Dragonfly in Amber - Diana Gabaldon
2010-12-17

From the author of *Outlander*... a magnificent epic that once again sweeps us back in time to the drama and passion of 18th-century Scotland... For twenty years Claire Randall has kept her secrets. But now she is returning with her grown daughter to Scotland's majestic mist-shrouded hills. Here Claire plans to reveal a truth as stunning as the events that gave it birth: about the mystery of an ancient circle of standing stones ...about a love that transcends the boundaries of time ...and about James Fraser, a Scottish warrior whose gallantry once drew a young Claire from the security of her century to the dangers of his Now a legacy of blood and desire will test her beautiful copper-haired daughter, Brianna, as Claire's spellbinding journey of self-discovery continues in the intrigue-ridden Paris court of Charles Stuart ...in a race to thwart a doomed Highlands uprising ...and in a desperate fight to save both the child and the man she loves....

When Dinosaurs Die - Laurene Krasny Brown
1998-04-01

Explains in simple language the feelings people may have regarding the death of a loved one and the ways to honor the memory of someone who has died.

[A Place Called Heaven for Kids](#) - Dr. Robert Jeffress 2019-09-03

Children ask a lot of questions. When a death occurs in their family or circle of friends, those questions inevitably turn toward heaven. Is

heaven real? Where is it? What will we do there? How do we get there? And more. Parents and grandparents often find themselves at a loss to explain a place that they suddenly may realize they don't know much about either. Colorfully illustrated and using simple concepts and language that children ages 4-7 can understand, *A Place Called Heaven for Kids* provides answers to 10 of these common questions. In doing so, it gives children peace of mind about their lost loved one as well as a comforting, biblical picture of their forever home. For parents, grandparents, and caregivers, it offers a positive, constructive way to grieve, hope, and grow with the children in their lives.

Outlander - Diana Gabaldon 2010-12-22
Claire Randall is leading a double life. She has a husband in one century, and a lover in another... In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon—when she innocently touches a boulder in one of the ancient stone circles that dot the British Isles. Suddenly she is a Sassenach—an "outlander"—in a Scotland torn by war and raiding border clans in the year of our Lord...1743. Hurlled back in time by forces she cannot understand, Claire's destiny is soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten

her life ...and shatter her heart. For here, James Fraser, a gallant young Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire...and between two vastly different men in two irreconcilable lives.

The American Way of Death Revisited -

Jessica Mitford 2011-11-23

Only the scathing wit and searching intelligence of Jessica Mitford could turn an exposé of the American funeral industry into a book that is at once deadly serious and side-splittingly funny. When first published in 1963, this landmark of investigative journalism became a runaway bestseller and resulted in legislation to protect grieving families from the unscrupulous sales practices of those in "the dismal trade." Just before her death in 1996, Mitford thoroughly revised and updated her classic study. *The American Way of Death Revisited* confronts new trends, including the success of the profession's lobbyists in Washington, inflated cremation costs, the telemarketing of pay-in-advance graves, and the effects of monopolies in a death-care industry now dominated by multinational corporations. With its hard-nosed consumer activism and a satiric vision out of Evelyn Waugh's novel *The Loved One*, *The American Way of Death Revisited* will not fail to inform, delight, and disturb. "Brilliant--hilarious. . . . A must-read for anyone planning to throw a funeral in their lifetime."--New York Post "Witty and penetrating--it speaks the truth."--The Washington Post

The Most Dangerous Game - Richard Connell
2020-04-21

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale "has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill" (The Telegraph). "[A] tense,

relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted." —Criterion

Water Bugs and Dragonflies: Explaining Death to Young Children - Doris Stickney 2021-11

Talking to children about death can be hard. *Water Bugs and Dragonflies*, a perennial bestseller, can help you to answer their questions. In *Water Bugs and Dragonflies*, Doris Stickney tells the story of a small colony of water bugs living below the surface of a pond. Whenever a bug leaves the pond, those left behind are faced with the mystery of their absence. Stickney invites children into the question of their absence. Artist Meredith Gould brings whimsy and watercolor to this 50th anniversary edition, which celebrates the ongoing impact of Doris Stickney's original article in *Colloquy* on talking with children about death.

