

Denying History Who Says The Holocaust Never Happened And Why Do They Say It By Shermer Michi 1 2 L Grobman Alex University Of California Press 2002 Paperback

Recognizing the pretension ways to get this book **Denying History Who Says The Holocaust Never Happened And Why Do They Say It By Shermer Michi 1 2 L Grobman Alex University Of California Press 2002 Paperback** is additionally useful. You have remained in right site to begin getting this info. acquire the Denying History Who Says The Holocaust Never Happened And Why Do They Say It By Shermer Michi 1 2 L Grobman Alex University Of California Press 2002 Paperback link that we meet the expense of here and check out the link.

You could purchase lead Denying History Who Says The Holocaust Never Happened And Why Do They Say It By Shermer Michi 1 2 L Grobman Alex University Of California Press 2002 Paperback or get it as soon as feasible. You could quickly download this Denying History Who Says The Holocaust Never Happened And Why Do They Say It By Shermer Michi 1 2 L Grobman Alex University Of California Press 2002 Paperback after getting deal. So, bearing in mind you require the books swiftly, you can straight get it. Its correspondingly utterly simple and hence fats, isnt it? You have to favor to in this song

History on Trial - Deborah E. Lipstadt
2006-04-04

In her acclaimed 1993 book Denying the Holocaust, Deborah Lipstadt called putative WWII historian David Irving "one of the most dangerous spokespersons for Holocaust denial." A prolific author of books on Nazi Germany who has claimed that more people died in Ted Kennedy's car at Chappaquiddick than in the gas chambers at Auschwitz, Irving responded by filing a libel lawsuit in the United Kingdom -- where the burden of proof lies on the defendant, not on the plaintiff. At stake were not only the reputations of two historians but the record of history itself.

Postmodernism and Holocaust Denial - Robert Eaglestone 2001

Does postmodernism, with its relativism and claims that historical study is little more than a discourse of political power promote and defend thinking that denies the occurrence of the Holocaust in Nazi Germany? This book argues not, exploring the key issues affecting historians today through a vital study of this most atrocious of crimes against humanity.

Holocaust Denial as an International Movement - Stephen E. Atkins 2009

Atkins traces the history, causes, and spread of Holocaust denial, illustrating how rational thinkers can come under the sway of fringe ideas.

The Holocaust and the Postmodern - Robert Eaglestone 2008

Robert Eaglestone argues that postmodernism is a response to the Holocaust. He offers a range of new perspectives, including new ways of looking at testimony and at and recent Holocaust fiction; explores controversies in Holocaust history; looks at the importance of the Holocaust for recent philosophy; and asks what the Holocaust means for reason, ethics, and for being human.

Telling Lies about Hitler - Richard J. Evans 2002

Richard J. Evans worked on the historical evidence on behalf of the defence during the Irving libel trial. In *Telling Lies about Hitler*, the author discusses the importance of historical writing and the social role of historians in such trials.

Brave Girl - Michelle Markel 2013-01-22

An engagingly illustrated account of immigrant

Clara Lemlich's pivotal role in the influential 1909 women laborer's strike describes how she worked grueling hours to acquire an education and support her family before organizing a massive walkout to protest the unfair working conditions in New York's garment district. 25,000 first printing.

Ricanness - Sandra Ruiz 2019-07-09

Argues that Ricanness operates as a continual performance of bodily endurance against US colonialism In 1954, Dolores "Lolita" Lebrón and other members of the Puerto Rican Nationalist Party led a revolutionary action on the chambers of Congress, firing several shots at the ceiling and calling for the independence of the island. Ricanness: Enduring Time in Anticolonial Performance begins with Lebrón's vanguard act, distilling the relationship between Puerto Rican subjectivity, gender, sexuality, and revolutionary performance under colonial time. Ruiz argues that Ricanness—a continual performance of bodily endurance against US colonialism through different measures of time—uncovers what's at stake politically for the often unwanted, anticolonial, racialized and sexualized enduring body. Moving among theatre, experimental video, revolutionary protest, photography, poetry, and durational performance art, Ricanness stages scenes in which the philosophical, social, and psychic come together at the site of aesthetics, against the colonization of time. Analyzing the work of artists and revolutionaries like ADÁL, Lebrón, Papo Colo, Pedro Pietri, and Ryan Rivera, Ricanness imagines a Rican future through the time travel extended in their aesthetic interventions, illustrating how they have reformulated time itself through nonlinear aesthetic practices.

