**Here Is Where** - Andrew Carroll 2014-05-06  
Here Is Where chronicles Andrew Carroll's eye-opening - and at times hilarious -- journey across America to find and explore unmarked historic sites where extraordinary moments occurred and remarkable individuals once lived. Sparking the idea for this book was Carroll's visit to the spot where Abraham Lincoln's son was saved by the brother

of Lincoln's assassin. Carroll wondered, How many other unmarked places are there where intriguing events have unfolded and that we walk past every day, not realizing their significance? To answer that question, Carroll ultimately trekked to every region of the country -- by car, train, plane, helicopter, bus, bike, and kayak and on foot. Among the things he learned: \*Where in North America the oldest sample of

human DNA was discovered \*  
Where America's deadliest  
maritime disaster took place, a  
calamity worse than the fate of  
the Titanic \*Which virtually  
unknown American scientist  
saved hundreds of millions of  
lives \*Which famous  
Prohibition agent was the  
brother of a notorious gangster  
\*How a 14-year-old farm boy's  
brainstorm led to the creation  
of television Featured  
prominently in Here Is Where  
are an abundance of firsts  
(from the first use of modern  
anesthesia to the first  
cremation to the first murder  
conviction based on forensic  
evidence); outrages (from riots  
to massacres to forced  
sterilizations); and  
breakthroughs (from the  
invention, inside a prison, of a  
revolutionary weapon; to the  
recovery, deep in the Alaskan  
tundra, of a super-virus; to the  
building of the rocket that  
made possible space travel).  
Here Is Where is thoroughly  
entertaining, but it's also a  
profound reminder that the  
places we pass by often harbor  
amazing secrets and that there

are countless other astonishing  
stories still out there, waiting  
to be found. Look for Andrew's  
new book, My Fellow Soldiers.

Meredith Willson's The Music

Willson's reflections on the ups

disappointments, and finally  
successes of making one of  
America's most popular  
musicals. Willson's whimsical,  
personable writing style brings  
readers back in time with him  
to the 1950s to experience  
 firsthand the exciting trials and

Nation, where he encounters a world as funny as it is poignant, and a population as devoted as it is colorful. In small-town Indiana, Ferguson drops in on the national conference of Lincoln presenters, 175 grown men who make their living (sort of) by impersonating their hero. He meets the premier collectors of Lincoln memorabilia, prized items of which include Lincoln's chamber pot, locks of his hair, and pages from a boyhood schoolbook. He takes his wife and children on a trip across the long-defunct Lincoln Heritage Trail, a driving tour of landmarks from Lincoln's life. This book is an entertaining, unexpected, and big-hearted celebration of Lincoln's enduring influence on our country—and the people who help keep his spirit alive. "A hilarious, offbeat tour of Lincoln shrines, statues, cabins and museums . . . Mr. Ferguson maps it expertly, with an understated Midwestern sense of humor that Lincoln, master of the funny story, would have

been the first to appreciate."

Abe Lincoln's Hat - Martha Brenner 2022-02-08

Was Abe Lincoln absent-minded? Indeed! President Lincoln came up with a trick involving his stovepipe hat to nudge his memory! Fascinating anecdotes and historical context enrich this expanded biographical picture book that brings to life one of our nation's most revered presidents. Long before he became the 16th president, Abe Lincoln started out as a frontier lawyer. He resorted to sticking letters and notes deep

inside his hat so they stayed handy. Adapted from the Step into Reading leveled reader of the same name, author Martha Brenner has revised and enriched her original text to include more historical material and resources for those who want to explore this captivating figure further. Illustrator Brooke Smart's clever art makes history more appealing than ever. Including both humor and painful, hard-hitting American history, this new edition traces Lincoln's evolution into a compelling commander-in-chief during a contentious time in our nation's history. **Uncle Tom's Cabin** - Harriet Beecher Stowe 2009-01-01

It is the best known book about American slavery, and was so incendiary upon its first publication in 1852 that it actually ignited the social flames that led to Civil War less than a decade later. What began as a series of sketches for the Cincinnati abolitionist newspaper The National Era scandalized the North, was banned in the South, and ultimately became the bestselling novel of the 19th century. Today, controversy over this melodramatic tale of the dignified slave Tom, the

brutal plantation owner Simon Legree, and Stowe's other vividly drawn characters continues, as modern scholars debate the work's newly appreciated feminist undertones and others decry it as the source of enduring stereotypes about African Americans. As one of the most influential books in U.S. history, it deserves to be read by all students of literature and of the American story.

