Strafprozessuale Angehörigenprivilegien im Rechtsvergleich -

Mika Kremer 2018-12-07

Die Möglichkeit von Beinahetreffern bei Reihengentests verleiht Grund und Reichweite strafprozessualer Angehörigenprivilegierungen eine neue Relevanz. Mika Kremer nähert sich dem Thema rechtsvergleichend und zeigt, dass der in Deutschland selbstverständlich erscheinende Schutz naher Angehöriger des Beschuldigten in Frankreich und England deutlich schwächer ausgeprägt ist. Diese Differenzen ergeben sich vor allem aus unterschiedlichen Schutzzwecken: Während in Deutschland die Interessen des Zeugen im Mittelpunkt stehen, soll in Frankreich die Wahrheitsfindung und in England die Institution der Ehe geschützt werden. Dementsprechend ist etwa die Verwertung von Beinahetreffern in England und Frankreich ohne weiteres möglich. Auf europäischer Ebene erschweren diese Unterschiede eine uneingeschränkte

gegenseitige Anerkennung und sind bei neuen Rechtsakten der EU auf dem Gebiet des Strafverfahrensrechts zu berücksichtigen.

Achieving Consistency in Sentencing - Lyndon Harris 2022-08-29

The Sentencing Council of England and Wales has as its core aim to promote consistency in sentencing, with a developed system of appellate guidance at sentencing in addition to a narrative guidelines system which is now two decades old. As such, there is much to analyse and many lessons to be learned - for England and Wales and other jurisdictions. Consistency in sentencing is widely regarded to be an essential component of a fair sentencing system; but what does consistency mean exactly? In *Achieving Consistency in Sentencing*, the author maintains that consistency incorporates both substantive and procedural elements, focussing upon the proper application of principle. The notion of comparing 'like' cases is rejected as simplistic, impractical, and unprincipled. Lyndon Harris argues that a more principled approach reconciles the tension between consistency and individualised justice which has been suggested to exist. The author uses clear empirical evidence of inconsistency in sentencing to emphasize the crucial need for discretion during the sentencing exercise which, he argues, should be structured in a way that encourages sentences to be imposed in accordance with the principles underpinning the scheme while maintaining the ability to individualise sentences. Using England and

Wales as a case study, this work analyses various methods of structuring discretion. The latter part of the book examines the interplay between the primary givers of guidance: Parliament, the Court of Appeal (Criminal Division), and the Sentencing Council and draws conclusions (good and bad) as to ways in which consistency can be achieved. Lyndon Harris identifies lessons to be learned while pointing out the strengths and deficiencies in the various devices used to guide sentencing judges when they are required to exercise their discretion. The book draws attention to the need for greater flexibility and structure while emphasising the work that needs to be done to address racial and gender inconsistencies in sentencing. Thus, while providing a theoretically sound critique of the concept, this monograph is of direct practical relevance to those studying or practising in sentencing systems worldwide.

Murphy on Evidence - Peter Murphy 2017

Information Rights - Philip Coppel 2014-12-01

This is the fourth edition of what is the leading practitioner's text on freedom of information law. Providing in-depth legal analysis and practical guidance, it offers complete, authoritative coverage for anyone either making, handling or adjudicating upon requests for official information. The three years since the previous edition have seen numerous important decisions from the courts and tribunals in the area. These and earlier authorities supply the basis for clear statements of principle, which the work supports by reference to all relevant cases. The book is logically organised so that the practitioner can quickly locate the relevant text. It commences with an historical analysis that sets out the object of the legislation and its relationship with other aspects of public law. Full references to Hansard and other Parliamentary materials are provided. This is followed by a summary of the regime in five other jurisdictions, providing comparative jurisprudence which can assist in

