*Tug of War* - Wilmer G. Villacorta 2017-07-14

A treatment of power, vulnerability, and suffering in the life and ministry of mid-career leaders offers a reminder of the need to rethink power. The push and pull of power dynamics, unless acknowledged and surrendered, can impact leaders' spirituality, relationships, character, and ultimately their faithfulness in ministry. To supplement countless books on leadership models, techniques and motivation, this book offers a counter-narrative of power informed by and embedded in the message of the cross; it elaborates on a humble use of power and proposes a reframing of power as seen in Christ's downward ascent and cruciform strength. This book is of critical importance in the field of ministry formation (local and global) because it probes to the very core of our human condition, illuminating one of the chief perils in lives of position and leadership—the misconstrual and misuse of power—a reality that can be particularly destructive in spiritual and ministry contexts. The larger Christian community will also find relevance in this message as leaders of every ilk share common challenges in the struggles of power and

control. You will find a very personal and deeply reflective treatment on our common human condition, and an invitation to admit our inner and external struggles over the use and practice of power in ministry.

**Tug of War** - Jocelyn Wills 2017-09-04

Selling Earth observation satellites on their abilities to predict and limit adverse environmental change, politicians, business leaders, the media, and technology enthusiasts have spent sixty years arguing that space exploration can create a more peaceful, prosperous world. Capitalist states have also socialized the risk and privatized the profits of the commercial space industry by convincing taxpayers to fund surveillance technologies as necessary components of sovereignty, freedom, and democracy. Jocelyn Wills's *Tug of War* reminds us that colonizing the cosmos has not only accelerated the arms race but also encouraged government contractors to compete for the military and commercial spoils of surveillance. Although Canadians prefer to celebrate their role as purveyors of peaceful space applications, Canada has played a pivotal part in the expansion of neoliberal policies and surveillance networks that now encircle the globe, primarily as a political ally of the United States and component supplier for its military-industrial complex.

Tracing the forty-five-year history of Canada's largest space company - MacDonald, Dettwiler and Associates (MDA) - through the lens of surveillance studies and a trove of oral history transcripts, government documents, trade journals, and other sources, Wills places capitalism's imperial ambitions squarely at the centre of Canada-US relations and the privatization of the Canadian political economy. Tug of War confronts the mythic lure of technological progress and the ways in which those who profess little interest in war rationalize their leap into military contracting by avoiding the moral and political implications of their work.

**The Nile Development Game** - Mina Michel Samaan 2018-12-30

This book introduces an analytic framework constructed upon the iterated Prisoners' Dilemma game to model and analyze transboundary water interactions along the Nile River. It presents a thorough and in-depth analysis of the historical path through which conflict and cooperation have been generated among the Nile riparians over large-scale developmental schemes. This is done through modeling water interactions in the basin as an iterated Prisoners' Dilemma game and employing process-tracing method to compare four distinguishable rounds of the game: the colonial round, the Cold War round, the post-Cold War round, and the post-2011 round. The book examines the influences of the changing political contexts at the domestic, regional, and global levels on the game outcomes. This framework is initially applied on several cases of international rivers worldwide, while the rest of the book is devoted to the Nile case. The book's central argument is that the riparians' interests, capabilities, and beliefs are heterogeneous in varying degrees and that the changing multilevel political contexts influence the level of such heterogeneities among the riparians, which ultimately drive the equilibrium dynamics in the Nile game to generate different conflictive and cooperative outcomes over time. Although the book's main conclusion indicates that the absence of economic interdependence and regional integration will transfer the game into tug-of-war, which will impose harsh punishment on the basin communities and ecosystems on the long term, the final chapter lists a group of recommendations addressed to the riparian states and international donors, exploring the way for boosting cooperation and preventing conflicts in the basin. Presenting clear theoretical, methodological, and policy implications, this book is appropriate for students and scholars of international relations, hydrology, and development studies.

