Communication and Nursing Education - Anurag Bhai Patidar

Based on the latest syllabus of the Indian Nursing Council, Communication and Nursing Education is written primarily for students pursuing B.Sc. in nursing. It covers a wide range of topics such as curriculum development, classroom management, teaching-learning process and evaluation methods for didactic and clinical settings. While there is an entire chapter devoted to the in-service education, issues like interpersonal relationships, human relationships and communication are also comprehensively discussed. The text is supplemented with the most up-to-date teaching and learning techniques and includes a large number of examples and flow charts to facilitate an easy understanding of the key concepts.

*India's Public Health Care Delivery - Sanjeev Kelkar 2021-03-05*

This book describes the present awful state of India's Public Health Care Delivery, its dismal

planning and implementation. It argues that it can be remedied comprehensively and effectively, using its 'own already present' resources. A radical re-evaluation of some sacrosanct ideas and discarding many of these, especially in Primary Care and its structure is required. It can be done without disadvantage to the last man served. This book starts with the sea change India has undergone and emphasizes new ways of managing health. High quality work force creation and its deployment, an unsolved problem is effectively given a solution. The bulk of the book discusses the entire public health care structure and function and how it can be newly laid out with proper work force allocation, hitherto grossly inadequate, including professionals from other training backgrounds. It is total solution that will help India to achieve the goal of Universal Health Care.

*The International Migration of Health Workers* - John Connell 2008-02-11

This volume provides the first detailed overview of the growing phenomenon of the international migration of skilled health workers. The contributors focus on who migrates, why they migrate, what the outcomes are for them and their extended families, what their experiences in the workforce are, and ultimately, the extent to which this expanding migration flow has a relationship to development issues. It therefore provides new, interdisciplinary reflections on such core issues as brain drain, gender roles, remittances and sustainable development at a time when there has never been greater interest in the migration of health workers.

**Population, Migration and Settlement in Australia and the Asia-Pacific** - Natascha Klocker 2018-12-07

The chapters in this book reflect on the work of seminal Australian geographer, the late Professor Graeme Hugo. Graeme Hugo was widely respected because of his impressive contributions to scholarship and policy in the fields of migration, population and development, which spanned several decades. This collection of works contains contributions from authors whose own research has been influenced by Hugo; and includes numerous authors who worked closely with Hugo throughout his career. The collection provides an opportunity to reflect on Hugo's legacy, and also to foreground contemporary scholarship in his key areas of research focus. The chapters are organised into two thematic threads. Part I contains works relating to 'Population, Migration and Settlement in Australia', while Part II focuses on 'Labour and Environmental Migration in the Asia-Pacific'. Together, these two thematic threads provide broad coverage of Graeme Hugo's key areas of research focus. The chapters also serve as a reminder of Hugo's

steadfast concern with producing careful scholarship for the public good, and seek to prompt continued work in this vein. The chapters originally published in special issues in Australian Geographer.
