*Diy Natural Melt and Pour Soap Crafting* - Molly Barrett 2017-10-13  
DIY Natural Melt and Pour Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps Paraben, Sulfate and Triclosan are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was a far cry in meaning than the one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. Before we get into the actual soap making, I do share my findings about just these four potentially harmful ingredients found in too many soaps and body washes. I am sure you will be shocked to read it. But let's move on and talk about what more is in this book. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. I start off with what and how commercial soap can harm you and your family, I dug deep and found out the truth. Then I explain all three soap making process and why Melt and Pour method is the best and easiest to use. Next, I show you what supplies and equipment you will need and their approximate cost. In the next chapter I guide you through a step by step soap making process (chapter 4). After that we discuss everything under the sun about molds you can use and all of their different variations and types (chapter 5). Chapter 6 is all about adding colors and how to use the color wheel. Next up is essential oils which give your soap its scent and a great natural healing power (Chapter 7). After that it is all about my favorite recipes (chapter 8), next I share 15 soap coloring tricks that may truly surprise you, yes they are that good really! (chapter 9). And lastly, in chapter 10, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using melt pour soap making method. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any question, I have added my personal email address at the end of the book so you can contact me.

**How to Make Melt and Pour Soap Base from Scratch** - Kayla Fioravanti 2011-05-01

This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter,

hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products.

However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base.