Denial [Movie Tie-in] - Deborah E. Lipstadt 2016-09-06

Now a major motion picture starring Rachel Weisz, Timothy Spall and Tom Wilkinson. "A compelling book: memoir and courtroom drama, a work of historical and legal import. " -- Jewish Week Deborah Lipstadt, author of the groundbreaking *Denying the Holocaust*, chronicles her six-year legal battle with controversial British World War II historian David Irving that culminated in a sensational 2000 trial in London In her acclaimed 1993 book

Denying the Holocaust, Deborah Lipstadt called putative World War II historian David Irving "one of the most dangerous spokespersons for Holocaust denial", a conclusion that she reached by examining his cunning manipulations of evidence, partisanship to Hitler, persistent exoneration of the Third Reich, and his confirmed celebrity among swelling ranks of anti-Semitic organizations internationally. In 1994, Irving filed a libel lawsuit, not in the U.S. courtroom—where the onus of proof lies on the plaintiff, but in the UK—where the onus of proof lies on the defendant. At stake were not only the reputations of two historians, but the record of history itself. The four-month trial took place in London in 2000 and drew international attention. With the help of a first-rate team of solicitors and historians and the support of her UK publisher, Penguin, Lipstadt won, her victory proclaimed on the front page of major newspapers around the world. Part history, part real life courtroom drama, *Denial* is Lipstadt's riveting, blow-by-blow account of the trial that tested the standards of historical and judicial truths and resulted in a formal denunciation of the infamous Holocaust denier. Originally published as *History on Trial*.

Genocide Denials and the Law - Ludovic Hennebel 2011

In *Genocide Denials and the Law*, Ludovic Hennebel and Thomas Hochmann offer a thorough study of the relationship between law and genocide denial from the perspectives of specialists from six countries. This controversial topic provokes strong international reactions involving emotion caused by denial along with concerns about freedom of speech. The authors offer an in-depth study of the various legal issues raised by the denial of crimes against humanity, presenting arguments both in favor of and in opposition to prohibition of this expression. They do not adopt a pro or contra position, but include chapters written by proponents and opponents of a legal prohibition on genocide denial. Hennebel and Hochmann fill a void in academic publications by comparatively examining this issue with a collection of original essays. They tackle this diverse topic comprehensively, addressing not only the theoretical and philosophical aspects of denial, but also the specific problems faced by judges

who implement anti-denial laws. Genocide Denials and the Law will provoke discussion of many theoretical questions regarding free speech, including the relationship between freedom of expression and truth, hate, memory, and history.

Why People Believe Weird Things - Michael Shermer 2002-09-01

Revised and Expanded Edition. In this age of supposed scientific enlightenment, many people still believe in mind reading, past-life regression theory, New Age hokum, and alien abduction. A no-holds-barred assault on popular superstitions and prejudices, with more than 80,000 copies in print, *Why People Believe Weird Things* debunks these nonsensical claims and explores the very human reasons people find otherworldly phenomena, conspiracy theories, and cults so appealing. In an entirely new chapter, "Why Smart People Believe in Weird Things," Michael Shermer takes on science luminaries like physicist Frank Tipler and others, who hide their spiritual beliefs behind the trappings of science. Shermer, science historian and true crusader, also reveals the more dangerous side of such illogical thinking, including Holocaust denial, the recovered-memory movement, the satanic ritual abuse scare, and other modern crazes. *Why People Believe Strange Things* is an eye-opening resource for the most gullible among us and those who want to protect them.

Antisemitism - Deborah E. Lipstadt 2019-01-29

***2019 NATIONAL JEWISH BOOK AWARD

Award*** The award-winning author of *The*

Eichmann Trial and Denial: Holocaust History on Trial gives us a penetrating and provocative analysis of the hate that will not die, focusing on its current, virulent incarnations on both the political right and left: from white supremacist demonstrators in Charlottesville, Virginia, to mainstream enablers of antisemitism such as Donald Trump and Jeremy Corbyn, to a gay pride march in Chicago that expelled a group of women for carrying a Star of David banner. Over the last decade there has been a noticeable uptick in antisemitic rhetoric and incidents by left-wing groups targeting Jewish students and Jewish organizations on American college campuses. And the reemergence of the white nationalist movement in America, complete with

Nazi slogans and imagery, has been reminiscent of the horrific fascist displays of the 1930s. Throughout Europe, Jews have been attacked by terrorists, and some have been murdered. Where is all this hatred coming from? Is there any significant difference between left-wing and right-wing antisemitism? What role has the anti-Zionist movement played? And what can be done to combat the latest manifestations of an ancient hatred? In a series of letters to an imagined college student and imagined colleague, both of whom are perplexed by this resurgence, acclaimed historian Deborah Lipstadt gives us her own superbly reasoned, brilliantly argued, and certain to be controversial responses to these troubling questions.

