**Oral Language and Comprehension in Preschool** - Kathleen A. Roskos 2015-12-30

Before children are readers and writers, they are speakers and listeners. This book provides creative, hands-on strategies for developing preschoolers' speaking, listening, and oral comprehension skills, within a literacy-rich classroom environment. Each chapter features helpful classroom vignettes; a section called Preschool in Practice, with step-by-step lesson ideas; and Ideas for Discussion, Reflection, and Action. The book addresses the needs of English language learners and describes ways to support students' literacy development at home. The final chapter pulls it all together through a portrait of an exemplary day of preschool teaching and learning. Reproducible forms and checklists can be downloaded and printed in a convenient 8 1/2" x 11" size.

*Valsiner: Handbook of Developmental (c) Psychology* - Jaan Valsiner  
Kevin J. Connolly

'This is an impressive work... and will provide the advanced reader with a rich source of theory and evidence. There is a huge amount to be got from the book and I suspect it will become a key work' - J Gavin Bremner, Department of Psychology, Lancaster University  
The Handbook of Developmental Psychology is a comprehensive, authoritative yet frontier-pushing overview of the study of human development presented in a single-volume format. It is ideal for experienced individuals wishing for an up-to-date survey of the central themes prevalent to developmental psychology, both past and present, and for those seeking a reference work to help appreciate the subject for the first time. The insightful contributions from world-leading developmental psychologists successfully and usefully integrate different perspectives to studying the subject, following a systematic life-span structure, from pre-natal development through to old age in human beings. The Handbook then concludes with a substantive section on the methodological approaches to the study of development, focusing on both qualitative and quantitative techniques. This unique reference work will be hugely influential for anyone needing or wishing for a broad, yet enriched understanding of this fascinating subject. It will be a particularly invaluable resource for academics and researchers in the fields of developmental psychology, education, parenting, cultural and biological psychology and anthropology.

**Essentials of Managing Public Health Organizations eBook** - James A. Johnson 2019-12-02

Written with undergraduate students in mind, this concise eBook combines the scope and context of public health while also addressing key management topics, processes, and emerging issues. Organized in four parts, the text covers: 1) Public Health Organizations; 2) Public Health Management Fundamentals; 3) Public Health Management Functions; and 4) Current and Emerging Issues in Public Health Management. Each of these contain key chapters that address foundations, practical applications, and new directions in the respective domains. The goal is to enhance the student's knowledge, skills and abilities in ways that help them become more effective in their careers in public health. This text has been written specifically for undergraduate public health, community health, and health professions courses, but will also be useful for beginning managers and supervisors working in public health. .

**Public History** - Faye Sayer 2015-02-26

Public History: A Practical Guide explores history in the public sphere and examines the variety of skills that historians require in the practice

of public history. It discusses how through various mediums of interpretation and presentation a range of actors, which include museums, archives, government agencies, community history societies and the media and digital media, make history accessible to a wider audience. It provides the reader with an overview of the wider-world application and communication of history beyond the classroom through core case studies for each sector that include ideas for best practice 'in the field'. This book offers an accessible and engaging synopsis of a topic that has not previously been covered. By focusing on an area of study that has changed substantially in the last decade, Public History: A Practical Guide presents a comprehensive outline of the practice of 'public history', and provides ideas for future methodological approaches as well as a reference point for planning professional development in order to gain future employment in these sectors. In the current economic climate, students need to understand the potential use of history beyond university; this book contains the tools and advice needed for them to get one step ahead in terms of knowledge, skills and experience.

