Deadliest Animals - Melissa Stewart 2017-10-02

National Geographic Primary Readers is a high-interest series of beginning reading

books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. Level 4: Independent reader Perfect for kids who are reading on their own with ease and are ready for more challenging vocabulary with varied sentence structures. They are ideal for readers of White and Lime books. Did you know that a tiny golf ball-sized creature called the blue-ringed octopus contains enough venom to kill 26 adult humans? Or why the Sydney funnel web spider is one of the most dangerous creatures in the world? In this level 4 book, kids will be fascinated by 12 species that you hope you'll never come across! Sharks, snakes, jellyfish and more - these creatures are among the most threatening - and interesting - in the world!

National Geographic Readers: Deadly Animals Collection - Melissa Stewart

2019-08-13

Follow ferocious predators as they stalk, chase, and ambush prey. Investigate what makes these animals some of the most incredible hunters, including their teeth, claws, hunting methods, and more. Young readers can explore the amazing world of Earth's fiercest animals in this level 1, 2, and 3 reader collection. Fascinating science information is accompanied by striking photographs that pique kids' curiosity and inspire them to learn more about the natural world. National Geographic Readers have been a hit in the competitive beginning reader category, and this book follows upon that success with the same combination of careful text, brilliant photographs, and the fun approach to the high-interest subject of predators that has proven to be a winning formula with kids.

National Geographic Readers: Ugly Animals - Laura Marsh
2015-07-14

Sometimes, the uglier, the better! In this level 2 reader, young readers will meet the

ugliest of animals. Follow these funny-looking creatures and learn how their strange looks help them in the wild.

Interesting photos and carefully leveled text make this book perfect for reading aloud or for independent reading.

Cats Vs. Dogs - Elizabeth Carney 2011

Presents facts and comparisons about the physical characteristics, senses, eating habits, and behavior of cats and dogs.

Ick! - Melissa Stewart 2020

"From award-winning author Melissa Stewart comes the grossest journey through the animal world you'll ever take. From ants to zorillas, get ready to discover some seriously strange animal behaviors. Slurp up soupy insides with houseflies, spit sticky saliva to build nests with birds, and fend off predators with poop-flinging caterpillars and farting snakes. And that's just the tip of the dung pile! These yucky habits may seem surprising to us, but they're totally normal for these animals. In fact, their survival depends on them."--

Zebra Mussels - Martha London 2021-08-01

This title explores the role of zebra mussels in introduced environments, how humans helped spread the species, the threats they pose to ecosystems, and efforts being taken to manage them. This book also includes a table of contents, two infographics, informative sidebars, a "That's Amazing!" special feature, quiz questions, a glossary, additional resources, and an index. This Focus Readers title is at the Navigator level, aligned to reading levels of grades 3-5 and interest levels of grades 4-7.

The Komodo Dragon - Lisa Owings 2011-08-01

"Fascinating images accompany information about the komodo dragon. The combination of high-interest subject matter and narrative text is intended for students in grades 3 through 7"--Provided by publisher.

National Geographic Readers: Ink! - Stephanie Warren Drimmer 2019

Meet cuttlefish that can

camouflage themselves, octopuses that outsmart their predators, and squid that patrol the deep in this cool fact-filled reader. Learn everything you've ever wanted to know about cephalopods, from inking, to hunting, to coconut carrying. Squish along with squid, camouflage with cuttlefish, and marvel at magnificent octopuses. Packed with weird-but-true facts and tons of cool animal info, this Level 3 Reader explores the incredible world of cephalopods. National Geographic Fact Readers feature the same expert-vetted running text as traditional readers--with a bonus of 100 fun facts sprinkled throughout! A fact roundup at the end of each book lets kids review what they've learned. (Plus, they can impress their friends with their animal expertise!)

Nature's Deadliest Animals
- Frankie Stout 2008-01-01

Killer instincts help this group of animals to thrive in the wild. This book explores what makes an animal especially deadly and how they live to kill.

Most Dangerous - Joanne Mattern 2019-08-01

Which animal is called Black Death? Did you know one of the most dangerous animals eats only grass and plants? Some animals kill by biting and fighting, others are deadly to touch!