Anne Frank - Anne Frank 1995-12-01

Abridged version of a Jewish girl's record of how her family hid from Nazi occupiers in World War II Holland.

Denying the Holocaust - Deborah E. Lipstadt 2012-12-18

The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the "true victims" of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, "independent" research centers, and official publications that promote a "revisionist" view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that

this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

The Holocaust Industry - Norman G. Finkelstein 2003

In a devastating new postscript to this bestselling book, Finkelstein documents the Holocaust industry's scandalous cover-up of the blackmail of Swiss banks, and in a new appendix demolishes an influential apologia for the Holocaust industry.

Extreme Speech and Democracy - Ivan Hare 2009

This title considers the constitutionality of hate speech regulation, and examines how liberal democracies have adopted fundamental differences in the way they respond to racist or extreme expressions.

Buried by the Times - Laurel Leff 2005-03-21
Looks at decisions made at The New York Times that resulted in the minimizing, misunderstanding, and dilution of the Holocaust in a behind-the-scenes study of how America's premier newspaper failed in its coverage of the fate of European Jews.

British Fascism After the Holocaust - Joe Mulhall 2020-10-22

This book explores the policies and ideologies of a number of individuals and groups who attempted to relaunch fascist, antisemitic and racist politics in the wake of World War II and the Holocaust. Despite the leading architects of fascism being dead and the newsreel footage of Jewish bodies being pushed into mass graves seared into societal consciousness, fascism survived World War II and, though changed, survives to this day. Britain was the country that 'stood alone' against fascism, but it was no exception. This book treads new historical ground and shines a light onto the most understudied period of British fascism, whilst simultaneously adding to our understanding of the evolving ideology of fascism, the persistent nature of antisemitism and the blossoming of Britain's anti-immigration movement. This book will primarily appeal to scholars and students with an interest in the history of fascism,

antisemitism and the Holocaust, racism, immigration and postwar Britain.

Middle East Historiographies - Israel Gershoni 2011-06-01

This collection of ten essays focuses on the way major schools and individuals have narrated histories of the Middle East. The distinguished contributors explore the historiography of economic and intellectual history, nationalism, fundamentalism, colonialism, the media, slavery, and gender. In doing so, they engage with some of the most controversial issues of the twentieth century. Middle Eastern studies today cover a rich and varied terrain, yet the study of the profession itself has been relatively neglected. There is, however, an ever-present need to examine what the research has chosen to include and exclude and to become more consciously aware of shifts in research approaches and methods. This collection illuminates the evolving state of the art and suggests new directions for further research.

The Holocaust - Laurence Rees 2017-04-18
n June 1944, Freda Wineman and her family arrived at Auschwitz-Birkenau, the infamous Nazi concentration and death camp. After a cursory look from an SS doctor, Freda's life was spared and her mother was sent to the gas chambers. Freda only survived because the Allies won the war -- the Nazis ultimately wanted every Jew to die. Her mother was one of millions who lost their lives because of a racist regime that believed that some human beings simply did not deserve to live -- not because of what they had done, but because of who they were.

Laurence Rees has spent twenty-five years meeting the survivors and perpetrators of the Third Reich and the Holocaust. In this sweeping history, he combines this testimony with the latest academic research to investigate how history's greatest crime was possible. Rees argues that while hatred of the Jews was at the epicenter of Nazi thinking, we cannot fully understand the Holocaust without considering Nazi plans to kill millions of non-Jews as well. He also reveals that there was no single overarching blueprint for the Holocaust. Instead, a series of escalations compounded into the horror. Though Hitler was most responsible for what happened, the blame is widespread, Rees reminds us, and the effects are enduring. **The Holocaust: A New**

History is an accessible yet authoritative account of this terrible crime. A chronological, intensely readable narrative, this is a compelling exposition of humanity's darkest moment.