**Self-Direction in Long Term Services and Supports** - Kevin J. Mahoney 2020-05-21

Ten years after the results of the Cash and Counseling Demonstration and Evaluation were released, this book assesses the impact of this study, which developed individualized plans for helping people with disabilities to stay independent in the community. The study was the first wide-scale test of people with disabilities managing their own budgets and results from the random-controlled trial demonstrated significant positive outcomes, encouraging the US federal and state governments to provide this option as part of their community-based care programs. This volume looks at what people with disabilities and their caregivers are saying about this option ten years removed from the study, and what the latest research shows in terms of what it will take to improve this approach, making the option available for all people with disabilities. The contributions also discuss what needs remain unmet even when people can manage their own budgets, and present participants' and their family caregivers' views on what support broker activities really help (or hurt). Finally, the book summarizes the results of a project involving the Council of Social Work Education and nine schools of social work to develop modules to train future social workers on person-centred planning and participant direction. Of interest to those researchers studying social care with a focus on disabilities, this book would also be of use to those training social workers and support staff. The chapters in this book were originally published in the Journal of Gerontological Social Work and Home Health Care Services Quarterly.

**Nimble, Focused, Feisty** - Sara Roberts 2016-08-16

Leaders have talked about the importance of corporate culture for decades, but the success of iconic companies like GE, Apple, and Google shows how culture is a strategic lever that can be utilized for driving growth, change, and innovation. In this new age of globalization, rapid technology shifts, and constant disruption, the 21st century marketplace is more volatile and uncertain than ever. To thrive, businesses need a new kind of emphasis around culture. Sara Roberts, former CEO and founder of Roberts Golden and a seasoned executive consultant to dozens of Fortune 500 companies and CEOs, sees how flourishing companies—from established market leaders to the surprising upstarts—share three distinct attributes: Nimble: They are much faster and more agile than ordinary organizations Focused: They use their

sense of purpose as a lens to understand and meet the needs of customers and markets Feisty: They play big and act bold to capitalize on advantages and out-muscle the competition For successful companies in this new era, culture is not about playing defense but about going on offense. It's purposely designed, leveraged, and honed to deliver value and drive growth. In Nimble, Focused, Feisty, Roberts provides not only a look into what these organizations are doing differently but also a blueprint and framework so your company can create a cultural strategy to thrive in the new era.

*Machine Learning* - Tom M. Mitchell 2012-12-06

One of the currently most active research areas within Artificial Intelligence is the field of Machine Learning. which involves the study and development of computational models of learning processes. A major goal of research in this field is to build computers capable of improving their performance with practice and of acquiring knowledge on their own. The intent of this book is to provide a snapshot of this field through a broad, representative set of easily assimilated short papers. As such, this book is intended to complement the two volumes of Machine Learning: An Artificial Intelligence Approach (Morgan-Kaufman Publishers). which provide a smaller number of in-depth research papers. Each of the 77 papers in the present book summarizes a current research effort, and provides references to longer expositions appearing elsewhere. These papers cover a broad range of topics, including research on analogy, conceptual clustering, explanation-based generalization, incremental learning, inductive inference, learning apprentice systems, machine discovery, theoretical models of learning, and applications of machine learning methods. A subject index IS provided to assist in locating research related to specific topics. The majority of these papers were collected from the participants at the Third International Machine Learning Workshop, held June 24-26, 1985 at Skytop Lodge, Skytop, Pennsylvania. While the list of research projects covered is not exhaustive, we believe that it provides a representative sampling of the best ongoing work in the field, and a unique perspective on where the field is and where it is headed.

*Self-directed multimodal learning in higher education* - Jako Olivier 2020-12-31

This book aims to provide an overview of theoretical and practical considerations in terms of self-directed multimodal learning within the university context. Multimodal learning is approached in terms of the levels of multimodality and specifically blended learning and the mixing of modes of delivery (contact and distance education). As such, this publication will provide a unique snapshot of multimodal practices within higher education through a self-directed learning epistemological lens. The book covers issues such as what self-directed multimodal learning entails, mapping of specific publications regarding blended learning, blended learning in mathematics, geography, natural science and computer literacy, comparative experiences in distance education as well as situated and culturally appropriate learning in multimodal contexts. This book provides a unique focus on multimodality in terms of learning and delivery within the context of self-directed learning. Therefore, the publication would not only advance the scholarship of blended and open distance learning in South Africa, but also the contribute to enriching the discourse regarding self-direction. From this book readers will get an impression of the latest trends in literature in terms of multimodal self-directed learning in South Africa as well as unique empirical work being done in this regard.

