is also subject to its whims.

Fourteen-year-old Ana calls Northland home, but her world is changing. The air is warming, the ice is melting, and the seas are rising. One day Ana meets a traveler from a far-distant city called Jericho—a town that is protected by a wall. And she starts to imagine the impossible....

Running Out of Time - Margaret Peterson Haddix 2012-02-28

Jessie lives with her family in the frontier village of Clifton, Indiana, in 1840...or so she believes. When diphtheria strikes the village and the children of Clifton start dying, Jessie's mother reveals a shocking secret -- it's actually 1996, and they are living in a reconstructed village

that serves as a tourist site. In the world outside, medicine exists that can cure the dread disease, and Jessie's mother is sending her on a dangerous mission to bring back help. But beyond the walls of Clifton, Jessie discovers a world even more alien and threatening than she could have imagined, and soon she finds her own life in jeopardy. Can she get help before the children of Clifton, and Jessie herself, run out of time?

Claw the System - Francesco Marciuliano 2018-10-16

Cats are done with humans' crap. For too long they have put up with baby talk, the humiliation of holiday costumes, and the social injustice of being told, "No." They will not sleep through this anymore. We humans have woken the beast, and in this book they have gathered together to reclaim their voice, loudly and repeatedly until we pay attention. Watch the uprising unfold, through anthems such as "Redefine Terms," "Accepted," "Decide," "A New Dawn," and "Just What Do You Think You're Doing?" Show support for your feline friends and try to understand why they're so spitting mad.

Literary memory and new voices in the ancient novel - Marília P. Futre Pinheiro 2022-04-04

The papers in this volume discuss, from various perspectives, the engagement of the ancient novels with their predecessors and aim to identify and interpret the resonances, of different degrees of closeness, of those texts (Homeric epics, traditional and nuptial poetry, the historiographical tradition, Greek theatre, Latin love elegy and pantomime) as elements of an intertextual and metadiscursive play.

I Could Pee on This, Too - Francesco Marciuliano 2016-08-16

There's a new cat in town! This feisty sibling of the international bestseller *I Could Pee on This* will be making its own sensational mark in the cat-poetry world. *I Could Pee on This, Too* explores fresh feline emotions and philosophical musings through cats' own poetry, such as "Welcome New Cat," "Sleeping My Life Away," and "You Also Live Here." Any cat lover who's longed for a deeper look into the enigmatic world of their cats will fall whiskers over paws for this well-versed follow-up.

Wardenclyffe - F. Paul Wilson 2018-12-14
Excerpt from the editorial in *The Journal of New Historical Perspectives*, Vol. 3, #4, 2011: On the night of July 15, 1903, Nikola Tesla powered up his 190-foot tower in Wardenclyffe on Long Island's north shore. The bolts of energy radiating from the apical dome were visible as far away as New Haven, Connecticut. This was the first and last time anyone would witness such a display. Three years later, broke and unable to secure further funding, Tesla abandoned the Wardenclyffe tower and his dream of worldwide wireless power. He returned to Manhattan where he promptly suffered a nervous breakdown. So say the history books. But new evidence has surfaced that a shadowy fraternal order stepped in and provided generous funding after J. P. Morgan reneged. Witnesses state that testing of the tower continued but only on foggy days when the discharges would not be noticed. The final test took place on April 18, 1906. Around dawn, in heavy fog, the tower was charged to maximum capacity; across the Atlantic, in Abereddy, Wales, two copper prongs attached to a 50-watt lightbulb were thrust into the ground. The bulb lit. Tesla had proved that worldwide wireless power was possible. Why then, at the moment of his greatest vindication, did Nikola Tesla abandon his project? What could possibly have transpired at Wardenclyffe that day to so rattle him that he would deny the world his transformative technology? We may never know.

Chew on This - Gary Brock 2018-12-15
"Chew on This" is composed of fifty-two short stories written to challenge the way you experience your world. As you "chew" on the message of each story, you are encouraged to ponder on each moral and how it relates to your world and your own life experiences. It has been said, "The journey of one thousand miles begins with one step." Dare to begin the journey. Accept the challenge to step into the shoes of a

different perspective. Step outside of your comfort zone and walk around outside of what you believe to be true. You might be surprised at what you find.

