Gold Warriors - Sterling Seagrave 2003

In 1945, US Intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines. President Truman decided to recover the gold but to keep its riches secret. These would be combined with treasure recovered inside Japan during the US occupation, and with Nazi loot recovered in Europe, to create a worldwide American political action fund to fight communism. Overseen by General MacArthur, President Truman, and John Foster Dulles, this "Black Gold" gave Washington virtually limitless, unaccountable funds, providing an asset base to reinforce the treasuries of America's allies, to bribe political and military leaders, and to manipulate elections in foreign countries for more than fifty years. Drawing on a vast range of original documents and thousands of hours of interviews, *Gold Warriors* exposes one of the great state secrets of the twentieth century.

Lost in Tibet - Richard Starks 2012-09-04

Caught in a violent storm and blown far off their intended course, five American airmen--flying the dangerous Himalayan supply route known as "The Hump"--were forced to bail out just seconds before their plane ran out of fuel. To their astonishment, they found they had landed in the heart of Tibet. There they had to confront what, to them, seemed a bizarre--even alien--people. At the same time, they had to extricate themselves from the political turmoil that even then was raging around Tibet's right to be independent from China. Now back in print, *Lost in Tibet* is an extraordinary story of high adventure that sheds light on the remarkable Tibetan people, just at the moment when they were coming to terms with a hostile outside world.

Deep state - Marco Pizzuti 2022-06-23T00:00:00+02:00

A livello ufficiale ne viene negata l'esistenza, ma è possibile scorgerne le tracce dietro lo scoppio di grandi conflitti, omicidi politici rimasti irrisolti e ogni avvenimento contemporaneo di maggiore rilevanza: è il Deep

State, lo "Stato profondo", un'entità ibrida tra pubblico e privato che guida il processo di globalizzazione e che affonda le sue radici in un lontano passato. Nato dagli indissolubili intrecci tra gli uomini delle istituzioni, della finanza e dell'industria, questo "Stato nello Stato" è riuscito a ridisegnare la società "a misura di banchiere". Le multinazionali, le agenzie di rating, i mercati finanziari, le banche centrali e le banche d'affari ne costituiscono il regno. L'invisibilità alle masse gli permette di regnare incontrastato nell'ombra, mentre i capi di governo si avvicendano uno dopo l'altro sul palcoscenico pubblico. Ma come riesce ad avere tanto potere pur rimanendo occulto? Nel nostro sistema sociale l'establishment esercita il potere sulla popolazione con tecniche di controllo e persuasione così raffinate che l'individuo viene indotto a credere di avere possibilità di scelta e di essere libero, mentre l'opinione pubblica è costantemente manipolata da una falsa rappresentazione della realtà. Le multinazionali non hanno conquistato solo il mondo dell'industria e della finanza, ma anche quello dell'informazione e dell'intrattenimento, fondamentale per ottenere il consenso, plasmare le idee, la cultura e orientare le masse meglio della politica. Nel mondo dell'informazione, che in apparenza svolge la funzione di specchio della democrazia e del pluralismo, le notizie e i dibattiti sono caratterizzati dal non mettere in discussione le basi del funzionamento del sistema e distogliere l'opinione pubblica dalle vere cause dei problemi.

It's a journey that takes the Fargos to Tibet, Nepal, Bulgaria, India, and China. Oh, and not a few unfriendly people with guns and itchy trigger fingers . . .

**Looting Africa** - Patrick Bond 2013-04-04

Despite the rhetoric, the people of Sub-Saharan Africa are becoming poorer. From Tony Blair's Africa Commission and the Make Poverty History campaign to the Hong Kong WTO meeting, Africa's gains have been mainly limited to public relations. The central problems remain exploitative debt and financial relationships with the North, phantom aid, unfair trade, distorted investment and the continent's brain/skills drain. Moreover, capitalism in most African countries has witnessed the emergence of excessively powerful ruling elites with incomes derived from financial-parasitical accumulation. Without

overstressing the 'mistakes' of such elites, this book contextualises Africa's wealth outflow within a stagnant but volatile world economy.

