Black Swan Green - David Mitchell 2006-04-11

By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first

Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like."—The Boston Globe "[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall."—Time

Self-Regulated Learning and Academic Achievement - Barry J. Zimmerman 2013-05-13

This volume brings together internationally known researchers representing different theoretical perspectives on students' self-regulation of learning. Diverse theories on how students become self-regulated learners are compared in terms of their conceptual origins, scientific form, research productivity, and pedagogical effectiveness. This is the only comprehensive comparison of diverse classical theories of self-regulated learning in print. The first edition of this text, published

in 1989, presented descriptions of such differing perspectives as operant, phenomenological, social learning, volitional, Vygotskian, and constructivist theories. In this new edition, the same prominent editors and authors reassess these classic models in light of a decade of very productive research. In addition, an information processing perspective is included, reflecting its growing prominence. Self-regulation models have proven especially appealing to teachers, coaches, and tutors looking for specific recommendations regarding how students activate, alter, and sustain their learning practices. Techniques for enhancing these processes have been studied with considerable success in tutoring sessions, computer learning programs, coaching sessions, and self-directed practice sessions. The results of these applications are discussed in this new edition. The introductory chapter presents a historical overview of research and a theoretical framework for comparing and contrasting the theories described in the following chapters, all of which follow a common organizational format. This parallel format enables the book to function like an authored textbook rather than a typical edited volume. The final chapter offers an historical assessment of changes in theory and trends for future research. This volume is especially relevant for students and professionals in educational psychology, school psychology, guidance and counseling, developmental psychology, child and family development, as well as for students in general teacher education.

Bodies That Matter - Judith Butler 2014-09-03

In *Bodies That Matter*, Judith Butler further develops her distinctive theory of gender by examining the workings of power at the most "material" dimensions of sex and sexuality. Deepening the inquiries she began in *Gender Trouble*, Butler offers an original reformulation of the materiality of bodies, examining how the power of heterosexual hegemony forms the "matter" of bodies, sex, and gender. Butler argues that power operates to constrain "sex" from the start, delimiting what counts as a viable sex. She offers a clarification of the notion of "performativity" introduced in *Gender Trouble* and explores the meaning of a citational politics. The text includes readings of Plato, Irigaray,

Lacan, and Freud on the formation of materiality and bodily boundaries; "Paris is Burning," Nella Larsen's "Passing," and short stories by Willa Cather; along with a reconsideration of "performativity" and politics in feminist, queer, and radical democratic theory.

A Himalayan Love Story - Namita Gokhale 2002

A story of unrequited love. This is the story of Parvati, young, beautiful and doomed, and Mukul Nainwal, the local boy made good who returns to the Nainital of his youth to search for the only woman he has ever loved, a search that will bring him face to face with all that he has lost and can never reclaim.

Wild Swans - Jung Chang 2008-06-20

The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

Wuthering Heights - Emily Bronte

Wuthering Heights is the name of Mr. Heathcliff's dwelling. Wuthering being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a

range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date 1500 and the name Hareton Earnshaw. I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here the house pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

Book of Rachel - David Esther 2018-07-20

Winner of the Sahitya Akademi Award 2010 A gripping story of a lone

Jewish woman battling land sharks to keep her community alive Rachel lives alone by the sea. Her children have long migrated to Israel as have her Bene Israel Jew neighbours. Taking care of the local synagogue and preparing exquisite traditional Jewish dishes sustains Rachel's hope of seeing the community come together again at a future time. When developers make moves to acquire the synagogue and its surrounding land, Rachel's vehement opposition takes the synagogue committee and the town by surprise. Written with warmth and humour, *Book of Rachel* is a captivating tale of a woman's battle to live life on her own terms. Continuing the saga of the unique Bene Israel Jews in India, it adds to Esther David's reputation as a writer of grace and power.

