The Burden of Guilt - Daniel Allen Butler
2013-05-07

A military historian's "thought-provoking" examination of Germany's role in the outbreak of the First World War (Soldier Magazine). The conflagration that consumed Europe in August 1914 had been a long time in coming—and yet it need never have happened at all. For though all the European powers were prepared to accept a war as a resolution to the tensions which were fermenting across the Continent, only one nation wanted war to come: Imperial Germany. Of all the countries caught up in the tangle of alliances, promises, and pledges of support during the crisis that followed the assassination of Archduke Franz Ferdinand, Germany alone possessed the opportunity and the power to determine that a war in eastern Europe would become the Great War, which swept across the Continent and nearly destroyed a thousand years of European civilization. For nearly nine decades it has been argued that the responsibility for the First World War was a shared one, spread among all the Great Powers. Now, in *The Burden of Guilt*, historian Daniel Allen Butler substantively challenges that point of view,

establishing that the Treaty of Versailles was actually a correct and fair judgment: Germany did indeed bear the true responsibility for the Great War. Working from government archives and records, as well as personal papers and memoirs of the men who made the decisions that carried Europe to war, Butler interweaves the events of summer 1914 with portraits of the monarchs, diplomats, prime ministers, and other national leaders involved in the crisis. He explores the national policies and goals these men were pursuing, and shows conclusively how on three distinct occasions the Imperial German government was presented with opportunities to contain the spreading crisis—opportunities unlike those of any other nation involved—yet each time, the German government consciously and deliberately chose the path which virtually assured that the Continent would go up in flames. *The Burden of Guilt* is a work destined to become an essential part of the library of the First World War, vital to understanding not only the "how" but also the "why" behind the pivotal event of modern world history.

Strong to Save: Maritime Mission in Hong Kong from Whampoa Reach to the

Mariners' Club - Stephen Davies 2017-07-19
Tracing its origins back to 1822 in Whampoa, the Mariners' Club in Hong Kong was established to meet a specific need for an Anglo-Chinese society defined by that most dubious of activities, seafaring. Its creation was anything but straightforward, and in this can be seen the mutable and often tortuous relations between the various religious bodies, the local population, the transient sailors, the emerging captains of industry, and the growing regulatory reach of the colonial government. The club evolved through many embodiments and witnessed the growth of Hong Kong from a collection of mat-sheds on the foreshore, through colony to its current status. Throughout its turbulent past it has been occasionally marginalized but has always served as an important base for the key actors in the main commercial activity in Hong Kong: seafarers. This is a history of one of the most enduring institutions of Hong Kong, and the first of its kind. Using the Club's own records as well as a

wide range of sources both from within Hong Kong and from the seafaring world at large, this is a comprehensive account of the life of the Missions, the tenancy of the different chaplains, managers, and stewards, the changes in seafaring practices and shipping, and the transformation of Hong Kong itself.

Looking for a Ship - John McPhee 2011-04-01

This is an extraordinary tale of life on the high seas aboard one of the last American merchant ships, the S.S. Stella Lykes, on a forty-two-day journey from Charleston down the Pacific coast of South America. As the crew of the Stella Lykes makes their ocean voyage, they tell stories of other runs and other ships, tales of disaster, stupidity, greed, generosity, and courage.

American League Franchises - Frank P. Jozsa Jr. 2015-12-09

This brief analyzes each of the Major League Baseball (MLB) franchises in the American League, their past regular-season and postseason records and financial performances while operating as competitive, popular, and profitable or unprofitable enterprises. Using sport-specific information and relevant demographic, economic, and financial data, this brief will highlight when and how well these MLB teams performed and the financial status

and significance of their organization as a member of an elite professional baseball league. The brief also investigates the success of teams in terms of wins and losses based on home attendance at their ballparks, market value, and revenue. Furthermore, it compares the history, productivity, and prosperity of the franchises among rivals in their division like the Boston Red Sox and New York Yankees in the American League East Division, Chicago White Sox and Detroit Tigers in the Central Division, and Oakland Athletics and Los Angeles Angels of Anaheim in the West Division. This brief will be of interest to practitioners and scholars who research the sports industry, college and university professors who teach undergraduate and graduate students majoring in sports administration, business, economics and management, and fans of the sport.

The Ultimate Baseball Road Trip, 2nd - Josh Pahigian 2012-03-27

The most entertaining and comprehensive guide to every baseball fan's dream road trip—including every new ballpark since the 2004 edition—revised and completely updated! *Title 33 Navigation and Navigable Waters Parts 1 to 124 (Revised as of July 1, 2013)* - Office of The Federal Register, Enhanced by IntraWEB, LLC 2014-07-01

The Code of Federal Regulations Title 33 contains the codified United States Federal laws and regulations that are in effect as of the date of the publication pertaining to navigation, flood control, and water resources for the navigable waters in and around the United States, including the Everglades. Covers drinking water policies, aquatic plant control, dumping, dredging, wreck removal, and Federal involvement in the engineering, maintenance and flood control of seaways, levees, canals, dams, rivers, lakes and so on.

