The GrandLuxe Express -

Karl R. Zimmermann 2007

This lavish book invites readers aboard the glamorous renovated cars of the GrandLuxe railway train. In 1989, the American-European Express, a stylish train created in emulation of Europe's Orient Express, commenced operation between Washington and Chicago. Forced to close down two years later, it was reborn in 1994 as the American Orient Express. The AOE, as this luxury streamliner was often known, matured under the tutelage of various owners until 2006, when under new ownership it acquired a new name, the GrandLuxe Express. Trackside, the train

gleamed as a classic American streamliner. Aboard, travelers enjoy old-fashioned, wood-paneled elegance that harkens back to the 1920s and Europe's posh Wagons-Lits sleepers and restaurant cars.

Coronavirus A Financial Times

Best Health Book of 2019 and a

New York Times Book Review

Editors' Choice "Honigsbaum

does a superb job covering a

century's worth of pandemics

and the fears they invariably

unleash." —Howard Markel,

MD, PhD, director of the

Center for the History of

Medicine, University of

Michigan How can we

understand the COVID-19

pandemic? Ever since the 1918

Spanish influenza pandemic,

scientists have dreamed of

preventing such catastrophic

outbreaks of infectious disease.

Yet despite a century of

medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. In *The Pandemic Century*, a lively account of scares both infamous and less known, medical historian Mark Honigsbaum combines reportage with the history of science and medical sociology to artfully reconstruct epidemiological mysteries and the ecology of infectious diseases. We meet dedicated disease detectives, obstructive or incompetent public health officials, and brilliant scientists often blinded by their own knowledge of bacteria and viruses—and see how fear of disease often exacerbates racial, religious, and ethnic tensions. Now updated with a new chapter and epilogue.

Introduction to Statistics and Data Analysis - Roxy Peck 2005-12

Roxy Peck, Chris Olsen and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistical output and methods of data analysis. Based on the best-selling STATISTICS: THE EXPLORATION AND ANALYSIS OF DATA, Fifth Edition, this new INTRODUCTION TO STATISTICS AND DATA ANALYSIS, Second Edition integrates coverage of the graphing calculator and includes expanded coverage of probability. Traditional in structure yet modern in approach, this text guides students through an intuition-

based learning process that stresses interpretation and communication of statistical information. Conceptual comprehension is cemented by the simplicity of notation-- frequently substituting words for symbols. Simple notation helps students grasp concepts. Hands-on activities and Seeing Statistics applets in each chapter allow students to practice statistics firsthand.

Barn Find Road Trip - Tom

Cotter 2015-09-28

Great collector cars are still out there--just waiting to be found! Sadly, there is very little reality in reality TV. That wouldn't be so bad except for the fact that these shows are the only TV shows for the barn-find collector car aficionado. Barn Find Road Trip is the antidote to all the manufactured collector "reality" shows. It's a real-world, barn-find banzai run in which auto archaeologist Tom Cotter, his car collector pal Brian Barr, and photographer Michael Alan Ross embarked on a 14-day collector-car-seeking adventure with no predetermined destinations. It's barn-find freestyle! Roaming the Southeast, they documented their day-to-day car search in photos and through stories and interviews. This trip is absolutely real and the same kind of junket any gearhead with the skills, knowledge, and time can undertake. Cotter and company hit the road in Cotter's 1939 Ford Woody, the kind of car that opened doors and started

the conversations that revealed where interesting cars were squirreled away. The result? The discovery of over 1,000 collector cars and some of the most amazing barn-find stories Cotter has yet unearthed, all accompanied by Ross' evocative photography. If you love stories of automotive adventure, this is the book for you!

Full-size Fords - David W. Temple 2010

Full Size Fords: 1955-1970 is a fascinating retrospective of the cars - the design process, manufacturing, equipment packages, and a thorough listing of options, interior patterns, and paint codes. All models from 1955 to 1970 that brought Ford to dominance in the full-size category are revealed in compelling detail. The introduction of the Galaxie,

the development of the Skyliner retractable roof car, the radical redesign of the 1960 models to counter Chevy's new sedan, and much more is covered. Period magazine reviews provide insight and perspective of the driving experience and performance of various full-size models. A fascinating retrospective on Ford Y-Block engines as well as Ford FE engine family and the new for 1970 Lima series engine is also provided. In addition, author David Temple examines Ford's racing exploits, featuring the dual-quad 427 Cammer engine, the Galaxie Grand National race car, and factory and lightweight drag cars.
