SPIN® -Selling - Neil Rackham 2020-04-28

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

Pre-Suasion - Robert Cialdini 2016-09-06

The acclaimed New York Times and Wall Street Journal bestseller from Robert Cialdini—"the foremost expert on effective persuasion" (Harvard Business Review)—explains how it's not necessarily the message itself that changes minds, but the key moment before you deliver that message. What separates effective communicators from truly successful persuaders? With the same rigorous scientific research and accessibility that made his *Influence* an iconic bestseller, Robert Cialdini explains how to prepare people to be receptive to a message before they experience it. Optimal persuasion is achieved only through optimal pre-suasion. In other words, to change "minds" a pre-suader must also change "states of mind." Named a "Best Business Books of 2016" by the Financial Times, and "compelling" by The Wall Street Journal, Cialdini's *Pre-Suasion* draws on his extensive experience as the most cited social psychologist of our time and explains the techniques a person should implement to become a master persuader. Altering a listener's attitudes, beliefs, or experiences isn't necessary, says Cialdini—all that's required is for a communicator to redirect the audience's focus of attention before a relevant action. From studies on advertising imagery to treating opiate addiction, from the annual letters of Berkshire Hathaway to the annals of history, Cialdini outlines the specific techniques you can use on online marketing campaigns and even effective wartime propaganda. He illustrates how the artful diversion of attention leads to successful pre-suasion and gets your targeted audience primed and ready to say, "Yes." His book is "an essential tool for anyone serious about science based business strategies...and is destined to be an instant classic. It belongs

on the shelf of anyone in business, from the CEO to the newest salesperson" (Forbes).

Summary of Alan Weiss's Million Dollar Consulting Proposals - Everest Media, 2022-04-05T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 A proposal is a summary of the conceptual agreement reached with an economic buyer. It is not a negotiating document or an attempt to make a sale. It should not establish your credibility, establish a relationship with the buyer, or serve as a point of comparison for competitors' proposals. #2 Proposals have traditionally been viewed as a mix of credibility, research, consultant's beliefs and mission, pricing, risk management, and competitive submission. #3 The most important thing you can do is to persuade the firm to stop using a metric of number of proposals issued per week as an indicator of sales success. Proposals are not the point of the arrow, but the heft behind it. #4 The buyer must share personal and nonpublic information with you in order to establish a trusting relationship. The buyer should ask your advice.

According to bestselling author Alan Weiss, success is a combination of opportunism, very disciplined work, luck, timing, and ignoring most advice. In other words, it means striking out on your own, original path to success. In *Million Dollar Maverick*, he explains that entrepreneurs don't take advice, they create value and then monetize it. They do what they love and are great at and find a way to sell it to people. They do not--contrary to "conventional wisdom"--chase money. They attract money. And most of all they think differently, act decisively--and, if talent and timing are with them, succeed quickly. Drawing on over thirty years of experience as a consultant, speaker, and global expert, Weiss shares his story and "Million Dollar Tips," not found in any of his other books, to help entrepreneurs gain influence, build confidence, and develop the critical thinking skills they need to discover the inside track to rapid success

Your Legacy is Now - Alan Weiss 2021-03-18

For over 30 years Alan Weiss has consulted, coached, and advised everyone from Fortune 500 executives, state governors, non-profit directors, and entrepreneurs to athletes, entertainers, and beauty pageant contestants. That's quite an assortment of people, and they run into the thousands. Most of them have had what we euphemistically call "means," and some of them have had a lot more than that. Others have been aspiring and with more ends in sight than means on hand. Alan Weiss states: I've dealt with esteem (low), narcissism (high), family problems, leadership dysfunctions, insecurities, addictions, and ethical quandaries. And I've talked with them through the coronavirus crisis. But don't get the wrong idea. About 95% of these people have been well-meaning, honest (to the best of their knowledge), and interested in becoming a better person and better professional. Otherwise, they wouldn't be talking to me. I found the equivalent of the "runner's wall" in their journeys, where they must break through the pain and the obstacles and then can keep going with renewed energy and spirit. But runners know how far they must go after the breakthrough, be it another half lap or another five miles. There is a finish line. I've found that people in all positions, even after the "breakthrough," don't know where they are in the race, let alone where the finish line is. They do not know what meaning is for them. They may have money in the bank, good relationships, the admiration of others, and the love of their dogs. But they have no metrics for "What now?" They believe that at the end of life there is a tallying, some metaphysical accountant who totals up their contributions, deducts their bad acts, and creates the (hopefully positive) difference. That difference, they believe, is their "legacy." But the thought that legacy arrives at the end of life is as ridiculous as someone who decides to sell a business and tries to increase its valuation the day prior. Legacy is now. Legacy is daily. Every day we create the next page in our lives, but the question becomes who is writing it and what's being

written. Is someone else creating our legacy? Or are we, ourselves, simply writing the same page repeatedly? Or do we leave it blank? Our organic, living legacy is marred and squeezed by huge normative pressures. There is a "threshold" point, at which one's beliefs and values are overridden by immense peer pressure. Our metrics are forced to change. In an age of social media, biased press, and bullying, we've come to a point where our legacy, ironically, is almost out of our hands. Yet our "meaning" — our creation of meaning and not a search for some illusive alchemy — creates worth and impact for us and all those with whom we interact.

The Irresistible Consultant's Guide to Winning Clients - David A. Fields 2017-03-21

This deeply insightful guide to understanding what clients really want is "an indispensable resource for consultants" (Keith Ferrazzi, #1 New York Times bestselling author of *Never Eat Alone*). Independent consulting is a potentially lucrative enterprise—but the reality seldom matches the dream. Most solo consultants and boutique consulting firms are perpetually within six months of bankruptcy due to the sputtering unreliability of their new business engines. The problem, according to international consulting expert David A. Fields, is twofold: 1) lack of a consistent, proven plan, and 2) fundamental misunderstanding about what clients want in a consultant. Fields, who has helped hundreds of

consultants and boutique firms worldwide build profitable, sustainable practices, replaces the typical consultant's mindset of emphasizing expertise and differentiated processes with a focus on building relationships, engendering trust, and solving clients' existing problems. In *The Irresistible Consultant's Guide to Winning Clients*, Fields synthesizes his decades of experience into a step-by-step approach to winning more projects from more clients at higher fees. From nuts-and-bolts business advice and tactics to a deeply insightful breakdown of the human side of a very human profession, Fields, named one of Advertising Age magazine's "Marketing Top 100," delivers a comprehensive guidebook that is at once highly approachable and satisfyingly detailed. "If I could have just one book on client strategy, this book would be it." —Marshall Goldsmith, #1 New York Times bestselling author of *Triggers Thrive!* - Alan Weiss 2010-01-01

Pain Management and the Opioid Epidemic - National Academies of Sciences, Engineering, and Medicine 2017-09-28

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.
