Say Nothing - Patrick Radden Keefe 2020-02-25

NEW YORK TIMES BESTSELLER • From the author of Empire of Pain—a stunning, intricate narrative about a notorious killing in Northern Ireland and its devastating repercussions "Masked intruders dragged Jean McConville, a 38-year-old widow and mother of 10, from her Belfast home in 1972. In this meticulously reported book—as finely paced as a novel—Keefe uses McConville's murder as a prism to tell the history of the Troubles in Northern Ireland. Interviewing people on both sides of the conflict, he transforms the tragic damage and waste of the era into a searing, utterly gripping saga." —New York Times Book Review Jean McConville's abduction was one of the most notorious episodes of the vicious conflict known as The Troubles. Everyone in the neighborhood knew the I.R.A. was responsible. But in a climate of fear and paranoia, no one would speak of it. In 2003, five years after an accord brought an uneasy peace to Northern Ireland, a set of human bones was discovered on a beach. McConville's children knew it was their mother when they were told a blue safety pin was attached to the dress—with so many kids, she had always kept it handy for diapers or ripped clothes. Patrick Radden Keefe's mesmerizing book on the bitter conflict in Northern Ireland and its aftermath uses the McConville case as a starting point for the tale of a society wracked by a violent guerrilla war, a war whose consequences have never been reckoned with. The brutal violence seared not only people like the McConville children, but also I.R.A. members embittered by a peace that fell far short of the goal of a united Ireland, and left them wondering whether the killings they committed were not justified acts of war, but simple murders. From radical and impetuous I.R.A. terrorists such as Dolours Price, who, when she was barely out of her teens, was already planting bombs in London and targeting informers for execution, to the ferocious I.R.A. mastermind known as The Dark, to the spy games and dirty schemes of the British Army, to Gerry Adams, who negotiated the peace but betrayed his hardcore comrades by denying his I.R.A. past—Say Nothing conjures a world of passion, betrayal, vengeance, and anguish. **The Sword in the Tree** - Clyde Robert Bulla 2013-06-25

Best-selling author Clyde Robert Bulla's classic, finely-crafted Arthurian tale with its sword fights, dark and dangerous dungeon, roguish knaves, action-packed showdowns and tales of dangerous feats, will appeal to emerging readers who are ready for chapter books and reluctant tween readers alike. In the days of King Arthur there stood a mighty oak tree within the walls of a castle. Peace reigned in the castle until the fearsome night when Lionel, long-lost brother of Lord Weldon, returned to cause trouble and unhappiness. It was then that Shan, the son of Lord Weldon, took on the duties of a knight and hid the sword in the hollow of the giant oak. The days that followed were filled with adventures that tried the courage of the young boy. Shan was surprised by bearded robbers in the woods. He met noble knights in plumed helmets, and eventually he even made a trip to high-towered Camelot. His story is filled with the pageantry and color of England in King Arthur's time. It creates a vivid picture of the Knights of the Round Table and the wisdom of King Arthur himself.

**Legacy of Luna** - Julia Hill 2010-11-16

On December 18, 1999, Julia Butterfly Hill's feet touched the ground for the first time in over two years, as she descended from "Luna," a thousand-year-old redwood in Humboldt County, California. Hill had climbed 180 feet up into the tree high on a mountain on December 10, 1997, for what she thought would be a two-to three-week-long "tree-sit." The action was intended to stop Pacific Lumber, a division of the Maxxam Corporation, from the environmentally destructive process of clear-cutting the ancient redwood and the trees around it. The area immediately next to Luna had already been stripped and, because, as many believed, nothing was left to hold the soil to the mountain, a huge part of the hill had slid into the town of Stafford, wiping out many homes. Over the course of what turned into an historic civil action, Hill endured El Nino storms, helicopter harassment, a ten-day siege by company security guards, and the tremendous sorrow brought about by an old-growth forest's destruction. This story—written while she lived on a tiny platform eighteen stories off the ground—is one that only she can tell. Twenty-five-year-old Julia Butterfly Hill never planned to become what some have called her—the Rosa Parks of the environmental movement. Shenever expected to be honored as one of Good Housekeeping's "Most Admired Women of 1998" and *George* magazine's "20 Most Interesting Women in Politics," to be featured in *People* magazine's "25 Most Intriguing People of the Year" issue, or to receive hundreds of letters weekly from young people around the world. Indeed, when she first climbed into Luna, she had no way of knowing the harrowing weather