resolving undecided points. The potential of the Human Rights Act 1998 to support rights of access is dealt with in some detail, with reference to all ECHR cases. Next follows a series of chapters dealing with rights of access under other legislative regimes, covering information held by EU bodies, requests under the Data Protection Act and the Environmental Information Regulations, public records, as well as type-specific rights of access. These introduce the practitioner to useful rights of access that might otherwise be overlooked. They are arranged thematically to ensure ready identification of potentially relevant ones. The book then considers practical aspects of information requests: the persons who may make them; the bodies to whom they may be made; the time allowed for responding; the modes of response; fees and vexatious requests; the duty to advise and assist; the codes of practice; government guidance and its status; transferring of requests; third party consultation. The next 13 chapters, comprising over half the book, are devoted to exemptions. These start with two important chapters dealing with general exemption principles, including the notions of 'prejudice' and the 'public interest'. The arrangement of these chapters reflects the arrangement of the FOI Act, but the text is careful to include analogous references to the Environmental Information Regulations and the Data Protection Act 1998. With each chapter, the exemption is carefully analysed, starting with its Parliamentary history (giving full references to Hansard and other Parliamentary material) and the treatment given in the comparative jurisdictions. The analysis then turns to consider all court judgments and tribunal decisions dealing with the exemption. The principles are stated in the text, with footnotes giving all available references. Whether to prepare a case or to prepare a response to a request, these chapters allow the practitioner to get on top of the exemption rapidly and authoritatively. The book concludes with three chapters setting out the role of the Information Commissioner and the Tribunal, appeals and enforcement. The chapter on appeals allows the practitioner to be familiar with the processes followed in the tribunal, picking up on the jurisprudence as it has emerged in the last eight or so years. Appendices include: precedent requests for information; a step-by-

step guide to responding to a request; comparative tables; and a table of the FOI Act's Parliamentary history. Finally, the book includes an annotated copy of the FOIA Act, the Data Protection Act 1998, the Environmental Information Regulations 2004, all subordinate legislation made under them, EU legislation, Tribunal rules and practice directions, and the Codes of Practice. Contributors Prof John Angel, former President of the Information Tribunal Richard Clayton QC, 4-5 Gray's Inn Square Joanne Clement, 11 KBW Gerry Facena, Monkton Chambers Eleanor Gray QC

Christianity and Criminal Law - Mark Hill QC 2020-05-28

This collection, by leading legal scholars, judges and practitioners, together with theologians and church historians, presents historical, theological, philosophical and legal perspectives on Christianity and criminal law. Following a Preface by Lord Judge, formerly Lord Chief Justice of England and Wales, and an introductory chapter, the book is divided into four thematic sections. Part I addresses the historical

contributions of Christianity to criminal law drawing on biblical sources, early church fathers and canonists, as far as the Enlightenment. Part II, titled Christianity and the principles of criminal law, compares crime and sin, examines concepts of mens rea and intention, and considers the virtue of due process within criminal justice. Part III looks at Christianity and criminal offences, considering their Christian origins and continuing relevance for several basic crimes that every legal system prohibits. Finally, in Part IV, the authors consider Christianity and the enforcement of criminal law, looking at defences, punishment and forgiveness. The book will be an invaluable resource for students and academics working in the areas of Law and Religion, Legal Philosophy and Theology.

Comparing Tort and Crime - Matthew Dyson 2015-07-02

The fields of tort and crime have much in common in practice, particularly in how they both try to respond to wrongs and regulate future behaviour. Despite this commonality in fact, fascinating difficulties have hitherto not been resolved about how legal systems co-ordinate (or leave wild) the border between tort and crime. What is the purpose of

tort law and criminal law, and how do you tell the difference between them? Do criminal lawyers and civil lawyers reason and argue in the same way? Are the rules on capacity, consent, fault, causation, secondary liability or defences the same in tort as in crime? How do the rules of procedure operate for each area? Are there points of overlap? When, how and why do tort and crime interact? This volume systematically answers these and other questions for eight legal systems: England, France, Germany, Sweden, Spain, Scotland, the Netherlands and Australia.

Improperly Obtained Evidence in Anglo-American and Continental Law - Dimitrios Giannouloupoulos 2019-02-21