The Mandela Plot - Kenneth Bonert 2018-05-22
A Jewish teenager is drawn into the political violence of apartheid South Africa in this "riveting thriller" by the award-winning author of *The Lion Seeker* (Booklist, starred review). As the 1980s draw to a close, apartheid is in its death throes and South Africa is a maelstrom of social unrest. Johannesburg teenager Martin Helger has problems of his own. The son of a Jewish scrap dealer, he's out of place at his elite private school. When an American named Annie comes to stay with his family, Martin becomes transfixed. But as he gets closer to her, he finds himself wrenched from his privileged bubble and thrust into the raw heart of South Africa's racial struggle. Meanwhile, secrets from the past begin to emerge and old sins return to tear Martin's family apart, even as the larger forces of history and politics tear apart the country. At once a riveting literary thriller, a moving coming-of-age tale, and an unforgettable journey through a fascinating world, *The Mandela Plot* entertains and terrifies in equal measure. A Finalist for the National Jewish Book Award

Algal Biorefineries and the Circular Bioeconomy - Sanjeet Mehariya 2022-04-13

"Algae are mysterious and fascinating organisms that hold great potential for discovery and biotechnology." —Dr. Thierry Tonon, Department of Biology, University of York
"Science is a beautiful gift to humanity; we should not distort it." —A.P.J. Abdul Kalam
In this book, we emphasize the importance of algal biotechnology as a sustainable platform to replace the conventional fossil-based economy. With this focus, Volume 2 summarizes the up-to-date literature and knowledge and discusses the advances in algal cultivation, genetic improvement, wastewater treatment, resource recovery, commercial operation, and techno-economic analysis of algal biotechnology. FEATURES Discusses in detail recent developments in algae cultivation and biomass harvesting Provides an overview of genetic engineering and algal-bacteria consortia to improve productivity Presents applications of algae in the area of wastewater treatment and

resource recovery Provides case studies and technoeconomic analysis to understand the algal biorefinery Shashi Kant Bhatia, PhD, is an Associate Professor in the Department of Biological Engineering, Konkuk University, Seoul, South Korea. Sanjeet Mehariya, PhD, is a Postdoctoral Researcher at the Department of Chemistry, Umeå University, Umeå, Sweden. Motherhood - Sheila Heti 2018-05-01

From the author of *How Should a Person Be?* ("one of the most talked-about books of the year"—Time Magazine) and the New York Times Bestseller *Women in Clothes* comes a daring novel about whether to have children. In *Motherhood*, Sheila Heti asks what is gained and what is lost when a woman becomes a mother, treating the most consequential decision of early adulthood with the candor, originality, and humor that have won Heti international acclaim and made *How Should A Person Be?* required reading for a generation. In her late thirties, when her friends are asking when they will become mothers, the narrator of Heti's intimate and urgent novel considers whether she will do so at all. In a narrative spanning several years, casting among the influence of her peers, partner, and her duties to her forbearers, she struggles to make a wise and moral choice. After seeking guidance from philosophy, her body, mysticism, and chance, she discovers her answer much closer to home. *Motherhood* is a courageous, keenly felt, and starkly original novel that will surely spark lively conversations about womanhood, parenthood, and about how—and for whom—to live.

I Knead My Mommy - Francesco Marciuliano 2014-08-05

the various elements of the chemical processes that occur in the development of food products. It includes exploration of sensory elements, chemistry, and the transfer of energy and heat within the kitchen. The second part looks in detail at the makeup of specific foodstuffs from a scientific perspective, with chapters on meat, fish, vegetables, sugars, chocolate, coffee, and wine and spirits, among others. It provides a complete overview of the food science relevant to culinary students and professionals training to work in the food industry. Provides foundational food science information to culinary students and specialists Integrates principles of food science into practical applications Spans food chemistry to ingredients, whole foods, and baked and mixed foods Includes a comprehensive glossary of terms in food science