Republican Party Animal - David Cole

2014-05-19

"David Stein brought right-wing congressmen, celebrities, writers and entertainment industry figures together for shindigs, closed to outsiders. . . . There was just one problem. Stein was not who he claimed."—The Guardian In 2013, Republican "hero" David Stein made international headlines when he was unmasked as David Cole, the notorious Jewish Holocaust denier who made an entirely different set of headlines in the 1990s with his videos from within the gates of Auschwitz and his appearances on shows like 60 Minutes and Donahue. After a \$25,000 bounty was put on his head by a violent extremist group, Cole left behind the bizarre world of Holocaust denial, a landscape populated by Hitler fetishists who Cole himself detested. Then, David Stein the Republican organizer was born. Stein soon became a major force in the closed-door world of Hollywood right-wingers—people who felt as alienated from the mainstream of their profession as Cole had felt as the lone Jewish Holocaust revisionist. Soon enough, Stein was working with major GOP power players and far-right Hollywood A-listers, creating huge private events for the West Coast GOP elite . . . until it all came crashing down when a vengeful former girlfriend outed him publicly. Condemned by those who had previously lauded him, Cole was left with nothing but his story. And here he tells it, warts and all, including the first-ever exposé of the secretive Hollywood far-right underground, "Friends of Abe."

Holocaust Denial - John C. Zimmerman 2000

Unlike Deborah Lipstadt's review of the history of the Holocaust denial movement in *Denying the Holocaust* (1994), this non-historian interested in conspiracy theories focuses more on the ideologies and "scientific" arguments of the movement's principal writers while sharing her spotlight on David Irving. The author evaluates fictitious wartime Jewish emigration data, and the testimonies of survivors and perpetrators. Appendices contain information on deportations, a Polish forensic report confirming

Zyklon B use at Auschwitz, and an expert's analysis of Allied photos of Auschwitz photos taken in 1944. Includes substantial source notes. Annotation copyrighted by Book News Inc., Portland, OR

Denying History - Michael Shermer 2002-05-03

Examines Holocaust denial as a classic case study in how the past may be revised for present political and ideological purposes; and includes refutation of the Holocaust deniers' claims and arguments, analyses of their personalities and motives, and evidence that the Holocaust did indeed occur.

Fatherland - Robert Harris 1993

Twenty years after Germany's victory in World War II, while the entire country prepares for the U.S. president's visit, Berlin Detective Xavier March attempts to solve the murder of a high-ranking Nazi commander. Reprint.

The Evidence Room - Anne Bordeleau

2019-01-24

Internationally renowned and award-winning historian Dr. Robert Jan van Pelt's *The Evidence Room* is a chilling exploration of the role architecture played in constructing Auschwitz - arguably the Nazis' most horrifying facility. *The Evidence Room* is both a companion piece to, and an elaboration of, an exhibit at the 2016 Venice Architecture Biennale, based on van Pelt's authoritative testimony against Holocaust denial in a 2000 libel suit argued before the Royal Courts of Justice in London.

Denying History - Michael Shermer 2009

"You won't be able to stop reading this great, gripping story."--Jared Diamond, author of *Collapse*

Hitler's Willing Executioners - Daniel Jonah Goldhagen 2007-12-18

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. *Hitler's Willing Executioners* provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews

during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer
Beyond Belief - Deborah E. Lipstadt
1993-02-08

This most complete study to date of American press reactions to the Holocaust sets forth in abundant detail how the press nationwide played down or even ignored reports of Jewish persecutions over a twelve-year period.
Lying About Hitler - Richard J. Evans 2008-08-04
In ruling against the controversial historian David Irving in his libel suit against the American historian Deborah Lipstadt, last April 2000, the High Court in London labeled him a falsifier of history. No objective historian, declared the judge, would manipulate the documentary record in the way that Irving did. Richard J. Evans, a Cambridge historian and the chief advisor for the defense, uses this pivotal trial as a lens for exploring a range of difficult questions about the nature of the historian's enterprise. For instance, don't all historians in the end bring a subjective agenda to bear on their reading of the evidence? Is it possible that Irving lost his case not because of his biased history but because his agenda was unacceptable? The central issue in the trial -- as for Evans in this book -- was not the past itself, but the way in which historians study the past. In a series of short, sharp chapters, Richard Evans sets David Irving's methods alongside the historical record in order to illuminate the difference between responsible and irresponsible history. The result is a cogent and

deeply informed study in the nature of historical interpretation.