Dog Finds Lost Dolphins! - Elizabeth Carney 2012

Presents the stories of three animal workers, a dog that helps stranded dolphins, a monkey that aids a paralyzed man, and a rat that sniffs out land mines.

Titanic - Melissa Stewart 2018-08-01

This title is replete with brilliant photographs and exclusive in-depth coverage including Bob Ballard's 1985 discovery.

National Geographic Readers: Squeak! (L3) - Rose Davidson 2019-10-08

Mice and rats may be the most famous rodents, but readers will discover the diverse--and maybe even adorable--world of little squeaking critters. From cavies and capybaras to jerboas and gerbils to pocket

mice and porcupines, get ready for the rodents. Packed with weird-but-true facts and tons of animal info, this Level 3 Reader shows just how endearing rodents can be. Meet the adorable pika, fuzzy hamsters, and yes, even supersmart rats, and collect cool facts about these scurrying squeaky creatures. National Geographic Fact Readers feature the same expert-vetted running text as traditional readers--with a bonus of 100 fun facts sprinkled throughout! A fact roundup at the end of each book lets kids review what they've learned. (Plus, they can impress their friends with their animal expertise!)

Deadliest Animals - Melissa Stewart 2011

Introduces some of the most dangerous animals on Earth, describing the physical characteristics and behavior that makes them deadly, including such creatures as saltwater crocodiles, poison dart frogs, box jellyfish, and scorpions.

Black Widow Spiders - Elizabeth Raum 2015-07-01

"This photo-illustrated book for elementary readers describes the venomous black widow spider. Readers learn how these spiders use venom to kill prey and as a protection against predators. Also explains where they live and what to do when they are encountered"--

The Deathstalker Scorpion - Laura Sullivan 2017-07-15

It's hard to believe but some people keep aggressive and dangerous deathstalker scorpions as pets. Readers learn where this arachnid lives, what it likes to eat, the power of its venom, what medical science has done with this venom to treat patients, and why it lives up to its terrifying name.

National Geographic Readers: Deadliest Animals -

Melissa Stewart 2012-07-24

Nature's Deadliest Creatures Visual Encyclopedia - DK
2018-08-07

Come face-to-face with 150 of the world's scariest killer creatures, from the lion and great white shark to the tarantula, anaconda snake, golden eagle, vampire bat, and even the fierce ant! The ebook profiles every kind of animal--mammals, reptiles, birds, fish, insects, and arachnids. Chapters are arranged according to how these dangerous predators kill. Do they use jaws and claws, venom, stings, traps, tricks and cunning, or mass invasion? With more than 200 spectacular photos in the

ebook, every page has a stunning image of the animal in action, with data files giving a visual e-guide to its size, distribution, diet, and habitat, as well as a rating of its "scare factor." Each profile features bite-size text that will appeal to all readers. Discover key facts about how the animal lives (is it solitary or a pack animal?), intriguing anatomy (the platypus is famously one of the few venomous mammals, but did you know that the venom comes from the hind leg on the males only?), and of course, their method of attack (such as chasing prey to exhaustion, launching an ambush, or paralyzing with poison). Further fascinating facts can also be found in the reference section, including deadly defense, family trees, toxins, and prehistoric deadly creatures that are no more.

Meteors - Melissa Stewart
2018-08-01

Blast off on a trip to discover the fascinating world of meteors. In this image-packed book, kids will learn all about these objects hurtling through

space and into our atmosphere. Written in an easy-to-grasp style to encourage the scientists and explorers of tomorrow!

National Geographic

Readers: Snakes! - Melissa Stewart 2012-07-24

They're SSSSLITHERY!
SLIPPERY! They creep us out!
But get to know them and you'll find snakes private, quiet types who just want a cool,

shady place to call home. From the tip of their forked tongues, to skin that sheds, to the rattles on certain tails, these creatures have secrets all kids will love. Cool photos and fun facts slip us inside their surprising world.

Whales - Laura Marsh 2010

Introduces sperm whales, including their different body parts, how they travel in groups, what they eat, and how they care for their young.