Youth's Companion - 1892

The Hand on the Wall - Maureen Johnson
2020-01-21

New York Times and USA Today bestseller! New York Times bestselling author Maureen Johnson delivers the witty and pulse-pounding conclusion to the Truly Devious series as Stevie Bell solves the mystery that has haunted Ellingham Academy for over 75 years. Ellingham Academy must be cursed. Three people are now dead. One, a victim of either a prank gone wrong or a murder. Another, dead by misadventure. And now, an accident in Burlington has claimed another life. All three in the wrong place at the wrong time. All at the exact moment of Stevie's greatest triumph . . . She knows who Truly Devious is. She's solved it. The greatest case of the century. At least, she thinks she has. With this latest tragedy, it's hard to concentrate on the past. Not only has someone died in town, but David disappeared of his own free will and is up to something. Stevie is sure that somehow—somehow—all these things connect. The three deaths in the present. The deaths in the past. The missing Alice Ellingham and the missing David Eastman. Somewhere in this place of riddles and puzzles there must be answers. Then another accident occurs as a massive storm heads toward Vermont. This is too much for the parents and administrators. Ellingham Academy is evacuated. Obviously, it's time for Stevie to do something stupid. It's time to stay

on the mountain and face the storm—and a murderer. In the tantalizing finale to the Truly Devious trilogy, New York Times bestselling author Maureen Johnson expertly tangles her dual narrative threads and ignites an explosive end for all who've walked through Ellingham Academy. Praise for the Truly Devious series: "Readers, hang tight: there's one more round to come, and if the signs are right, it'll be to die for." —Publishers Weekly (starred review) "The Agatha Christie-like ecosystem pairs with lacerating contemporary wit, and alternating past and present scenes makes for a multilayered, modern detective story." —New York Times Book Review "Remember the first time reading Harry Potter and knowing it was special? There's that same sense of magic in the introduction of teen Sherlock-in-training Stevie Bell." —USA Today (four stars) "Be still, my Agatha-Christie-loving beating heart." —Bustle *The Story of Offshore Arctic Engineering* - Dan Masterson 2018-10-29

In the early 1970s, new technology was needed to aid in coal, oil and gas exploration in the High Arctic, in order to see if ice sheets could provide a perfect structural support for roadways, airstrips and drilling platforms housing hundreds of workers. However, little engineering experience was available in this regard. This book uniquely relates the human history and the technical innovations developed in this harsh environment through research, testing, and applying many existing engineering principles to ice structure analysis. It offers essential insights into the history of ice engineering for designers, university educators and postgraduate students. While other studies detail research and testing in the laboratory, this text relates the testing, development, construction and use of ice in real construction conditions.

These Dividing Walls - Fran Cooper
2017-05-04

Step into Paris as you have never seen it before. . . SHORTLISTED FOR THE HAYES & JARVIS FICTION WITH A SENSE OF PLACE, 2018 EDWARD STANFORD TRAVEL WRITING AWARD 'An engaging debut that throws light on a hidden side of Paris' Woman and Home 'A sensitive, necessary, brave book.' Laura Barnett, author of *The Versions of Us* What building

doesn't have secrets? How much does anyone know of what goes on behind their neighbour's doors? On a hot June day, grief-stricken Edward arrives in Paris hoping that a stay in a friend's empty apartment will help him mend. But this is not the Paris he knows: there are no landmarks or grand boulevards, and the apartment he was promised is little more than an attic room. In the apartments below him, his new neighbours fill their flats with secrets. A young mother is on the brink, a bookshop owner buries her past, and a banker takes up a dark and malicious new calling. Before he knows it, Edward will find himself entangled in their web, and as the summer heat intensifies so do tensions within and without the building, leading to a city-wide wave of violence, and a reckoning within the walls of number 37. With a sultry heat to rival A Year in Provence and all the sharp perception of Leila Slimani's *Lullaby*, *These Dividing Walls* is a beautifully written and eye-opening novel about the Paris we don't see. 'It'll open your heart and mind. It certainly did mine' *The Pool* 'An unforgettable and unexpected portrait of Paris' Hannah Rothschild ***** What readers have said about *These Dividing Walls*: 'Totally engrossing - it was a magical pleasure to lose myself in these people's world each night' 'The quality of the writing in *These Dividing Walls* is never short of exquisite' 'This is an outstanding debut novel from an author to watch' 'A delightful glimpse into the lives of a group of people one hot and fearful summer'

Cesar's Way - Cesar Millan 2006-08-08
 Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on *The Oprah Winfrey Show* to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a

contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you're giving him • Why a dog's natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level • There are no "problem breeds," just problem owners • How to choose a dog who's right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