This Day in American History, 4th ed. - Ernie Gross 2018-01-16

This up-to-date fourth edition of the most important and interesting data—on a day by day basis—throughout American history includes more than 1,400 new entries with information on

a wide variety of subjects—both the “important” matters (Supreme Court decisions, war events, scientific breakthroughs, etc.) and the lesser known but thought provoking incidents and phenomena (societal changes, unexpected events) that add richness and depth to American history.

Trading Manny - Jim Gullo 2012-03-13

The moving story of how a father and his young son recaptured their love of baseball—a winning testament to why the game matters and how it can still bring us together in spite of itself In recent years something hasn't been quite right with baseball. Ask Jim Gullo: he'll tell you even a seven-year-old kid knows it. In December 2007, just as Jim's young son Joe was beginning to develop a true passion for the game, the bombshell news of players' steroid use made it clear that America's pastime wasn't what it claimed to be. Suddenly, Jim found himself struggling to answer questions from Joe that had nothing to do with batting averages or World Series champions: “What are steroids? Who was using them? Wasn't it cheating? Why weren't the players who got caught suspended or punished by baseball?” While Jim searched for the right words and Major League Baseball dithered, Joe took matters into his own hands: he removed the players who had been named as likely drug users from his prized baseball card collection and created a cheaters pile. Then he created a different category of suspected “juicers” to keep an eye on. He took these players' posters—even the poster of his favorite slugger, Manny Ramirez—down from his bedroom walls. The steroid scandal had clearly hit home. Rather than wait for an official explanation and apology from Major League Baseball that would never materialize, Jim and Joe set out to find their own answers. They traveled the country from coast to coast, from Spring Training contests to major and minor league games—speaking with players, prospects, and managers while tracking down the legends and ghosts of baseball's golden age. And one day they discovered an aging but dedicated prospect who would become not only a true role model for Joe, but also the unlikely inspiration to lure both father and son back to the game they loved. By turns humorous, heartbreaking, and inspiring, *Trading Manny* tells the story of their journey back to

baseball—how along the way Joe traded his idol Manny for a more worthy hero, and Jim discovered something invaluable about being a father.

Military Health Care - Jomana Amara 2013-09-02

This edited volume surveys critical aspects of modern military health care in the US and various other Western countries with troops in Iraq and Afghanistan. In the United States, the military medical system, including care for veterans, is large and diverse and involves two institutions, the US Department of Defense (DoD) and the US Department of Veteran's Affairs (VA). Studying the system gives practitioners and policy-makers an understanding of the larger picture of the military medical structure, facilitating thought about some of the difficulties and opportunities for coordinating treatments and preparing for the future. This book covers health care issues prior to deployment, such as screening for mental health, evaluating long-term consequences of exposure to military service, and provision of insurance; care during a

conflict, primarily battlefield clinics, battlefield trauma care, and evacuation procedures; and post-combat care, including serious war injuries, psychiatric, and long-term care. Bringing together research from a wide range of contributors, the volume provides readers with an extensive, up-to-date source of information on military medicine. This book will be of great interest to students of public health, military sociology, the Iraq war, US public policy, and war and conflict studies in general.

Tales from the Seattle Mariners Dugout - Kirby Arnold 2019-05-07

Larry Andersen, Richie Zisk, and Joe Simpson made sure that everywhere bewildered manager Rene Lachemann went during the 1982 season, some Jell-O was sure to follow—from his hotel bathroom sink, tub, and toilet (filled to the brim) to a postgame can of beer. Jay Buhner, one of the stars in the Seattle Mariners' 1995 "Refuse to Lose" season, maintained the team's proud, prank-filled history well into the '90s with his "blurping"—vomiting on command. It's a good thing Mariners players had senses of humor, because for many years the play on the field wasn't going to keep their spirits high, as the team lost a combined 202 games over their first two seasons. Twelve consecutive losing campaigns later, they finally posted a winning record in 1991. Four years later, they won their first division title and then their first playoff series. This reissue of *Tales from the Seattle Mariners Dugout*, now newly revised, chronicles Seattle's rise from a hopeless and hapless franchise in the 1970s and '80s to a proud team in the 1990s that went on to capture three division championships and earn four playoff appearances. It's a must-read walk down memory lane for every fan of the team. Skyhorse Publishing, as well as our Sports Publishing

imprint, are proud to publish a broad range of books for readers interested in sports—books about baseball, pro football, college football, pro and college basketball, hockey, or soccer, we have a book about your sport or your team. Whether you are a New York Yankees fan or hail from Red Sox nation; whether you are a die-hard Green Bay Packers or Dallas Cowboys fan; whether you root for the Kentucky Wildcats, Louisville Cardinals, UCLA Bruins, or Kansas Jayhawks; whether you route for the Boston Bruins, Toronto Maple Leafs, Montreal Canadiens, or Los Angeles Kings; we have a book for you. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home. *United States Statutes at Large* - United States. Department of State 2011