The Invisible String - Patrice Karst 2017-01-04

A steady best-seller and *The Invisible String* is reaching all over the World! OVER 400,000 copies sold! "That's impossible", said twins Jeremy & Liza after their Mom told them they're all connected by this thing called an Invisible String. "What kind of string"? They asked with a puzzled look to which Mom replied, "An Invisible String made of love." That's where the story begins. A story that teaches of the tie that really binds. *The Invisible String* reaches from heart to heart. Does everybody have an Invisible String?

How far does it reach, anyway? Does it ever go away? Read all about it! **THE INVISIBLE STRING** is a very simple approach to overcoming the fear of loneliness or separation with an imaginative flair that children can easily identify with and remember. Here is a warm and delightful lesson teaching young and old that we aren't ever really alone and reminding children (and adults!) that when we are loved beyond anything we can imagine. "People who love each other are always connected by a very special String, made of love. Even though you can't see it with your eyes, you can feel it deep in your heart, and know that you are always connected to the ones you love." Thus begins this heart-warming and reassuring story that addresses the issue of "separation anxiety" (otherwise known as the sense of existential 'aleness') to children of all ages. Specifically written to address children's fear of being apart from the ones they love, *The Invisible String* delivers a particularly compelling message in today's uncertain times that though we may be separated from the ones we care for, whether through anger, or distance or even death, love is the unending connection that binds us all, and, by extension, ultimately binds every person on the planet to everyone else. Parents and children everywhere who are looking for reassurance and reaffirmation of the transcendent power of love, to bind, connect and comfort us through those inevitable times when life challenges us! Let's tell the whole world that we are ALL connected by Invisible Strings! Adopted by Military Library Services & Foster Care Agencies Recommended by Bereavement Support Groups and Hospice Centers

2007-06-26

Ten-year-old Jake struggles to understand his grandma's death. But as he spends two weeks at his grandfather's home, he is able to receive answers to his questions about Heaven. As Jake and Grandpa fish, watch the stars, and take long walks, Grandpa shares what the Bible says about the reality and beauty of Heaven. As Jake learns the truth about Heaven, he begins to better understand and accept his grandmother's death. As readers uncover the truths in the dialogue between Grandpa and Jake, they will better appreciate the home that awaits all who place

their faith in Christ.

Practical Entomologist - Rick Imes 1992-08
Discusses the anatomy, life cycle, and behavior of different insects, and explains how each group of insects differs from another

Edible Insects - Arnold van Huis 2013
Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

[I Miss You!](#) - Beth Andrews 2010-03-05
Military families face stressful times that are unique to the military lifestyle. One of the most challenging situations, both for children and parents, is when a father, mother, or sibling is deployed for military service and must be away from the home. Children often experience sadness, anger, fear, anxiety, and loneliness, and they do not understand their own feelings or know how to express them. This book is designed to help children especially, but also their parents, during such difficult times. Based on many years of experience as a social worker, who has assisted military families experiencing stress, author Beth Andrews has created an excellent tool for allowing children and their loved ones to deal with the many emotions caused by deployment. The text and illustrations encourage children to discuss their feelings and to draw their own pictures to express themselves. The accompanying parents' guide is designed to validate parents' feelings and give them ways to help their children cope. Guided by this approach, a parent or caregiver can help their children understand why one of their

parents or a sibling had to leave home, identify their reactions, cope with their feelings in a positive way, be assured that they are not alone, and try new activities to help themselves adjust. At a time when military families are asked to make many sacrifices in the service of their country, this reassuring book will be a welcome resource. Beth Andrews, LCSW (Grand Junction, CO), is a social worker and currently a clinical supervisor at Colorado West Mental Health Center.