American abolitionist and author HARRIET BEECHER STOWE (1811-1896) was born in Connecticut, daughter of a Congregationalist minister and sister to abolitionist theologian Henry Ward Beecher. She wrote more than two dozen books, both fiction and nonfiction.

On Political Equality - Robert A. Dahl 2008-10-01

In this book, the eminent psychoanalyst Leonard Shengold looks at why some people are resistant to change, even when it seems to promise a change for the better.

Drawing on a lifetime of clinical experience as well as

wide readings of world literature, Shengold shows how early childhood relationships with parents can lead to a powerful conviction that change means loss. Dr. Shengold, who is well known for his work on the lasting affects of childhood trauma and child abuse in such seminal books as *Soul Murder* and *Soul Murder Revisited*, continues his exploration into the consequences of early psychological injury and loss. In the examples of his patients and in the lives and work of such figures as Edna St. Vincent Millay, William Wordsworth, and Henrik Ibsen, Shengold looks at the different ways in which unconscious impressions connected with early experiences and fantasies about parents are integrated into individual lives. He shows the difficulties he encounters with his patients in raising these memories to the conscious level where they can be known and owned; and he also shows, in his survey of literary figures, how these memories can become part of

the creative process. Haunted by *Parents* offers a deeply humane reflection on the values and limitations of therapy, on memory and the lingering effects of the past, and on the possibility of recognizing the promise of the future.

When one of Lincoln's lead lawyers is found brutally murdered, Abigail is plunged into a web of intrigue, politics, and conspiracy.

**Lincolnomics** - John F. Wasik  
2021-04-13

A biography of Abraham Lincoln that examines his untold legacy as the Great Builder of American infrastructure. Abraham Lincoln's view of the right to fulfill one's economic destiny was at the core of his governing philosophy—but he knew no one could climb that ladder without strong federal support. Some of his most enduring policies came to him before the Civil War, visions of a country linked by railroads running ocean to ocean, canals turning small towns into bustling cities, public works bridging farmers to market. Expertly appraising the foundational ideas and policies on infrastructure that America's sixteenth president rooted in society, John F. Wasik tracks Lincoln from his time in the 1830s as a young Illinois state legislator pushing internal improvements; through his work as a lawyer representing the Illinois

Central Railroad in the 1840s; to his presidential fight for the Transcontinental Railroad; and his support of land-grant colleges that educated a nation. To Lincoln, infrastructure meant more than the roads, bridges, and canals he shepherded as a lawyer and a public servant. These brick-and-mortar developments were essential to a nation's lifting citizens above poverty and its isolating origins. *Lincolnomics* revives the disremembered history of how Lincoln paved the way for Eisenhower's interstate highways and FDR's social amenities. With an afterword addressing the failure of American infrastructure during the COVID-19 pandemic, and how Lincoln's policies provide a guide to the future, *Lincolnomics* makes the case for the man nicknamed "The Rail Splitter" as the Presidency's greatest builder. "In this unique blend of biography and policy prescription, journalist Wasik . . . casts Abraham Lincoln as America's "foremost moral

architect of economic and social opportunity" and looks to his life and political career for lessons in how the nation might rebuild its infrastructure and redress income inequality. . . . Wasik convincingly argues that [Lincoln's] economic policies deserve more credit."

—Publishers Weekly "While revealing as history, Wasik's account about the first Republican President's launches of infrastructure shame the ignorant, obstinate, narcissist Republicans of today who wish instead to build up tyrant Trump's political infrastructure. This is a book to be read and used today."

—Ralph Nader "Wasik invented a new word for this book because his theme bears new force: Abraham Lincoln sought a better-built nation and a freer legal space to help every individual, regardless of background, to aspire and rise. Most historians know this too vaguely about Lincoln; Wasik finally gives the great democratic idea the prominence it deserves."