This is the first book to offer an extensive cosmopolitan, cross-cultural insight into the perennial controversy over the use of improperly obtained evidence in criminal trials. It challenges the conventional view that exclusionary rules are idiosyncratic of Anglo-American law, and highlights the 'constitutionalisation' and 'internationalisation' of criminal evidence and procedure as a cause of rapprochement (or divergence) beyond the Anglo-American and Continental law divide. Analysis focuses on confessional evidence and evidence obtained by search and seizure, telephone interceptions and other means of electronic surveillance. The laws of England and Wales, France, Greece and the United States are systematically compared and contrasted throughout this study, but, where appropriate, analysis extends to other Anglo-American and Continental legal systems. The book reviews exclusionary rules vis-à-vis the operation of judicial discretion, and explores the normative justifications that underpin them. It attempts to reinvigorate the idea of excluding evidence to protect constitutional or human rights (the rights thesis), arguing that there is significant scope for Anglo-American and Continental legal systems to place a renewed emphasis on it, particularly in relation to confessional evidence obtained in violation of custodial interrogation rights; we can locate an emerging rapprochement, and unique potential for European Court of Human Rights jurisprudence to

build consensus in this respect. In marked contrast, remaining divergence with regard to evidence obtained by privacy violations means there is little momentum to adopt a reinvigorated rights thesis more widely.

Smith and Hogan's Criminal Law - David C. Ormerod 2015

'Criminal Law' is written with the needs of the student foremost in mind to provide, more than ever, as modern and as comprehensive an exposition of the criminal law as he or she could possibly require.
Negotiated Justice and Corporate Crime - Colin King 2018-05-21
This book argues that there is a strong normative argument for using the criminal law as a primary response to corporate crime. In practice, however, corporate crimes are rarely dealt with through criminal sanctioning mechanisms. Rather, the preference - for both prosecutors and corporates - appears to be on negotiating out of the criminal process. Reflecting this emphasis on negotiation, this book examines the use of Civil Recovery Orders and Deferred Prosecution Agreements as responses to corporate crime, and discusses a variety of UK case studies. Drawing upon legal and criminological backgrounds, and with an emphasis on the conceptual frameworks of 'negotiated justice' and 'legitimacy', the authors examine the law, policy and practice of these enforcement responses. They offer an original, theoretically-informed analysis which is accessible to practitioners and researchers.

Wechselwirkungen zwischen Art. 6 EMRK und nationalem Strafverfahrensrecht - Anna H. Albrecht 2020-11-17

Das Recht auf ein faires Verfahren gemäss Art. 6 der Europäischen Menschenrechtskonvention (EMRK) gewährleistet nach der ständigen Rechtsprechung des Europäischen Gerichtshofs für Menschenrechte die Fairness des Verfahrens insgesamt ("overall fairness"). Verkürzungen einzelner Verteidigungsrechte des Angeklagten können danach unter bestimmten Voraussetzungen innerhalb des Verfahrens ausgeglichen werden. Anna H. Albrecht leitet aus diesem Massstab der Gesamtfairness ab, dass sich das nationale Strafverfahrensrecht und die Anforderungen des Art. 6 Abs. 1 und 3 EMRK an ebendieses wechselseitig beeinflussen. Sie analysiert, inwieweit der Gerichtshof solche Wechselwirkungen

anzuerkennen bereit ist, und arbeitet sie am Beispiel des Rechts des Angeklagten auf Anwesenheit in der erstinstanzlichen Hauptverhandlung heraus, indem sie das einschlagige englische und deutsche Recht vergleicht und in Beziehung zu der entsprechenden Gewährleistung in Art. 6 Abs. 1, 3 EMRK setzt.

Participating in crime - Great Britain: Law Commission 2007-05-10

This is the second of two Commission reports which examine options for reform of the law relating to criminal liability for encouraging or assisting another person to commit an offence (the previous report 'Inchoate liability for assisting and encouraging crime' was published in July 2006 as Cm. 6878 (Law Com. no. 300, ISBN 9780101687829). This report focuses on the law of secondary liability and examines the problems with the law as it currently stands; the differences between inchoate liability and secondary liability; recommendations to introduce statutory schemes of secondary liability and of innocent agency and a new offence of causing the commission of a no fault offence; defences and exemptions; and extra-territorial jurisdiction. It includes the text of two draft bills: Participating in Crime Bill and Participating in Crime (Jurisdiction, Procedure and Consequential Provisions) Bill. Taken together, the recommendations contained in both reports seek to establish a system whereby inchoate and secondary liability will support and supplement each other in a way that is rational and fair.

