Handbook on the Economics of Sport - Wladimir
Andreff 2006

The editors should be commended for taking on

such a big task, and succeeding so well. This book should be in the library of every institution where students have to write a paper that may be related to sport, or on the shelf of any lecturer teaching economics or public finance who has even a remote interest in sport. The

material is very accessible, and useful in many different settings. Ruud H. Koning, Jahrbücher f. Nationalökonomie u. Statistik Edward Elgar's brilliant market niche is identifying a topic in economics, finding editors who know the area backwards and challenging them to assemble the best cross-section of relevant articles either already published or newly commissioned. Handbook on the Economics of Sport is Edward Elgar at its very best. If you love economics you'll find many fascinating insights here; if you love sport but know little economics then this book is mostly accessible and will teach you a lot; and if you are a sports-mad economist then you will be in hog heaven. Furthermore, if, like this reviewer, you are broadly very sceptical about the reports consultants produce for governments on the supposed economic windfall from hosting a big event or subsidising a stadium then you will get a lot of good counter-arguments in this volume. Indeed there are several chapters on the above theme that I'm sure I'll be copying

frequently to government officials in years to come. . . The demand for sport is a fascinating subject and it is hard to pick out just one chapter from the second section. Read them all they make a wonderful 65-page treat. . . Part VI was a real feast, a smorgasbord. . . This is a magnificent piece of work and the 36-page index rounds it all off splendidly. John Blundell, Economic Affairs The book covers the most important areas of research of an emerging economic sub-discipline spanning the past half a century. It serves admirably the purpose of an introduction into the rich and growing area of reflection for all concerned. . . the editors and authors of the Handbook have done a commendable job of accumulating sophisticated material for many economists, managers, politicians and self-conscious fans, who are sure to find excellent training ground for the whole heptathlon. . . This book will be invaluable for advanced students investigating professional sport. From the point of view of lawyers,

particularly those engaged with the relationship between law and sports governance, the Handbook offers invaluable analysis of the economic issues that are alluded to in those debates but rarely examined in detail. . . These insights will also prove useful for policy analysts and sports administrators for whom many sections should be considered mandatory reading. Aleksander Sulejewicz, Journal of Contemporary European Research Over 800 pages on the economics of sport. What a feast! What a treat! The editors have done a wonderful job both in terms of breadth from David Beckham to child labour in Pakistan and depth, tournaments and luxury taxes for example. . . The 86 chapters are uniformly of a very high standard and illuminating. And there are real gems in some of the contributions. British Journal on the Economics of Sport This very interesting and comprehensive book achieves its objective, namely to present an overview of research in sports economics at an introductory

level. . . [The editors] have produced an excellent reference book that belongs in all academic institutions libraries. It provides extensive introduction to the growing body of literature in the rising field of economics of sport. The book s relevant monographs should be read by institutions, cities and countries prior to their committing major resources towards sports facilities or a sporting event. James Angresano, Journal of Sports Economics One could think of this book as the sports-and-economics counterpart to Joy of Cooking, because it will satisfy the needs of those with a keen interest in such subjects as the

Patient Engagement - Guendalina Graffigna
2016-01-01

Patient engagement should be envisaged as a key priority today to innovate healthcare

services delivery and to make it more effective and sustainable. The experience of engagement is a key qualifier of the exchange between the demand (i.e. citizens/patients) and the supply process of healthcare services. To understand and detect the strategic levers that sustain a good quality of patients' engagement may thus allow not only to improve clinical outcomes, but also to increase patients' satisfaction and to reduce the organizational costs of the delivery of services. By assuming a relational marketing perspective, the book offers practical insights about the developmental process of patients' engagement, by suggesting concrete tools for assessing the levels of patients' engagement and strategies to sustain it. Crucial resources to implement these strategies are also the new technologies that should be (1) implemented according to precise guidelines and (2) designed according to a user-centered design process. Furthermore, the book describes possible fields of patients' engagement application by

describing the best practices and experiences matured in different fields

Venice and the Veneto during the Renaissance: the Legacy of Benjamin Kohl - Knapton, Michael 2014

Benjamin G. Kohl (1938-2010) taught at Vassar College from 1966 till his retirement as Andrew W. Mellon Professor of the Humanities in 2001. His doctoral research at The Johns Hopkins University was directed by Frederic C. Lane, and his principal historical interests focused on northern Italy during the Renaissance, especially on Padua and Venice. His scholarly production includes the volumes *Padua under the Carrara, 1318-1405* (1998), and *Culture and Politics in Early Renaissance Padua* (2001), and the online database *The Rulers of Venice, 1332-1524* (2009). The database is eloquent testimony of his priority attention to historical sources and to their accessibility, and also of his enthusiasm for collaboration and sharing among scholars.

La responsabilità sociale delle imprese: un percorso verso lo sviluppo sostenibile - Federica Balluchi 2017-10-17