Denial - Tony Taylor 2008

Turkey and the Armenians David Irving and the Holocaust The Japanese in Nanking Stalinist atrocities: Serb crimes against Bosnians in the Balkans Australian denial and Aborigines Denial investigates that baffling spectacle known as historical denial. Tony Taylor finds out what makes these deniers tick and delves into the pathology of deniers to prove that while each denial-provoking case may vary in character, the nature of historical denial itself remains relatively consistent. Denial analyses six fascinating case studies in denialism, starting with Turkey and the Armenian question and ending with an Australian version of denial. It shows how historical denial aims to obliterate authentic accounts of the past to distract us from genuine historical understanding. In doing so, it betrays the people who inhabited the past, the work of genuine historians and the audience of history. Associate Professor Tony Taylor teaches and researches at Monash University. Between 1999 and 2000 he was Director of the Australian Government's National Inquiry into the Teaching and Learning of History and was author of the Inquiry's report The Future of the Past. His report led to the establishment of the Commonwealth History Project (2001 to 2006). Between 2001 and 2007 he was Director of the National Centre for History Education. Book jacket.

Denying History - Michael Shermer 2009-04-01

Denying History takes a bold and in-depth look at those who say the Holocaust never happened and explores the motivations behind such claims. While most commentators have dismissed the Holocaust deniers as antisemitic neo-Nazi thugs who do not deserve a response, historians Michael Shermer and Alex Grobman have immersed themselves in the minds and culture of these Holocaust "revisionists." In the process, they show how we can be certain that the Holocaust happened and, for that matter, how we can confirm any historical event. This edition is expanded with a new chapter and epilogue examining current, shockingly mainstream revisionism.

[Debunking Holocaust Denial Theories: Two Non-Jews Affirm the Historicity of the Nazi Genocide](#)

- James Morcan 2016-07-15

DEBUNKING HOLOCAUST DENIAL THEORIES: Two Non-Jews Affirm the Historicity of the Nazi Genocide, by independent researchers and filmmakers James Morcan & Lance Morcan with a foreword by Holocaust survivor Hetty E. Verolme (author of *The Children's House of Belsen*), aims to end the denial once and for all by tackling the bizarre phenomenon head-on. Written in close consultation with Holocaust survivors and World War Two historians, no stone is left unturned in meticulously verifying the historical facts of the genocide. The Morcans present a wide array of sources including Nazi documentation, eyewitness accounts, scientific reports and shocking photographic evidence to shut down the debate deniers wish to create. One by one, the various arguments Holocaust deniers use to try to discredit wartime records are carefully scrutinized and then systematically disproven. Theories debunked include: the six million death toll figure being an exaggeration; gas chamber exterminations being fictitious; Adolf Hitler and the Third Reich being wrongly vilified; the analysis of Holocaust records being a taboo due to specific laws in Europe criminalizing deniers; "Evil Zionists" and Israel being so powerful that they can censor history. The Holocaust is shown in this book's pages to be one of the most well-documented and most historically and forensically-proven crimes of the 20th Century. In the process, many of the world's most infamous deniers, including disgraced British historian David Irving and the former President of Iran Mahmoud Ahmadinejad, are revealed to be nothing but anti-Semites seeking to further denigrate, undermine and demoralize the world's Jewish population. In this enlightening read that covers more than two millennia of global history, anti-Semitism is shown not only to be the root cause of every form of Holocaust denial, but also the reason for the relentless persecution of the Jews since Biblical times. The authors quote verbatim the often sickening and always baseless comments of kings, emperors, politicians, popes, bishops and muftis about the Jews and why they chose to commit numerous genocides against them over the centuries. These historical quotes prove eerily similar to the vicious anti-Semitic statements made by Holocaust deniers of this

era... If you wish to learn more about WW2 and the Nazi extermination camps, if you are confused by all the convoluted conspiracy theories circulating on the Internet about the Holocaust, or if you are currently a denier yourself, then DEBUNKING HOLOCAUST DENIAL THEORIES is a must read.

The Search for Major Plagge - Michael Good 2005

On April 11, 2005, in Jerusalem, Karl Plagge will be named a "Righteous Among the Nations" hero by the State of Israel. He joins Oskar Schindler and some 380 other similarly honored Germans who protected and saved Jews during the Holocaust. Karl Plagge's story is of a unique kind of courage--that of a German army officer who subverted the system of death to save the lives of some 250 Jews in Vilna, Lithuania. One of those he saved was Michael Good's mother. Haunted by his mother's stories of the mysterious officer who commanded her slave labor camp, Michael Good resolved to find out all he could about the enigmatic "Major Plagge." For five years, he wrote hundreds of letters and scoured the Internet to recover, in one hard-earned bit of evidence after another, information about the man whose moral choices saved hundreds of lives. This unforgettable book is the first portrait of a modest man who simply refused to play by the rules. Interviewing camp survivors, opening German files untouched for more than fifty years, and translating newly discovered letters, Good weaves an amazing tale. An engineer from Darmstadt, Plagge joined, and then left, the Nazi Party. In Vilna, in whose teeming ghetto tens of thousands of Jews faced extermination, he found himself in charge of a camp where military vehicles were repaired. Time after time, he saved Jews from prison, SS death squads, and the ghetto by issuing them work permits as "indispensable" laborers essential to the war effort. Karl Plagge never considered himself a hero, describing himself as a fellow traveler for not doing more to fight the regime. He said that he saved Jews--and others--because "I thought it was my duty." This book also reminds us of the many ways human beings can resist evil. "There are always some people," Pearl Good said of the man who saved her life when he didn't have to, "who decide that the horror is not to be."