*Producing and Directing the Short Film and Video* - Peter W. Rea 2015-03-24

Producing and Directing the Short Film and Video, Fifth Edition is the definitive book on the subject for the serious film student or beginning filmmaker. Its unique two-fold approach looks at filmmaking from the perspectives of both the producer and director, and clearly explains how their separate roles must work together to create a successful short film or video. Through extensive examples from award-winning shorts and insightful interviews, you will learn about common challenges the filmmakers encountered during each step of filmmaking process—from preproduction to production, postproduction, and distribution—and the techniques they used to overcome them. In celebrating this book's twentieth anniversary, this edition has been updated to include: Two all-new, in-depth cases studies of esteemed short films—Memory Lane and the Academy Award-winning God of Love A revised chapter progression that reinforces the significance of the actor - director relationship Interviews with the filmmakers integrated alongside the text, as well as new images and behind-the-scenes coverage of production processes Revamped sections on current financing strategies, postproduction

workflows, and the wide variety of distribution platforms now available to filmmakers A "Where are They Now" appendix featuring updates on the original filmmakers covered in the first edition An expanded companion website ([www.focalpress.com/cw/rea](http://www.focalpress.com/cw/rea)) containing useful forms and information on distributors, grants and financing sources, film and video festivals, film schools, internet sources for short works, and professional associations

*The Art and Craft of Play Directing* - David Stevens 2013-03-13

Theatre is an interpretive art based upon a director's emotional reaction to reading a play and imagining a production of that play. Before the audience experiences the production, the director must go through a process, part art and part craft, to create it. This book is intended to introduce undergraduate students with a solid theatre background to that process. Stevens includes chapters covering theatre and art, the interpretation of the script, composition and movement, working with actors, and matters of style. Each chapter contains exercises in order for students to consolidate what they have learned. The complete text of John Millington Synge's "Riders to the Sea" is included as an example and study text, and Stevens relates many examples from his own rich directing background. Twenty production photos, two sample floor plans, and numerous diagrams round out the text. The study of directing is a life-long project, and in this book Stevens provides a basis for that study.

*Deep Work* - Cal Newport 2016-01-05

Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep—spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In Deep Work, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, Deep Work takes the reader on a journey through memorable stories—from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air—and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. Deep Work is an indispensable guide to anyone seeking focused success in a distracted world. **Contemporary Adaptations of Greek Tragedy** - George Rodosthenous 2017-01-26

Contemporary Adaptations of Greek Tragedy: Auteurship and Directorial Visions provides a wide-ranging analysis of the role of the director in shaping adaptations for the stage today. Through its focus on a wide range of international productions by Katie Mitchell, Theodoros Terzopoulos, Peter Sellars, Jan Fabre, Ariane Mnouchkine, Tadashi Suzuki, Yukio Ninagawa, Andrei Serban, Nikos Charalambous, Bryan Doerries and Richard Schechner, among others, it offers readers a detailed study of the ways directors have responded to the original texts,

refashioning them for different audiences, contexts and purposes. As such the volume will appeal to readers of theatre and performance studies, classics and adaptation studies, directors and theatre practitioners, and anyone who has ever wondered 'why they did it like that' when watching a stage production of an ancient Greek play. The volume *Contemporary Adaptations of Greek Tragedy* is divided in three sections: the first section - Global Perspectives - considers the work of a range of major directors from around the world who have provided new readings of Greek Tragedy: Peter Sellars and Athol Fugard in the US, Katie Mitchell in the UK, Theodoros Terzopoulos in Greece and Tadashi Suzuki and Yukio Ninagawa in Japan. Their work on a wide range of plays is analysed, including *Electra*, *Oedipus the King*, *The Persians*, *Iphigenia at Aulis*, and *Ajax*. Parts Two and Three - Directing as Dialogue with the Community and Directorial Re-Visions - focus on a range of productions of key plays from the repertoire, including *Prometheus Landscape II*, *Les Atrides*, *The Trojan Women*, *The Bacchae*, *Antigone* and *The Suppliants*, among others. In each, the varying approaches of different directors are analysed, together with a detailed investigation of the mise-en-scene. In considering each stage production, the authors raise issues of authenticity, contemporary resonances, translation, directorial control/auteurship and adaptation.

