The authorized biography of Robert Pollard, indie rock icon and founder of the music group Guided By Voices Robert Pollard has been a staple of the indie rock scene since the early '80s, along with his band Guided By Voices. approach, relying on lo-fi home recordings for much of his and his band's career. A prolific artist, Pollard continues to churn out album after album, much to the acclaim of critics and his obsessive and devoted fans. But his story has never been faithfully told in its entirety. Until now. Author Matthew Cutter is a longtime friend of Pollard and, with Pollard's blessing, he's set out to tell the whole, true story of *Guided By Voices*. *Closer You Are* is the first book to take an in-depth look at the man behind it all, with interviews conducted by the author with Pollard's friends, family, and bandmates, along with unfettered access to Pollard himself and his extensive archives. Robert Pollard has had an amazing and seemingly endless career in rock music, but he's also established himself as a consummate artist who works on his own terms. Now fans can at long last learn the full story behind one of America's greatest living songwriters.

at the airport. Beautiful. Sexy. And a bit shy. She was wobbling on heels that looked a little too big, so I offered her my seat. At first, she rebuffed my invitation, but I convinced her to stay. My flight had been delayed and I assumed hers had too. I figured why not spend the time together. One drink led to casual conversation--she'd recently been fired and I'd just attended my ex-fiancée's wedding. Three drinks led to getting a little closer--I slid a hand on her thigh and my fingertips under the hem of her skirt. Five drinks led to a proposition--a hotel room and nothing more. After a mind-blowing night of the hottest sex I've ever had, I woke up alone and penniless. Turned out Sarah was looking for more--just not more of me. I should never have offered her my seat. I should never have drunk so much. And I never should have fallen asleep. Not the smartest thing I've ever done. Then again, who would have thought my self-proclaimed one-night stand would screw me in more than

the literal sense. That hooking up with Sarah would jeopardize everything I've worked for. That Sarah wasn't really Sarah. If she thinks things are over between us--she's wrong. Turns out, fate didn't throw me the bird after all. "Sarah" doesn't know it yet but she picked the same tropical island to escape to as I did. Can you say--payback? I can. Karma baby. Or that's what I thought--until I fell for her. Too bad things don't always go as planned...

Mythomanias - Lab M4 2015

"Come along ... come, a little closer ... ladyboys, rats, Brahmins, incestuous brothers, arrogant scientists, royal jesters, suicidal late-weaned adolescents, Diogenes-style rebels, obsessional mythical creatures, repressed psychoanalysts, overfed baby boys ... Here is where psychotic machines, apparatuses and fragments, bodies in verse, and bodies-becoming are meeting in the story-assemblage of their solitary symptoms."

mythomaniaS is a catalog of case studies in the form of film stills, architectural fragments, stage props, texts, and images culled from the experiments of

as a tactic for merging refusal and vitality into a schizophrenic logic able to navigate the antagonism between the bottom-up and top-down conditions of the globalized world. In these fabricated schizoid psycho-nature-machine-scapes, the human being is no longer a bio-ecological consumer but a psycho-computing animal that emerges co-dependently with its environment in a hyper-local haecceity ("this-ness"). In the vein of Situationist psychogeography ("the study of the precise laws and specific effects of the geographical environment, consciously organized or not, on the emotions and behavior of individuals"), each scenario fabulates geo-architectural conditions of human exile, solitude, and pathology drawn from narratives of the forbidden and taboo: the true story of an old Indian book collector exiled from his community on the suspicion of atheism, who finds refuge in a tear-collecting shelter ("Would Have Been My Last

