Theft of the Nation - Donald Cressey 2017-09-08

Organized crime in America today is not the tough hoodlums familiar to moviegoers and TV watchers. It is more sophisticated, with many college graduates, gifted with organizational genius, all belonging to twenty-four tightly knit "families," who have corrupted legitimate business and infiltrated some of the highest levels of local, state, and federal government. Their power reaches into Congress, into the executive and judicial branches, police agencies, and labor unions, and into such business enterprises as real estate, retail stores, restaurants, hotels, linen-

supply houses, and garbage-collection routes. How does organized crime operate? How dangerous is it? What are the implications for American society? How may we cope with it? In answering these questions, Cressey asserts that because organized crime provides illicit goods and services demanded by legitimate society, it has become part of legitimate society. This fascinating account reveals the parallels: the growth of specialization, "big-business practices" (pooling of capital and reinvestment of profits; fringe benefits like bail money), and government practices (negotiated settlements and peace treaties, defined territories, fair-trade agreements). For too long we have, as a society, concerned ourselves only with superficial questions about organized crime. "Theft of the Nation" focuses on to a more profound and searching level. Of course, organized crime exists. Cressey not only establishes this fact, but proceeds to explore it

rigorously and with penetration. One need not agree with everything Cressey writes to conclude that no one, after the publication of "Theft of the Nation", can be knowledgeable about organized crime without having read this book.

Statement on Auditing

Standards, Number 128 -
AICPA 2016-11-21

As a result of its Clarity Project, the Auditing Standards Board (ASB) has issued Statement on Auditing Standards (SAS) No. 128, Using the Work of Internal Auditors, to supersede SAS No. 65, The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements (AICPA, Professional Standards, AU sec. 322 and AU-C sec. 610), and amend: SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (AICPA, Professional Standards, AU-C sec. 315); Various other sections in SAS No. 122 (AICPA, Professional Standards, AU-C secs. 200, 220, 230, 240, 260, 265, 300, 402, 500, 550, and 600); and Statement on Quality Control Standards No. 8, A Firm's System of Quality Control (Redrafted) (AICPA,

Professional Standards, QC sec. 10). SAS No. 128 addresses the external auditor's responsibilities when using the work of internal auditors if it includes (a) using the work of the internal audit function in obtaining audit evidence and (b) using internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. Consistent with International Standard on Auditing (ISA) 610 (Revised 2013), SAS No. 128 introduces the concept of a systematic and disciplined approach, which is not included in SAS No. 65. Paragraph 13 of SAS No. 128 would require, among other things, as a prerequisite to being able to use the work of the internal audit function, that the external auditor evaluate the application by the internal audit function of a systematic and disciplined approach, including quality control. Paragraphs A12–A14 of SAS No. 128 provide application guidance with regard to the application of a systematic and disciplined approach. The ASB

believes that relative to SAS No. 65, this requirement represents an additional and explicit evaluation that the external auditor would need to perform to conclude on the appropriateness of using the work of internal auditors.

Behavioral Finance: The Second Generation - Meir Statman 2019-12-02

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as

“irrational”—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people’s normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People’s normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People’s normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

What are the key objectives of corporate governance? How effective has it been in India? Why has the need for good governance intensified over the last decade? Have the recent developments in the field opened up a wide range of governance issues? This book addresses such debates and provides an insight into advancing and improving corporate governance practices in India. It explores the evolution of corporate governance and discusses

crucial aspects such as compensation for executives, gender diversity on Indian boards, ethical business, independent directors, audit committees, corporate governance in state-owned enterprises, and corporate social responsibility. The volume also critically examines

important provisions of the Companies Act, 2013 along with the revised clause 49. With essays from distinguished academics, practitioners, and research scholars, it brings out contemporary perspectives on the provisions, challenges, and opportunities in the field within a comparative global context.