**The Core Concepts of Andragogy** - Chidchong Suanmali 1981

**The Cambridge Introduction to Theatre Directing** - Christopher Innes 2013-05-02

This Introduction is an exciting journey through the different styles of theatre that twentieth-century and contemporary directors have created.

It discusses artistic and political values, rehearsal methods and the diverging relationships with actors, designers, other collaborators and audiences, and treatment of dramatic material. Offering a compelling analysis of theatrical practice, Christopher Innes and Maria Shevtsova explore the different rehearsal and staging principles and methods of such earlier groundbreaking figures as Stanislavsky, Meyerhold and Brecht, revising standard perspectives on their work. The authors analyse, as well, a diverse range of innovative contemporary directors, including Ariane Mnouchkine, Elizabeth LeCompte, Peter Sellars, Robert Wilson, Thomas Ostermeier and Oskaras Koršunovas, among many others. While tracing the different roots of directorial practices across time and space, and discussing their artistic, cultural and political significance, the authors provide key examples of the major directorial approaches and reveal comprehensive patterns in the craft of directing and the influence and collaborative relationships of directors.

*China's State-Directed Economy and the International Order* - Luyao Che 2019-03-14

This book explores the legal implications of China's state-directed economic model for the existing international economic order. It first reveals the close links between the market and the state in contemporary China by profiling an emerging triple role of the state in the economy. It then explores how the domestic legal system underpins the distinctive market-state relationship, before analysing whether essential norms of international economic law, which bracket the international economic order, are able to adapt to China's innovative market-state relationship.

The book argues that the international economic order is inherently limited since it tends to adhere to an orthodox dichotomy, with a clear boundary between the market and the state. It also suggests that China's new state-market relationship has challenged the dichotomy – the state does not intend to eliminate the functioning of the market but, conversely, utilises a market mechanism and makes itself more integrated into the market. Lastly the book proposes a fresh perspective to comprehend the 'market-state' question, which does not take for granted that all market-state relationships are mutually exclusive.

*Goal Directed Project Management* - Erling S. Andersen 2009-06-03  
Goal Directed Project Management (GDPM) is a unique methodology that has been developed and refined by the authors over a period of more than 20 years. In this time, organizations all over the world have adopted it as a standard approach. The central focus of Goal Directed Project Management, this fourth edition of one of the most influential project management books, is to develop understanding, commitment and involvement while managing successful and lasting change. Throughout the text, the authors emphasise the need for a 'PSO' (People, System and Organization) perspective that goes beyond the technical aspects dealt with by most project management literature, enhancing and prolonging the life of a project by allowing the people and organization involved to develop simultaneously with the system. Goal Directed Project Management gives detailed and practical guidance on how to plan, organise and control these PSO projects effectively, presenting methods and tools that will increase significantly the probability of project success. This newly updated fourth edition of Goal Directed Project Management addresses the financial control of projects in a new chapter, presenting a pragmatic approach - based on GDPM methods - to this aspect of project management. It includes guidelines to take you through setting up a project budget based on cost benefit analysis and shows how to report and control the running project using the milestone related budget.