Children and Grief - Joey O'Connor 2004-11-01
This is a book written for you and your children," explains Joey O'Connor. "It initiates a conversation on a difficult subject most people prefer to avoid. It is about people like you and me struggling to figure out what they really believe when the unbelievable has happened. And then wondering, 'What in the world am I going to say to my kids? How am I going to explain what just happened in our family and what I believe about the God who saw this whole thing happen?'" *Children and Grief* offers parents a way to approach these tough questions with honesty, tenderness, and hope. O'Connor shows how to teach children to trust God, celebrate life, and have hope in the face of death.

The Memory Box - Joanna Rowland 2017
"I'm scared I'll forget you"]' From the perspective of a young child, Joanna Rowland

artfully describes what it is like to remember and grieve a loved one who has died. The child in the story creates a memory box to keep mementos and written memories of the loved one, to help in the grieving process. Heartfelt and comforting, *The Memory Box* will help children and adults talk about this very difficult topic together. The unique point of view allows the reader to imagine the loss of any they have loved - a friend, family member, or even a pet. A parent guide in the back includes information on helping children manage the complex and difficult emotions they feel when they lose someone they love, as well as suggestions on how to create their own memory box.

Bitemporal Data - Tom Johnston 2014-08-19
Bitemporal data has always been important. But it was not until 2011 that the ISO released a SQL standard that supported it. Currently, among major DBMS vendors, Oracle, IBM and Teradata now provide at least some bitemporal functionality in their flagship products. But to use these products effectively, someone in your IT organization needs to know more than how to code bitemporal SQL statements. Perhaps, in your organization, that person is you. To correctly interpret business requests for temporal data, to correctly specify requirements to your IT development staff, and to correctly design bitemporal databases and applications, someone in your enterprise needs a deep understanding of both the theory and the practice of managing bitemporal data. Someone also needs to understand what the future may bring in the way of additional temporal functionality, so their enterprise can plan for it. Perhaps, in your organization, that person is you. This is the book that will show the do-it-

yourself IT professional how to design and build bitemporal databases and how to write bitemporal transactions and queries, and will show those who will direct the use of vendor-provided bitemporal DBMSs exactly what is going on "under the covers" of that software. Explains the business value of bitemporal data in terms of the information that can be provided by bitemporal tables and not by any other form of temporal data, including history tables, version tables, snapshot tables, or slowly-changing dimensions. Provides an integrated account of the mathematics, logic, ontology and semantics of relational theory and relational databases, in terms of which current relational theory and practice can be seen as unnecessarily constrained to the management of nontemporal and incompletely temporal data. Explains how bitemporal tables can provide the time-variance and nonvolatility hitherto lacking in Inmon historical data warehouses. Explains how bitemporal dimensions can replace slowly-changing dimensions in Kimball star schemas, and why they should do so. Describes several extensions to the current theory and practice of bitemporal data, including the use of episodes, "whenever" temporal transactions and queries, and future transaction time. Points out a basic error in the ISO's bitemporal SQL standard, and warns practitioners against the use of that faulty functionality. Recommends six extensions to the ISO standard which will increase the business value of bitemporal data. Points towards a tritemporal future for bitemporal data, in which an Aristotelian ontology and a speech-act semantics support the direct management of the statements inscribed in the rows of relational tables, and add the ability to track the provenance of database content to existing bitemporal databases. This book also provides the background needed to become a business ontologist, and explains why an IT data management person, deeply familiar with corporate databases, is best suited to play that role. Perhaps, in your organization, that person is you.

The Companionship of the Grieving Child

Curriculum Book - Patricia Morrissey

2013-06-01

Based on Alan Wolfelt's six needs of mourning and written to pair with *Companionship of the*

Grieving Child, this thorough guide provides hundreds of hands-on activities tailored for grieving children in three age groups: preschool, elementary, and teens. Through the use of readings, games, discussion questions, and arts and crafts, caregivers can help grieving young people acknowledge the reality of the death, embrace the pain of the loss, remember the person who died, develop a new self-identity, search for meaning, and accept support. Sample activities include grief sock puppets, expression bead bracelets, the nurturing game, and writing an autobiographical poem. Activities are presented in an easy-to-follow format, and each has a goal, an objective, a sequential description of the activity, and a list of needed materials.