Transformation Of Knowledge In The Digital Age Environment Through Library - Dr. D. D. LAL 2022-04-28

The proposed book emphasizes importance for a library to be flexible to changing needs and to adopt new technologies rapidly. If a library of today wants to achieve success, it must offer high quality service, the best possible satisfaction of requirements, and exhibit great flexibility in its activity. In order to achieve all these goals, it is necessary to attract specialists of a library to solving common problems. Today, people get their information online — often filtered through for-profit platforms. If a book isn't online, it's as if it doesn't exist. Yet much of modern knowledge still exists only on the printed page, stored in libraries. Libraries haven't met this digital demand, stymied by costs, e-book restrictions, policy risks, and missing infrastructure. We now have the technology and legal frameworks to transform our library system. The Internet Archive, working with library partners, proposes bringing millions of books online, through purchase or digitization, starting with the books most widely held and used in libraries and classrooms. With the emergence of new technologies, the traditional library, acting as a medium for sharing information, needs an integral refinement in its processes. This transformation will bring in efficiency and minimize human error in the processes with the help of smart gates, material location finder and smart check-out booth to automate the processes of controlling access, locating items as well as the issuing/returning of

materials. However, the changeover to a smart library system might face several challenges like for instance the cost of implementing numerous high-frequency RFID readers at prime locations in the library. Another crucial challenge of this system will be the limitation of the equipment to achieve a more performing system. Highly sophisticated equipment will be required which will largely affect the cost. Smart library focuses on use of technology in a library and is designed to be very collaborative learning environment, where participants are encouraged to contribute ideas and information. Smart library improves traditional and non-traditional library services, improves users' library experience and enhances opportunities for students learning. Libraries are facing increased expectations from users, and challenge of developing technologies including: Web 2.0, e-books, digitations and a problem of archiving digital content. Web-based technology provides users and information professionals with powerful and flexible tools for information dissemination.

Stories and Poems - Rudyard Kipling 2015-10-08

'Hear and attend and listen...' Rudyard Kipling is a supreme master of the short story in English and a poet of brilliant gifts. His energy and inventiveness poured themselves into every kind of tale, from the bleakest of fables to the richest of comedies, and he illuminated every aspect of human behaviour, of which he was a fascinated (and sometimes appalled) observer. This generous selection of stories and poems, first published in the acclaimed Oxford Authors series, covers the full range of Kipling's career from the youthful volumes that brought him fame as the chronicler of British India, to the bittersweet fruits of age and bereavement in the aftermath of the First World War. It includes stories such as 'The Man who would be King', 'Mrs Bathurst', and 'Mary Postgate', and poems from Barrack-Room Ballads and other collections. In his introduction and notes Daniel Karlin addresses the controversial political engagement of Kipling's art, and the sources of its imaginative power.

Scholarly Electronic Publishing Bibliography 2010 - Charles Wesley Bailey 2011-01-13

The Scholarly Electronic Publishing Bibliography presents over 3,800 selected English-language articles, books, and other textual sources that are useful in understanding scholarly electronic publishing efforts on the Internet. It covers digital copyright, digital libraries, digital preservation, digital rights management, digital repositories, economic issues, electronic books and texts, electronic serials, license agreements, metadata, publisher issues, open access, and other related topics. Most sources have been published from 1990 through 2010. Many references have links to freely available copies of included works. Peter Jacso said in *ONLINE* (vol. 27, no. 3 2003, pp. 73-76): "SEP is compiled with utter professionalism. It reminds me of the work of the best artisans who know not only every item that leaves their workshops, but each component used to create them--providing the ideal quality control. . . . The selection of items is impeccable. I have yet to find journal articles irrelevant to the scope of the bibliography. SEP could be used as a benchmark in evaluating abstracting/indexing databases that proudly claim to have coverage of electronic publishing, but do not come close to SEP."