**Elephant, Hippopotamus & Rabbit** - Zenzo Ncube 2012-11-07

Having been born in Africa during an era when owning a picture book, let alone affording TV was a luxury, 'Tug Of War' was inspired by many of the African folk stories that were told to us by my grandmother. These

stories were occasionally told during evenings, after meals and were extremely entertaining as well as educational in a way that made me visualize them. As a result, I have been motivated to share this experience pictorially in this book. It tells of three characters, Elephant, Hippopotamus and Rabbit. The story begins deep in the African jungle where the agile and witty Rabbit entertains himself by challenging Elephant and Hippopotamus to a game of tug of war. The little animal selects the competitors on two distinct characteristics. They live in completely different environments and possess similar strengths. Elephant naturally prefers the inner jungle and Hippopotamus spends most of his time in the water. This presents a perfect opportunity for a perfect match with Rabbit handing each end of the rope to each large animal at different times declaring that he can defeat either Elephant or Hippopotamus to this pull game. It actually ends with both huge animals fiercely competing against one another yet ignorantly believing that Rabbit is on the other end. This teaches us to acknowledge and respect each other and not to judge each other in terms of natural built or stature.

Tug of War - Harvey Brownstone 2009

Explaining complex family law concepts and procedures in a jargon-free style, this resource includes detailed information on how family court works, offers easily understandable case examples, and describes alternatives to litigation that are designed to help prevent families with children from entering the legal system to resolve disputes. Exploring subjects that apply to all parties involved in resolving separation, divorce, and custody conflicts—judges, lawyers, mediators, parenting coaches, psychologists, family counselors, and social workers—this reference demystifies the role of lawyers and judges, debunks the myth that parents can represent themselves in court, and examines each parent's responsibility to ensure that post-separation conflicts are resolved with minimal emotional stress to children.

*The Great Tug of War* - Beverley Naidoo 2006-06-09

Mmutla the hare is cunning. When you have Ntsu the eagle soaring high in the sky looking for her supper, and Tswhe the baboon vowing to throw you off a cliff, you need all the tricks you can think of. When Mmutla the hare tricks Tlou the elephant and Kubu the hippo into having an epic tug of war, the whole savanna is soon laughing at their foolishness. However small animals should not make fun of big animals and King Lion, together with Tswhe the baboon and wise old Khudu the tortoise set out to teach Mmutla a lesson - but the clever hare is always one step ahead.

**What If? 2** - Randall Munroe 2022-09-13

AN INSTANT NEW YORK TIMES BESTSELLER! "The questions throughout What If? 2 are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun." —TIME The #1 New York Times bestselling author of What If? and How To answers more of the weirdest questions you never thought to ask The millions of people around the world who read and loved What If? still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics to airliner catapult-design to answer his readers' questions, clearly and concisely, with illuminating and occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

*Tug of War: Classical Versus 'Modern' Dressage* - Gerd Heuschmann  
2018-10-22

German rider and equine veterinarian Dr. Gerd Heuschmann is well-known in dressage circles - admired for his plain speaking regarding what he deems the incorrect and damaging training methods commonly employed by riders and trainers involved in competition today. Here, he presents an intelligent and thought-provoking exploration of both classical and 'modern' training methods, including 'hyperflexion' (also known as Rollkur), against a practical backdrop of the horse's basic anatomy and physiology. This book is his appeal to: Riders - to use only gentle, progressive training methods in accordance with the time-tested principles of classical riding. To: Judges - to sharpen their eyes and recognize unnatural postures or forced movements and evaluate them accordingly in competition, while rewarding classically trained, correctly gymnasticized horses. To: Governing organizations - to review their regulations and uphold stipulated "ideals" on both national and international levels. To: Spectators - to reject sensational performances and flashy tests when the methods used to obtain them have not had the health and welfare of the horse in mind. Dr Heuschmann provides readers with a thorough discussion of the correct physiological training of the horse, walking through the elements of contact, lateral movement, and other important aspects of a classical training foundation. He explains how impulsion and correct collection can indeed be developed safely and to the horse's benefit - and tested at the highest levels in the show ring - if only we use care for our equine partners and allow time to achieve their physical best.

