The Suck Less Job Search - Adam J. Reiter 2016-04-25
Regular job searches SUCK! They don't have to if you know what to do. Put yourself in the driver's seat of your job search and get amazing job offers from companies you're dying to work with. After years of coaching students to C-Suite executives at Fortune 500's I developed a custom-tailored job search strategy designed to keep the job seeker engaged in their search and drive the offers they really want, really quickly. About this project: I've spent my career helping senior executives, talented professionals and new graduates find their dream jobs. Their job searches were slow, stalled or even DOA before we met; after just a few

weeks of working together, they landed jobs they wanted. And they loved the work we did together. I bottled up the best step-by-step advice from these one-on-one sessions into 120 action-packed pages, just for you. Take it and run. Who should read this book? If you want a new job right now, you need to read this book. If you want to be known in your industry, you need to read this book. If you want your dream employer to create a job for you, you need to read this book. What you'll learn: How to take back your search and get employers to chase YOU How to take HR/Corporate Recruiters out of the process and get offers directly from hiring managers How to create an undeniable value in the market that will generate offers for you and you alone For Job Seekers: You need a new job right now. I'll show you how to: Use proven strategies to beat out more qualified competition Reignite a dead search Move into a new field Win every interview using a simple, two-step process For

Rock Stars: You like where you are, but you have one eye on the next big thing and you want to build your profile. I'll show you how to: Make companies fight over you when they hear your story Stand out to recruiters and executives running "secret searches" Make your current employer beg to give you promotions for fear of losing you to the competition For Students: You're graduating, your loan payments are due and you don't know where to start. I'll show you how to: Beat out your competition, including more seasoned job seekers Get the \$\$\$'s you really deserve instead of taking a salary you can barely live off of Set yourself up for the best promotions and job offers for your entire career Why this book? Most job search advice is terrible. Job searches are miserable. And I could spend every hour of every day of my life advising job seekers and I wouldn't scratch the surface of the need in this area. I want to reach as many people as possible with this message. I

want to help job seekers take back control of their search. Everyday people come to me that need my help to find great jobs but they simply can't afford my services. Even with the 10 hours a week that I set aside for pro bono work it doesn't scratch the surface of the demand for real help for job seekers that have been struggling for months and sometimes, years.

Proven Strategies for**

Effective Leadership and Results - Kris Safarova

Do you aspire for more than what society had intended for you? Do you want to be a better leader? Do you need a role model? We often read books about the principles of leadership, about leaders who don't look like us or have not been through our life experiences. Most leadership books are written after the fact, when the subject has retired or has reached the pinnacle of their career. What if we could read a book about leadership in action to see the tools, techniques, mindsets and strategies leaders are using on their journey to the summit of their careers? *Nine Leaders in Action* does just that. We profile a range of leaders from around the world, who have already achieved great success, yet remain on the path to even greater heights. To share insider secrets on finding - and landing - the job, Augustine created *How Hard Are You Knocking: Landing a Job in a Rebounding Economy* which is the third edition of this acclaimed series. "For the last five years, we have been researching the job market, growth areas, and the industries that have been significantly impacted by the economic downturn. We have studied growth markets and industries projected to expand in the next ten years. We have conducted extensive research with hiring executives in order to understand their hiring criteria, candidate expectations, and growth plans

for the future. We have led focus groups consisting of college students, entry-level candidates, and experienced job seekers and have conducted seminars and workshops for job seekers around the country.