The Republic of Imagination - Azar Nafisi 2014-10-21

A New York Times bestseller The author of the beloved #1 New York Times bestseller *Reading Lolita in Tehran* returns with the next chapter of her life in books—a passionate and deeply moving hymn to America Ten years ago, Azar Nafisi electrified readers with her multimillion-copy bestseller *Reading Lolita in Tehran*, which told the story of how, against the backdrop of morality squads and executions, she taught *The Great Gatsby* and other classics of English and American literature to her eager students in Iran. In this electrifying follow-up, she argues that fiction is just as threatened—and just as invaluable—in America today. Blending memoir and polemic with close readings of her favorite novels, she describes the unexpected journey that led her to become an American citizen after first dreaming of America as a young girl in Tehran and coming to know the country through its fiction. She urges us to rediscover the America of *The Wonderful Wizard of Oz* and *Adventures of Huckleberry Finn* and challenges us to be truer to the words and spirit of the Founding Fathers, who understood that their democratic experiment

would never thrive or survive unless they could foster a democratic imagination. Nafisi invites committed readers everywhere to join her as citizens of what she calls the Republic of Imagination, a country with no borders and few restrictions, where the only passport to entry is a free mind and a willingness to dream.

A Golden Age - Tahmima Anam 2009-10-13

"Spellbinding Anam has written a story about powerful events. But it is her descriptions of the small, unheralded moments . . . that truly touch the heart." —San Francisco Chronicle Tahmima Anam's deeply moving debut novel about a mother's all-consuming love for her two children, set against the backdrop of war and terror, has led critics to comparisons with *The English Patient* and *A Thousand Splendid Suns*. Rehana Haque, a young widow transplanted to the city of Dhaka in East Pakistan, is fiercely devoted to her adolescent children, Maya and Sohail. Both become fervent nationalists in the violent political turmoil which, in 1971, transforms a brutal Pakistani civil war into a fight to the death for Bangladeshi independence. Fair-minded and intensely protective of her family, but not at all political, Rehana is sucked into the conflict in spite of herself. A story of passion and revolution, of family, friendship and unexpected heroism, *A Golden Age* depicts the chaos of an era and the choices everyone—from student protesters to the country's leaders, and rickshaw wallahs to the army's soldiers—must make. Rehana herself will face a cruel dilemma; the choice she makes is at once heartbreaking and true to the character we have come to love and respect.

Cat on a Hot Tin Roof - Tennessee Williams 1975

Maggie the Cat fights for the lives of her damaged and drinking husband

Brick, herself, and their unborn children in the revised version of Williams' acclaimed dramatization of Big Daddy's birthday and deathday party and family gathering

The Kitchen God's Wife - Amy Tan 2006-09-21

"Remarkable...mesmerizing...compelling.... An entire world unfolds in Tolstoyan tide of event and detail....Give yourself over to the world Ms. Tan creates for you." —The New York Times Book Review Winnie and Helen have kept each other's worst secrets for more than fifty years. Now, because she believes she is dying, Helen wants to expose everything. And Winnie angrily determines that she must be the one to tell her daughter, Pearl, about the past—including the terrible truth even Helen does not know. And so begins Winnie's story of her life on a small island outside Shanghai in the 1920s, and other places in China during World War II, and traces the happy and desperate events that led to Winnie's coming to America in 1949. *The Kitchen God's Wife* is "a beautiful book" (Los Angeles Times) from the author of bestselling novels like *The Joy Luck Club* and *The Valley of Amazement*, and the memoir, *Where the Past Begins*.

Chotti Munda and His Arrow - Mahasweta Devi 2008-04-15

Written in 1980, this novel by prize-winning Indian writer Mahasweta Devi, translated and introduced by Gayatri Chakravorty Spivak, is remarkable for the way in which it touches on vital issues that have in subsequent decades grown into matters of urgent social concern. Written by one of India's foremost novelists, and translated by an eminent cultural and critical theorist. Ranges over decades in the life of Chotti - the central character - in which India moves from colonial rule to independence, and then to the unrest of the 1970s. Traces the changes, some forced, some welcome, in the daily lives of a marginalized rural community. Raises questions about the place of the tribal on the map of national identity, land rights and human rights, the 'museumization' of 'ethnic' cultures, and the justifications of violent resistance as the last resort of a desperate people. Represents enlightening reading for students and scholars of postcolonial literature and postcolonial studies.