conditions and the attacks on her and her cause. She had no idea of the loneliness she would face or that her feet wouldn't touch ground for more than two years. She couldn't predict the pain of being an eyewitness to the attempted destruction of one of the last ancient redwood forests in the world, nor could she anticipate the immeasurable strength she would gain or the life lessons she would learn from Luna. Although her brave vigil and indomitable spirit have made her a heroine in the eyes of many, Julia's story is a simple, heartening tale of love, conviction, and the profound courage she has summoned to fight for our earth's legacy.

After being rescued as infants from a sinking ocean liner in 1914, Marian and Jamie Graves are raised by their dissolute uncle in Missoula, Montana. There--after encountering a pair of barnstorming pilots passing through town in beat-up biplanes--Marian commences her lifelong love affair with flight. At fourteen she drops out of school and finds an unexpected and dangerous patron in a wealthy bootlegger who provides a plane and subsidizes her lessons, an arrangement that will haunt her for the rest of her life, even as it allows her to fulfill her destiny: circumnavigating the globe by flying over the North and South Poles. A century later, Hadley Baxter is cast to play Marian in a film that centers on Marian's disappearance in Antarctica. Vibrant, canny, disgusted with the claustrophobia of Hollywood, Hadley is eager to redefine herself after a romantic film franchise has imprisoned her in the grip of cult celebrity. NAMED A NEW YORK TIMES NOTABLE BOOK OF 2017#1 New York Times and #1 Wall Street Journal bestseller! A five-hundred-year-old legend. An ancient curse. A stunning medical mystery. And a pioneering journey into the unknown heart of the world's densest jungle. Since the days of conquistador Hernán Cortés, rumors have circulated about a lost city of immense wealth hidden somewhere in the Honduran interior, called the White City or the Lost City of the Monkey God. Indigenous tribes speak of ancestors who fled there to escape the Spanish invaders, and they warn that anyone who enters this sacred city will fall ill and die. In 1940, swashbuckling journalist Theodore Morde returned from the rainforest with hundreds of artifacts and an electrifying story of having found the Lost City of the Monkey God—but then committed suicide without revealing its location. Three quarters of a century later, bestselling author Doug Preston joined a team of scientists on a groundbreaking new quest. In 2012 he climbed aboard a rickety, single-engine plane carrying the machine that would change everything: lidar, a highly advanced, classified technology that could map the terrain under the densest rainforest canopy. In an unexplored valley ringed by steep mountains, that flight revealed the unmistakable image of a sprawling metropolis, tantalizing evidence of not just an undiscovered city but an enigmatic, lost civilization. Venturing into this raw, treacherous, but breathtakingly beautiful wilderness to confirm the discovery, Preston and the team battled torrential rains, quickmud, disease-carrying insects, jaguars, and deadly snakes. But it wasn't until they returned that tragedy struck: Preston and others found they had contracted in the ruins a horrifying, sometimes lethal-and incurable-disease. Suspenseful and shocking, filled with colorful history, hair-raising adventure, and dramatic twists of fortune, *THE LOST CITY OF THE MONKEY GOD* is the absolutely true, eyewitness account of one of the great discoveries of the twenty-first century.

**Tree of Life** - Nigel Shindler 2015-01-14

A man named Jesus, whom is considered the Christ by countless people around the world to this day, lost his life at the hands of barbarians while residing in Canaan, where he devoted his life to making those around him aware they had the potential to become gods. Despite the accumulation of so many technological innovations over the past two millennium that were supposed to ease the daily hardship of people everywhere, so more time could be devoted to pursuits that cultivate the mind, evidence indicates that the size of the Homo-sapien brain, male and female alike, has persistently decreased over this passage of time. The pain, and suffering, endured by Jesus was supposed to serve as a wake up call to the savages in his midst, and the generations to follow, that they had much to learn about what he means to be civilized, as we see amply evidence of to this very day.

