**Municipal Management** - Annelise Venter 2007

Book & CD. In a developmental state like South Africa, municipalities have the specific responsibility of generating growth and development in their areas of jurisdiction. Through consultative processes, municipal goals and functioning are in the public domain. As co-creator of the future of local communities, municipalities must master the totality of local governance. To do this, current and prospective municipal managers need to understand, for example: the role and functions of municipalities in South Africa; the constitutional dispensation as it affects municipalities; the strategic orientation of municipalities within the global and national contexts; the capacities and resources available; best practices as far as management processes, procedures and methods are concerned. The book explores the multifaceted nature of municipal management in South Africa and focuses the readers attention on selected key strategic issues such as: local economic development; local democracy; disaster risk reduction.

*Dugard's International Law* - John Dugard 2019-01-07

This fifth edition of International Law: A South African Perspective is now titled Dugard's International Law: A South African Perspective, in recognition of the fact that this work is a continuation of the earlier editions written by John Dugard. The substance of the work has undergone major changes to take account of new developments both on the international legal scene and in South Africa. Dugard's International Law: A South African Perspective presents a South African perspective of international law. The basic principles of international law are described and examined with reference to the principal sources of international law. This examination, however, takes place within the context of South African law. South African state practice, judicial decisions and legislation on international law receive equal treatment with international law as it is practised and taught abroad. The present work

is designed to assist judicial officers and practitioners, educate students, and guide diplomats in the intricacies of international law both at home in South Africa and abroad.