**ZeroZeroZero** - Roberto Saviano 2015-07-14

"Zero zero zero" flour is the finest, whitest available. "Zero zero zero" is also the nickname among narco-traffickers for the purest, highest quality cocaine on the market. And it is the title of Roberto Saviano's unforgettable exploration of how the cocaine trade knits the world into its dark economy and imposes its own vicious rules and moral codes on its armies and, through them, on us all. Saviano's Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide publishing sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four hour police protection in the shadow of death threats for more than seven years. During this time he has become intimate with law enforcement agencies around the world. Saviano has broadened his perspective to take in the entire global "corporate" entity that is the drug trade in cooperation with law enforcement officials, who have fed him information and sources and used him to guide their own thinking and tactics. Saviano has used this extraordinary access to feed his own groundbreaking reportage. The result is a truly amazing and harrowing synthesis of intimate literary narrative and geopolitical analysis of one of the most powerful dark forces in the global economy. In *Zero Zero Zero*, Saviano tracks the shift in the cocaine trade's axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances, first with the Italian crime syndicates, then with the Russians, Africans, and others. On the one hand, he charts an astonishing increase in sophistication and diversification as these criminal entities diversify into many other products and markets. On the other, he reveals the threat of violence to protect and extend power and how the nature of the violence has grown steadily more appalling. Saviano is a journalist of rare courage and a thinker of impressive intellectual depth and moral imagination, able to see the connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. As heart racing as it is heady, *Zero Zero Zero* is a fusion of a variety of disparate genres into a brilliant new form that can only be called Savianoesque.

*The Rise of the BRICS in Africa* - Doctor Pádraig Carmody 2013-09-12

A little over a decade ago Africa was being spoken of in the media as the 'lost' or 'hopeless' continent. Now it has some of the fastest growing economies in the world, largely because of the impact of the BRICS: Brazil, Russia, India, China and South Africa. In this first book to be written about the BRICS as a collective phenomenon, Pádraig Carmody reveals how their engagements with Africa, both individually and collectively, are often contradictory, generating new inequalities and potential for development. Crucially, Carmody shows how the geopolitics of the BRICS countries' involvement in Africa is impacted by and impacts upon their international relations more generally, and how the emergence of these economies has begun to alter the very nature of globalization, which is no longer purely a Western-led project. This is a path-breaking examination of Africa's changing role in the world.

**Asian Foreign Direct Investment in Africa** - United Nations Development Programme 2007

Foreign direct investment (FDI) in Africa by developing Asian economies is growing and has the potential to reach much higher levels. The present report notes that Africa-bound FDI is still a small percentage of the rapidly climbing foreign investments being made by Asian transnational corporations. The rapid economic growth in Asia can be expected to lead to increased Asian investments in Africa, in both natural resources and manufacturing. In particular, the rapid industrial upgrading taking place in Asia provides ample opportunities for Africa to attract efficiency-seeking and export-oriented FDI from Asian economies.

*Da Clausewitz a Putin: la guerra nel XXI secolo* - Matteo Bressan 2022-03-15

Dalle Torri Gemelle alle insurrezioni in Irak e in Afganistan, dalle proxy wars nel Levante e nel Golfo

Persico al ruolo della Wagner in Nord Africa e nel Sahel, dalle sfide nello spazio cibernetico alla nuova corsa per la conquista dello spazio e, infine, dal programma navale della Repubblica Popolare Cinese ai T-72 russi schierati alla frontiera dell'Ucraina. Il filo conduttore che unisce questo mosaico, pur nella diversità delle forme e delle rappresentazioni, è sempre lo stesso: imporre con la forza la propria volontà all'avversario. È la logica della violenza organizzata, della guerra che si è ripresentata alle porte di casa nostra. Mai come in questo momento il mondo è apparso così insicuro. È quindi necessario conoscere, per comprendere e per difendersi. Questo libro, attraverso il contributo di alcuni tra i più qualificati studiosi italiani della materia, ha l'ambizione di spiegare l'evoluzione della guerra moderna dalla teoria alla pratica, dalle idee di Clausewitz e di Sun Tzu ai cingoli di Putin e alle navi di Xi Jinping.

**Ocean Sea** - Alessandro Baricco 2000-06-27

"Exotic...erotic... Ocean Sea is highly romantic and breathtakingly lyrical."--The New York Times Book Review With *Silk*, his first novel to appear in English, Alessandro Baricco immediately proved himself to be a magical storyteller. With *Ocean Sea*, he has been acclaimed as the successor to Italo Calvino, and a major voice in modern literature. In *Ocean Sea*, Alessandro Baricco presents a hypnotizing postmodern fable of human malady--psychological, existential, erotic--and the sea as a means of deliverance. At the Almayer Inn, a remote shoreline hotel, an artist dips his brush in a cup of ocean water to paint a portrait of the sea. A scientist pens love letters to a woman he has yet to meet. An adulteress searches for relief from her proclivity to fall in love. And a sixteen-year-old girl seeks a cure from a mysterious condition which science has failed to remedy. When these people meet, their fates begin to interact as if by design. Enter a mighty tempest and a ghostly mariner with a thirst for vengeance, and the Inn becomes a place where destiny and desire battle for the upper hand. Playful, provocative, and ultimately profound, *Ocean Sea* is a novel of striking originality and wisdom.