Sinful Attraction - Ann Christopher 2018-05-15

Young Money - Kevin Roose 2014-02-18
 Becoming a young Wall Street banker is like pledging the world's most lucrative and soul-crushing fraternity. Every year, thousands of eager college graduates are hired by the world's financial giants, where they're taught the secrets of making obscene amounts of money-- as well as how to dress, talk, date, drink, and schmooze like real financiers. *YOUNG MONEY* Inside the Hidden World of Wall Street's Post-Crash Recruits *YOUNG MONEY* is the inside story of this well-guarded world. Kevin Roose, New York magazine business writer and author of the critically acclaimed *The Unlikely Disciple*, spent more than three years shadowing eight entry-level workers at Goldman Sachs, Bank of America Merrill Lynch, and other leading investment firms. Roose chronicled their triumphs and disappointments, their million-dollar trades and runaway Excel spreadsheets, and got an unprecedented (and unauthorized) glimpse of the financial world's initiation process. Roose's young bankers are exposed to the exhausting workloads, huge bonuses, and recreational drugs that have always characterized Wall Street life. But they

experience something new, too: an industry forever changed by the massive financial collapse of 2008. And as they get their Wall Street educations, they face hard questions about morality, prestige, and the value of their work. *YOUNG MONEY* is more than an exposé of excess; it's the story of how the financial crisis changed a generation-and remade Wall Street from the bottom up.

Walk Through Walls - Marina Abramovic
2018-03-06

"I had experienced absolute freedom—I had felt that my body was without boundaries, limitless; that pain didn't matter, that nothing mattered at all—and it intoxicated me." In 2010, more than 750,000 people stood in line at Marina Abramović's MoMA retrospective for the chance to sit across from her and communicate with her nonverbally in an unprecedented durational performance that lasted more than 700 hours. This celebration of nearly fifty years of groundbreaking performance art demonstrated once again that Marina Abramović is truly a force of nature. The child of Communist war-hero parents under Tito's regime in postwar Yugoslavia, she was raised with a relentless work ethic. Even as she was beginning to build an international artistic career, Marina lived at home under her mother's abusive control, strictly obeying a 10 p.m. curfew. But nothing could quell her insatiable curiosity, her desire to connect with people, or her distinctly Balkan sense of humor—all of which informs her art and her life. The beating heart of *Walk Through Walls* is an operatic love story—a twelve-year collaboration with fellow performance artist Ulay, much of which was spent penniless in a van traveling across Europe—a relationship that began to unravel and came to a dramatic end atop the Great Wall of China. Marina's story, by turns moving, epic, and dryly funny, informs an incomparable artistic career that involves pushing her body past the limits of fear, pain, exhaustion, and danger in an uncompromising quest for emotional and spiritual transformation. A remarkable work of performance in its own right, *Walk Through Walls* is a vivid and powerful rendering of the unparalleled life of an extraordinary artist.

With Our Backs to the Wall - David Stevenson
2013-11-18

With so much at stake and so much already lost, why did World War I end with a whimper—an arrangement between two weary opponents to suspend hostilities? After more than four years of desperate fighting, with victories sometimes measured in feet and inches, why did the Allies reject the option of advancing into Germany in 1918 and taking Berlin? Most histories of the Great War focus on the avoidability of its beginning. This book brings a laser-like focus to its ominous end—the Allies' incomplete victory, and the tragic ramifications for world peace just two decades later. In the most comprehensive account to date of the conflict's endgame, David Stevenson approaches the events of 1918 from a truly international perspective, examining the positions and perspectives of combatants on both sides, as well as the impact of the Russian Revolution. Stevenson pays close attention to America's effort in its first twentieth-century war, including its naval and military contribution, army recruitment, industrial mobilization, and home-front politics. Alongside military and political developments, he adds new information about the crucial role of economics and logistics. The Allies' eventual success, Stevenson shows, was due to new organizational methods of managing men and materiel and to increased combat effectiveness resulting partly from technological innovation. These factors, combined with Germany's disastrous military offensive in spring 1918, ensured an Allied victory—but not a conclusive German defeat.