Giving the Devil His Due - Michael Shermer
2020-04-09

Explores how free speech and open inquiry are integral to science, politics, and society for the survival and progress of our species.

Black Earth - Timothy Snyder 2015-09-17

LONGLISTED FOR THE 2015 SAMUEL

JOHNSON PRIZE We have come to see the Holocaust as a factory of death, organised by bureaucrats. Yet by the time the gas chambers became operation more than a million European Jews were already dead: shot at close range over pits and ravines. They had been murdered in the lawless killing zones created by the German colonial war in the East, many on the fertile black earth that the Nazis believed would feed the German people. It comforts us to believe that the Holocaust was a unique event. But as Timothy Snyder shows, we have missed basic lessons of the history of the Holocaust, and some of our beliefs are frighteningly close to the ecological panic that Hitler expressed in the 1920s. As ideological and environmental challenges to the world order mount, our societies might be more vulnerable than we would like to think. Timothy Snyder's *Bloodlands* was an acclaimed exploration of what happened in eastern Europe between 1933 and 1945, when Nazi and Soviet policy brought death to some 14 million people. *Black Earth* is a deep exploration of the ideas and politics that enabled the worst of these policies, the Nazi extermination of the Jews. Its pioneering treatment of this unprecedented crime makes the Holocaust intelligible, and thus all the more terrifying.

Speech and Harm - Ishani Maitra 2012-05-31
Most liberal societies are deeply committed to free speech, but there is evidence that some kinds of speech can be harmful in ways that are detrimental to important liberal values, such as social inequality. This volume draws on a range of approaches in order to explore the problem and determine what ought to be done about allegedly harmful speech.

[Learning from the Germans](#) - Susan Neiman
2019-08-27

As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic *Evil in Modern Thought*, asks what we can learn from the Germans about confronting the evils of the

past In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding Confederate monuments and the contested memories they evoke, Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights-era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories. Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough *Crimes of the Wehrmacht* exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that we can recognize and avoid them in the future.

[The Diary of a Young Girl](#) - Anne Frank

1996-02-01

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another

family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

The Eichmann Trial - Deborah E. Lipstadt
2011-03-15

NATIONAL JEWISH BOOK AWARD FINALIST (2012) Part of the Jewish Encounter series
The capture of SS Lieutenant Colonel Adolf Eichmann by Israeli agents in Argentina in May of 1960 and his subsequent trial in Jerusalem by an Israeli court electrified the world. The public debate it sparked on where, how, and by whom Nazi war criminals should be brought to justice, and the international media coverage of the trial itself, was a watershed moment in how the civilized world in general and Holocaust survivors in particular found the means to deal with the legacy of genocide on a scale that had never been seen before. Award-winning historian Deborah E. Lipstadt gives us an

overview of the trial and analyzes the dramatic effect that the survivors' courtroom testimony—which was itself not without controversy—had on a world that had until then regularly commemorated the Holocaust but never fully understood what the millions who died and the hundreds of thousands who managed to survive had actually experienced. As the world continues to confront the ongoing reality of genocide and ponder the fate of those who survive it, this trial of the century, which has become a touchstone for judicial proceedings throughout the world, offers a legal, moral, and political framework for coming to terms with unfathomable evil. Lipstadt infuses a gripping narrative with historical perspective and contemporary urgency.

The Leuchter Report - Fred A. Leuchter 1988

The Protocols of the Learned Elders of Zion
- Sergei Nilus 2019-02-26

"The Protocols of the Elders of Zion" is almost certainly fiction, but its impact was not. Originating in Russia, it landed in the English-speaking world where it caused great consternation. Much is made of German anti-semitism, but there was fertile soil for "The Protocols" across Europe and even in America, thanks to Henry Ford and others.