The Judicial Tug of War - Adam Bonica 2020-12-17

Why have conservatives decried 'activist judges'? And why have liberals -

and America's powerful legal establishment - emphasized qualifications and experience over ideology? This transformative text tackles these questions with a new framework for thinking about the nation's courts, 'the judicial tug of war', which not only explains current political clashes over America's courts, but also powerfully predicts the composition of courts moving forward. As the text demonstrates through novel quantitative analyses, a greater ideological rift between politicians and legal elites leads politicians to adopt measures that put ideology and politics front and center - for example, judicial elections. On the other hand, ideological closeness between politicians and the legal establishment leads legal elites to have significant influence on the selection of judges. Ultimately, the judicial tug of war makes one point clear: for good or bad, politics are critical to how judges are selected and whose interests they ultimately represent.

**Tug-of-War** - Eric Luper 2017-10-10

Introducing Cocoa the chocolate Labrador: fierce friend, energetic pup, and star of this deliciously sweet new chapter book series! One candy-crazed Labrador plus one feisty puppy equals double the trouble! When Mason and Hannah find a tiny yellow Labrador named Nilla out by the old mill, Hannah is dying to keep her. But Mason isn't sure that's a good idea. Not when they are busy trying to turn the mill into a chocolate factory to save the family's business. Plus the Cabots already have a dog, and Cocoa's wild ways are always stirring up trouble. Adding an untrained, rowdy puppy to the mix might just be a recipe for disaster!

**Tug of War** - Mikhail Troitskiy 2017-12-15

Conflicts in Eurasia have been receiving significant attention in the last few years from political scientists and international relations scholars. The geographic area of Eurasia lies at the intersection of global and regional conflicts and coordination games. On the one hand, regional controversies in Eurasia often affect relations among the great powers on a global scale - for instance, Russia believes it is engaged in a clash with the United States and its allies in post-Soviet Eurasia and that by obstructing EU and US policies in its neighbourhood, Moscow not only protects its security interests but also precipitates the demise of the US-

centric world order. On the other hand, global rivalries can either exacerbate tensions or facilitate negotiated solutions across Eurasia, mostly as a result of competitive behaviour among major powers in conflict mediation. Few scholars have focused on the negotiation process or brought together the whole variety of seemingly disparate yet comparable cases. This volume, edited by two global security experts - one from Canada and one from Russia - examines negotiations that continue after the "hot phase" of a conflict has ended and the focus becomes the search for lasting security solutions. Tug of War brings together conflict and security experts from Russia, Eurasia, and the West to tackle the overarching question: how useful has the process of negotiation been in resolving or mitigating different conflicts and coordination problems in Eurasia, compared to attempts at exploiting or achieving a decisive advantage over one's opponents?

Our World Bre 4 the Tug of War Rdr - Crandall 2013-02-13

One morning, the animals in the jungle had an argument. Some said Elephant was the strongest animal in the jungle. Others said Hippo was the strongest. When Turtle says that he is the strongest, the other animals laugh at him. Can Turtle prove he is the strongest animal in the forest?

**Tug of War** - Tony English 2010

Tony English wrote Tug of War for negotiation experts and others who might be interested in a fresh analytical method which draws on the literature of negotiation but delves into many other disciplines, including international relations, fine arts, philosophy, management, anthropology