Complaint"); a scientist captured by a water spirit who remains trapped like a fish in the mindscape of a fish butcher (Although (in) Hapnea); a monster-boy endomorph constantly overfed and protected by a claustrophilic antidote-jacket produced by the excess of his incestuous mother's love ((beau)strosity); Ariadne, labyrinth overseer, floating between two macho spirals, testosteroneed Theseus and alcoholic Dionysus (Naxos, Terra Insola); the feral child - innocent, naïve, and obscene - in the deep jungle, auscultated by a scientific voyeurism (The Offspring); etc. Each of these scenarios (designed as "shelters" where mind, environment, and architecture co-map each other) unfolds a "mythomania" in which each character transforms, and is transformed, para-psychically, by the environment, in a sort of biotope (habitat) feedback experiment. Ultimately, Lacadee and Roche want to create - via architecture and design, myth (literature), and psycho-geography - various

conditions for schizoid passages between realism and fiction, expertise and knowledge, mind and built environment, narrative and topology, in order to bring about new strategic-tragic co-dependencies as forms of schizoid resistance to the usual identity regimes, and to also reboot architecture as a form of psycho-social praxis and non-necrotic speculation

The Premonition: A Pandemic Story - Michael Lewis

2021-05-04

New York Times Bestseller For those who could read between the lines, the censored news out of China was terrifying. But the president insisted there

was nothing to worry about. Fortunately, we are still a nation of skeptics. Fortunately, there are those among us who study pandemics and are willing to look unflinchingly at worst-case scenarios. Michael Lewis's taut and brilliant nonfiction thriller pits a band of medical visionaries against the wall of ignorance that was the official response of the Trump administration to the outbreak of COVID-19. The characters you will meet in these pages are as fascinating as they are unexpected. A thirteen-year-old girl's science project on transmission of an airborne pathogen develops into a very grown-up model of disease control. A local public-health officer uses her worm's-eye view to see what the CDC misses, and reveals great truths about American society. A secret team of dissenting doctors, nicknamed the Wolverines, has everything necessary to fight the pandemic: brilliant backgrounds, world-class labs, prior experience with the pandemic scares of bird flu and

First Ask Why - Shelly Wildman
2018-03-28

It's no secret that parenting is tricky business. With advice flooding in from all sides, strong-willed children pushing against boundaries, and our own human flaws, it's easy to get bogged down in every how-to that we're not doing well. But maybe that isn't the right approach. Maybe the first step is not to ask "how" but to ask "why." Like most parents, when Shelly Wildman had children, she consulted books, sermons, and lectures on how to raise the best children possible. Yet every resource focused on how to get external results: children who behave the way others expected them to. For Shelly and her husband, the turning point happened when they started asking why instead--shifting their focus to internal change. That's when their purpose as parents became clear: parents are called to do their best to show kids how to know and love Jesus, to love others, and to make a

difference in the world. There are no rules here, no inflexible series of steps that lead to perfect parenting. Instead, Shelly encourages parents to think about their unique family and why each child's needs for spiritual growth might look different. She walks you through intentional questioning, focusing on building a firm foundation for lasting discipleship. And in the end, you'll discover that God wants the same outcome you do: a child who knows Christ intimately, loves him deeply, and has a heart to serve him fully.

Closer to Nowhere - Ellen Hopkins 2020-10-06

#1 New York Times bestselling author Ellen Hopkins's poignant middle grade novel in verse about coming to terms with indelible truths of family and belonging. For the most part, Hannah's life is just how she wants it. She has two supportive parents, she's popular at school, and she's been killing it at gymnastics. But when her cousin Cal moves in with her family, everything changes. Cal tells half-truths and tall tales, pranks Hannah constantly, and seems to be the reason her parents are fighting

more and more. Nothing is how it used to be. She knows that Cal went through a lot after his mom died and she is trying to be patient, but most days Hannah just wishes Cal never moved in. For his part, Cal is trying his hardest to fit in, but not everyone is as appreciative of his unique sense of humor and storytelling gifts as he is. Humor and stories might be his defense mechanism, but if Cal doesn't let his walls down soon, he might push away the very people who are trying their best to love him. Told in verse from the alternating perspectives of Hannah and Cal, this is a story of two cousins who are more alike than they realize and the family they both want to save.