Nanotechnological Approaches in Food Microbiology - Sanju Bala Dhull 2020-12-27
Nanotechnology has gained attention in all aspects of modern science, having vital applications in the food chain, storage, quality monitoring, processing, preservation, and packaging. The global population is increasing rapidly, therefore there is a requirement to produce food products in a more proficient, non-toxic, and sustainable way. Food scientists and microbiologists are interested in food safety and quality assurance to produce excellent-quality food free of food pathogens. *Nanotechnological Approaches in Food Microbiology* provides a systematic introduction and comprehensive information about practical approaches and characteristic features related to the significant applications of nanotechnology in food.

microbiology, including, nano-starch films, nanoemulsions, biogenic nanoparticles, and nanocapsules. The book will explore details about metal nanoparticle synthesis, characterization, mathematical modeling, kinetic studies, and their antimicrobial approaches. Key Features: Includes comprehensive knowledge on metal nanoparticle synthesis, characterization, mathematical modeling, kinetic studies and their antimicrobial approaches Lays out concepts of essential oil nanoemulsion and their potential antimicrobial applications Deals with the latest development in nano-starch composite biofilms containing bioactive constituents to inhibit pathogenic microbes Explores the nanocapsules as potential antimicrobial agents in food. Provides information regarding new biogenic nano-antimicrobials developed for the food safety and quality assurance This book will educate readers on the aspects of nanotechnology in food safety and quality assurance. Nanoemulsions, nanohydrogels, metal nanoparticles, nano-starch films, nanocapsules and nano-antimicrobials are the emerging essentials of nanotechnology that are used to preserve the food at greater extent. This book should be of interest to a large and varied audience of researchers in academia, industry, food processing, preservation, packaging, microbiology and policy regulations.

Handbook of Hydrocolloids - Glyn O. Phillips
2020-11-06

Handbook of Hydrocolloids, Third Edition is a must-have substantive reference on hydrocolloids, helping food industry scientists ever since its first edition was published and well received. This thoroughly updated and expanded edition reviews the structure, function, properties, and applications of a broad range of hydrocolloids used in food and related industries. The third edition updates existing chapters on developments and theories on the structure and functional characteristics of individual hydrocolloids. The book provides additional chapters on new techniques for the chemical and physicochemical characterization of hydrocolloids, and applications technologies for encapsulation and controlled release of active compounds. Edited by two leading international authorities in the field, this third edition continues to be relevant to food industry

researchers, food manufacturers, graduate and postgraduate students, particularly in food, pharmaceutical, and cosmetic sciences. Introduces to food hydrocolloids considering regulatory aspects and functional characteristics Examines the manufacture, structure, function, and applications of over twenty-five hydrocolloids Brings a detailed overview of the function of hydrocolloids as emulsifiers, rheological modifiers, film formers, and encapsulation agents

Gordon Matta-Clark - Frances Richard
2019-03-26

Bringing a poet's perspective to an artist's archive, this highly original book examines wordplay in the art and thought of American artist Gordon Matta-Clark (1943-1978). A pivotal figure in the postminimalist generation who was also the son of a prominent Surrealist, Matta-Clark was a leader in the downtown artists'

community in New York in the 1970s, and is widely seen as a pioneer of what has come to be known as social practice art. He is celebrated for his "anarchitectural" environments and performances, and the films, photographs, drawings, and sculptural fragments with which his site-specific work was documented. In studies of his career, the artist's provocative and vivid language is referenced constantly. Yet the verbal aspect of his practice has not previously been examined in its own right. Blending close readings of Matta-Clark's visual and verbal creations with reception history and critical biography, this extensively researched study engages with the linguistic and semiotic forms in Matta-Clark's art, forms that activate what he called the "poetics of psycho-locus" and "total (semiotic) system." Examining notes, statements, titles, letters, and interviews in light of what they reveal about his work at large, Frances Richard unearths archival, biographical, and historical information, linking Matta-Clark to Conceptualist peers and Surrealist and Dada forebears. *Gordon Matta-Clark: Physical Poetics* explores the paradoxical durability of Matta-Clark's language, and its role in an aggressively physical oeuvre whose major works have been destroyed.