Handbook of Research on Translating Myth and Reality in Women

Imagery Across Disciplines - Ciol?neanu, Roxana 2020-11-13

Women have been represented in art, literature, music, and more for decades, with the image of the woman changing through time and across cultures. However, rarely has a multidisciplinary approach been taken to examine this imagery and challenge and possibly reinterpret old women-related myths and other taken-for-granted aspects (e.g., grammatically inclusive gender). Moreover, this approach can better place the ideologies as myth creators and propagators, identify and deconstruct stereotypes and prejudices, and compare them across cultures with the view to spot universal vs. culturally specific approaches as far as women's studies and interpretations are concerned. It is important to gather these perspectives to translate and unveil new interpretations to old ideas about women and the feminine that are universally accepted as absolute, impossible to challenge, and invalidated truths. The Handbook of Research on Translating Myth and Reality in Women Imagery Across Disciplines is a comprehensive reference book that provides an interdisciplinary and multidisciplinary perspective on the perception and reception of women across time and space. It tackles various perspectives: gender studies, linguistic studies, literature and cultural studies, discourse analysis, philosophy, anthropology, sociology, etc. Its main objective is to present new approaches and propose new answers to old questions related to gender inequalities, stereotypes, and prejudices about women and their place in the world. Covering significant themes that include the ethics of embodiment, myth of motherhood at the crossroad of ideologies, translation of women's experiences and ideas across cultures, and discourses on women's rehabilitation and dignification across centuries, this book is critical for linguists, professionals, researchers, academicians, and students working in the fields of women's studies, gender studies, cultural studies, and literature, as well as other related categories such as political studies, education studies, philosophy, and the social sciences.

Antharjanam - Devaki Nilayamgode 2012-04-05

The first full-length memoirs of a Namboodiri woman, the work reveals little-known facets of a Namboodiri woman's life lived behind closed

doors. Told without a trace of self-pity, the work throws interesting sidelights on the social history of a largely insular community.

Indelicacy - Amina Cain 2020-02-11

FINALIST FOR THE CENTER FOR FICTION'S FIRST NOVEL PRIZE

"Cain's small but mighty novel reads like a ghost story and packs the punch of a feminist classic." —The New York Times Book Review A haunted feminist fable, Amina Cain's *Indelicacy* is the story of a woman navigating between gender and class roles to empower herself and fulfill her dreams. In "a strangely ageless world somewhere between Emily Dickinson and David Lynch" (Blake Butler), a cleaning woman at a museum of art nurtures aspirations to do more than simply dust the paintings around her. She dreams of having the liberty to explore them in writing, and so must find a way to win herself the time and security to use her mind. She escapes her lot by marrying a rich man, but having gained a husband, a house, high society, and a maid, she finds that her new life of privilege is no less constrained. Not only has she taken up different forms of time-consuming labor—social and erotic—but she is now, however passively, forcing other women to clean up after her. Perhaps another and more drastic solution is necessary? Reminiscent of a lost Victorian classic in miniature, yet taking equal inspiration from such modern authors as Jean Rhys, Octavia Butler, Clarice Lispector, and Jean Genet, Amina Cain's *Indelicacy* is at once a ghost story without a ghost, a fable without a moral, and a down-to-earth investigation of the barriers faced by women in both life and literature. It is a novel about seeing, class, desire, anxiety, pleasure, friendship, and the battle to find one's true calling.

LGBTQ+ Athletes Claim the Field - Kirstin Cronn-Mills 2017

In 2015, the world watched as soccer star Abby Wambach kissed her wife after the US women's World Cup victory. Milwaukee Brewers' minor league first baseman David Denson came out as gay. And Caitlyn (born Bruce) Jenner, an Olympic decathlete, came out as transgender. It hasn't always been this way. Many great athletes have stayed in the closet their whole lives, or at least until retirement. Social attitudes, institutional policies, and laws are slow to change, but they are catching up. Together, athletes, families, educators, allies, and fans are pushing for competitive equity so that every athlete, regardless of identity, can have the opportunity to play at their very best.