*Devised and Directed by Mike Leigh* - Bryan Cardinale-Powell 2013-07-22  
Renowned for making films that are at once sly domestic satires and heartbreaking 'social realist' dramas, British writer-director Mike Leigh confronts his viewers with an un-romanticized dramatization of modern-day society in the hopes of inspiring them to strive for greater self-awareness and compassion for others. This collection features new, interdisciplinary essays that cover all phases of the BAFTA-award-

winner's film career, from his early made-for-television film work to his theatrical releases, including *Life is Sweet* (1990), *Naked* (1993), *Secrets & Lies* (1996), *Career Girls* (1997), *Topsy-Turvy* (1999), *All or Nothing* (2002), *Vera Drake* (2004), *Happy-Go-Lucky* (2008) and *Another Year* (2010). With contributions from international scholars from a variety of fields, the essays in this collection cover individual films and the recurring themes and motifs in several films, such as representations of class and gender, and overt social commentary and political subtexts. Also covered are Leigh's visual stylizations and storytelling techniques ranging from explorations of the costume design to set design to the music and camerawork and editing; the collaborative process of 'devising and directing' a Mike Leigh film that involves character-building, world-construction, plotting, improvisations and script-writing; the process of funding and marketing for these seemingly 'uncommercial' projects, and a survey of Leigh's critical reception and the existing writing on his work.

*Patchworks of Purpose* - Gerard William Boychuk 1998-05-20

To examine patterns of social assistance provision specific to particular provinces, Boychuk develops a five-fold typology consisting of "residual," "market/family enforcement," "market performance," "conservative," and "redistributive" models. He uses this typology to compare development of assistance provision in the provinces, provincial responses to federal initiatives, and unique trajectories of assistance regimes. He concludes by surveying some of the broader implications of his findings for issues such as the development of national standards and the impact of globalization on social assistance provision in Canada. *Patchworks of Purpose* is an important book for students of social assistance and social policy as well as for scholars interested in Canadian public policy, Canadian federalism, and Canadian politics in general.

**Solution-Focused Case Management** - Dr. Robert G. Blundo, PhD, LCSW 2015-11-06

"Blundo and Simon have successfully outlined how a solution-focused perspective can be a powerful tool for case managers. Their understanding and presentation is based upon practice scenarios that are real and applied...They clearly demonstrate the impact of 'thinking and language' and the importance of building a collaborative relationship with clients. Their work challenges the traditional theory-driven interventions that focus on problems and arrive at a diagnosis. They encourage a 'shift' to a co-constructive partnership that requires a practitioner to respect that clients are 'experts of their own lives'...They provide a clear step-wise discussion of techniques and strategies that can be employed working with individuals and families in case management settings. This book is a must read." -Lawrence T. Force, PhD, LCSW-R Professor of Psychology, Mount Saint Mary College, Newburgh, NY  
From the Foreword Solution-focused practice is a paradigm that stresses client abilities, strengths, and individual goals rather than disability. Written by a team of educator/practitioners noted for their expertise in solution-focused therapy, this "how-to" text for social work, counseling, and psychology students guides current and future case managers in learning this strengths-based, collaborative approach to case management. It discusses both the philosophical basis for solution-focused casework and demonstrates how it is ideally suited for the case management process. The book is based on teaching materials the authors have developed and used in their classes and workshops with undergraduate and graduate students and professionals. The text incorporates new research and theoretical developments in solution-focused therapy as well as actual practice scenarios demonstrating the process of building a collaborative relationship with individual clients and families. Replete with strategies and tools for practicing solution-focused case management, the text describes such essential skills as identifying goals, monitoring progress, working with other agencies, and transitioning out of treatment. It discusses issues related to ethical practice and presents strategies for self-care. Additionally, the book addresses diversity and social justice and their relationships to solution-focused practice. Student exercises help to

reinforce knowledge. The text will assist case managers in a variety of settings—hospitals, nursing homes, rehabilitation facilities, community-based mental health agencies, schools, prisons, court systems, and shelters for the homeless and victims of domestic violence—to partner with their clients towards finding strengths-based and solution-focused approaches to resolving issues in a positive way. Key Features: Authored

by noted experts in solution-focused education and practice Facilitates a reframing of casework and case management around client strengths and resources Provides specific case examples that allow readers to troubleshoot and apply solution-focused principles to practice Includes student exercises throughout the book