La sostenibilità e la Responsabilità Sociale d'Impresa (RSI) rappresentano un tema di profondo interesse da parte delle imprese e degli operatori economici, politici e sociali. Per le realtà aziendali, è ormai di tutta evidenza che un successo economico duraturo non può prescindere dall'ottenimento e dal mantenimento del consenso dei propri stakeholder. È necessario quindi temperare i molteplici interessi dei soggetti coinvolti e interessati all'attività svolta, in una prospettiva che abbraccia le istanze di natura reddituale e quelle di natura etico-sociale e ambientale. Nella definizione delle strategie aziendali è

fondamentale valutare le attese di diversa natura e i differenti livelli di partecipazione e coinvolgimento che qualificano il rapporto fra azienda e stakeholder, radicando profondamente l'assunzione di responsabilità sociale nella governance aziendale. Nondimeno, gli aspetti di comunicazione della RSI rivestono un ruolo fondamentale sia per quanto attiene all'adempimento dei doveri assunti dall'azienda nei confronti dei propri stakeholder, sia con riferimento alla legittimazione che da una trasparente e attendibile comunicazione può derivare. Alla luce di quanto osservato, il volume si propone di offrire una lettura dei principali elementi di analisi in ambito di responsabilità sociale, con particolare riferimento agli aspetti di governance e di comunicazione. Sono quindi trattati i concetti fondamentali in tema di sostenibilità, responsabilità sociale d'impresa ed etica d'impresa considerandoli in una prospettiva strategica di governance aziendale. Successivamente il lavoro si concentra sulla

comunicazione aziendale, con particolare riferimento agli strumenti di accountability diretta e di gestione della RSI. Il libro è il frutto della riflessione e dell'esperienza maturata da un gruppo di docenti e ricercatori che da tempo si occupano di sostenibilità, etica e responsabilità sociale di impresa; ogni contributo nasce dall'elaborazione personale dei diversi Autori, sia pure collocandosi in un comune e condiviso quadro di riferimento. Federica Balluchi, Professore Associato di Economia Aziendale presso il Dipartimento di Scienze Economiche e Aziendali (Università di Parma), è membro di diverse associazioni accademiche, nazionali e internazionali, ed è reviewer per riviste italiane e internazionali. I suoi studi sono concentrati sulla comunicazione economico-finanziaria e sulla voluntary disclosure, sul management accounting, sulla responsabilità sociale delle imprese e sulla storia della ragioneria. I risultati delle sue ricerche sono stati oggetto di presentazione a convegni

nazionali e internazionali e pubblicati su monografie e riviste nazionali e internazionali. Katia Furlotti, Professore Associato di Economia Aziendale presso il Dipartimento di Scienze Economiche e Aziendali (Università di Parma), è membro di diverse associazioni accademiche nazionali e internazionali e reviewer di riviste internazionali. I suoi studi sono concentrati sulla responsabilità sociale delle imprese e sulla business ethics, sulla accountability, sulla corporate governance e sulla storia della ragioneria. How to Do Things with Words - John Langshaw Austin 1975

This work sets out Austin's conclusions in the field to which he directed his main efforts for at least the last ten years of his life. Starting from an exhaustive examination of his already well-known distinction between performative utterances and statements, Austin here finally abandons that distinction, replacing it with a more general theory of 'illocutionary forces' of utterances which has important bearings on a wide variety of philosophical problems.

Zeno's Conscience - Italo Svevo 2003-02-04

Long hailed as a seminal work of modernism in the tradition of Joyce and Kafka, and now available in a supple new English translation, Italo Svevo's charming and splendidly idiosyncratic novel conducts readers deep into one hilariously hyperactive and endlessly self-deluding mind. The mind in question belongs to Zeno Cosini, a neurotic Italian businessman who is writing his confessions at the behest of his psychiatrist. Here are Zeno's interminable attempts to quit smoking, his courtship of the beautiful yet unresponsive Ada, his unexpected-and unexpectedly happy-marriage to Ada's homely sister Augusta, and his affair with a shrill-voiced aspiring singer. Relating these misadventures with wry wit and a perspicacity at once unblinking and compassionate, *Zeno's Conscience* is a miracle of psychological realism.

Building Smart Nonprofits - David J. O'Brien
2020-08-15

Best practices for nonprofits for long-term success in a rapidly changing world. Building Smart Nonprofits: A Roadmap for Mission Success is a handbook of best practices nonprofits can use to improve sustainability - a book of knowledge and know-how distilled from interviews with over 60 industry leaders who are in the nonprofit trenches every day—as executives, leaders, board members, funders, publishers, and service providers. David J. O'Brien and Matthew D. Craig provide real-life examples of nonprofits deploying best practices and emerging industry trends - such as the rise of socially conscious investing - to position their organizations for the long term. Topics include, among others, funding models, impact investing, compensation, strategic restructuring, leadership, full-cost grantmaking, program evaluation, storytelling, and financing. Readers learn how to best position their non-profit organization for a sustainable and long-term future.

Corporate Turnaround - Stuart Slatter
1999-03-25

When firms are on the brink of failure, only turnaround management can restore performance and profitability. The key is to provide stability and create cash (and a breathing space) for building long-term success. This fully revised edition provides practical advice on restoring confidence through effective leadership and planning. It highlights the importance of communication with stakeholders, staff, customers and suppliers, and how best to structure the capital base of an organization in order to fund recovery and future growth. Essential reading for chief executives, consultants and merchant bankers (as well as investors tracking the progress of ailing businesses), this book offers a definitive set of tools and techniques.

Home Blood Pressure Monitoring - George S. Stergiou 2019-10-31

Hypertension remains a leading cause of disability and death worldwide. Self-monitoring of blood pressure by patients at home is currently recommended as a valuable tool for the diagnosis and management of hypertension. Unfortunately, in clinical practice, home blood pressure monitoring is often inadequately implemented, mostly due to the use of inaccurate devices and inappropriate methodologies. Thus, the potential of the method to improve the management of hypertension and cardiovascular disease prevention has not yet been exhausted. This volume presents the available evidence on home blood pressure monitoring, discusses its strengths and limitations, and presents strategies for its optimal implementation in clinical practice.

Written by distinguished international experts, it offers a complete source of information and guide for practitioners and researchers dealing with the management of hypertension.