**A Flowering Tree and Other Oral Tales from India** - A. K. Ramanujan 1997-01-01

This book of oral tales from the south Indian region of Kannada represents the culmination of a lifetime of research by A. K. Ramanujan, one of the most revered scholars and writers of his time. The result of over three decades' labor, this long-awaited collection makes available for the first time a wealth of folktales from a region that has not yet been adequately represented in world literature. Ramanujan's skill as a translator, his graceful writing style, and his profound love and understanding of the subject enrich the tales that he collected, translated, and interpreted. With a written literature recorded from about 800 A.D., Kannada is rich in mythology, devotional and secular poetry, and more recently novels and plays. Ramanujan, born in Mysore in 1929, had an intimate knowledge of the language. In the 1950s, when working as a college lecturer, he began collecting these tales from everyone he could--servants, aunts, schoolteachers, children, carpenters, tailors. In 1970 he began translating and interpreting the tales, a project that absorbed him for the next three decades. When Ramanujan died in 1993, the translations were complete and he had written notes for about half of the tales. With its unsentimental sympathies, its laughter, and its delightfully vivid sense of detail, the collection stands as a significant and moving monument to Ramanujan's memory as a scholar and writer.

"Trees are living symbols of peace and hope." -Wangari Maathai, Nobel Peace laureate This simply told story begins with Green Belt Movement founder Wangari Maathai's childhood at the foot of Mount Kenya where, as the oldest child in her family, her responsibility was to stay home and help her mother. When the chance to go to school presented itself, she seized it with both hands. In the 1960s, she was awarded the opportunity to travel to the US to study, where she saw that even in the land of the free, black people were not welcome. Returning home, Wangari was determined to help her people and her country. She recognized that deforestation and urbanization was at the root of her country's troubles. Her courage and confidence carried her through adversity to found a movement for peace, reconciliation, and healing. Aurélia Fronty's beautiful illustrations show readers the color and diversity of Wangari's Africa—the green trees and the flowering trees full of birds, monkeys, and other animals; the roots that dig deep into the earth; and the people who work and live on the land. **Arc of Justice** - Kevin Boyle 2007-04-01

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson

of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began—a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

Finding the Mother Tree - Suzanne Simard 2021-05-04

NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal journey of discovery Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; her TED talks have been viewed by more than 10 million people worldwide. In this, her first book, now available in paperback, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard writes—in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years, have evolved, how they learn and adapt their behaviors, recognize neighbors, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are the essence of civil societies—and at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. And Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them. And as she writes of her scientific quest, she writes of her own journey, making us understand how deeply human scientific inquiry exists beyond data and technology, that it is about understanding who we are and our place in the world.

**Free Roll** - Brandt Tobler 2017-05-22

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

[This Very Tree](#) - Sean Rubin 2021-05-11

A deeply moving story about community and resilience, from the point-of-view of the Callery pear tree that

survived the attacks on September 11, from Eisner Award-nominated author-illustrator Sean Rubin. \* "A resonant, beautifully rendered testament to life and renewal." —Kirkus, starred review In the 1970s, nestled between the newly completed Twin Towers in New York City, a Callery pear tree was planted. Over the years, the tree provided shade for people looking for a place to rest and a home for birds, along with the first blooms of spring. On September 11, 2001, everything changed. The tree’s home was destroyed, and it was buried under the rubble. But a month after tragedy struck, a shocking discovery was made at Ground Zero: the tree had survived. Dubbed the “Survivor Tree,” it was moved to the Bronx to recover. And in the thoughtful care of the New York City Department of Parks and Recreation, the Callery pear was nursed back to health. Almost a decade later, the Survivor Tree returned home and was planted in the 9/11 Memorial to provide beauty and comfort...and also hope. This is the story of that tree—and of a nation in recovery. Told from the tree’s perspective, *This Very Tree* is a touching tribute to first responders, the resilience of America, and the restorative power of community.