Commonwealth Caribbean Criminal Practice and Procedure - Dana S. Seetahal 2014-06-05

The fourth edition of this best-selling book has been thoroughly revised to take into account recent developments in the law in criminal practice and procedure across the region. The only textbook that explores criminal practice and procedure as it relates to the Commonwealth Caribbean, the book clarifies the state law in each of 11 jurisdictions, at the same time making it clear when laws are the same or similar and highlighting where differences among jurisdictions occur. Both statute law and common law are examined in the relevant jurisdictions, which include Trinidad and Tobago, Guyana, Barbados, Jamaica and Grenada amongst others. The impact of statutory changes in the laws are analysed, as well as recent developments in the common law.

Throughout the text the statutory law in the Commonwealth Caribbean is compared to similar English legislation, in the light of the analysis of such legislation in English case law. *Commonwealth Caribbean Criminal Practice and Procedure* is the recommended textbook for all professional law schools in the Commonwealth Caribbean and is used at regional universities as a reference book for criminal justice students. In addition, as the only book that deals specifically with criminal practice and procedure in the regions, it has proved a valuable reference tool for legal practitioners, judicial officers and police officers.

Hearsay Evidence in Criminal Proceedings - J R Spencer 2014-11-01

The Criminal Justice Act 2003 re-wrote the hearsay evidence rule for the purpose of criminal proceedings, enacting the recommendations of the Law Commission together with some proposals from the Auld Review. In 2008, Professor Spencer wrote a book explaining the new law, intended for practitioners as well as academics. Following the style of his earlier book about the new law on bad character evidence, the core of the hearsay book was a section-by-section commentary on the relevant provisions of the Act, discussing the case law that had interpreted them. Since the appearance of the first edition, the new law on hearsay evidence has been the subject of a spectacular exchange between the UK

Supreme Court and the European Court of Human Rights, the effects of which the Court of Appeal has interpreted in several leading cases. In this new edition, the commentary is revised to take account of these developments. As in the first edition, the commentary is preceded by chapters on the history of the hearsay rule, and the requirements of Article 6(3)(d) of the European Convention on Human Rights. It is followed by an appendix containing the text of the statutory provisions and a selection of the leading cases.

Evidence of Bad Character - J R Spencer 2016-09-01

This is the third edition of J R Spencer's now well established book which seeks to explain this area of law for the benefit of judges, criminal practitioners and academics teaching the law of evidence. In the past, the rule excluding evidence of the defendant's general bad character and disposition to commit the offence was sometimes described as one of the most hallowed rules of evidence; Lord Sankey, in *Maxwell v DPP*, referred to it as '...one of the most deeply rooted and jealously guarded principles of our criminal law.' In reality it was not particularly ancient, and as the years went by it was increasingly attacked. On technical grounds the body of law surrounding it was criticised as over-complicated and inconsistent, and more radical critics condemned it as unduly favourable to the guilty. In response to this, the law was completely recast in Part 11 of the Criminal Justice Act 2003. This book, now again updated to take account of further legislative changes, case-law and academic writing, offers a thorough analysis of the bad character provisions of the Criminal Justice Act 2003 in the light of the way in which they have been interpreted by the courts.

Funktionelle Äquivalente der strafrechtlichen Konkurrenzlehre im Common Law - Andreas Dürr 2019-04-25

Im deutschen Strafrecht wird die Zulässigkeit der kumulativen Anklage,

Verurteilung und Bestrafung mehrerer Gesetzesverletzungen durch die sog. Konkurrenzlehre geregelt. Eine solche gibt es in Rechtsordnungen des Common Law zwar dem Begriff nach nicht, jedoch in der Sache. Dies zeigt Andreas Durr anhand dreier repräsentativer Rechtsordnungen jenes Rechtskreises (England/Wales, Kanada, USA) eingehend. Er vergleicht die Rechtsordnungen und erarbeitet anschliessend einen Vorschlag zur Neuordnung der Konkurrenz im deutschen Recht, der v.a. auf einer einheitlichen Form der Kumulativbestrafung von Tateinheit und -mehrheit beruht und der Idealkonkurrenz einen anderen Anwendungsbereich als bislang zuweist. Die Erkenntnisse des Rechtsvergleichs nimmt der Autor zum Anlass, die volkerstrafrechtliche Rechtsprechung zur Gesetzeskonkurrenz zu kritisieren und auch insoweit einen alternativen Lösungsweg anzubieten.