and psychology. The book focuses on international negotiation but is relevant to negotiation in general. Tony interviewed many veteran negotiators in diplomacy, hostage release and business. He weaves the rich character, skills and experience of individual veterans into the book, and presents two cases in fine detail. The informants include: Hugh Davies, lead British negotiator for the return of Hong Kong to China; Sir Alan Donald, British Ambassador to China and several other countries; Terry Waite, of Beirut kidnap fame; Meg McDonald, Australian Ambassador for the Environment and team leader for the greenhouse gas negotiations at Kyoto; Malcolm Lyon, Australia's lead negotiator for the Torres Strait Treaty with Papua New Guinea; Don Kenyon, Australian Ambassador to Belgium, Luxembourg and the European Union, and former Chairman of the WTO's Dispute Settlement Body; Doug Anderson, Managing Director of P and O Ports; Sam Passow, Research Director of London's Centre for Dispute Resolution; Geoff Goon, a major exporter of fruit and vegetables from Australia to the Middle East; Steven Hochman and Kirk Wolcott, dispute resolution advisers to President Jimmy Carter; and a few others who needed anonymity. Tony also draws on his own experience in several countries. At the core of the book is the tension, which comprises complementary phenomena, both physical and abstract, that compete for influence over our behaviour. Profuse forces generate tensions. Tony presents a model of negotiation context that comprises tensions and the forces generating them. Expert negotiators are expert tension managers and therefore have high 'contextual intelligence', a variation on Robert Sternberg's concept of Successful Intelligence in cognitive psychology. Tony links contextual intelligence with seven traits identified in his veterans. Some writers refer to the tension but neglect its nuances and miss its generic value in analysing negotiations and other human activity as people try to impose manageable order on chaotic information. We are all tension managers, whether or not we are aware of it.

Tug of War - Naomi Howarth 2018-06-05

Financial Times: 'gorgeously vibrant' Tortoise is on the hunt for a friend, but only encounters huge Elephant and Hippo, who are mean about his small size and wrinkly skin. But although Tortoise isn't big, he is certainly brainy! He sets out to show Elephant and Hippo that biggest doesn't mean best by challenging them to a tug of war. They sneeringly accept... but little do they know that they have really agreed to fight each other! A funny, heartwarming retelling of this well-known folk tale about brains vs brawn with beautiful, stylish illustrations. A special book that teaches that wit and wisdom are more important than size and physical strength, and friendship is what matters most.

**Tug of War** - K. Larsen 2018-02-11

mpulsive, YES. Irresponsible, SURE. Necessary, PROBABLY. Going to end badly, most likely. Does any of that matter to me, no. I decided that I can't please everyone so this week my only goal is to please me. I'm a selfish cow but I can't seem to help it. I'm Clara Lord. I own Bloodline's Tattoo Parlor, have a filthy mouth, no filter and a really strong objection to bossy idiots, pet names and wealthy men. You will hate me, love me or love to hate me but either way, it doesn't matter. Everything I touch turns to crap and it's all my fault. See, I lived through hell. Then I escaped hell and carefully spent the next eight years crafting a perfect little life until Domini Napoli screwed it all up. Now nothings right. Everything's wrong and all my secrets are coming out. Obviously, I have

to fix it, my life, the problem is I don't really trust anyone and I don't know how. Dominic baffles me. Sawyer adores me. Amanda and Marg try to keep me in line and I live for Allie. This whole thing is a cluster F\*\*\*. I want them both in different ways but I have Alliecat to protect in the mix. I keep thinking the only way out of this is to take Allie and run...again. Leave both men behind and go back to Allie and Clara take on the world...is thirty-three too old to do that now? It didn't seem so bad at twenty-four but to have to do all that work again... crap.

#### China's Influence and the Center-periphery Tug of War in Hong Kong, Taiwan and Indo-Pacific - Brian C. H. Fong 2020-12-30

Bringing together a team of cutting-edge researchers based in Hong Kong, Taiwan and Indo-Pacific countries, this book focuses on the tug of war between China's influence and forces of resistance in Hong Kong, Taiwan and selected countries in its surrounding jurisdictions. China's influence has met growing defiance from citizens in Hong Kong and Taiwan who fear the extinction of their valued local identities. However, the book shows that resistance to China's influence is a global phenomenon, varying in motivation and intensity from region to region and country to country depending on the forms of China's influence and the balances of forces in each society. The book also advances a concentric center-periphery framework for comparing different forms of extra-jurisdictional Chinese influence mechanisms, ranging from economic, military and diplomatic influences to united front operations. This book will be of key interest to scholars and students of comparative politics, international relations, geopolitics, Chinese politics, Hong Kong-China relations, Taiwan and Asian politics.
