Raleigh and Wake County Firefighting - Michael J. Legeros 2004-04-01

This second collection of historic firefighting images covers 1940 through 1990, five formative decades for fire protection in North Carolina's capital county. During this period, the Raleigh Fire Department quadrupled in size, smaller municipal fire departments modernized, and rural fire departments formed to protect outlying areas. As populations increased and technology advanced, 20th century firefighters found their duties evolving from simple "smoke eating" to include emergency medical services, rescue and extrication, and hazardous-materials training. *Raleigh and Wake County Firefighting, Volume II*, depicts fires, fire equipment, and firefighters in over 200 images culled from newspapers, archives, and personal collections. Included in this second volume are rare, early photographs of the Six Forks Road, Western Boulevard, and Wake Forest #2 fire departments. *Report of the Commissioner of Revenue, State of North Carolina* - North Carolina. Spring's Wake - Aurora Rey 2018-03-13

Nora Calhoun keeps her life just like her Provincetown B and B, neat and tidy. She's thrilled when her niece Graham comes to stay with her while completing her graduate fieldwork aboard the Dolphin Fleet. She's less than thrilled when Graham starts hanging out with Willa Lange, a sexy wanderer who works for the Fleet and seems to have her sights set on Graham. At the encouragement of her sister Emerson, Will's short stay in Ptown becomes a fresh start. She's doing great—a decent job, a place of her own, and new friends. But when she meets Nora, she finds herself pining for more. The only problem? Nora is fifteen years her senior and doesn't like her. Can the women overcome past hurts and find love or will their affair leave battered hearts in its wake?

Early Spring - Amy Seidl 2010-03-01

The human heart is the most sensitive instrument, and that is why Amy Seidl's marvelous book is so important, a new kind of contribution to the rapidly growing library on global warming.—Bill McKibben, from the foreword Robert Frost wrote about nature and rural life in New England, and Norman Rockwell painted classic scenes of farmhouses and American traditional life, images reproduced as symbolizing an idealized history born of New England sights. But New England, a region whose culture is rooted in its four distinct seasons, is changing along with its climate. In *Early Spring*, ecologist and mother Amy Seidl examines climate change at a personal level through her own family's walks in the woods, work in their garden, and observations of local wildlife in the quintessential America of small-town New England, deep in the Green Mountains of Vermont. Seidl's testimony, grounded in the science of ecology and evolutionary biology but written with beauty and emotion, helps us realize that a natural upheaval from climate change has already begun: spring flowers blossom before pollinators arrive, ponds no longer freeze, and animals begin migrations at unexpected times. Increasingly, the media report on melting ice caps and drowning polar bears, but Seidl brings the message of global warming much closer to home by considering how climate change has altered her local experience, and the traditions and lifestyles of her neighbors, from syrup producers to apple farmers. In Vermont, she finds residents using nineteenth-century practices to deal with perhaps the most destructive twenty-first-century phenomenon. Seidl's poignant writing and scientific observations will cause readers to look at their local climate anew, and consider how they and their neighbors have adjusted to the reality of global warming.
