**Electronics** - Owen Bishop 2011

The coverage of Electronics - Circuits and Systems has been carefully matched to the electronics units of the 2010 BTEC National Engineering specifications and the latest AS and A Level specifications in Electronics from AQA, OCR and WJEC. Rather than following the structure of a particular syllabus, this book follows a logical topic progression within electronics, building up subject knowledge incrementally by following a context-led approach, making it ideal for a wide range of vocational, pre-degree and introductory undergraduate courses in electronics. `Self Test' features, multiple-choice and end of chapter revision questions help students check their understanding. Activities are suitable for practicals, homework and other assignments. Key facts, formulae and definitions are highlighted to aid revision, and theory is backed up by numerous examples throughout the book.