Sugar and Sugar Derivatives: Changing Consumer Preferences - Narendra Mohan 2020-12-24

Sugarcane enjoys a prominent position among agro-industrial crops and is commercially grown in 115 tropical and subtropical countries around the world. However, fluctuations in sugar prices have forced the sugarcane industry worldwide to broaden its revenue base by moving from single-commodity manufacturing to a range of value-added products. Utilizing the by-products in an innovative manner to create value-added products is the new course of action for sugar-producing countries. For many years sugarcane was regarded as a single-product crop, i.e., only useful for producing sugar. Its actual potential is now increasingly being recognised by the industry and there is a growing trend toward the manufacturing of allied products from sugarcane. Therefore, the focus is now on the establishment of sugar-agro-industry complexes, processing not just sugar but a range of other products. This book provides a comprehensive overview of sugarcane not only as a source of sweetening agents but also for many other uses, including as a source of bio-energy. It also explores the trend of sugar consumption and suggests practices to curb the consumption of sugar products in order to tackle obesity and reduce public health costs. The book underscores the need to diversify sugarcane and highlights means of doing so, while also

addressing various innovations and technologies being developed in connection with sugar, sugar derivatives, and sugar industry by-products for sustainable utilization in the sugar-agro industry. Accordingly, it offers a valuable resource for professionals and R&D units in the sugar industry, and for students of agronomy and related fields.

The Pull of the Stars - Emma Donoghue 2020-07-21

In Dublin, 1918, a maternity ward at the height of the Great Flu is a small world of work, risk, death, and unlooked-for love, in "Donoghue's best novel since *Room*" (Kirkus Reviews). In an Ireland doubly ravaged by war and disease, Nurse Julia Power works at an understaffed hospital in the city center, where expectant mothers who have come down with the terrible new Flu are quarantined together. Into Julia's regimented world step two outsiders—Doctor Kathleen Lynn, a rumoured Rebel on the run from the police, and a young volunteer helper, Bridie Sweeney. In the darkness and intensity of this tiny ward, over three days, these women change each other's lives in unexpected ways. They lose patients to this baffling pandemic, but they also shepherd new life into a fearful world. With tireless tenderness and humanity, carers and mothers alike somehow do their impossible work. In *The Pull of the Stars*, Emma Donoghue once again finds the light in the darkness in this new classic of hope and survival against all odds.

Secret Writings of Hoshang Merchant - Akshaya K. Rath 2016-07-07
Never a shrinking violet, Hoshang Merchant came out of the closet early in his youth. A bard, a teacher, and a lover who has lived many lives, he is the quintessential gay who once cross-dressed, and yet defies categorization. In *Secret Writings*, he recounts his extraordinary life and splendid experiences ranging across countries and cultures. His is a story of the prejudice and neglect that are part of everyday gay life, and how he channelled his despair into creating poetry. He quotes Rumi, Ghalib, and Mir, and writes with searing honesty about his long and short love affairs, his 'improbable' sex life as both an initiator and a yielding partner, and his inner turmoil. Sex becomes love and love becomes poetry in his writing. Merchant yells at the moral guardians of law and culture, asks uncomfortable questions, and shocks his readers.

This rare book opens a window to the myriad worlds of an avant-garde.
Innovative Ways to Manage Job Stress - Dr. Dileep Kumar M & Srota Pandya

Ravan and Eddie - Kiran Nagarkar 2012-12-11

Ravan and Eddie are the unlikeliest of companions. For one thing, Ravan is Hindu, while Eddie is Catholic. For another, when Ravan was a baby and fell from a balcony, that fall had a dramatic, and very literal, impact on Eddie's family. But Ravan and Eddie both live in Central Works Department Chawl No. 17—and if you grow up in the crowded Mumbai chawls, you get to participate in your neighbors' lives, whether you like it or not. As we watch the two unlikely heroes of Kiran Nagarkar's acclaimed novel rocket out of the starting blocks of their lives, leaving earth-mothers and absentee fathers, cataclysms and rock 'n' roll in their wake, we're compelled to sit up and take notice. Recently selected by The Guardian as one of the ten best novels about Mumbai, Ravan and Eddie is a comic masterpiece about two larger- and truer-than-life characters and their bawdy, Rabelaisian adventures in postcolonial India. It is also a timeless journey of self-discovery, a quest for the meaning of guilt and responsibility, sin and sex, crime and punishment.

