The Pianist of Yarmouk - Aeham Ahmad
2019-10-15

One morning on the outskirts of Damascus, two starving friends are walking through their desolate city and come across a familiar street that has been turned to rubble, concrete bridges towering above them like tombs and houses turned inside out. Aeham turns to the only comfort he has left and pushes his piano into the street to play a song of hope to his fellow Syrians. It is a song that will reach far beyond the streets of his home and carry consequences he could never have dreamed of. This tender and poetic account of Aeham's experiences, from losing his city, friends and family to leaving his country and finding safety, will move readers with its raw and candid emotion. This is a gripping portrait of a man's search for solace and of a country that has been fiercely torn apart.

In the Wet - Nevil Shute 2010-12-07

It is the wet season in the Australian outback. Drunk and delirious, an old ex-pilot known as “Pisspot Stevie” lies dying in a remote cabin in the Queensland bush. When a priest named Roger Hargreaves comes upon him, Stevie is smoking opium to relieve the pain of his last moments. The priest listens as Stevie, in an opium-fueled haze, begins to describe a very different life he once lived—not in the past, but decades in the future, as a mixed-race aviator who finds love and glory in service to the Queen. After Stevie’s death, as Hargreaves tries to sort dream from reality, he makes discoveries that cause him to wonder if he has been granted a glimpse beyond the veil.

The Adventure - Giorgio Agamben 2018-03-09

Agamben charts a journey that ranges from poems of chivalry to philosophy, from Yvain to

Hegel, from Beatrice to Heidegger. An ancient legend identifies Demon, Chance, Love, and Necessity as the four gods who preside over the birth of every human being. We must all pay tribute to these deities and should not try to elude or dupe them. To accept them, Giorgio Agamben suggests, is to live one's life as an adventure—not in the trivial sense of the term, with lightness and disenchantment, but with the understanding that adventure, as a specific way of being, is the most profound experience in our human existence. In this pithy, poetic, and compelling book, Agamben maps a journey from poems of chivalry to philosophy, from Yvain to Hegel, from Beatrice to Heidegger. The four gods of legend are joined at the end by a goddess, the most elusive and mysterious of all: Elpis, Hope. In Greek mythology, Hope remains in Pandora's box, not because it postpones its fulfillment to an invisible beyond but because somehow it has always been already satisfied. Here, Agamben presents Hope as the ultimate

gift of the human adventure on Earth.

Going Out on a Limb - Bernadette Logue 2013

"Going Out On A Limb" is the much anticipated sequel to the Amazon best seller and Book Award Finalist "Pinch Me - How Following The Signals Changed My Life." This inspiring sequel is receiving 5 STAR reviews as readers take a real-life, no-holds-barred journey with the author as she continues to create her dreams, walking through challenges to get there and all the while being guided by signals from the Universe. Are you ready to follow the signals in your own life? Are you ready to meet the truth of who you really are? **READER REVIEWS:** "I feel like your book is a letter to my soul! What a gift awaits

your readers!" (Caroline, USA). "Wonderful... I am recommending your book to all my like-minded friends. What is special about your book is the honesty - usually people just present all the positive aspects, so much so, that is not of much help for someone like me. Your book on the other hand is practical as I see you facing problems, yet not giving up, and eventually not just picking yourself up, but helping others like me immeasurably." (Niranjan, United States) A GLIMPSE INTO THE STORY: Following signals from the universe completely transformed Bernadette Logue's life; she had achieved all of the things she set out to. A beautiful lifestyle in a dream location, doing something she truly loved. But there was something bubbling below the surface, calling her in a different direction. Signals were intervening in the neatly arranged life she had created. Her attempts to forge ahead and make things happen now fell flat and caused chaos, leaving her feeling confused and eager to understand what was going on. "I learnt

the hard way. Trying to control the exact path you take is like trying to herd cats. Magic happens when we let go and flow with our life. And, the blocks in our life that keep us stuck are the access points to all our gifts within. The emotional stuff we'd rather not address is the very first place to look." In "Going Out On A Limb," Bernadette discovers the hidden power in great challenges. Not just that we all get signals, but why we get them. She provides intriguing insights into soul self and soul intention. This is no ordinary book about transforming your life. Many books leave you wondering what you're supposed to do when things don't go according to plan. In "Going Out On A Limb," Bernadette lets plans go and lets life in. She shares the whole truth, her deepest fears, and the hilarious things that happened along the way. She also shares her darkest hour, and how she nearly turned her back on it all. But this is a triumphant story. A story about discovering your soul self. A story about how to go beyond your limits and

become the person you are destined to be. "The great news is that dark times are really just light switches in disguise! When the light returns, it is brighter and more magnificent than you could imagine." This is the second installment of an ordinary woman's courageous journey, following on from her first book, "Pinch Me." [PLEASE NOTE: UNLESS OTHERWISE STATED, PRICES ARE QUOTED IN US DOLLARS]

