Fundamentals of Mathematical Statistics - S.C. Gupta 2020-09-10

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Marketing Planning in a Total Quality Environment - William

Winston 2020-02-27

Marketing Planning in a Total Quality Environment is a how-to book designed for the marketing practitioner. It provides detailed information on how to prepare and implement a marketing plan based in a total quality environment. For the last twenty years, the authors, as marketing practitioners and educators, have been deeply involved in the planning processes of many corporations. This book, Marketing Planning in a Total Quality Environment, is the product of what they've learned over the years from working with these diverse corporations and their executives. The authors provide readers with each step in the total quality planning process, complete with check sheets and plan formats. After readers finish the book, they can prepare a quality-driven marketing plan that will be used and followed throughout the year--instead of becoming a shelf item. This book is for you and the many other marketing professionals who are faced with one or more of these situations: You're doing a good job, but you'd like to do even better. You're spending valuable time putting out fires. You lack time to do the things that need to be done. You're always having a hard time coordinating major marketing programs. You're faced with a major discrepancy between where you are and where you'd like to be; you've got a planning gap. You realize that you've got to offer your customers more quality if you're going to be competitive in the new market environment. You'd like to have a professional annual marketing plan--one that will be well received by management and will also keep you and your staff focused throughout the year. Because each step on how to develop a marketing plan is covered, Marketing Planning in a Total Quality Environment is ideal for presidents of smaller firms, marketing directors and planners, product managers, and planning specialists. The authors include a sample fact book which can be used to store and analyze data, planning forms which help convert data into information, and marketing plan formats which ensure that the plan will get used.

Revenue Management for the Hospitality Industry - David K. Hayes
2010-10-19

Revenue Management for the Hospitality Industry is filled with practical

examples and best practices on the topic of revenue management, a critical aspect of the industry. Through numerous revenue management examples from the hospitality industry and a running case example throughout the book, students will discover how they can incorporate revenue management principles and best practices. The core of revenue management of a hospitality organisation is to, as the authors explain, "charge the right price, to the right customer, for the right product, through the right channel, at the right time." The book is intended for students with prior knowledge and understanding of the hospitality industry, and will explain what they need to know and how to be successful.