The Mariner's Compass Rectified ... Carefully Corrected, and Very Much Enlarged ... By Ja. Atkinson, Etc - Andrew WAKELY 1722

Baseball Prospectus 2011 - Baseball Prospectus 2011-02-22
Provides profiles of major league players with information on statistics for the past five seasons and projections for the 2011 baseball season. Routledge Handbook of Sport and the Environment - Brian P. McCullough 2017-07-28
The natural environment is a central issue in both academic and wider societal discourse. The global sport industry is not immune from this discussion and has to confront its responsibility to reduce its impact on the natural environment. This book goes further than any other in surveying both the challenges and the opportunities presented to the sports industry as it engages with the sustainability agenda, exploring the various ways in which sport scholars can integrate sustainability into their research. With a multidisciplinary sweep, including management, sociology, law, events, and ethics, this is a ground-breaking book in the study of sport. Drawing on cutting-edge research, it includes over thirty chapters covering all the most important themes in

contemporary sport studies such as: climate change, sustainability, and corporate social responsibility ethics, governance, and the law event management, tourism, and pollution marketing, branding, and consumer behavior the Olympics, urban development, and mega-event legacies. With contributions from world-leading researchers and practitioners from around the globe, this is the most comprehensive book ever published on sport and the environment.

The New York Nobody Knows - William B. Helmreich 2015-08-25

"As a kid growing up in Manhattan, William Helmreich played a game with his father they called "Last Stop." They would pick a subway line and ride it to its final destination, and explore the neighborhood there. Decades later, Helmreich teaches university courses about New York, and his love for exploring the city is as strong as ever. Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs--an astonishing 6,000 miles. His epic journey lasted four years and took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life, including Mayor Michael Bloomberg and former mayors Rudolph Giuliani, David Dinkins, and Edward Koch. Their stories and his are the subject of this captivating and highly original book. We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind, the Brooklyn-raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery-store sign, and many, many others. Helmreich draws on firsthand insights to examine essential aspects of urban social life such as ethnicity, gentrification, and the use of space. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan."--Publisher's description.

A Class of Their Own - 2021-03-18

A Class of Their Own: Celebrating the O'Day Mariner is a tribute to this remarkable sailboat and the people who sail them. First designed in 1963 and still in production today with over

4,000 built, the Mariner appeals to both seasoned and novice sailors as a fast, safe, comfortable, forgiving, attractive boat with classic lines that charm the heart of any sailor. This 122-page book is packed with over 180 stunning photographs with accompanying captions, and many of the pictures were taken by professional photographers. Individual Mariners are featured along with group photos at races and rendezvous. While Mariner owners certainly appreciate this compilation, it is just as appealing to any small-boat sailor.

Sports Marketing - Larry DeGaris 2015-02-11

Any sports marketing student or prospective sports marketer has to understand in detail genuine industry trends and be able to recognise solutions to real-world scenarios. *Sports Marketing: A Practical Approach* is the first textbook to offer a comprehensive, engaging and practice-focused bridge between academic theory and real-life, industry-based research and practice. Defining the primary role of the sports marketer as revenue generation, the book is structured around the three main channels through which this can be achieved — ticket sales, media and sponsorship — and explores key topics such as: Sports markets and business markets (b2b) Fan development Brand management Media audiences, rights and revenue Live sports events Sponsorship

Merchandise and retail Integrating real industry-generated research into every chapter, the book also includes profiles of leading industry executives and guidance for developing and preparing for a career in sports marketing. It goes further than any other sports marketing textbook in surveying the international sports market, including international cases and detailed profiles of international consumer and business markets throughout. A companion website offers multiple choice questions for students, editable short answer and essay questions, and lecture slides for instructors. No other textbook offers such a relevant, practice-focused overview of contemporary sports marketing. It is the ideal companion to any sports marketing course.

Moneyball (Movie Tie-in Edition) (Movie Tie-in Editions) - Michael Lewis 2011-08-22

Explains how Billy Beene, the general manager of the Oakland Athletics, is using a new kind of thinking to build a successful and winning baseball team without spending enormous sums of money.

The Comprehensive Guide to Careers in Sports - Glenn M. Wong 2013

Provides information about careers in the sports industry, including educational requirements, salary, and prospects for each profession.