Censored 2020 - Andy Lee Roth 2019-10-08
In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," Censored 2020 looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting

that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

Bono on Bono: Conversations with Michka Assayas - Michka Assayas 2011-12-22

Bono is one of the most influential musicians at work today. Over the past twenty-five years his band, U2, have sold a staggering 130 million albums and collected 14 Grammys. Their success has made Bono one of the most recognisable faces in the world. Here, in a series of conversations with his friend, the music journalist, Michka Assayas, Bono reflects on his transformation from extrovert singer of a small, Irish, post-punk band into an international rock star. Along the way he speaks candidly about his childhood, about his mother's death, about his Christian faith and about his difficult relationship with his father, who died recently. Bono also speaks passionately about how he has used his fame as a platform to campaign fervently on a range of global issues, and why these issues - which include the IRA ceasefire, Third World debt and, most recently, the growing AIDS crisis in Africa - are so important to each of us. Intimate, humorous, and fiercely opinionated, *BONO ON BONO* is Bono's story in

his own words. It will fascinate and challenge fans of U2 and general readers alike.

The Crime and the Silence - Anna Bikont
2015-09-15

Winner of the National Jewish Book Award in the Holocaust category A monumental work of nonfiction on a wartime atrocity, its sixty-year denial, and the impact of its truth Jan Gross's

hugely controversial *Neighbors* was a historian's disclosure of the events in the small Polish town of Jedwabne on July 10, 1941, when the citizens rounded up the Jewish population and burned them alive in a barn. The massacre was a shocking secret that had been suppressed for more than sixty years, and it provoked the most important public debate in Poland since 1989. From the outset, Anna Bikont reported on the town, combing through archives and interviewing residents who survived the war period. Her writing became a crucial part of the debate and she herself an actor in a national drama. Part history, part memoir, *The Crime and the Silence* is the journalist's account of these events: both the story of the massacre told through oral histories of survivors and witnesses, and a portrait of a Polish town coming to terms with its dark past. Including the perspectives of both heroes and perpetrators, Bikont chronicles the sources of the hatred that exploded against Jews and asks what myths

grow on hidden memories, what destruction they cause, and what happens to a society that refuses to accept a horrific truth. A profoundly moving exploration of being Jewish in modern Poland that Julian Barnes called "one of the most chilling books," *The Crime and the Silence* is a vital contribution to Holocaust history and a fascinating story of a town coming to terms with its dark past.

Mr Blue: Memoirs of a Renegade - Edward Bunker 2012-07-27

Edward Bunker's life is beyond the imaginings of most fiction writers. He was born in Hollywood, California, the son of a stagehand and Busby Berkeley chorus girl, whose early divorce propelled him into a series of boarding homes and military schools. From the age of five he repeatedly ran away, roaming the city streets at night. A proud character, combined with an IQ of 152, resulted in a series of altercations with the authorities. He became the youngest ever inmate of San Quentin at the age of seventeen, and there he learned survival skills and faced down the toughest prisoners in the system. He was befriended by Mrs Louise Wallis, a former star of the silent screen and wife of movie mogul, Hal Wallis, who produced films starring

Bogart, Cagney, Edward G. Robinson and George Raft. She introduced Bunker to her circle of friends, including Jack Dempsey, Tennessee Williams, Aldous Huxley and William Randolph Hearst, whose guest he was at San Simeon. A parole violation resulted in a spell crossing America as a fugitive on the FBI's most wanted list. His eventual capture led to Folsom prison. Encouraged by the example of Dostoevsky, Cervantes and Caryl Chessman, and by the kindness of Mrs Wallis, he determined to write his way out of prison. Bunker's first published novel, *No Beast So Fierce*, viewed by many including Quentin Tarantino as the finest crime novel ever written, changed his fortunes. It was filmed as *Straight Time*, starring Dustin Hoffman. He has written three other novels, *The Animal Factory*, *Little Boy Blue* and *Dog Eat Dog*, (all published by No Exit) admired by writers as diverse as William Styron and James Ellroy. He received an Oscar nomination for the screenplay of *Runaway Train*, and has appeared

in a score of films, most notably his legendary role as Mr Blue in *Reservoir Dogs*. This blistering narrative is a memoir like no other.