Spray Drying Encapsulation of Bioactive Materials - Seid Mahdi Jafari 2021-09-07

Encapsulation of bioactives is a fast-growing approach in the food and pharmaceutical industry. *Spray Drying Encapsulation of Bioactive Materials* serves as a source of information to offer specialized and in-depth knowledge on the most well-known and used encapsulation technology (i.e., spray drying) and corresponding advances. It describes the efficacy of spray drying in terms of its advantages and challenges for encapsulation of bioactive ingredients. Discusses the potential of this technique to pave the way toward cost-effective, industrially relevant, reproducible, and scalable processes that are critical to the development of delivery systems for bioactive incorporation into innovative functional food products and pharmaceuticals Presents the latest research outcomes related to spray drying technology and the encapsulation of various bioactive materials Covers advances in spray drying technology that may result in a more

efficient encapsulation of bioactive ingredients Includes computational fluid dynamics, advanced drying processes, as well as the morphology of the dried particles, drying kinetics analyzers, process controllers and adaptive feedback systems, inline powder analysis technologies, and cleaning-in-place equipment Aimed at food manufacturers, pharmacists, and chemical engineers, this work is of interest to anyone engaged in encapsulation of bioactive ingredients for both nutraceutical and pharmaceutical applications.

Chew on this - Eric Schlosser 2006

Examines the fast food industry with facts about its evolution and practices, the effects of fast food consumption on public health, and the international success of fast food.

I Could Pee on This - Francesco Marciuliano 2012-08-03

Animal lovers will laugh out loud at the quirkiness of their feline friends with these insightful and curious poems from the singular minds of funny cats. In this hilarious, bestselling book of tongue-in-cheek poetry. The author of the internationally syndicated comic strip *Sally Forth* helps cats unlock their creative potential and explain their odd behavior to ignorant humans. With titles like "Who Is That on Your Lap?," "This Is My Chair," "Kneel Before Me," "Nudge," and "Some of My Best Friends Are Dogs," the poems collected in *I Could Pee on This* perfectly capture the inner workings of the cat psyche. With photos of the cat "authors" throughout, this whimsical animal book reveals kitties at their wackiest, and most exasperating (but always lovable). Ideal for that "crazy cat lady" or "cat mom/dad" in your life this collection of poems makes for the perfect cat-themed gift for anyone who's obsessed with our feline friends.

Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings - Alexandra Green 2018-01-04

Step into a Burmese temple built between the late seventeenth and early nineteenth centuries and you are surrounded by a riot of color and imagery. The majority of the highly detailed wall paintings displays Buddhist biographical narratives, inspiring the devotees to follow the Buddha's teachings. Alexandra Green goes one step further to consider the temples and their

contents as a whole, arguing that the wall paintings mediate the relationship between the architecture and the main Buddha statues in the temples. This forges a unified space for the devotees to interact with the Buddha and his community, with the aim of transforming the devotees' current and future lives. These temples were a cohesively articulated and represented Burmese Buddhist world to which the devotees belonged. Green's visits to more than 160 sites with identifiable subject matter form the basis of this richly illustrated volume, which draws upon art historical, anthropological, and religious studies methodologies to analyze the wall paintings and elucidate the contemporary religious, political, and social concepts that drove the creation of this lively art form. "Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings is truly a tour de force that allows us to see Burmese temple paintings of the Life of the Buddha and similar themes as an open-ended genre that, like literary discourse, participates in wider social, intellectual, and religious contexts." —Juliane Schober, Arizona State University "Alexandra Green introduces this relatively unknown material and subjects it to sophisticated analysis. This study is major step towards creating a template that could be used for analyzing other late traditions of Buddhist painting." —Janice Leoshko, University of Texas at Austin

I Could Chew on This - Francesco Marciuliano
2013-07-30

A New York Times bestseller? Oh, you know the dogs weren't going to let the cats get away with that! This canine companion to I Could Pee on This, the beloved volume of poems by cats, I Could Chew on This will have dog lovers laughing out loud. Doggie laureates not only chew on quite a lot of things, they also reveal

their creativity, their hidden motives, and their eternal (and sometimes misguided) effervescence through such musings as "I Dropped a Ball," "I Lose My Mind When You Leave the House," and "Can You Smell That?" Accompanied throughout by portraits of the canine poets in all their magnificence, I Could Chew on This is a work of unbridled enthusiasm, insatiable appetite, and, yes, creative genius. Plus, this is a fixed-format version of the book, which looks nearly identical to the print version.