Advances in Functional Finishing of Textiles - Mohammad Shahid 2020-06-10

This book provides a comprehensive overview of the field of functional finishing of textiles, describing the state-of-the-art research and well-established techniques applied in the textile industry, and covering all areas of textile dyeing and finishing. It is intended for academic researchers and professionals in related scientific and engineering fields, including textile engineering, chemistry, nanotechnology, material science, biotechnology and environmental science. The book also provides reference material for stakeholders looking for innovative technologies and insights into the environmental and sustainability issues in the development of functional textiles and related products.

Vishnu's Mount - Capt. Praveen Chopra 2017-12-18

Do you know how the mythical bird Garuda became Vishnu's Mount? What does a serpent coiled around a peacock signify? Which bird in the hands of Mohini represents carnal love? Have you ever wondered about the significance of the birds you see with gods and goddesses when you regularly prostrate and pray before them? Vishnu's Mount unravels the world of birds in Hindu mythology and their significant roles in nature. It is a collection of interesting facts and characteristics of birds interwoven with the beliefs and practices through the ages that is a must-read for all bird lovers and bird watchers.

The Impact and Prospects of Green Chemistry for Textile Technology - Shahid ul-Islam 2018-11-02

The Impact and Prospects of Green Chemistry for Textile Technology provides a review and summary of the role of green chemistry in textiles, including the use of green agents and sustainable technologies in different textile applications. The book systematically covers the history and chemistry of eco-friendly colorants, chitin, chitosan, cyclodextrin, biomordants, antimicrobial, UV protective, flame retardant, insect repellent textiles, and advanced pre- and post-treatment technologies, such as the sonochemistry and plasma methods currently employed in

functional modifications. The book also pays attention to the remediation of textile effluents using novel, sustainable and inexpensive adsorbents. Written by high profile contributors with many years of experience in textile technology, the book gives engineers and materials scientists in the textile industry the information they need to effectively deploy these green technologies and processes. Introduces green chemistry and sustainable technologies, and explores their role in different textile applications Examines the use of renewable materials, such as biopolymers, dyes and pigments, biomordants, polyphenols and plant extracts in functional finishing applications Deals the functional modification of textiles using state-of-the-art biotechnology and nanotechnology

Gitanjali - Rabindranath Tagore 2017-06-25T16:22:32Z

Widely regarded as one of the most important figures in Indian (and more specifically Bengali) literary history, Rabindranath Tagore was the first Indian—indeed, the first person outside Europe—to win the Nobel Prize in Literature, largely in recognition of his “spiritual offering of songs,” *Gitanjali*. Tagore himself translated the poems from the original Bengali, taking many liberties in the process. His English translation is

rightly recognized as a work distinct from the Bengali original, consisting of major revisions, many elisions, and many poems originally published in other collections. Tagore’s lyrical simplicity, vivid imagery, and themes of nature, spirituality, death, and transcendence combine to produce a truly unique, powerfully moving work of thoughtful beauty. For many who read it, Tagore’s words in Song XCVI ring true: “What I have seen is unsurpassable. I have tasted of the hidden honey of this lotus that expands on the ocean of light, and thus I am blessed.” This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Evolutionary Scheduling - Keshav Dahal 2007-02-15

Evolutionary scheduling is a vital research domain at the interface of artificial intelligence and operational research. This edited book gives an overview of many of the current developments in the large and growing field of evolutionary scheduling. It demonstrates the applicability of evolutionary computational techniques to solve scheduling problems, not only to small-scale test problems, but also fully-fledged real-world problems.