A History of Siena - Mario Ascheri 2019-08-08
A History of Siena provides a concise and up-to-date biography of the city, from its ancient and medieval development up to the present day, and makes Siena's history, culture, and traditions accessible to anyone studying or visiting the city. Well informed by archival research and recent scholarship on medieval Siena and the Italian city-states, this book places Siena's development in its larger context, both temporally and geographically. In the process, this book offers new interpretations of Siena's artistic, political, and economic development, highlighting in particular the role of pilgrimage, banking, and class conflict. The second half of the book provides an important analysis of the historical development of Siena's nobility, its

unique system of neighborhood associations (contrade) and the race of the Palio, as well as an overview of the rise and fall of Siena's troubled bank, the Monte dei Paschi. This book is accessible to undergraduates and tourists, while also offering plenty of new insights for graduate students and scholars of all periods of Sienese history.

The World in the Twentieth Century - Jeremy Black 2016-02-12

From this major author comes a totally unique history of the twentieth century. Eschewing the traditional model for histories of this kind - blow-by-blow political narratives typically overloaded with detail - Jeremy Black offers us instead a brilliant thematic account of the last 100 years with the environment and the continuing strength of religious belief at its centre. Looking back to the 1910s and 1920s, Black begins with "the greatest issue of all" - the natural environment and its destruction, and moves to show how our world been transformed

by urbanisation and development. Amazing developments took place across the century: men walked on the moon, the internet revolutionised communications; advances in health and medicine; developments in manufacturing and technology; economic globalization - all have changed the way different parts of the world related to each other. How have these revolutionary changes impacted on religion and politics? In the final sections of the book, Black looks at the persistence and growing extremism in religious belief, how change creates instability and wars, and how power blocs emerged and collapsed in response to all these developments. This is twentieth century world history on a truly global scale. The Twentieth Century World forces us to rethink the way we view the past, and offers us a new way to understand the present. *Cross and Kremlin* - Thomas Bremer 2013-10-17 Russian political history and Russian church history are tied together very tightly. One cannot

properly understand the overall history of Russia without considering the role of the Orthodox Church in Russia. Cross and Kremlin uniquely surveys both the history and the contemporary situation of the Russian Orthodox Church. The first chapter gives a concise chronology from the tenth century through the present day. The following chapters highlight several important issues and aspects of Russian Orthodoxy -- church-state relations, theology, ecclesiastical structure, monasticism, spirituality, the relation of Russian Orthodoxy to the West, dissidence as a frequent phenomenon in Russian church history, and more.

The Book of L - G. Rozenberg 2012-12-06

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus-

tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as

contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Stieg Larsson My Friend - Kurdo Baksi

2010-10-05

Stieg Larsson is best known—all over the world now—as the author of the Millennium trilogy, but during his career as a journalist he was a critical protagonist in the battle against racism and for democracy in Sweden and Europe, and one of the founders of the anti-fascist magazine Expo. Kurdo Baksi first met Larsson in 1992; it was the beginning of an intense friendship, and a fruitful but challenging work relationship. Now, six years after Larsson's death, Baksi has written about his close friend. This is a candid and rounded memoir in which Baksi answers the questions a multitude of Larsson's readers and admirers have already asked: about his upbringing; the recurring death threats from

neo-Nazi groups; his insomnia; his prodigious capacity for work on causes about which he was passionate; his feminism—so evident in his novels—and his dogmatism. But Baksi also reveals concern about Stieg's well-being, and his uncompromising side, which sometimes got him into trouble. What was he like as a colleague?

Who provided the inspiration for his now-immortal characters (Baksi is one of the few who appears as himself)? Who was Lisbeth Salander? Stieg Larsson, My Friend is an eloquent and troubling insight into the life of a man who has rapidly become one of the world's bestselling authors.

Medical Anthropology - Andrea S. Wiley 2009
Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level

familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.
