Circular No. A-11 - Omb 2019-06-29

The June 2019 OMB Circular No. A-11 provides guidance on preparing the FY 2021 Budget and instructions on budget execution. Released in June 2019, it's printed in two volumes. This is Volume I. Your budget submission to OMB should build on the President's commitment to advance the vision of a Federal Government that spends taxpayer dollars more efficiently and effectively and to provide necessary services in support of key National priorities while reducing deficits. OMB looks forward to working closely with you in the coming months to develop a budget request that supports the President's vision. Most of the changes in this update are technical revisions and clarifications, and the policy requirements are largely unchanged. The summary of changes to the Circular highlights the changes made since last year. This Circular supersedes all previous versions. VOLUME I Part 1-General Information Part 2-Preparation and Submission of Budget Estimates Part 3-Selected Actions Following Transmittal of The Budget Part 4-Instructions on Budget Execution VOLUME II Part 5-Federal Credit Part 6-The Federal Performance Framework for Improving Program and Service Delivery Part7-Appendices Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

The President and Immigration Law - Adam Cox 2020-08-04

Who controls American immigration policy? The biggest immigration controversies of the last decade have all involved policies produced by the President policies such as President Obama's decision to protect Dreamers from deportation and President Trump's proclamation banning immigrants from several majority-Muslim nations. While critics of these policies have been separated by a vast ideological chasm, their broadsides have embodied the same widely shared belief: that Congress,

not the President, ought to dictate who may come to the United States and who will be forced to leave. This belief is a myth. In *The President and Immigration Law*, Adam B. Cox and Cristina M. Rodríguez chronicle the untold story of how, over the course of two centuries, the President became our immigration policymaker-in-chief. Diving deep into the history of American immigration policy from founding-era disputes over deporting sympathizers with France to contemporary debates about asylum-seekers at the Southern border they show how migration crises, real or imagined, have empowered presidents. Far more importantly, they also uncover how the Executive's ordinary power to decide when to enforce the law, and against whom, has become an extraordinarily powerful vehicle for making immigration policy. This pathbreaking account helps us understand how the United States has come to run an enormous shadow immigration system—one in which nearly half of all noncitizens in the country are living in violation of the law. It also provides a blueprint for reform, one that accepts rather than laments the role the President plays in shaping the national community, while also outlining strategies to curb the abuse of law enforcement authority in immigration and beyond.

Kindred - Octavia E. Butler 2004-02-01

From the New York Times bestselling author of *Parable of the Sower* and MacArthur "Genius" Grant, Nebula, and Hugo award winner The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise" (New York Times). "Reading Octavia Butler taught me to dream big, and I think it's absolutely necessary that everybody have that freedom and that willingness to dream." —N. K. Jemisin The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin.

Judicial Review of Immigration Detention in the UK, US and EU - Justine N Stefanelli 2020-01-23

Immigration detention is considered by many states to be a necessary tool in the execution of immigration policy. Despite the apparently key role it plays in immigration enforcement, the law on immigration detention is often vague, especially in relation to determining the circumstances under which prolonged detention remains lawful. As a result, the courts are frequently called upon to adjudicate these matters, with scant legal tools at their disposal. Though there have been some significant judgments on the legality of detention at the constitutional level, the extent to which these judgments have had an impact at the lower end of the judiciary is unclear. Indeed, it is the lower courts which are tasked with judging the legality of detention through habeas corpus or judicial review proceedings. This book examines the way this has occurred in the lower courts of two jurisdictions, the UK and the US, and contrasts this practice not only in those jurisdictions, but with judgments rendered by the Court of Justice of the European Union, a constitutional court at the other end of the judicial spectrum whose judgments are applied by courts and tribunals in the EU Member States. Although these three jurisdictions use similar tests to evaluate the legality of detention, case outcomes significantly differ. Many factors contribute to this divergence, but key among them is the role that fundamental rights protection plays in each jurisdiction. Through a forensic evaluation of 191 judgments, this book compares the laws on detention in the UK, US and EU, and makes recommendations to these jurisdictions for

improvement.

Legislative Scrutiny: Borders, Citizenship and Immigration Bill Ninth Report of Session 2008-09 Report, Together with Formal Minutes and Written Evidence - Great Britain. Parliament. Joint Committee on Human Rights 2009

In this report on the Borders, Citizenship and Immigration Bill, the Joint Committee on Human Rights says the Government should reconsider proposed changes to the pathway to British citizenship. Whilst the Bill does not change the underlying position of migrants' access to benefits, it extends the time it takes to get to applying for citizenship by a year. During this period a person given the new 'probationary citizenship' will be ineligible for 15 different types of benefit that are available to those with 'indefinite leave to remain'. The Committee is also concerned that the new rules may be applied retrospectively and urges the Government not to override the legitimate expectations of migrants already on the path to citizenship under the current rules. The Committee also has concerns about the proposed 'short cut' to citizenship, reducing the time it takes to naturalise can by two years if applicants participate in unpaid community activity. Tracking this activity risks infringing people's right to privacy, and the Committee is also concerned that the requirement risks penalising people who are unable to undertake such activities, because of disability or caring responsibilities or because they are already in paid full time work. The Committee welcomes the new positive duty to safeguard and promote the welfare of children in the discharge of immigration, asylum, nationality and customs functions and the reversal of the Government's previous policy of excluding children subject to immigration control from the protection of the UN Convention on the Rights of the Child.

Government Auditing Standards - 2018 Revision - United States Government Accountability Office 2019-03-24

Audits provide essential accountability and transparency over government programs. Given the current challenges facing governments and their programs, the oversight provided through auditing is more critical than ever. Government auditing provides the objective analysis and information needed to make the decisions necessary to help create a better future. The professional standards presented in this 2018 revision of *Government Auditing Standards* (known as the Yellow Book) provide a framework for performing high-quality audit work with competence, integrity, objectivity, and independence to provide accountability and to help improve government operations and services. These standards, commonly referred to as generally accepted government auditing

standards (GAGAS), provide the foundation for government auditors to lead by example in the areas of independence, transparency, accountability, and quality through the audit process. This revision contains major changes from, and supersedes, the 2011 revision.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Coastal State Jurisdiction Over Living Resources in the Exclusive Economic Zone - Camille Goodman 2022-02-07

Under the 1982 United Nations Convention on the Law of the Sea, coastal States have sovereign rights to explore, exploit, conserve, and manage the living resources of the 200 nautical mile exclusive economic zone (EEZ). However, 40 years after the adoption of the Convention, there is still a great deal of uncertainty about the nature and extent of these sovereign rights. Coastal State Jurisdiction over Living Resources in the Exclusive Economic Zone examines the ways in which coastal States can exercise authority on the basis of their sovereign rights over living resources in the EEZ. Dr Camille Goodman explores the key concepts of 'fishing' and 'fishing related activities' to establish what vessels and which activities can be regulated by coastal States, canvasses the criteria and conditions that coastal States can apply as part of regulating foreign access to their resources, and considers the regulation of unlicensed foreign fishing vessels in transit through the EEZ. Goodman also examines how such regulations can be enforced within the EEZ and the circumstances under which enforcement can take place beyond the EEZ following hot pursuit. A review and analysis of the practice of 145 States identifies the contemporary extent of coastal State jurisdiction over living resources in the EEZ and offers a unique, fresh perspective on the underlying and enduring nature of that jurisdiction.

Underpinned by a rigorous examination of the Convention, jurisprudence, and literature, as well as being supported by carefully documented State practice, Coastal State Jurisdiction over Living Resources in the Exclusive Economic Zone proposes a more predictable framework within which to resolve jurisdictional challenges in the EEZ.
